**Mr. Timms** *[holding answer 8 March 2004]:* The statutory Environmental and Social guidelines to the Gas and Electricity Markets Authority do not apply to Elexon. As the Balancing and Settlement Code Company (BSCCo), Elexon has the powers and functions and responsibilities set out and assigned to it in the Balancing and Settlement Code (BSC) and, in accordance with BSC Section C 1.2.2, may not conduct business or activities not provided for in the BSC.

It should be noted, however, that the Gas and Electricity Markets Authority (the Authority) has the role of determining whether a modification to the BSC should or should not be made. In making its decision, the Authority is obliged to take into consideration its wider statutory obligations. The Authority is also obliged to carry out a Regulatory Impact Assessment in relation to any important Modification Proposal.

### Employment (Offshoring)

**John Robertson:** To ask the Secretary of State for Trade and Industry if she will make a statement on the types of jobs that have been offshored in the past 12 months. [159126]

**Ms Hewitt:** The principal areas where services work has been transferred offshore include call centres, data and business processing and analysis ("back office") operations, and IT services such as software development.

My Department has commissioned research on the key factors contributing to the relative competitiveness of UK call centre operations to help identify any appropriate actions which need to be taken by industry or Government in response to the increasingly global market for call centre services. This will include an examination of the main product areas in the UK call and contact centre industry that are vulnerable to growing competition from lower-wage economies; which types of call and contract centre activity and which regions have been most affected or are most likely to be affected in the near future.

### Export Credits Guarantee Department

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry what rate of remuneration will be paid to the Chair of the Export Credits Guarantee Department. [158304]

**Mr. Mike O'Brien:** £500 gross per day.

The Chair of ECGD is a part-time role involving an initial commitment of 1–2 days per week eventually reducing to 1–2 days per month.

### Export Licences

**Mr. Rendel:** To ask the Secretary of State for Trade and Industry if she will list export licences granted for the sale of defence *(a)* equipment and *(b)* equipment components to Nepal for each year since and including 2001. [158915]

**Nigel Griffiths** *[holding answer 5 March 2004]:* Details of all export licences approved for Nepal in 2001 and 2002 are published in the Government's Annual Reports on Strategic Export Controls, copies of which are available from the Libraries of the House. Details of export licences approved in 2003 will be published later this year in the 2003 Annual Report, and details for 2004, similarly in the 2004 Annual Report.

### Financial Services and Markets Act 2002

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what representations she has received from business on the *(a)* registration costs and *(b)* authorisation process for companies offering customer insurance under the Financial Services and Markets Act 2002. [160132]

**Ruth Kelly:** I have been asked to reply.

The Government are giving the Financial Services Authority (FSA) responsibility for regulating general insurance mediation as from 14 January 2005. This implements the European Union's Insurance Mediation Directive. On 5 June 2003, the Government published a regulatory impact assessment (RIA) to accompany the implementing legislation. This is available from the Treasury website www.hm-treasury.gov.uk. The RIA took into account comments from business and others made during the public consultation on the draft legislation. Under its statutory responsibilities, the FSA is obliged to consult on and to carry out a cost benefit analysis on its regulatory activities and others made during the public consultation on the draft legislation.

Under its statutory responsibilities, the FSA is obliged to consult on and to carry out a cost benefit analysis on its regulatory activities .

### Information Technology

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what her Department's information technology budget was for each year since 1997. [153543]

**Ms Hewitt:** Total spending by Department of Trade and Industry, (excluding agencies), on Information Technology was £12.1 million in 1998–99. Subsequent to this the Department entered into a PFI partnership agreement with UNITAS, (a consortium of Fujitsu and Logical/CMG), for the provision of the majority of its IT services and support. Total spending by the Department on IT in the following years was £15 million in 1999–2000, £30 million in 2000–01, £32 million in 2001–02 and £41 million in 2002–03. Spend for 2003–04 is forecast at £45 million. The equivalent figure is not readily available for 1997–98.

These figures do not include payments made to suppliers of IT services not covered by the PFI contract referred to since they are not available from a central source.

### Local Government Finance (Dorset)

**Jim Knight:** To ask the Secretary of State for Trade and Industry what grants were awarded to local authorities in Dorset by her Department in financial year 2003–04 that fall outside the revenue support grant. [156205]

**Jacqui Smith:** I refer my hon. Friend to the answer given by my right hon. Friend the Member for Greenwich and Woolwich (Mr. Raynsford) on 1 March 2004, *Official Report*, column 750W.

### Miners' Compensation Claims

**Ms Walley:** To ask the Secretary of State for Trade and Industry how many examiners who worked for both the Coal Board or the Coal Authority and small private mines have valid chronic bronchitis and emphysema claims outstanding; how many claims have received part payments; and if she will make a statement on progress of negotiations with small mine insurers in respect of the Court Handling Agreement. [158537]

**Jacqui Smith:** The number of outstanding COPD claimants who have worked for both BCC and a small mine is 2,164. The number of outstanding COPD claimants who have worked for BCC and a small mine and have received an interim payment is 453.

Following a three-way mediation exercise held in January, at which much progress was made, a further day of negotiation between the parties was organised on 23 February. This meeting proved successful and an agreement was reached which allowed the small mines to join the claims handling agreement.

Steps are now being taken with the Department's claims handlers to make arrangements for full and final offers to be made to this group of claimants.

### Nigerian Contracts

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 30 January 2004, *Official Report*, column 591W, on Nigeria, if she will provide a breakdown of Nigeria's debt to the Export Credits Guarantee Department, broken down by sector; and if she will list the top five contracts by value on which these debts are based. [158287]

**Mr. Mike O'Brien:** I refer the hon. Member to my official reply to his question on 30 January 2004, *Official Report*, column 591W. For the reasons stated earlier in that answer and the way in which records were kept in the 1980s, it is not possible to provide a breakdown of Nigerian debt according to trade sector without incurring disproportionate cost.

### Nirex

**Mark Tami:** To ask the Secretary of State for Trade and Industry what representations her Department has made to the Department for Environment, Food and Rural Affairs on the future structure of Nirex. [159047]

**Mr. Timms:** There have been a number of discussions between departments and with others affected on this subject, and these discussions are continuing.

**Mark Tami:** To ask the Secretary of State for Trade and Industry what discussions her Department has had with the Environment Agency on the possibility of their responsibility for the Letter of Comfort process operated by Nirex. [159048]

**Mr. Timms:** Disclosure of this information—internal advice and discussion—is covered by exemption 2 of the Code of Practice on Access to Government Information between Government departments and it has not been the practice of successive Governments to disclose exchanges of this nature.

Discussions are continuing to resolve a number of issues about the future of Nirex.

### Nuclear Fuel

**Paul Farrelly:** To ask the Secretary of State for Trade and Industry what the Government's policy is on the commercial reprocessing of spent nuclear fuel in the UK. [159624]

**Mr. Timms:** I refer my hon. Friend to the answer I gave to the hon. Member for South Down (Mr. McGrady) on 11 September 2003, *Official Report*, column 385W.

### Renewable Energy

**Llew Smith:** To ask the Secretary of State for Trade and Industry if she will make a statement on the outcome of the renewables innovation review. [159034]

**Mr. Timms:** The Renewables Innovation Review, which was conducted jointly by the DTI and the Carbon Trust, considers the way ahead for the renewables industry if the UK's renewable energy targets, carbon reduction aspirations and desired economic benefits are to be met.

The key conclusions of the Review, and the series of reports commissioned as part of the Review, are available on the DTI website at: http://www.dti.gov.uk/energy/renewables/policy/renewables_innovation_review.shtl

**Simon Hughes:** To ask the Secretary of State for Trade and Industry what steps she is undertaking to reinforce the National Grid in *(a)* the UK and *(b)* London to meet the Government's target of 10 per cent. renewable generation by 2010. [159171]

**Mr. Timms:** The Transmission Issues Working Group works with the Transmission Owners, the Scottish Executive, the Welsh Assembly Government, and Ofgem to progress this important issue. An initial plan was published last year and the Transmission Companies are currently revising their technical and financial plans. *(a)* The first upgrade required in the UK is the Beauly to Denny line that Scottish and Southern intends to submit into the consents process this autumn. *(b)* It is unlikely that significant transmission grid upgrades will be required in London as most renewables will be connected to the distribution network but a full report which will include this issue is due to be presented to the Transmission Issues Working Group by the end of July.

### Sakhalin II

**Mr. Simon Thomas:** To ask the Secretary of State for Trade and Industry what account she will take of the potential impact on *(a)* saffron cod and *(b)* herring populations when assessing the Sakhalin II phase 2 oil and gas project under consideration for support by the Export Credits and Guarantee Department. [157904]

**Mr. Mike O'Brien:** Both saffron cod and herring will be considered as part of the overall assessment of potential impacts on fishing resulting from the Sakhalin II project.

**Mr. Simon Thomas:** To ask the Secretary of State for Trade and Industry what discussions have been undertaken with other Departments on the Sakhalin II phase 2 oil and gas project which the Export Credit Guarantee Department is considering. [158073]

**Mr. Mike O'Brien:** ECGD has consulted officials in DEFRA, DFID and FCO with regard to Sakhalin II.

I have also consulted the Minister for Environment.

### Scottish Electricity Generators

**Malcolm Bruce:** To ask the Secretary of State for Trade and Industry if she will make a statement on her Department's assessment of the overall cost of the British Electricity Transmission and Trading Arrangements for Scottish electricity generators. [158534]

**Mr. Timms:** BETTA is a package of reforms, elements of which are likely to result in higher costs for Scottish generators, whilst others are likely to reduce costs. In aggregate, however, Ofgem estimates that the net impact of BETTA on Scottish generators will be broadly neutral.

This is because any increase in transmission charges will be offset by the removal of the current interconnector charges and charges for access to the England-Wales market. There will also be lower connection charges for Scottish generation.

The DTI has carried out an analysis of the possible impact of BETTA as part of the Energy Bill Regulatory Impact Assessment www.dti.gov.uk/energy/leg_and_reg/acts/ria.pdf. This found that the relevant market participants—principally British Energy and the two vertically integrated incumbents, Scottish Power and SSE—would be exposed to initial costs of around £7.5 million and on-going costs of some £0.5 million per year, although this excludes the redistributive effects brought about by a Great Britain-wide transmission charging regime.

### Westminster Hall

**Bob Spink:** To ask the Secretary of State for Trade and Industry if she will make it her policy to have senior Ministers reply to debates in Westminster Hall. [159613]

**Ms Hewitt:** I refer the hon. Member to the reply given to him by my right hon. Friend the Leader of the House on 8 March 2004, *Official Report*, column 1234W.

## WORK AND PENSIONS

### Housing Benefit

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what his latest estimate is of the annual cost of *(a)* administering Housing Benefit and *(b)* Housing Benefit fraud; and if he will make a statement. [156596]

**Mr. Pond:** The most recent available estimate of the annual cost of administering Housing Benefit is in the table:

*Housing Benefit administration costs in Great Britain 2001–02*

| | £ million |
|---|---|
| England | 360 |
| Scotland | 32 |
| Wales | 15 |
| Total | 407 |

*Notes:*
1. Figures are Net Current Expenditure.
2. Amounts are rounded to the nearest million

*Source:*
Figures for England provided by Office of the Deputy Prime Minister.
Scotland figures provided by the Scottish Executive.
Wales figures provided by the Welsh Assembly.

For Housing Benefit Fraud, we published "Fraud and Error in Housing Benefit, April 2002 to March 2003" on 11 December 2003. This report represents the first national headline estimates, for the level of fraud and error in Housing Benefit, derived via the statistical analysis of data collected by the Housing Benefit Review (HBR) continuous measurement exercise. Copies of the reports are available in the Library.

**John Mann:** To ask the Secretary of State for Work and Pensions if he will make a statement on the proposal to give local authorities the ability to withhold payment of housing benefits to tenants as a method of controlling anti-social behaviour. [159457]

**Mr. Pond:** I refer my hon. Friend to the answer I gave the hon. Member for New Forest, West (Mr. Swayne) on 9 February 2004, *Official Report*, column 1105.

**Mr. Sheerman:** To ask the Secretary of State for Work and Pensions what progress has been made since the formal consultation about ground rents and the referral of rent to local rent officers under the proposed changes to housing benefit. [157489]

**Mr. Pond:** The first step in our reform of Housing Benefit has been the introduction from November 2003 of a flat rate Local Housing Allowance in the private rented sector in nine pathfinder local authorities; with flat rate allowances for same size properties in the same area. Early indications are that the shift away from making payments direct to landlords is going well.

In the pathfinders, Housing Benefit is no longer linked to individual rents, so there is no need for individual rents to be referred to the local rent officer. The local rent service will however continue to support the local authorities by calculating monthly Local Housing Allowance rates and setting the Broad Rental Market Areas.

We have also put a comprehensive evaluation strategy in place. This will include interviews with claimants, landlords, local authority staff and stakeholder organisations, as well as an analysis of administrative data.

**Mr. Goodman:** To ask the Secretary of State for Work and Pensions what estimate he has made of the number of landlords in pathfinder areas who have stopped taking on housing benefit tenants. [158079]

**Mr. Pond:** We are making good progress in applying our ground-breaking Local Housing Allowance to tenants with mainstream tenancies in the private rented sector. All the nine pathfinder local authorities, who are taking this forward for us, have begun to implement the reforms. We have made an encouraging start: implementation has been smooth and early indications are that the shift away from making payments direct to landlords is going well. Initial concerns from landlords have now been addressed to a large extent and we are not aware of any landlords withdrawing from the market.

The reforms are intended to help landlords, as well as tenants, by creating a more transparent system that will be simpler for local authorities to administer, thereby speeding up overall processing times. Also, the safeguards we have built in regarding direct payment to landlords in particular circumstances are designed to protect the interests of both landlord and tenant.

It is too early to fully assess the response of tenants and landlords, but we have put a comprehensive evaluation strategy in place.

### Child Support Agency

**Mr. Lidington:** To ask the Secretary of State for Work and Pensions what plans he has to bring older Child Support Agency cases into the new system for assessment. [158880]

**Mr. Pond:** I refer the hon. Member to the written answer I gave the hon. Member for Castle Point (Bob Spink) on 18 December 2003, *Official Report*, column 1092W.

**Mr. Bill O'Brien:** To ask the Secretary of State for Work and Pensions how many payments of maintenance to parents with care have been delayed in the last six months because of the failure of the system in the issuing of maintenance payments; and if he will make a statement. [157984]

**Mr. Pond:** The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

*Letter from Doug Smith to Mr Bill O'Brien dated 9 March 2004:*

In reply to your recent Parliamentary question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many payments of maintenance to parents with care have been delayed in the last six months because of the failure of the system in the issuing of maintenance payments; and if he will make a statement.

Between August 2003 and February 2004 the new computer system generated over 346,000 payments. In the same period 1,741 payments were issued manually. I do not have a record of how many of these payments represent a delay in the issue of maintenance

## Departmental Estate

**Mr. Burns:** To ask the Secretary of State for Work and Pensions whether his Department plans to sell its premises in Beeches Road, Chelmsford; and if he will make a statement. [159994]

**Maria Eagle:** The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

*Letter from David Anderson to Mr. Simon Burns, dated 9 March 2004:*

As Jobcentre Plus is an Executive Agency, the Secretary of State has asked me to reply direct to your question concerning plans to sell off the Jobcentre Plus premises at Beeches Road, Chelmsford. This is something that falls within the responsibilities delegated to me as Chief Executive of the Agency.

In Essex, Jobcentre Plus consulted with partners and stakeholders during 2001 and 2002 and their views were taken into account in the final delivery plan that has now been put into place across this District.

Jobcentre Plus has now been introduced to all the offices in Essex District, including Beeches Road, to deliver a radical change in the way that benefits and employment services are provided to people of working age. We have no current plans to vacate that office.

Through the development of these new modern offices, we are providing an integrated, work-focused service to all people of working age. The introduction of work-focused interviews is extending the opportunity to more people who are taking advantage of the help, guidance and support we can provide to assist them to move into sustainable employment.

In all our plans we have focused on the needs of our customers. The new offices offer customers a seamless service, where they are able to make enquires about their benefit entitlement, and the training and employment opportunities available to them, under one roof.

In addition to these services Jobcentre Plus provides access to a telephone contact centre network where our customers are able to make enquiries without having to come into one of our offices. Our Beeches Road site offers both face to face and contact centre services.

Jobcentre Plus keeps under constant review our Estates and operational delivery to customers. I hope it will reassure you to know that, at the present time, there are no plans to vacate the Beeches Road premises.

## Skilled Migrants

**Mr. Simmonds:** To ask the Secretary of State for Work and Pensions how many skilled migrants were working in *(a)* the NHS and *(b)* the education sector on the last date for which figures are available. [157584]

**Ruth Kelly:** I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Mark Simmonds, dated 9 March 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question about skilled migrant workers in the NHS and in the Education sector. (157584)

The attached table gives the available information from the Labour Force Survey (LFS) for the three month period ending in November 2003. "Migrant" workers have been identified from the survey as those people working in the UK whose nationality is not British. The surveys does not analyse data specifically according to "skills", but for this purpose "skills" have been represented in terms of a person's highest qualification.

As with any statistical sample survey, estimates for the LFS are subject to sampling variability.

*Non-British nationals of working age[1] working in the NHS and the Education sector, by highest qualification held 3 month period ending November 2003*

*Thousand*

| | *Health authority or NHS trust* | *Education Sector[2]* |
|---|---|---|
| *Highest qualification* | | |
| Degree or equivalent | 41 | 23 |
| Higher education | 35 | * |
| GCE A Level or equivalent | * | * |
| GCSE grades A-C or equivalent | * | * |
| Other qualifications | 36 | 10 |
| No qualification | * | * |

[1] Applies to all men aged 16–64 and women 16–59.
[2] This includes University, Polytechnic or other grant funded educational establishments.
* Sample size too small for reliable estimate.
*Source:*
ONS—Labour Force Survey.

## Social Fund

**Mr. Love:** To ask the Secretary of State for Work and Pensions if he will provide additional assistance to those families on low incomes who receive a Social Fund *(a)* grant and *(b)* loan where the amount awarded is insufficient to cover basic household goods. [154205]

**Mr. Pond** *[pursuant to his reply, 11 February 2004, Official Report, c. 1492W]:* Community Care Grants, Crisis Loans and Budgeting Loans are part of the Discretionary Social Fund. They are designed to provide extra help for the most vulnerable people in society, helping them meet unexpected and more routine needs. The Discretionary Social Fund net budget will be increased by 6 per cent. in April 2004 and by a further 6 per cent. in April 2005.

As the Discretionary Social Fund is cash limited and decision makers may not always be able to award the full amount that a person has asked for; however they will always consider individual circumstances when making an award.

If a person believes that the grant or loan is not sufficient to meet their needs they have the right to ask for the decision to be reviewed, first by their local office and, if they disagree with the outcome, the Independent Review Service. There are no current plans to change this procedure.

## PRIME MINISTER

### Correspondence

**Llew Smith:** To ask the Prime Minister whether he authorised the letter faxed to the right hon. Member for Birmingham, Ladywood (Clare Short) on 28 February by the Cabinet Secretary. [158946]

**The Prime Minister:** As the Cabinet Secretary, Sir Andrew Turnbull, informed the Public Administration Select Committee on Thursday 4 March, the letter was initiated by him. I was aware of it and approved of it being sent.

### Intelligence Services

**Peter Bradley:** To ask the Prime Minister whether he received representations *(a)* in the run-up to and *(b)* during the war in Iraq from the then Secretary of State for International Development in which she raised concerns about the alleged activities of the United Kingdom's intelligence services at the UN. [158523]

**The Prime Minister:** It has been the practice of successive Governments not to comment on intelligence matters.

### Iraq

**Mr. Gordon Prentice:** To ask the Prime Minister if he will release to the Parliamentary Commissioner for Administration the full advice of the Attorney General on the legality of the war with Iraq; and if he will make a statement. [159588]

**The Prime Minister:** In evidence to the Public Administration Select Committee on 4 March, the Cabinet Secretary made clear that discussions with the Parliamentary Ombudsman are continuing as part of the normal process of handling these cases. The Government believe that the Attorney-General's advice on the legality of the military action against Iraq is covered by exemptions 2 and 4 of the Code of Practice on Access to Government Information.

**Llew Smith:** To ask the Prime Minister which members of the Cabinet were provided with a copy of the Attorney-General's full opinion on the legality of military action against Iraq in March 2003. [159937]

**The Prime Minister:** It is established practice not to disclose details of internal discussion and advice or details of the circulation of papers to the Cabinet in line with exemption 2 of Part 2 of the Code of Practice on Access to Government Information.

**Llew Smith:** To ask the Prime Minister what representations were made by UK Government *(a)* ministers, *(b)* agencies and *(c)* Departments to (i) Dr. David Kay and (ii) the Iraq Survey Group (A) before and (B) during the preparation of its first draft report. [159943]

**The Prime Minister:** The UK has a number of civilian and military personnel attached to the Iraq Survey Group who are part of the process in investigating Iraq's weapons of mass destruction programmes. As part of this process, some would have contributed to the drafting of Dr. Kay's interim report on the work of the Iraq Survey Group.

### Nuclear Weapons

**Llew Smith:** To ask the Prime Minister, pursuant to the reply to the hon. Member for Hampstead and Highgate (Glenda Jackson) of 10 February 2004, *Official Report*, column 1346W, what provisions of international law cover the use of nuclear weapons. [159934]

**The Prime Minister:** The legality of the use of nuclear weapons depends upon the application of the general rules of international law, including those regulating the inherent right of self-defence and the conduct of hostilities.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Afghanistan

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps his Department is taking to improve access to human intelligence for *(a)* British and *(b)* NATO forces operating in Afghanistan; and when he expects a human intelligence capacity to be available to British armed forces in Afghanistan. [159017]

**Mr. Straw:** It is the well-established and long-standing practice of successive Governments not to comment on operations of the Intelligence Services. The security and intelligence agencies are outside the scope of the Code of Practice on Access to Government Information (Paragraph 6, Part 1).

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the *(a)* Afghans and *(b)* foreign nationals being held by the Coalition at Bagram airbase; and how long he expects they will be held. [158836]

**Mr. Straw** *[holding answer 8 March 2004]:* The British Government do not have detailed information about non-British detainees at Bagram. No British citizens are currently being held at Bagram and none of the detainees held there was captured by British forces. The International Committee of the Red Cross has been able to assess conditions at Bagram since 22 January 2002.

### Burma

**Vera Baird:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the value is of

Burmese assets frozen by the UK under EU sanctions; what the nature of those assets is; and where they are held. [159884]

**Mr. Mike O'Brien:** The value of Burmese assets currently frozen by the UK under the EU Common Position is £3,573.57. The assets frozen are personal bank accounts of three individuals listed in the Annex to the Common Position, which is available on the website of the National Coalition Government of the Union of Burma: http://www.ncgub.net/Int'l%20Action/EU/EU%20Commission%20regulation%2023%20December%202003.pdf.

### Democratic Republic of Congo

**Mr. Martyn Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of militia violence in the Katanga province of the Democratic Republic of Congo. [159254]

**Mr. Mullin:** Recent reports of militia violence in the Katanga province of the Democratic Republic of Congo (DRC) relate to a number of attacks by a renegade militia group since the beginning of this year. The UN Mission in the DRC is in the process of investigating. We deplore all violence against innocent civilians.

### Departmental Communications

**Matthew Taylor:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158171]

**Mr. Mike O'Brien:** External communications is the responsibility of the Press Office in the Foreign and Commonwealth Office (FCO). There are 28 staff in the Press Office, comprising of six General Information and Communication Service (GICS) press officers, 11 non-GICS press officers and 11 support staff.

Each of our overseas Posts also has a capacity to deal with local press and communications issues, commensurate with the size of the post and media interest.

There are seven GICS officers working outside the Press Office.

For details of the special advisers employed by the FCO, I refer the hon. Member to the answer I gave to the hon. Member for Yeovil (Mr. Laws) on 23 January 2003, *Official Report*, column 469W.

**Matthew Taylor:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the total expenditure on communications for the Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communications Service staff and *(b)* other staff, broken down by (i) press officers.(ii) special advisers and (iii) others. [158203]

**Mr. Mike O'Brien:** External communications is the responsibility of the Press Office of the Foreign and Commonwealth Office (FCO). We anticipate the staff costs for 2003/04 will be as follows: GICS Press Officers £259,573, non GICS Press Officers £478,780, support staff £331,453, giving a total cost for the year of £1,069,806. There are further UK based, GICS staff, working outside of the Press Office and their cost for 2003–04 is anticipated to be £278,343. The total pay of special advisers for the year 2003–04 is anticipated to be £188,324. Costs comprise salary, employer's national insurance contributions and employers pension contributions.

Our overseas posts have a capacity to deal with local press and communications issues, commensurate with the size of the post and media interest, however these costs could be obtained only at disproportionate cost.

The FCO is also the sponsoring Department for the BBC World Service, whose costs for the 10 months to 31 January 2004 are £177,859,730.

### Iraq

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 26 February 2004, *Official Report*, column 482W, on Iraq, when the British embassy received the Note Verbale from the Mexican Government; and whether the UK Government has replied. [158354]

**Mr. Rammell:** I refer my hon. Friend to the answer my right hon. Friend the Foreign Secretary gave to my hon. Friend the Member for Walthamstow (Mr. Gerrard) on 2 March 2004, *Official Report*, column 743.

**Mr. Chidgey:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many contracts, of what total financial value, have been awarded for reconstruction projects in Iraq, broken down by nationality of company awarded a contract. [159002]

**Mr. Mike O'Brien:** The US administration has allocated $18.6 billion for the reconstruction process in Iraq. Because of the large number of different organisations involved and the fact that many are involved in partnerships with American, Iraqi and other companies, it has not been possible to maintain an overall picture of the total volume of contracts awarded on the basis of nationality, and the cumulative value of these contracts. There is no central organisation that collects, collates and publishes such information. However, British companies are active in the power, water, banking, ports, construction, telecoms, security, legal services and consultancy sectors.

**Mr. Swayne:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the circumstances surrounding the recent replacement of the Coalition Provisional Authority Governorate Co-ordinator for Dhi Qar province in Iraq. [159191]

**Mr. Rammell** *[holding answer 8 March 2004]:* John Bourne served as the Coalition Provisional Authority (CPA) Governorate Co-ordinator for Dhi Qar province from early September 2003 to 27 February 2004. It was never intended that he should remain until the dissolution of the CPA. He served with distinction in the face of considerable difficulties, particularly after the attack on the Italian Carabinieri in Nassariya. His Italian replacement, Barbara Contini, has already been working in the CPA's Regional Office in Basra, and comes with strong experience of post-conflict reconstruction in the Balkans.

**Joan Ruddock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the interim constitution adopted by the Interim Governing Council in Iraq on the rights of women. [159501]

**Mr. Rammell:** The Transitional Administrative Law (TAL) signed on 8 March 2004 includes clear provisions for the protection of women's rights. It enshrines the fundamental rights of all Iraqis. It strictly prohibits discrimination based upon gender. The TAL also stipulates an electoral system designed to ensure that no less than one-quarter of representatives in the National Assembly are women.

**Joan Ruddock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the current status is of the decision taken by the governing council in Iraq to repeal existing family laws and make family law subject to Sharia. [159502]

**Mr. Rammell:** Governing Council Resolution 137 on family law has been withdrawn by the Governing Council. It has no legal status.

### Kolay

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what inquiries he has made about the *(a)* fate and *(b)* whereabouts of the 500 villagers from Kolay and two nearby villages who were in hiding following clashes between forces from the State Peace and Development Council and the Karen National Union on 17 and 18 January; [157624]

(2) what representations he has made to the Government of Burma about the action of the State Peace and Development Council in forcibly relocating all Karenni villagers north and south of the Mawchi-Taungoo road to Mahutahlayu near Pasaungi in December 2003. [157626]

**Mr. Mike O'Brien:** We have made no direct inquiries or representations on these issues. I do not have access to information to make accurate and reliable assessments of these matters. Travel restrictions imposed by the State Peace and Development Council on diplomats prevent local investigation or inquiries and make it difficult to independently verify such allegations.

### Nepal

**Mr. Rendel:** To ask the Secretary of State for Foreign and Commonwealth Affairs what advice his Department gives to British travellers to Nepal on the Government's policy towards *(a)* the Government of Nepal and *(b)* Maoist rebels against the Government of Nepal. [160178]

**Mr. Mike O'Brien:** Foreign and Commonwealth Office (FCO) travel advice does not contain statements of Government policy towards a particular country. FCO Travel Advice is available on the FCO website www.fco.gov.uk or it can be obtained by calling 0870 606 0290.

The FCO produces Travel Advice on 217 countries, including Nepal, which aims to ensure that British travellers are well prepared before their departure. This travel advice takes account of the on-going conflict between the government of Nepal and the Maoist insurgents.

**Mr. Rendel:** To ask the Secretary of State for Foreign and Commonwealth Affairs what statements have been made by his Department on the Government's policy on the Maoist rebellion in Nepal in the last two years. [160179]

**Mr. Mike O'Brien:** I refer the hon. Member to my statement in the House on Nepal on 19 June 2002, *Official Report,* columns 114–17WH, and to the statement I made at the Nepal International Support meeting in Nepal on 11 October 2002, a copy of which I will place in the Library of the House. On 22 October 2003 I released a press statement in relation to the British Gurkha Nepal team temporarily abducted by Maoist forces. My right hon. Friend the Foreign Secretary released a press statement on 28 August 2003 about the breakdown of the cease-fire in Nepal. Copies of both press statements are available on the Foreign and Commonwealth Office website: www.fco.gov.uk/policy/news/press-releases.

### Overseas Bribery and Corruption

**Mr. Simon Thomas:** To ask the Secretary of State for Foreign and Commonwealth Affairs what procedures his Department employs for validation of reports on bribery and corruption overseas were received from involved in this procedure; and what criteria are employed for such validation. [151386]

**Mr. MacShane:** Reports on bribery and corruption overseas, received from diplomatic posts, are usually handled by the Foreign and Commonwealth Office's Economic Policy Department. These reports are examined to see if any further information is necessary on the nature of the allegation and supporting evidence.

Provided there is sufficient detail for an initial analysis, a report is sent to the National Criminal Intelligence Service.

Other Government Departments may also be made aware of these reports.

### Sierra Leone

**Mr. Martyn Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the progress of repatriation of Sierra Leone refugees from Liberia. [159217]

**Mr. Mullin:** On 2 March the UN High Commission for Refugees restarted its repatriation programme for Sierra Leone refugees in Liberia. The first repatriations are proceeding smoothly. The programme is scheduled to last 17 weeks and aims to repatriate 14,000 of the 38,000 remaining refugees, 13,000 of whom are in refugee camps.

### Sudan

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the situation in Darfur in Sudan. [158977]

**Mr. Mullin:** The situation in Darfur remains very serious. We are particularly concerned by reported attacks on civilians and are appealing to all parties to ensure protection of the civilian population. Although access to some areas is improving, the ability of humanitarian agencies to assist vulnerable populations remains limited. The Department for International Development has contributed over £6 million in response to the crisis in Darfur and is seconding three humanitarian affairs officers to the UN to work in Darfur for three months.

We are urging all parties to re-establish a ceasefire, permit humanitarian access to those in need, and resume talks. To this end we have lobbied at the highest levels in Khartoum, and are in almost daily contact with the Government of Sudan and the Darfur groups. The EU issued a statement expressing its serious concern on 25 February.

### UK Mission (Bugging)

**Simon Hughes:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the bugging of the UK Mission in the Justus Lipsius Council of Ministers building in 2003. [158527]

**Mr. MacShane:** Since 14 April 2003, *Official Report*, column 530W, when I replied to the hon. Member for Sutton and Cheam (Mr. Burstow), the Belgian authorities, on the approval of the Council of Ministers, have taken over the Council Secretariat's investigation into the discovery of a number of devices in the Justus Lipsius Council of Ministers building last year. We are co-operating closely with the authorities. The bugging operation remains a matter of serious concern.

## DEPUTY PRIME MINISTER

### ACAS

**Mr. Hancock:** To ask the Deputy Prime Minister whether each agency in the Department has disciplinary procedures which comply with *(a)* the ACAS handbook on discipline and grievances at work and *(b)* the ACAS Code of Practice on disciplinary and grievance procedures. [159413]

**Yvette Cooper:** Yes. In common with practice throughout the Office of the Deputy Prime Minister, each agency has disciplinary procedures that comply with the ACAS Handbook and the ACAS Code of Practice on Disciplinary and Grievance Procedure.

### Arms-Length Management Organisations

**John Mann:** To ask the Deputy Prime Minister what the legal liability is of the shareholders of arms-length management organisations if their ALMO goes bankrupt. [159460]

**Keith Hill:** The normal principles of company and company insolvency law apply to Arms Length Management Organisations (ALMOs). ALMOs are normally set up by local authorities as companies limited by guarantee. The local authority would not normally have any legal liability if an ALMO became insolvent, but each case will turn on its own facts. The authority would, however, remain statutorily responsible for providing and managing the housing stock.

### Departmental Minutes

**Mr. Lilley:** To ask the Deputy Prime Minister whether it is the Department's policy to make notes of *(a)* meetings and *(b)* telephone conversations involving Ministers; and under what circumstances no notes would be taken. [149528]

**Yvette Cooper:** The Office of the Deputy Prime Minister follows the central "Guidance on the Management of Private Office Papers" which makes clear that good record management procedures are necessary not least to ensure accountability and provide an audit trail. Among the records covered by the guidance are Ministers' meetings and telephone conversations.

### Employment Tribunals

**Mr. Hancock:** To ask the Deputy Prime Minister how much money has been spent on *(a)* settling and *(b)* contesting claims in the Department registered at employment tribunals for (i) race discrimination, (ii) sex discrimination, (iii) disability discrimination, (iv) unfair dismissal and (v) equal pay since 1 January 2003. [159412]

**Yvette Cooper:** During the period in question, the Office of the Deputy Prime Minister has settled one Employment Tribunal case on terms that involved the payment of financial compensation. All other cases brought against the Office of the Deputy Prime Minister were either withdrawn by the applicants, or settled on terms that did not involve payment.

The exception was one case in category (i)—race relations—in which damages of £6,324.16 were paid.

The amounts expended in contesting applications made to Employment Tribunals are as set out as follows. The figures represent the costs of instructing Treasury Solicitor and of disbursements on fees to Counsel and other expenses. They include the case referred to above, as well as cases where The Office of the Deputy Prime Minister has settled without payment of compensation, cases that have been successfully defended, cases that have been withdrawn and on-going expenses of cases that are still being contested.

Since 1 January 2003 the amount of money spent on contesting claims at employment tribunals in the categories listed are as follows:

(i) race discrimination—£15,655.64

(ii) sex discrimination—£634

(iii) disability discrimination—£23,856.85

(iv) unfair dismissal—£14,004.96

(v) equal pay—£138,566.94.

### Homelessness

**Ms Oona King:** To ask the Deputy Prime Minister (1) what assessment he has made of the effectiveness of Best Value Performance Indicator 183 as an indicator of the quality of service offered by local authority homeless services in areas of high demand; and whether BVPI 183 reflects *(a)* a local authority's current and historic performance and *(b)* the length of time homeless families with children in areas of high demand are required to spend in bed and breakfast or hostel accommodation; [158551]

(2) if he will list the respondents to the consultation on Best Value Performance Indicator *(a)* X8, the number of individuals sleeping rough and *(b)* X9, the number of homeless families with children placed in temporary accommodation; if he will place copies of the responses in the Library; and when he expects to make a decision on their introduction. [158552]

**Yvette Cooper:** While no assessment has been made which focuses specifically on Best Value Performance Indicator (BVPI) 183's effectiveness in areas of high demand, the BVPI does form part of the Office of the Deputy Prime Minister's monitoring of all local authorities' provision of homelessness services. The BVPI provides useful information on the average length of time families with children spend in temporary accommodation with shared facilities. BVPI 183 was introduced in 2002–03. From 2004–05, it is proposed that this BVPI will be complemented by two other homelessness indicators, which will record the number of individuals sleeping rough (BVX8) and the number of homeless families with children placed in temporary accommodation (BVX9).

Consultation on the introduction of the two additional Homelessness Best Value Performance Indicators closed on 6 February. The Office of the Deputy Prime Minister received 75 responses. A list of the respondents is as follows.

An Order was laid before Parliament on 4 March which will enable the two additional Homelessness Best Value Performance Indicators to come into force from

1 April. I will arrange for copies of the responses to the consultation paper to be made available in the Libraries of the House in due course.

*Respondents to the consultation on BVX8 and BVX9:*

## Local Authorities (Members' Allowances)

**Mr. Laurence Robertson:** To ask the Deputy Prime Minister if he will amend the Local Authorities (Members' Allowances) (England) Regulations 2003 to allow co-opted councillors to claim allowances; and if he will make a statement. [157315]

**Mr. Raynsford:** Co-opted members of principal councils are already entitled to receive a co-optees allowance and a travel and subsistence allowance.

Co-opted members of parishes are not currently entitled to receive allowances. However, the Office of the Deputy Prime Minister intends to amend the regulations governing councillors' allowances shortly so that all parish councillors are eligible to receive an allowance for travel and subsistence.

At present, the Office of the Deputy Prime Minister does not plan to allow un-elected parish councillors to receive a basic allowance and will reassess this position, as part of the wider review of councillors' allowances, later this year.

**Mr. Swayne:** To ask the Deputy Prime Minister what representations he has received on the Local Authorities (Members' Allowances) Regulations (England) 2003; what plans he has to alter the regulations in respect of non-elected councillors; and if he will make a statement. [158822]

**Mr. Raynsford:** The Office of the Deputy Prime Minister has received a number of letters from MPs in recent weeks on behalf of their parish councils in respect of non-elected parish councillors.

Co-opted members of parishes are not currently entitled to receive allowances. However, the Office of the Deputy Prime Minister intends to amend the

regulations governing councillors' allowances shortly so that all parish councillors are eligible to receive an allowance for travel and subsistence.

At present, the Office of the Deputy Prime Minister does not plan to allow un-elected parish councillors to receive a basic allowance and will reassess this position, as part of the wider review of councillors' allowances, later this year.

**Mr. Clifton-Brown:** To ask the Deputy Prime Minister what plans he has to change the regulations whereby co-opted parish councillors are not entitled to the same pay and allowances as elected parish councillors. [158110]

**Mr. Raynsford:** The Office of the Deputy Prime Minister intends to amend the regulations governing councillors' allowances shortly so that all parish councillors are eligible to receive an allowance for travel and subsistence.

At present, however, the Office of the Deputy Prime Minister does not plan to allow un-elected parish councillors to receive a basic allowance. We will reassess this position, as part of the wider review of councillors' allowances, later this year.

### Local Government

**Sir John Stanley:** To ask the Deputy Prime Minister what figure for the rate of inflation was used by the Minister for Local Government in his statement on 16 January that each local authority would receive at least an above inflation increase in grant for 2004–05. [159801]

**Mr. Raynsford:** The latest estimate of inflation available on 16 January was the Retail Price Index—all items excluding Mortgage Interest Payments (RPIX) for November 2003 at 2.5 per cent.

Every local authority in England with responsibility for education and social services received at least a 4 per cent. increase in formula grant on a like-for-like basis in 2004–05; every shire district received at least a 3 per cent. increase; every fire authority received at least a $3\frac{1}{2}$ per cent. increase; and every police authority received at least a $3\frac{1}{4}$ per cent. increase.

### Local Government Pension Scheme

**Mr. Todd:** To ask the Deputy Prime Minister what progress has been made on the reform of the Local Government Pension Scheme; and if he will make a statement. [159465]

**Phil Hope:** A phased programme of regulatory and policy reform of the Local Government Pension Scheme was announced on 23 July 2003. This takes forward the Government's proposals on the future of occupational pension schemes set out in the White Paper "Simplicity security and choice (CMS835)" and some initial findings from the on-going Stocktake of the Scheme. Following consultation, new regulations will take effect on 1 April. These will be followed by a statutory consultation exercise on further scheme amendments, which in part deal with proposals to increase the normal retirement age. These amendments are intended to take effect from April 2005. For the longer term, proposals to ensure the sustainability of the Scheme will be circulated to stakeholders in England and Wales later in the year.

### Planning Guidance

**Mr. Clifton-Brown:** To ask the Deputy Prime Minister which planning guidance notes are to be replaced with Planning Policy Statements; and what the timetable is. [159962]

**Keith Hill:** The Office of the Deputy Prime Minister has gone out to public consultation on revisions to PPG1 (General Policies and Principles), PPG3 (Housing), PPG6 (Town Centres), PPG7 (Countryside), PPG 11 (Regional Planning), PPG12 (Development Plans), PPG 22 (Renewable Energy) and PPG23 (Planning and Pollution) with a view to re-issuing these during 2004 as Planning Policy Statements (PPS). It is anticipated that consultation will begin in the first half of 2004 on revisions to PPG4 (Economic Development), PPG9 (Nature Conservation/ Biodiversity) and PPG10 (Planning and Waste Management).

The timetable for the review of other PPGs is being considered in the light of the recommendation in the Office of the Deputy Prime Minister Select Committee's report on the Annual Report 2003 that we should withdraw our stated intention to revise the less controversial PPGs. The Office of the Deputy Prime Minister aims to make an announcement on this by the end of March.

### Roma

**Mr. Paice:** To ask the Deputy Prime Minister (1) what estimate he has made of the impact on Cambridgeshire of migration by the Roma Community of Eastern Europe after enlargement of the EU on 1 May; [150822]

(2) what guidance he is issuing to local authorities regarding inward migration of the Roma community of Eastern Europe after enlargement of the EU on 1 May. [150823]

**Beverley Hughes** *[holding answers 26 January 2004]:* I have been asked to reply.

It is not possible to produce a reliable estimate of numbers of people from the accession countries, whether or not they are members of the Roma community, who may travel to Cambridgeshire. There is no information available upon which such an estimate could be based. However guidance will be made available to local housing authorities regarding proposed changes to the rules on eligibility for benefits that they administer, and on eligibility for social housing and homelessness assistance, to which my right hon. Friend the Home Secretary referred in his Statement to the House on EU Accession on 23 February.

### Severe Weather

**Simon Hughes:** To ask the Deputy Prime Minister what guidelines he has issued to local authorities on dealing with the effects of severe weather. [159237]

**Mr. Alexander:** I have been asked to reply.

Cabinet Office has produced guidance—Dealing with Disaster—on the principles of emergency planning to assist local authorities in their preparation for, and response to, a range of major incidents, including those resulting from the effects of severe weather.

Within this framework, local authorities work closely with relevant Government Departments and organisations to ensure that robust and effective plans are in place. For example, local authorities, where necessary, will liaise regularly with flood defence managers at the Environment Agency to maintain flood defence plans.

The guidance is available in the Libraries of the House and at www.ukresilience.gov.uk.

### Statutory Sick Pay

**Mr. Goodman:** To ask the Deputy Prime Minister how many people employed in his Department have claimed statutory sick pay for *(a)* less than one week, *(b)* one to three weeks, *(c)* four to six weeks, *(d)* seven to 12 weeks, *(e)* 13 to 20 weeks and *(f)* 21 to 28 weeks in each year since 1997. [148626]

**Yvette Cooper:** The Office of the Deputy Prime Minister was established following Machinery of Government changes in May 2002. The first complete year for which we have data on staff sick absence rates for staff in our HQ is January-December 2003. During this period the number of people taking sick leave was as follows:

| *Number of days* | *Number taking sick leave* |
|---|---|
| *(a)* 4–7 | 411 |
| *(b)* 8–21 | 204 |
| *(c)* 22–42 | 53 |
| *(d)* 43–72 | 31 |
| *(e)* 73–140 | 22 |
| *(f)* 141–196 | 4 |

The Office of the Deputy Prime Minister is committed to managing sick absence effectively.

## HEALTH

### B Streptococcal Screening

**Mr. Hancock:** To ask the Secretary of State for Health what research his Department has *(a)* commissioned and *(b)* evaluated on the costs and benefits of group B Streptococcal screening. [158783]

**Dr. Ladyman:** The National Institute for Clinical Excellence recently published a Clinical Guideline on Routine Antenatal Care, which recommends that pregnant women should not be offered routine antenatal screening for group B streptococcus (GBS), because evidence that it will do more good than harm is uncertain.

The UK National Screening Committee is currently reviewing the prevention of GBS infection in newborn babies. As part of its work programme, it has asked the National Co-ordinating Centre for Health Technology Assessment to commission research in this area and detailed proposals are being developed.

### Dentistry

**Mr. Burstow:** To ask the Secretary of State for Health how many NHS dental practices have gone private in the last year; and if he will make a statement. [154434]

**Ms Rosie Winterton:** The number of dental practices going totally private is very small as most dentists continue with some national health service work. The Office of Fair Trading report "The private dentistry market in the UK", published in March 2003, states that only 210 practices are totally private in the UK out of 11,000 practices in total.

Between August 2002 and August 2003 the total number of dental practices in the General Dental Service, Personal Dental Service or Salaried Dental Services increased by 44.

**Mr. Burstow:** To ask the Secretary of State for Health how many NHS orthodontists accepted new NHS patients in each year since 1997; and if he will make a statement. [154437]

**Ms Rosie Winterton:** Information is not available in the form requested. Information on which dentists currently accept new national health service patients is continually updated and available on the NHS website at www.nhs.uk. However, this does not identify those dentists who do orthodontic work within the general dental service.

The number of dentists making 100 or more appliance claims for payments for orthodontic appliances, together with dentists in personal dental service orthodontic pilots, is available from the Dental Practice Board. These data are shown in the table for the period since 1997–98.

*Number of dentists with 100 or more appliance claims or in orthodontic pilots in England*

| | *Number*[1] |
|---|---|
| 1997–98 | 448 |
| 1998–99 | 482 |
| 1999–2000 | 490 |
| 2000–01 | 532 |
| 2001–02 | 565 |
| 2002–03 | 591 |

[1] General dental service dentists with 100 or more appliance claims during the year and personal dental service dentists in orthodontic pilots at September.

**Mr. Burstow:** To ask the Secretary of State for Health what percentage of NHS dentists were *(a)* male and *(b)* female in (i) each NHS region, (ii) each strategic health authority and (iii) England in each year since 1990. [156294]

**Ms Rosie Winterton:** The available information is shown in the tables. This is for the proportion of male and female national health service dentists for each NHS region, each strategic health authority and England at September in each of the years 1996 to 2002 in table 1. For the years 1991 to 1995, information is available for England only and is in table 2.

NHS dentists cover dentists working in the general dental service (GDS), hospital dental service (HDS),

community dental service (CDS), and personal dental service (PDS). Excluded are the small numbers of salaried dentists. Dentists are counted on a headcount basis and so no account is taken for part-time working in the NHS.

Dentists working in more than one dental service are included in each service, apart from dentists working in both PDS and GDS who are counted in the GDS only.

Information for 2003 is not yet available.

*Table 1: National health service: Proportion of dentists in England by sex in each region and strategic health authority at September each year*

| | 1996 | | 1997 | | 1998 | | 1999 | |
|---|---|---|---|---|---|---|---|---|
| | *Male* | *Female* | *Male* | *Female* | *Male* | *Female* | *Male* | *Female* |
| *England* | 0.70 | 0.30 | 0.69 | 0.31 | 0.69 | 0.31 | 0.68 | 0.32 |

### Departmental Staff

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 10 December 2003, *Official Report*, column 502W, on departmental staff, what information his Department collates on the functions undertaken by staff in each business group. [158496]

**Ms Rosie Winterton:** In summary, the work of Departmental staff in the three business groups includes:

Delivery—staff responsible for supporting delivery of targets set out in the NHS Plan. These include helping reduce waiting times, increasing choice for National Health Service patients, securing resources for NHS and local government organisations, ensuring the NHS has the capacity to deliver and integrating NHS information technology systems to deliver modernised patient services.

Standards and Quality—staff responsible for the majority of our policy-making responsibilities, ranging from scientific developments and medical innovations, such as stem cell research, to lifestyle issues, such as obesity. Staff set standards and define quality in health and social care services, maintain and promote health and well being, ensure safety of patients and users and deliver key programmes, such as cancer.

Strategy and Business Development—staff responsible for important corporate services, such as communications, corporate human resources and information services, ensuring the Department is run effectively and efficiently. They also lead important programmes and policies, such as system reform, equality, medicine and pharmacy, user experience and involvement and professional leadership.

### Diabetes

**Mr. Burstow:** To ask the Secretary of State for Health what steps his Department has taken to *(a)* scope, *(b)* commission and *(c)* disseminate research into the early detection of diabetes. [158029]

**Ms Rosie Winterton:** The National Screening Committee will, advise the Department by 2005 on the most effective policy for screening for Type 2 diabetes. It is generally accepted that screening of the whole population for Type 2 diabetes would not be cost-effective given the low prevalence of undiagnosed disease. However there is emerging evidence to suggest that it may be clinically and cost effective to offer screening to specific sub-groups of the population who are at high risk for diabetes. The Department and the National Screening Committee have commissioned research to define high-risk individuals and to evaluate pilot screening projects in primary care. The results of this research will be available to inform the advice of the National Screening Committee.

### Eye/Dental Check-ups

**Mr. Burstow:** To ask the Secretary of State for Health if he will estimate the cost of implementing a policy for free *(a)* eye and *(b)* dental check-ups for all NHS patients. [155965]

**Ms Rosie Winterton:** Sight tests under national health service arrangements are already available to certain priority groups. These include, children, those aged 16–18 in full-time education, people on low incomes and defined categories of people at particular risk of developing eye disease. In April 1999 we extended sight tests to all people aged 60 and over.

Based on the most recent data available of the number of private sight tests, the cost of extending NHS sight tests to this group, at the 2002–03 rate of £16.72, would be an additional £80 million for England. The total cost would be increased if the change stimulated demand for more eye examinations. Costs could also be affected if

the change in the scope of the NHS service was associated with any review of the sight test fee payable to optometrists.

About a quarter of dental examinations carried out on adults in the general dental service (GDS) involve patients who are exempt from charges or who qualify for a reduced charge.

If dental examinations were made free to all adults in England, patient charge revenue would be reduced by around £85 million per annum.

### Fall-Related Injuries

**Mr. Burstow:** To ask the Secretary of State for Health what the cost of falls in people aged over 60 was to *(a)* the NHS and *(b)* personal social services in each year since 1997; and if he will make a statement. [156646]

**Dr. Ladyman:** The actual cost of falls to the national health service and to personal social services is not recorded centrally. Hip fractures are the most common serious injury resulting from falls in older people. The national service framework for older people estimated the cost to the NHS of hip fractures at around £1.7 billion per annum for England.

### Fires (Care Homes)

**Sandra Gidley:** To ask the Secretary of State for Health how many fires have occurred in care homes for the elderly *(a)* in total in England and *(b)* broken down by local authority in each year since 1997. [157369]

**Mr. Raynsford:** I have been asked to reply.

The number of fires in care homes for the elderly attended by the Fire and Rescue Service in England since 1997 are as follows:

*Fires[1,2] in care homes for elderly people by Fire and Rescue Authority area, 1997–2002*

| *Fire and Rescue Service area* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002[3]* |

Fire and Rescue Authority returns to ODPM.

### Mental Health

**Mr. Denham:** To ask the Secretary of State for Health (1) if he will make a statement on the progress made on the NHS plan target to recruit 700 carers workers; [154824]

(2) whether the 700 carers workers promised in the NHS plan will be additional to existing staff in NHS trusts. [154828]

**Ms Rosie Winterton:** The commitment to recruit 700 carer support workers to by 2004 to increase the breaks available for carers, and to strengthen carer support networks is part of the "Priorities and Planning Framework 2003–06" which identified the targets set for services in the three year period.

Recruitment is a local responsibility therefore we cannot say whether the 700 carer support workers will all be additional to existing national health service staff. Guidance on developing carer support services was published in 2002.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 2 February 2004, *Official Report*, column 688W, on mental health, whether the *(a)* 27 early intervention teams and *(b)* 132 crisis resolution teams conform to an early intervention model; what quality standards have been put in place for them; and if he will make a statement. [154986]

**Ms Rosie Winterton:** Detailed service specifications for crisis resolution and early intervention teams are contained in the "Mental Health Policy Implementation Guide" (2001), which is available in the Library.

A full analysis of the teams currently in operation against the criteria set out in the "Mental Health Policy Implementation Guide" is available from the Durham adult mental health services mapping database at http://www.dur.ac.uk/service.mapping/amh, which is regularly updated to reflect changes in team attributes.

Local services are supported and managed by strategic health authorities to develop local delivery plans to meet NHS Plan targets.

### Pulmonary Disease

**Mr. Burstow:** To ask the Secretary of State for Health what resources have been allocated to implement the National Institute for Clinical Excellence guidelines for chronic obstructive pulmonary disease; and how implementation will be monitored. [158507]

**Dr. Ladyman:** Funding to implement the guidance and recommendations of the National Institute for Clinical Excellence (NICE) is not separately identified in primary care trust (PCT) allocations. The national health service is currently receiving the largest sustained increase in funding in its history, so the question of affordability of NICE recommendations should not be an issue. The total of PCT allocations is £45 billion for 2003–04, £49.3 billion for 2004–05 and £53.9 billion for 2005–06. This represents an increase of £12.7 billion, or an average of 30.8 per cent. over the three years 2003–04 to 2005–06.

The Commission for Healthcare Audit and Inspection will inspect against healthcare standards. The Health Care Standards were published on 10 February 2004 and are now out for consultation. NICE guidance features at two places within the standards. Within the "core" standards (under "clinical and cost effectiveness"), NICE appraisals are included; and under the "developmental" standards, NICE clinical guidelines are shown. The developmental standards are aspirational and for the NHS to implement over a longer period of time.

### Whitehaven Care Home

**Mr. Gibb:** To ask the Secretary of State for Health what measures are being taken by the National Care Standards Commission following the inspection of the Whitehaven Care Home For Adults in Felpham, Bognor Regis on the 11 and 12 of November 2003. [159728]

**Dr. Ladyman:** This is a matter for the National Care Standards Commission (NCSC). I understand that the NCSC has monitored the requirements made of the service provider during its inspection of November 2003. It is satisfied with the action plan which the provider has drawn up to address the shortfalls identified in the inspection. The NCSC will continue to keep closely in touch with the service provider and monitor the situation to ensure that compliance with Regulations and national minimum standards is achieved and that there is no risk to the people living at Whitehaven.

## HOME DEPARTMENT

### Anti-social Behaviour

**Mr. Stephen O'Brien:** To ask the Secretary of State for the Home Department what assessment he has made of the impact of anti-social behaviour orders in *(a)* reducing the frequency and seriousness of crimes by children and young people and *(b)* reassuring communities; and what plans he has to publish his findings. [158841]

**Ms Blears:** Anti-Social Behaviour Orders (ASBOs) are intended to address anti-social behaviour. In Home Office research study 236, January 2002 'A review of anti-social behaviour orders', Siobhan Campbell carried out some research into ASBOs shortly after they had been introduced. Campbell found that few areas managed to monitor ASBOs successfully, but just over one third of a sample of 40 individuals given ASBOs were known to have breached their order. Fewer (30 per cent.) had committed further offences during that time. In only four cases had the individual been taken to court for both breach and a further offence.

Campbell also found that there was anecdotal evidence to suggest that ASBOs had been successful. The Home Office has not carried out further research to assess the impact of ASBOs in *(a)* reducing the frequency and seriousness of crimes by children and young people and *(b)* reassuring communities.

### Asylum Seekers

**Mr. Lansley:** To ask the Secretary of State for the Home Department how many detainees have been

resident at the Oakington Immigration Reception Centre for longer than *(a)* seven and *(b)* 10 days during the course of 2003. [145368]

**Beverley Hughes:** Information on the length of time detainees were resident at the Oakington Reception Centre and on all detainees held during 2003 is not available, except by examination of individual case-files at disproportionate cost.

### Buses (Vandalism)

**Mr. Paul Marsden:** To ask the Secretary of State for the Home Department how many incidents of vandalism to buses were reported in each police force area in the last 12 months for which figures are available. [159031]

**Ms Blears:** This information is not collected centrally.

### Cannabis

**Mrs. Gillan:** To ask the Secretary of State for the Home Department whether he asked the Advisory Council on the Misuse of Drugs to assess the research carried out by Professor Robin Murray of the Institute of Psychiatry on the causal link between cannabis and schizophrenia. [159288]

**Caroline Flint:** The Home Secretary has not asked the Advisory Council on the Misuse of drugs (ACMD) to formally assess research carried out by Professor Robin Murray. Much of the research carried out by Professor Robin Murray was known to the Advisory Council on the Misuse of Drugs (ACMD) at the time it was producing its report on cannabis. The ACMD felt the research did not conclusively prove a causal link between cannabis and schizophrenia. The ACMD feel any new evidence produced since its cannabis report does not affect the overall weight of evidence or their conclusions that cannabis while still harmful, is less harmful than other drugs in Class B.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department (1) for what reasons evaluaton of the 2004 cannabis advertising campaign is only being conducted among 14 to 17-year-olds; [159307]

(2) which agencies bid for the 2004 cannabis advertising campaign. [159308]

**Caroline Flint:** It is important to focus our evaluation of the 2004 cannabis advertising campaign on 14 to 17-year-olds because they represent the priority audience for the Government in our overall aim to reduce drug misuse among young people. It is particularly important that under 18s understand the law because they will be arrested if found in possession of cannabis.

The agency 'Mother', which is the Home Office's incumbant agency for the drugs education campaign, FRANK, was retained for the reclassification of the cannabis campaign aimed at persons under 18. They had participated in a full competitive pitch through the COI's roster of preferred providers and had been awarded a contract in October 2002.

The joint Home Office Association of Chief Police Officers (ACPO) advertising campaign aimed at adults was commissioned through ACPO and was based on proposals they had developed with their own agency.

### Child Trafficking

**Sue Doughty:** To ask the Secretary of State for the Home Department if he will make a statement on the Government's strategy to *(a)* prevent child trafficking and *(b)* provide protection and support to the victims of child trafficking. [158227]

**Beverley Hughes:** The Government is committed to combating child trafficking, both in the UK and in source countries. I have recently established an informal ministerial group to improve further the Government's response to the trafficking of both adults and children.

The Department for International Development and the Foreign and Commonwealth Office raise awareness of trafficking in source and transit countries through bilateral and multilateral development programmes. These have included training for agencies working with victims of trafficking and work to raise awareness of trafficking.

Since 2000, all operational activity targeted against organised immigration crime, including people trafficking, has been co-ordinated through the multi-agency task force Reflex.

Led by the National Crime Squad (NCS), Reflex brings together all the key agencies, including the Immigration Service, the National Criminal Intelligence Service and key police forces. Reflex aims to build up the intelligence picture, co-ordinate operations and provide a focal point for the operational response to human trafficking and smuggling.

The Reflex strategy is, in part, based on seeking to disrupt activity as close to the source as possible. The development of an international network of Immigration Liaison Officers in countries that are considered to contain key nexus points for transit to the UK has been a key component of the Reflex strategy. Projects in source countries to prevent trafficking include working with law enforcement and government agencies to identify and disrupt trafficking networks and routes.

In addition, the UK is contributing to the EU five year funding programme AGIS which will fund projects to promote police and judicial co-operation on combating organised crime.

The Sexual Offences Act 2003 sets out wide-ranging offences covering trafficking for sexual exploitation with a maximum sentence of 14 years imprisonment. A new offence covering trafficking for non-sexual purposes, such as forced labour or removal of organs, is included in the Asylum and Immigration (Treatment of Claimants, etc.) Bill which is currently before Parliament, however, we have also tabled amendments in the House of Commons to ensue that the Bill gives adequate protection to victims of child slavery.

The Immigration Service has started specialist child interviewing training for around 600 operational members of staff nation-wide which will help identify child victims of trafficking as they arrive in the UK.

The Government has also published a best practice toolkit, available at www.crimereduction.gov.uk/toolkits, as a guide for professionals who are likely to come into contact with victims of trafficking. This includes specific sections on children and young people.

The Government is committed to providing appropriate support to victims of trafficking. Child victims of trafficking are likely to be in need of welfare services. Under the Children Act 1989 local authorities have a duty to safeguard and promote the welfare of children who are in need, by providing a range and level of services appropriate to those needs or arranging for their provision by other agencies. Assistance and support should therefore be provided by local statutory services in response to identified needs, whether directly or though specialist agencies.

The Green Paper Every Child Matters highlighted tackling child trafficking as a key challenge for children's services. It also sets out new arrangements to join up services at the local level to strengthen child protection.

### Coroners

**Mr. Fabian Hamilton:** To ask the Secretary of State for the Home Department what guidance coroners are given on being sensitive to the families of the deceased in cases where an inquest many be necessary and on doing all that is reasonably practicable to meet the acute needs of the bereaved. [159968]

**Paul Goggins:** All those involved in the coroner and death certification system are expected to approach bereaved families and friends of the deceased in a sensitive manner. The Fundamental Review of Death Certification and Coroner Services, and the Shipman Inquiry both (laid before Parliament last year) recommended a more involved role for the family of the deceased. The Home Secretary and I are considering the recommendations set out in these and other reports and are deciding on a programme of reform which will include proposals to make the system more sensitive to the needs of the bereaved. We plan to publish a position paper shortly.

### Corruption

**Malcolm Bruce:** To ask the Secretary of State for the Home Department if he will make a statement on *(a)* investigations and *(b)* prosecutions of individuals and companies for the offence of bribery of a foreign public official by the Metropolitan Police under (i) UK corruption laws and (ii) the Anti-Terrorism, Crime and Security Act 2001. [158308]

**Paul Goggins:** I am informed that the Metropolitan Police is currently investigating two allegations of bribery of a foreign public official. The Metropolitan Police is not responsible for the prosecution of offences.

There have been no prosecutions for the offence of bribery of a foreign public official since the enactment of part 12 of the ATCS Act which allows for extra-territorial jurisdiction over crimes of corruption committed abroad by UK nationals and incorporated bodies. The Home Office does not keep specific statistics on prosecutions of bribery of a foreign public official within the UK, although there is one reported case (R *v.* Raud 1989).

**Malcolm Bruce:** To ask the Secretary of State for the Home Department whether the *(a)* the UK Central Authority, *(b)* the National Criminal Intelligence Service and *(c)* the Metropolitan Police have received a request from the (i) French authorities, (ii) US authorities and (iii) Nigerian authorities for assistance into investigations of allegations involving payments by the consortium TSKJ in connection with the Bonny Island liquified natural gas plant in Nigeria. [158312]

**Caroline Flint:** It is the Home Office's practice to treat letters of request for assistance in criminal matters from foreign governments confidentially, as communications between two countries. We are normally therefore unable to confirm or deny that we have received a request.

However, the United Kingdom remains committed to assisting its international partners in the fight against corruption and bribery wherever possible.

### Disorder Penalties (Merseyside)

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department on how many occasions Merseyside police have issued penalty notices for disorder to 16 to 17-year-olds. [159597]

**Ms Blears:** The penalty notice for disorder scheme is in the process of being rolled out to all police forces in England and Wales. It is expected to be in place nationally by 1 April. Merseyside police commenced issuing penalty notices for disorder with effect from 1 March. Data are not yet available on penalty notices issued.

### Dog Theft

**Charles Hendry:** To ask the Secretary of State for the Home Department (1) what steps he is taking *(a)* to establish the extent of the problem of stolen dogs and *(b)* to co-ordinate a national strategy for dealing with the problem; [158725]

(2) what discussions his Department has had with *(a)* the police and *(b)* other countries concerning dog theft ; [158726]

(3) what plans he has to introduce a national dog register; [158727]

(4) what representations he has received concerning dog theft; and if he will make a statement; [158728]

(5) what steps he intends to take to ensure that instances of dog theft are properly investigated by the police; [158729]

(6) if he will introduce a time threshold after which a dog reported as being missing will be classified by police as stolen; [159493]

(7) if he will make it his policy to introduce passports for dogs travelling out of Britain to counter the problem of stolen dogs. [159494]

**Ms Blears:** There is no national strategy to counter dog theft. Where this emerges as a pressing local crime issue, it would be for the police, in consultation with the

Crime and Disorder Reduction Partnership, to take appropriate action. Statistics on the kidnapping of dogs are not held centrally.

### Driving Disqualification

**Simon Hughes:** To ask the Secretary of State for the Home Department how many individuals in Greater London were disqualified from driving in each of the last 10 years. [158448]

**Caroline Flint:** Available information up to 2001, which has been taken from the Home Office Court Proceedings Database is given in the table. Information for 2002 will be available early in the spring.

*Number of persons disqualified[1] from driving at all courts for motoring offences, within Greater London 1992–2001*

| *Year* | *Persons disqualified* |
|---|---|
| 1992 | 20,900 |
| 1993 | 26,400 |
| 1993 | 30,000 |
| 1995 | 17,100 |
| 1996 | 26,800 |
| 1997 | 26,300 |
| 1998 | 23,100 |
| 1999 | 21,100 |
| 2000 | 19,800 |
| 2001 | 20,900 |

[1] Includes persons disqualified under s. 35 of the Road Traffic Offenders Act 1988 (penalty points system).

### Driving Standards

**Mr. Chope:** To ask the Secretary of State for the Home Department how many *(a)* endorsements and *(b)* disqualifications were registered by the Driver Vehicle Licensing Agency against holders of GB driving licences in each of the last five years. [159789]

**Caroline Flint** *[holding answer 8 March 2004]:* Information is not collected centrally on the number of endorsements and disqualifications issued against GB driving licence holders.

Available data, given in the tables, shows the number of fixed penalty notices issued for endorsable offences and the number of offences where endorsements without disqualifications and total disqualifications were imposed at all courts within England and Wales from 1997 to 2001.

*Table A: Driving licence endorsements by type of action, England and Wales, 1997–2001*

*Number of offences*

| | *Type of action* | |
|---|---|---|
| | *Fixed penalty notices: issued for endorsable offences* | *Court proceedings (all courts): endorsements without disqualifications* |
| 1997 | 841,055 | 623,205 |
| 1998 | 902,640 | 622,734 |
| 1999 | 937,719 | 637,487 |
| 2000 | [1]1,101,490 | 626,317 |
| 2001 | 1,341,564 | 599,879 |

[1] Revised since publication of HOSB.

*Table B: Driving licence disqualifications imposed at all courts, England and Wales, 1997–2001*

| | *Number of offences where total disqualifications imposed* | *Persons disqualified under s.35 of the Road Traffic Offenders Act 1988 (penalty point system)* |
|---|---|---|
| 1997 | 161,267 | 31,120 |
| 1998 | 157,963 | 23,865 |
| 1999 | 156,099 | 34,210 |
| 2000 | 153,293 | 33,554 |
| 2001 | 165,044 | 30,079 |

### Drug Testing (Schools)

**Glenda Jackson:** To ask the Secretary of State for the Home Department what estimate he has made of the change in de-toxification and rehabilitation places which random drug testing in schools will require. [157818]

**Caroline Flint:** De-toxification and rehabilitation are appropriate only for those with established drug-dependency, which is very rare in young people of school age. It is therefore unlikely that random drug testing in schools will have a significant impact on demand for de-toxification and rehabilitation services.

**Glenda Jackson:** To ask the Secretary of State for the Home Department whether random drug testing in schools requires the agreement of *(a)* local and *(b)* community police officers. [157819]

**Caroline Flint:** It will be for individual schools to decide upon the scope of drug testing, if any, and to decision what action to take if there has been a breach of school drug policy or of the law. Random drug testing in schools does not require the agreement of the police.

Information is available through Drugs: Guidance for Schools, which is being sent to schools on 9 March.

### Drunk Driving

**Mr. Paul Marsden:** To ask the Secretary of State for the Home Department how many drivers were found to be in excess of the legal alcohol limit in each year since 1997. [159045]

**Caroline Flint:** Available information from 1997 to 2001 on the number of drivers who have been found to be in excess of the legal alcohol limit is given in the table. Statistics collected centrally do not distinguish between positive and refused tests.

Information for 2002 will be available in the Spring.

*Number of positive or refused breath tests, 1997–2001: England and Wales*

*Numbers*

| | *Number of positive or refused* |
|---|---|
| 1997 | 103,500 |
| 1998 | 102,300 |
| 1999 | 94,100 |
| 2000 | 94,600 |
| 2001 | 99,500 |

### Eastern European Immigrants

**Bob Spink:** To ask the Secretary of State for the Home Department what tests he will use to determine whether immigrants from Eastern European countries are eligible for immediate access to *(a)* benefits, *(b)* NHS treatment and *(c)* education following accession to the EU in May. [153095]

**Beverley Hughes:** As a result of the measures we announced on 23 February, nationals of the accession states (other than Cyprus and Malta) will be eligible for income-related benefits only if they have worked lawfully in the UK for a continuous period of 12 months. This restriction will apply for two years and may be extended. Those in work on a low income will be entitled to the normal work-related benefits.

From 1 May EU-wide reciprocal health rules will apply to the accession states. Temporary visitors from these states can access immediately necessary treatment but their home state will have to pay the bill. There will be no automatic entitlement to free treatment for pre-existing conditions unless the home country authorises and pays for that care.

Anyone who is deemed to be "ordinarily resident" in the UK, that is to say that they are living lawfully here for settled purposes, is entitled to receive free NHS care. People from accession states working here legally will therefore be entitled to the full range of NHS treatment free of charge along with all other residents.

Nationals from the accession states will be eligible for education as are nationals of existing EU states.

### Emergency Calls

**Mr. Stephen O'Brien:** To ask the Secretary of State for the Home Department what the average police response time to *(a)* grade one emergency 999 calls and *(b)* other 999 calls is, broken down by region; and what steps his Department is taking to ensure the effective prioritisation of 999 calls. [158844]

**Ms Blears:** This information is not collected centrally. Responsibility for prioritising calls and deciding the most appropriate time to respond to 999 calls lie with the chief officer in each police force area. However, the vast majority of forces are committed to attending to calls requiring an immediate response within 10 minutes for urban areas and 20 minutes for rural areas.

### EU Enlargement (Health Staff)

**Mr. Baron:** To ask the Secretary of State for the Home Department whether *(a)* midwives and *(b)* nurses from (i) Poland and (ii) other EU accession states will be able to work in the United Kingdom after accession. [156862]

**Beverley Hughes** *[holding answer 27 February 2004]:* Relevantly qualified midwives and nurses from Poland and other EU accession states will be able to work in the United Kingdom after accession.

All nationals from Poland, Czech Republic, Slovakia, Slovenia, Hungary, Latvia, Estonia and Lithuania who find work in the UK will be required to apply to register with the Home Office under the new 'Worker Registration Scheme' as soon as they find work.

### Fines

**Chris Ruane:** To ask the Secretary of State for the Home Department how many on-the-spot fines were issued in each police authority area *(a)* in total and *(b)* per 10,000 population since their introduction, listed in descending order of number per 10,000 population. [157703]

**Ms Blears:** Penalty notices for disorder were piloted in four police forces for a period of 12 months from August and September 2002. Five police forces were involved: the British Transport Police (in West Midlands area only), West Midlands and Essex Police (both forcewide), North Wales Police (initially in their Central Division and then forcewide from April 2003) and the Metropolitan Police (Croydon Division). During the pilots over 6,000 penalty notices were issued.

An evaluation report is being compiled and will be published. The report will provide a detailed breakdown of the penalty notices issued during the pilots.

The penalty notice for disorder schemes is currently being rolled out to all police forces in England and Wales and is due to be in place nationally by 1 April.

### Gambling

**Sue Doughty:** To ask the Secretary of State for the Home Department what assessment he has made of the change in the need for assessment and treatment of problem gambling among offenders consequent on the provisions of the draft Gambling Bill, with particular reference to young offenders. [158670]

**Paul Goggins:** No assessment has been made of any change in the need for assessment and treatment of problem gambling among offenders as a result of the provisions of the draft Gambling Bill.

### Home Curfew

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many offenders were placed on the Home Detention Curfew Scheme between January 1999 and 31 January 2004, broken down by *(a)* sex and *(b)* police authority. [159309]

**Paul Goggins:** Between January 1999 and 31 January 2004 there were around 78,600 males and 8,600 females placed on the Home Detention Curfew (HOC) Scheme.

Information on numbers placed on the HDC Scheme by police authority is not available.

### Illegal Immigrants

**Mr. Brazier:** To ask the Secretary of State for the Home Department how many illegal immigrants were *(a)* detected attempting to enter the UK clandestinely and *(b)* detected later in the country in each of the past five years. [147063]

**Beverley Hughes** *[holding answer 20 January 2004]:* The number of people against whom illegal entry action was initiated in each of the last five years for which information is available is shown in the table.

*Persons against whom illegal entry action was initiated 1998 to 2002*

| | *Number of persons* |
|---|---|
| 1998 | 16,500 |
| 1999 | 21,165 |
| 2000 | 47,325 |
| 2001 | 69,875 |
| 2002[1] | 48,050 |

[1] Provisional figures

Illegal entry action is initiated against those people who are detected entering the country clandestinely or by means of deception, either verbal or documentary.

Though the figures include those people who were identified as having entered the country clandestinely they are not separately identifiable, as such this information would only be available by examination of individual case-files at disproportionate cost.

The figures show a high level of activity in 2001 compared to the preceding and following years. This was caused by the large increase in asylum seekers in 2001.

Moreover, although numbers of people subject to illegal entry action fell by 31 per cent. in 2002 compared to 2001, the number of removals increased by 33 per cent. in the same period.

This information and other statistics on the immigration and asylum system are published annually in the Command publication "Control of Immigration: Statistics United Kingdom" a copy of which is in the House Library and can be found on the Home Office website http://www.homeoffice.gov.uk/rds/immigration1.html

**Mr. Lilley:** To ask the Secretary of State for the Home Department how many people were detected trying to enter the UK illegally in 2002; how many of them subsequently claimed asylum; how many were returned before claiming asylum; and how many were removed after their asylum claim was rejected. [152862]

**Beverley Hughes** *[holding answer 4 February 2004]:* Illegal entry action was initiated against 48,050 people in 2002. Illegal entry action is initiated against those people who are detected entering, or having entered the country clandestinely or by means of deception, either verbal or documentary.

Information on the number of these persons who subsequently claimed asylum, is not available and would be so by the examination of individual case-files only at disproportionate cost. Measures in the Asylum and Immigration (Treatment of Claimants etc.) Bill will make it more difficult for those who only applied for asylum after being notified of an immigration decision to have a credible claim..

This information and other statistics on the immigration and asylum system are published annually in the Command publication "Control of Immigration: Statistics United Kingdom", a copy of which is in the Library of the House.

### Accession Treaty Nationals

**Keith Vaz:** To ask the Secretary of State for the Home Department if he will make a statement on the United Kingdom's immigration policy in relation to applicant countries. [154481]

**Beverley Hughes** *[holding answer 12 February 2004]:* Under the Accession Treaty nationals from the 10 new member states joining the EU on 1 May will have the right to travel freely across the European Union allowing them to visit, live and study in any other member state.

The Treaty allows current member states to restrict freedom to work on eight of the 10 new member states for up to seven years from accession (Cyprus and Malta are exempt from the transition period).

In line with my right hon. Friend, the Home Secretary's announcement to the House of Commons on Monday 23 February, the Government have decided to allow free movement to those who genuinely want to come and work here via a workers registration scheme. They will be required to be self-supporting while they look for work.

From 1 May, nationals of the new member states will be able to enter the UK through the EU channel at ports of entry. They will be admitted to the UK on production of their national identity card or passport.

Workers from Poland, Lithuania, Estonia, Latvia, Slovenia, Slovakia, Hungary and the Czech Republic will be required to register with the Home Office as soon as they find work.

Once a national from one of these new member states has been lawfully working in the UK labour market for a continuous period of 12 months, they will gain full EU rights and will therefore no longer be subject to the workers registration scheme.

The remaining candidate countries (Bulgaria and Romania) are expected to join the EU by 1 January 2007, subject to meeting the EU acquis criteria. Until the date of accession, nationals from these countries will remain subject to full immigration control.

### Interception of Communications

**Norman Baker:** To ask the Secretary of State for the Home Department whether operations by law enforcement agencies involving the bouncing of radio beams off window panes to secure the content of conversations taking place within the room require prior approval through a warrant under the Interception of Communications Act 1985; what controls there are on the use of such technology; whether he requires to be notified in advance of each use of such equipment; and if he will make a statement. [158912]

**Caroline Flint** *[holding answer 5 March 2004]:* The Interception of Communications Act 1985 has been repealed by the Regulation of Investigatory Powers Act 2000 (RIPA). Part II of RIPA provides for the authorisation of covert surveillance, including surveillance carried out in relation to anything taking place in residential premises by means of a surveillance device. Where the device is not present on the premises, directed surveillance may be authorised—unless the device

consistently provides information of the same quality and detail as might be expected from a device actually present on the premises, in which case authorisation for intrusive surveillance should be granted.

Deployment of any surveillance device by law enforcement agencies must be lawful and undertaken only after consideration of necessity and proportionality of that deployment. The Secretary of State is not required to be notified. Authorisation of both intrusive and directed surveillance by law enforcement agencies is subject to independent oversight by the Office of the Surveillance Commissioners.

**Norman Baker:** To ask the Secretary of State for the Home Department whether access by law-enforcement agencies to conversations in a private place gained through the use of a person's mobile telephone as a transmitter constitutes an interception of communications requiring express authorisation by warrant. [158913]

**Caroline Flint** *[holding answer 5 March 2004]:* Part III of the Police Act 1997 and Part II of the Regulation of Investigatory Powers Act 2000 (RIPA) provide for the authorisation of lawful interference with property and wireless telegraphy, and for the authorisation of intrusive surveillance respectively. Authorisation of such conduct by law enforcement agencies is subject to independent oversight by the Office of the Surveillance Commissioner. Part I of RIPA provides for the warranted interception of communications only in the course of their transmission by means of a public telecommunications system.

### Munby Judgment

**Mr. Dawson:** To ask the Secretary of State for the Home Department with reference to the Munby Judgment, when he will provide a separate escort service for young people sentenced to custody. [154426]

**Paul Goggins** *[holding answer 11 February 2004]:* Although Mr. Justice Munby referred briefly to evidence relating to the escort service, he did not make any ruling or give any opinion whether a separate escort service for juvenile offenders was needed.

Escort services are provided by private companies under contract to the Prison Service (for those sent to Young Offender Institutions) and the Youth Justice Board (for those sent to secure training centres or local authority secure children's homes (LASCHs)). The secure training centre/LASCH escort service is exclusively for 12 to 17-year-olds. Those sent to Young Offender Institutions may be carried in vehicles with older offenders, but there are requirements in the contract to achieve separation from over-18-year-olds.

A tender exercise is currently under way for the next round of Prison Service escort contracts, which are due to commence in August 2004. The Prison Service has asked bidders to include the provision of separate vehicles for juveniles as an option in their bids. Whether this option is pursued will depend upon consideration of the bids as a whole.

Welfare clauses in the Prison Service escort contracts provide for those at risk. They emphasise the need for care and sensitivity with newly-remanded or -sentenced prisoners; and for recognition of religious and cultural needs and the needs of those with sensory impairment or disability or problems with communication. Handover procedures are designed to ensure that contractor's staff and other agencies communicate with each other about welfare issues. Operating procedures are kept under constant review; with a view to identifying and correcting weaknesses.

### Police

**Mr. Amess:** To ask the Secretary of State for the Home Department what the guidelines are for dealing with 999 calls for the police; and what he sets as the expected response time. [158785]

**Ms Blears:** There are no national guidelines for answering and responding to 999 calls. Responsibility for deciding the most appropriate time to answer and respond to 999 calls lies with the chief officer in each police force area. However, the vast majority of forces are committed to answering 999 calls within times ranging from five to 15 seconds and attending to calls requiring an immediate response within 10 minutes for urban areas and 20 minutes for rural areas.

**Mr. Oaten:** To ask the Secretary of State for the Home Department pursuant to his answer of 23 February 2004, *Official Report*, column 243W, on police, how many accidents in the last two years in *(a)* London and *(b)* England and Wales resulted in the vehicle being written off; and at what cost. [160210]

**Caroline Flint:** Information is not collected centrally on the number and cost of police vehicle accidents that result in a vehicle being written off.

### Policemen's Helmets

**Bob Spink:** To ask the Secretary of State for the Home Department what recent representations he has received on the design of policemen's helmets; and if he will make a statement. [159390]

**Ms Blears:** The traditional police helmet is currently subject to investigation as to whether the design can be modified to provide a greater level of protection. Alternative headgear is necessary to ensure compliance with Health and Safety legislation and a prototype designed to meet operational requirements is being trialled in three police forces (Dyfed Powys, Greater Manchester and Wiltshire) from 1 March for a period of three months. If the design performs satisfactorily, it is proposed to widen the trial from May to a further two forces (Thames Valley and Dorset).

The final design will be subject to approval by Ministers. It is not intended that it should replace the existing helmet, but will ensure that officers have appropriate headgear where specific risk assessment has shown it is necessary. It will be the responsibility of individual Chief Officers to decide when it is appropriate for the new headgear to be issued and worn.

### Prison Lavatories

**Mr. Godsiff:** To ask the Secretary of State for the Home Department how many *(a)* male and *(b)* female prisoners do not have access to lavatory facilities and rely on slopping out. [158109]

**Paul Goggins:** All prisoners in normal location accommodation have access to sanitation either by means of integral sanitation, electric unlocking, manual unlocking or open access.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department which prisons have sprinklers fitted in their residential areas. [157067]

**Paul Goggins** *[holding answer 27 February 2004]:* Only one prison (HMP The Weare) has sprinklers fitted in residential parts.

HMP The Wear is a floating structure and as such subject to the Safety of Life at Sea Regulations, which require sprinklers to be fitted.

### "Reducing Crime, Changing Lives"

**Mr. Martyn Jones:** To ask the Secretary of State for the Home Department what plans he has to give the Probation Service a new name following the publication of the Carter Report. [155612]

**Paul Goggins:** The structure of the National Offender Management Service is yet to be finalised and no immediate changes to the Probation Service are planned.

**Mr. Martyn Jones:** To ask the Secretary of State for the Home Department what representations he received from Napo following the publication of the Carter Report. [155615]

**Paul Goggins:** We have received a response from the National Association of Probation Officers to the request made in the "Reducing Crime—Changing Lives" document for views from stakeholders.

**Mr. Martyn Jones:** To ask the Secretary of State for the Home Department what reasons underlay his decision not to consult with Napo prior to publication of his response to the Carter Report. [155616]

**Paul Goggins:** Reducing Crime—Changing Lives sets out the Government's initial response to the Carter report.

My right hon. Friend the Home Secretary has sought and continues to seek views from stakeholders, including the National Association of Probation Officers, key on a number of issues relating to the effective management of offenders.

**Mr. Martyn Jones:** To ask the Secretary of State for the Home Department what assessment he has made of the implications for future *(a)* employment status, *(b)* job security, *(c)* pay and conditions and *(d)* collective bargaining arrangements for the Probation Service following the publication of the Carter Report. [155619]

**Paul Goggins:** The structure of the National Offender Management Service is yet to be finalised and no immediate changes are planned. Any future changes to terms of service will be subject to the usual consultation arrangement with staff and unions. Once this is done, the Department will put in place appropriate mechanisms to allow collective bargaining to take place.

### TETRA Masts

**Mr. Gibb:** To ask the Secretary of State for the Home Department what discussions he has had with O2 Airwave on the effect on television reception in the vicinity of TETRA masts following their switching on in *(a)* Bognor Regis, *(b)* Chichester, *(c)* Littlehampton and *(d)* Worthing. [158544]

**Ms Blears:** The Home Office has had no discussions with O2 Airwave on the potential effects of TETRA masts on TV reception. This is a matter for Ofcom, which is the regulatory authority on radio licensing and advises the public on interference problems.

### Vehicle Cruise Events

**Mr. Nigel Jones:** To ask the Secretary of State for the Home Department what advice is issued by his Department to chief constables on policing vehicle cruise events. [159162]

**Caroline Flint:** I recognise the problems that vehicle cruise events can generate and welcome the consideration given to the issue last year by the Association of Chief Police Officers' (ACPO) Road Policing Operations Forum. The ACPO policy is now to:

> encourage forces to work on understanding the website community through which illegal cruising events are organised;
>
> apply robust public order tactics to constrain the activity of any illegal cruises, including via the arrest of attendees causing a public nuisance and the seizure of their vehicles;
>
> support pro-actively alternative functions organised in accordance with local authority requirements for a public event; and,
>
> meet organisers of illegal cruises who are keen to move their hobby into a legal arena.

I am pleased that police forces are now adopting this policy. With effect from 1 January 2003, we have given police forces a power under the Police Reform Act to seize vehicles being driven either off-road without authority or on-road carelessly or inconsiderately, and in such a way as to cause alarm, distress or annoyance. We issued guidance at the time on this new provision, which a number of forces are using to tackle cruises.

**Mr. Nigel Jones:** To ask the Secretary of State for the Home Department if he will review the law relating to vehicle cruise events. [159163]

**Caroline Flint:** We believe the existing law is sufficient to deal with the problems to which vehicle cruise events give rise. We gave the police on 1 January 2003 new powers under section 59 of the Police Reform Act 2002 to seize vehicles being used anti-socially. I know that a number of forces have been successfully using these to deal with the problems caused by cruises.

**Mr. Nigel Jones:** To ask the Secretary of State for the Home Department what guidance he has issued to police authorities on monitoring of vehicle cruise events advertised on the internet. [159164]

**Caroline Flint:** I am aware that there has over several years been a developing youth culture of attending vehicle cruises. The activity has over 200 websites dedicated to it in the UK. I support the Association of Chief Police Officers (ACPO) policy to encourage forces to work on understanding the website community through which cruising events are organised.

### Vulnerable Prisoners

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what lessons have been learnt from the internal inquiries into serious incidents of self-harm by prisoners on the prevention of recurrences. [155245]

**Paul Goggins:** Serious incidents of self-harm are investigated at senior managers' discretion to identify the cause and lessons to be learned. Preventing recurrence is tackled at the individual level through care plans and case reviews.

In 2003, 30 in-depth interviews were carried out with prisoners who had survived a severe self-harm incident requiring resuscitation or treatment in outside hospital. The findings included: the importance of staff talking and listening to prisoners, proactive care for prisoners who feel unable to ask for help; increased in-cell and out-of cell 'distraction' activities; specialist support for prisoners with a history of abuse; flexible peer support; and reliable delivery of medication for mental health problems. This learning has informed a number of initiatives: quotes from the interviews in the development of Key Messages cards, posters and an information booklet for prison staff; the training of new prison officers; and development of the second phase suicide prevention strategy planned to be introduced soon.

More accurate self-harm data recorded since December 2002 is enabling closer analysis of trends at local, area and national levels. A number of intervention strategies have been introduced into establishments for people who self-harm. These include counselling, support groups, and specialised psychological interventions. A network of establishments has been set up to develop interventions, facilitate evaluation and share good practice, and an information booklet for staff on working with prisoners who self-harm has been circulated to establishments. A guidance document for managing and caring for prisoners who self-harm is being prepared.

### Work Permits

**Bob Spink:** To ask the Secretary of State for the Home Department how many work permits were issued in each of the last five years. [157456]

**Beverley Hughes:** The number of work permits issued in each of the last five calendar years is given in the table.

| | *Number issued* |
|---|---|
| 1999 | 60,743 |
| 2000 | 88,651 |
| 2001 | 120,823 |
| 2002 | 136,151 |
| 2003 | 145,351 |

### Young Offenders

**Charles Hendry:** To ask the Secretary of State for the Home Department which bodies are used to provide education within young offenders institutions. [158734]

**Paul Goggins:** 28 contractors currency provide Learning and skills for young offenders, most of which are colleges of further education. Young Offenders also benefit from the involvement of a wide range of voluntary and community organisations in learning activities. Some of these, such as the Prisoners' Education Trust, provide financial support for distance learning. Others, such as the YMCA, Clean Break Theatre Company and Writers in Prison Network are directly involved in providing learning services.

**Mr. Battle:** To ask the Secretary of State for the Home Department what the latest figure is of the cost per week of detaining a person in custody in a young offenders institution. [159510]

**Paul Goggins:** The average weekly cost of keeping someone in establishments categorised as young offender institutes during the financial year 2002–03 was £535.

**Charles Hendry:** To ask the Secretary of State for the Home Department what the average sentence served within young offenders institutions was in each year since 1997. [158732]

**Paul Goggins:** Table 3.14 of 'Prison Statistics England and Wales 2002' gives the average time served in prison under sentence by young offenders discharged from determinate sentences on completion of sentence or on licence, for the period 1997–2002. A copy of this publication is available in the House of Commons Library.

## TREASURY

### Asthma

**Mrs. Gillan:** To ask the Chancellor of the Exchequer how many deaths were caused by asthma in each year since 1 January 1996; and how many were caused by sudden onset attacks, broken down by *(a)* age, *(b)* sex and *(c)* health authority. [159784]

**Ruth Kelly** *[holding answer 8 March 2004]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Cheryl Gillan dated 9 March 2004:*

As National Statistician, I have been asked to reply to your recent question concerning how many deaths were caused by asthma in each year since 1st January 1996; and how many were caused by sudden onset attacks, broken down by *(a)* age, *(b)* sex and *(c)* health authority.

Numbers of total asthma deaths in England and Wales by sex and five-year age groups are published annually by the Office for National Statistics in the series "DH2, Mortality Statistics, Cause" The latest publication is for 2002 and copies of this, and earlier volumes, are in the Library of the House.

Asthma deaths caused by sudden onset attacks cannot be separately identified.

I am placing four tables in the House of Commons Library, showing the numbers of deaths from asthma in Strategic Health Authorities in England and for Wales since 1996.

These tables respectively show the number of deaths for *(a)* men, *(b)* women, *(c)* persons aged under 65 and *(d)* persons aged 65 and over.

### Census

**Mrs. Fitzsimons:** To ask the Chancellor of the Exchequer how the latest census was broken down by *(a)* ethnic origin, *(b)* age, *(c)* gender and *(d)* religion;

how many constituents in the Rochdale constituency fall into each category (i) in absolute terms and (ii) as a percentage of the total population; and what plans he has to revise classification categories. [157505]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mrs. Lorna Fitzsimons, dated 9 March 2004:*

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent question asking how the latest census was broken down by *(a)* ethnic origin, *(b)* age, *(c)* gender and *(d)* religion; how many constituents in the Rochdale constituency fall into each category (i) in absolute terms and (ii) as a percentage of the total population; and what consideration he has given to revising existing classification categories. (157505)

The classifications used in the 2001 Census output for ethnic origin, gender and religion are shown in the attached tables. Age ranges are presented in a variety of ways across the prospectus of Census outputs. For Parliamentary Constituencies, data are presented in quinary (five-yearly) age groups.

The requested information for Rochdale Parliamentary constituency is published in the "Census 2001 Report for Parliamentary Constituencies", and its accompanying CD, which includes both national and constituency level tables. A copy of this report is available in the House of Commons Library and is on the National Statistics website at: http://www.statistics.gov.uk/census2001/cn_70.asp

The National Statistics website also includes profiles of each local authority area from the 2001 Census. Further detail on the population profile of Rochdale local authority, including age and gender breakdowns, is available at: http://www.statistics.gov.uk/census2001/pyramids/pages/00bq.asp A more general profile of the Rochdale local authority area, including information on ethnicity and religion, is available at: http://www.statistics.gov.uk/census2001/profiles/00bq.asp

Updated National Statistics guidelines on the measurement and collection of ethnicity data were published in January 2004 and are available on the National Statistics website at: http://www.statistics.gov.uk/about/ethnic_group_statistics

These guidelines were produced after consultation with relevant government departments and other organisations, including the Home Office and the Commission for Race Equality. They reflect the need for a balance between the prime requirement for comparability with the 2001 Census while, at the same time, acknowledging the fact that classifications are never set in stone. In particular, the perceptions and descriptions of ethnicity are constantly evolving and it is important that the guidance is periodically reviewed to ensure that it reflects these shifts. The ethnic group question and classification will be reviewed in time for the 2011 Census. This process is likely to begin in 2005.

*Ethnic Group Classification*

*White*
- British
- Irish
- Other White

*Mixed*
- White and Black Caribbean
- White and Black African
- White and Asian
- Other Mixed

*Asian or Asian British*
- Indian
- Pakistani
- Bangladeshi
- Other Asian

*Black or Black British*
- Caribbean
- African
- Other Black

*Chinese or other ethnic group*
- Chinese
- Other Ethnic Group

*Religion Classification*

(People stating religion as:)
- Christian
- Buddhist
- Hindu
- Jewish
- Muslim
- Sikh
- Other religions
- No religion
- Religion not stated

*Gender Classification*
- Males
- Females

### Child Care Vouchers

**Chris Ruane:** To ask the Chancellor of the Exchequer what steps his Department has taken to publicise information on childcare vouchers to small and medium sized enterprises. [159268]

**Dawn Primarolo** *[holding answer 5 March 2004]:* The Inland Revenue will ensure that information and guidance to support the new tax exemption on child care vouchers is available to all employers before the changes are introduced in April 2005. Naturally, this will include all small and medium sized enterprises.

And, of course, the Chancellor himself has publicised the exemption by writing to all MPs on 16 December last year, and including an information sheet for Members to pass on to businesses in their constituencies.

### Child Tax Credit

**Mr. Goodman:** To ask the Chancellor of the Exchequer what the cost to his Department of administering *(a)* child care credit and *(b)* child tax credit was (i) in total and (ii) per claimant in the last year for which figures are available. [158078]

**Dawn Primarolo:** I refer the hon. Gentleman to the answer I gave to the hon. Member for Havant (Mr. Willetts) on 28 April 2003, *Official Report,* column 161W. On 30 January 2004 there were £6 million families in total benefiting from tax credits.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer (1) what the additional cost would be of raising the first threshold for those entitled to Child Tax Credit only for the year 2004–05 from £13,480 to £13,600; [159759]

(2) what the additional cost would be of raising the second income threshold for tax credits from £50,000 to £51,380; [159760]

(3) what the additional cost would be of raising the first income threshold for tax credits from £5,060 to £5,200; [159761]

(4) what the cost would be of raising the family element of the Child Tax Credit from £545 to £565 for 2004–05; [159762]

(5) what the cost would be of raising the family element of the Child Tax Credit to £1,130 for 2004–05. [159763]

**Dawn Primarolo:** I refer the hon. Member to table 4 "Direct effects of illustrative tax changes" on the HM Treasury website at http://www.hm-treasury.gov.uk/media//AAB24/pbr03_trr.pdf

The figures exclude any estimate of behavioural response to the tax credits changes.

**Mr. George Osborne:** To ask the Chancellor of the Exchequer (1) how much a family with a joint income before tax in 2004–05 of £52,000 will receive in child tax credit; and how much they would receive in child tax credit if the second income threshold was £51,380; [159764]

(2) how much a family with a joint income before tax of £14,000 in 2004 will receive in child tax credit; and how much they would receive if the first threshold for those entitled to child tax credit only was increased to £13,600; [159765]

(3) how much a family with a joint income before tax of £5,200 in 2004–05 will receive in tax credits; and how much they would receive if the first income threshold was £5,200. [159766]

**Dawn Primarolo:** The tax credit award a family receives depends on a variety of factors relating to their particular circumstances, not just their level of income.

### Company Car Tax

**Norman Baker:** To ask the Chancellor of the Exchequer for what reason a liquefied petroleum gas-powered vehicle is classified as a luxury option within the P11D form under the company car tax regime; and if he will make a statement. [157754]

**John Healey:** A liquefied petroleum gas (LPG) powered vehicle is not classified as a luxury option under the company car tax regime.

### Competitive Tendering

**John Mann:** To ask the Chancellor of the Exchequer what assessment he has made of best practice in the use of competitive tendering by Government departments. [159453]

**Mr. Boateng:** OGC is working with Departments to produce and update Best Practice and has provided extensive advice on the use of competitive tendering, in particular on evaluation using whole lifecycle cost approaches.

### Council Tax

**Mr. Beggs:** To ask the Chancellor of the Exchequer if he will introduce a non-means-tested council tax and rates relief scheme for over 70-year-olds. [159197]

**Mr. Boateng:** There are no plans to introduce a non-means-tested council tax relief and rates scheme for over 70-year-olds.

### Debt Relief/Trade Justice

**Mr. Drew:** To ask the Chancellor of the Exchequer what discussions he has held with *(a)* churches and *(b)* church leaders on debt relief and the campaign for trade justice. [159049]

**John Healey:** On 16 February, Lord Carey and Lord Griffiths hosted a conference on "Making Globalisation Work For All: The Challenge of Delivering the Monterrey Consensus" at the Treasury. The Chancellor of the Exchequer and the Secretary of State for International Development were among the keynote speakers at the conference which was attended by a number of church leaders and faith groups.

The conference brought together leaders from faith groups, NGOs, governments, businesses and universities to discuss how to make progress in meeting the Millennium Development Goals and eliminating global poverty. Debt relief and trade justice are central to improving growth and reducing poverty in developing countries, and the UK continues to call for the full implementation of the Heavily Indebted Poor Countries Initiative and for a strengthened commitment to ensure that trade liberalisation delivers poverty reduction.

The conference also focused on the need for extra resources to provide further debt relief, and for additional aid to improve the investment climate and help the private sector in developing countries respond to the new opportunities and challenges created by trade liberalisation. The UK's proposal for an International Finance Facility would provide the much-needed substantial increase in resources that debt relief alone would not achieve and that could be disbursed byway of grants and additional debt relief.

### Departmental Buildings (Asbestos)

**Malcolm Bruce:** To ask the Chancellor of the Exchequer what proportion of buildings occupied by *(a)* staff of the Department and *(b)* staff of the Department's executive agencies have been surveyed for the purpose of identifying the presence of asbestos prior to implementation of the Control of Asbestos at Work Regulations 2002. [159375]

**Ruth Kelly:** I refer the hon. gentleman to the answer given by my hon. friend the Economic Secretary to the Treasury on 10 June 2003, *Official Report*, column 745W.

### Departmental Secondments

**Mr. Drew:** To ask the Chancellor of the Exchequer how many officials from his Department have been seconded in each of the last five years to work in less developed countries, broken down by country. [159050]

**Ruth Kelly:** According to our records, since 1999 the Treasury has seconded one official to work for the Azerbaijan Finance Ministry. As part of our interchange programme, our officials also go on loan to other Government Departments and may be posted to other countries.

### Economic Activity (Lancashire)

**Mr. Hoyle:** To ask the Chancellor of the Exchequer what the economic activity rate in *(a)* Lancashire and *(b)* Chorley was in (i) 2002–03 and (ii) 1996–97. [157691]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Lindsay Hoyle dated 9 March 2004:*

As National Statistician. I have been asked to reply to your recent parliamentary Question on economic activity rates in Lancashire and Chorley. (157691)

The attached table shows the working age economic activity rates for Lancashire and the Chorley Local Authority District. The Chorley Parliamentary Constituency is identical to the Local Authority. The data cover the 12month period ending February 1997 and February 2002. Information for the 12 month period ending February 2003 is not yet available.

As with any statistical sample survey, estimates for the Labour Force Survey are subject to sampling variability.

*Working age[1] economic activity rates[2] for Lancashire and the Chorley LAD*
*12 month period ending February each year*

*Percentage*

| | 1996–97 | 2001–02 |
|---|---|---|
| Lancashire | 78.5 | 76.8 |
| Chorley LAD | 78.5 | 80.3 |

*Source:*
ONS Labour Force Survey
[1] Includes men aged 16–64 and women aged 16–59
[2] Economic activity rate is the percentage of the working age population who are either in employment or unemployed

### Emergency Protection Orders

**Mr. Andrew Turner:** To ask the Chancellor of the Exchequer (1) pursuant to the answer to the hon. Member for the Isle of Wight of 2 March 2004, *Official Report,* columns 852–53W, on Emergency Protection Orders, what the population was of each area listed as a county at the most recent date for which information is available; [159695]

(2) pursuant to the answer to the hon. Member for the Isle of Wight of 2 March 2004, *Official Report*, columns 852–53W, on Emergency Protection Orders, what the population was of the areas served by each family proceedings court at the most recent date for which information is available. [159696]

**Ruth Kelly** *[holding answer 8 March 2004]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Andrew Turner, dated 9 March 2004:*

As National Statistician I have been asked to reply to your questions concerning the most recent population of each county, and of the areas served by each family proceedings court. (159695,159696)

Attached is a table showing the mid-2002 population estimate of each area listed as a "county" in the Official Report, 2 March 2004, column 852W, in answer to your earlier question on emergency protection orders. These are primarily the former counties rather the current shire county administrative areas, for example in the table "Hampshire" includes Portsmouth, Southampton and the Isle of Wight as well as the current county area.

The Office for National Statistics does not produce mid-year population estimates for areas served by family proceedings courts.

*Total populations of 'county' areas[1]: all ages, mid-2002*

*Thousands*

| *Area* | *Persons* |
|---|---|
| England | 49,561.8 |
| Avon (Former County excl N Somerset and S Gloucestershire) | 551.2 |
| Bedfordshire (Former County) | 570.8 |
| Berkshire (Former County) | 803.6 |
| Buckinghamshire (Former County) | 688.5 |
| Cambridgeshire (Former County) | 716.3 |
| Cheshire (Former County) | 986.1 |
| Cleveland and Darlington | 639.1 |
| Cornwall and Isles of Scilly | 508.4 |
| Cumbria | 488.5 |
| Derbyshire (Former County) | 962.5 |
| Devon (Former County) | 1,082.3 |
| Dorset (Former County) | 696.3 |
| Durham | 492.3 |
| East Riding and North Lincolnshire | 471.2 |
| Essex (Former County) | 1,622.4 |
| Gloucestershire | 567.0 |
| Greater London | 7,355.4 |
| Greater Manchester | 2,513.5 |
| Hampshire (incl Isle of Wight and Former County) | 1,789.7 |
| Hereford and Worcester (Former County) | 722.4 |
| Hertfordshire | 1,036.1 |
| Humberside (Former County excl E Riding and N Lincolnshire) | 399.4 |
| Kent (Former County) | 1,589.3 |
| Lancashire (Former County) | 1,421.9 |
| Leicestershire (Former County) | 933.7 |
| Lincolnshire | 657.8 |
| Merseyside | 1,361.0 |
| N Somerset and S Gloucestershire | 435.8 |
| Norfolk | 802.8 |
| North Yorkshire (Former county) | 755.3 |
| Northamptonshire | 638.2 |
| Northumberland | 308.4 |
| Nottinghamshire (Former County) | 1,023.2 |
| Oxfordshire | 607.5 |
| Shropshire (Former County) | 445.8 |
| Somerset | 503.4 |
| South Yorkshire | 1,267.3 |
| Staffordshire (Former County) | 1,047.5 |
| Suffolk | 671.9 |
| Surrey | 1,059.9 |
| Sussex (incl East and West Sussex) | 1,500.0 |
| Tyne and Wear | 1,073.5 |
| Warwickshire | 512.7 |
| West Midlands | 2,575.8 |
| West Yorkshire | 2,089.2 |
| Wiltshire (Former County) | 616.9 |

[1] Areas as listed in *Official Report*, 2 March 2004, column 852W
*Source:*
Mid-2002 Population Estimates, Office for National Statistics

### Insurance Premium Tax

**Brian Cotter:** To ask the Chancellor of the Exchequer what plans he has to alter the rate of insurance premium tax. [159270]

**Ruth Kelly** *[holding answer 5 March 2004]:* As with all taxes, the future rates of Insurance Premium Tax are a matter for the Chancellor to consider as part of the Budget process.

### Lord Butler of Brockwell

**Mr. Gray:** To ask the Chancellor of the Exchequer pursuant to his answer of 27 February, *Official Report*, column 575–56W, when *(a)* Sir Nicholas Montagu KCB, Chairman of Inland Revenue, *(b)* Mr. Timothy Flesher CB, former Commissioner of Inland Revenue,

*(c)* Mr. Gabriel Makhlouf, former Director of Inland Revenue International Division and *(d)* Mr. Graham Dean, former Inland Revenue employee, was informed that Lord Butler of Brockwell had joined the advisory board of IBM UK; and who the Commissioner responsible for that department was in each year from 1996 97 to date. [159984]

**Dawn Primarolo:** Lord Butler's appointments are not a matter for the Inland Revenue. Sir Nicholas Montagu has been Chairman of the Board of the Inland Revenue since July 1997: his predecessor was Sir Anthony Battishill.

### LPG

**Miss McIntosh:** To ask the Chancellor of the Exchequer if he will reconsider his decision to change the duty on liquefied petroleum gas. [159325]

**John Healey:** I refer to my reply to the hon. Member for Castle Point (Bob Spink) of 1 March 2004, *Official Report*, column 690W.

### Ministerial Speeches

**Keith Vaz:** To ask the Chancellor of the Exchequer how many speeches *(a)* he and *(b)* the Chief Secretary to the Treasury made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156144]

**Ruth Kelly:** Treasury Ministers make a number of speeches on a wide range of domestic and international issues. The Chancellor's and Chief Secretary's speeches are available on the departmental website (www.hm-treasury.gov.uk).

### Money Laundering

**Brian Cotter:** To ask the Chancellor of the Exchequer what assessment he has made of the impact of new money laundering regulations on small firms of *(a)* accountants and *(b)* solicitors. [159251]

**Ruth Kelly:** The Money Laundering Regulations 2003, together with amending orders for the Proceeds of Crime Act 2002 and the Terrorism Act 2000, came into force from 1 March 2004.

A Regulatory Impact Assessment was placed in the House Library when the Regulations were laid, and this is also available on the Treasury website www.hm-treasury.gov.uk/media//4ADBC/fullriamlr03_80.pdf. The RIA contains details of cost estimates and changes to the draft Regulations in light of responses to the consultation undertaken, particularly with representatives of the businesses affected.

**Mr. Oaten:** To ask the Chancellor of the Exchequer what steps his Department is taking to *(a)* raise awareness of money laundering and *(b)* ensure businesses are compliant with the 2003 Money Laundering Regulations. [160199]

**Ruth Kelly:** The Government continues to raise awareness of money laundering and the controls needed to combat it. Examples of the work that the Government has undertaken to raise awareness include:

The National Criminal Intelligence Service (NCIS) publishes an annual UK Threat Assessment, which exposes the principal threats posed in the area of financial crime.

The Government have set up the Money Laundering Reporting Taskforce, which is tasked with working to improve communications with key stakeholders, including industry and consumers.

Last year the Treasury, Financial Services Authority and NCIS, in partnership with industry, published an information leaflet intended to gain greater public support in combating money laundering and terrorist financing. This leaflet continues to be distributed widely through financial service providers.

The Treasury expects to launch its money laundering strategy paper soon, which will outline the Government's strategy for tackling money laundering.

The Assets Recovery Agency provides regular updates on the progress in recovering the proceeds of crime.

The Government engaged in extensive formal and informal consultation with stakeholders over a long period of time prior to the production of the Money Laundering Regulations 2003. This included dialogue with representative bodies, such as the Law Society, The Consultative Committee of Accountancy Bodies, the Royal Institute of Chartered Surveyors and the British Casinos Association, who have regularly informed their members about the Money Laundering Regulations 2003. The Government are also aware that many of these bodies are producing guidance for their own industry on how to implement the Regulations, which they may choose to submit to the Treasury for approval.

The Government have been working with the Federation of Small Businesses and the Small Business Service to try to ensure that small businesses are aware of any implications that the Regulations may have for their business.

**Mr. Oaten:** To ask the Chancellor of the Exchequer what assessment he has made of the impact of the 2003 Money Laundering Regulations on small and medium-sized businesses. [160215]

**Ruth Kelly:** A Regulatory Impact Assessment (RIA) was placed in the House Library when the Money Laundering Regulations 2003 were laid, and this is also available on the Treasury website see www.hm-treasury.gov.uk/media//4ADBC/fullriamlr03_80.pdf. The RIA contains details of cost estimates and changes to the draft Regulations in light of responses to the consultation undertaken, particularly with representatives of the businesses affected. The Government have been working with the Federation of Small Businesses and the Small Business Service to try to ensure that small businesses are aware of any implications that the Regulations may have for their business.

**Mr. Oaten:** To ask the Chancellor of the Exchequer if he will list the businesses subject to the requirements of the 2003 Money Laundering Regulations. [160216]

**Ruth Kelly:** Regulation 2(2) of the Money Laundering Regulations 2003 sets out all those professions and activities that are covered by the Regulations.

### National Census

**Mrs. Fitzsimons:** To ask the Chancellor of the Exchequer how many people identified themselves as Kashmiri in the latest National Census; how many did so in Rochdale constituency; and how many public

sector bodies have requested the identification in the Census of the numbers identifying themselves as Kashmiri. [157857]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Len Cook to Mrs. Lorna Fitzsimons, dated 9 March 2004:*

As National Statistician and Registrar General for England and Wale have been asked to reply to your recent question asking how many people identified themselves as Kashmiri in the latest National Census; how many did so in Rochdale constituency; and how many public sector bodies have requested the identification in the Census of the numbers identifying themselves as Kashmiri. (157857)

People could identify themselves as Kashmiri in the 2001 Census by writing in that response against the ethnic group question on the Census form. The number of people who thus identified themselves as Kashmiri in England and Wales is 23,197 and in the Rochdale Parliamentary Constituency, 3,489.

Two public bodies have requested information on Kashmiris specifically.

**Mr. Hoyle:** To ask the Chancellor of the Exchequer if he will break down the latest census results by *(a)* ethnicity, *(b)* age, *(c)* gender and *(d)* religion for the (i) Chorley constituency and (ii) total population; and if he will make a statement on population growth in Chorley. [157974]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

*Letter from Len Cook to Mr. Lindsay Hoyle, dated 9 March 2004:*

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent question asking for a breakdown of the latest census results by *(a)* ethnic origin, *(b)* age, *(c)* gender and *(d)* religion for the (i) Chorley constituency and (ii) total population, and a statement on population growth in Chorley. (157974)

The information requested for both the Chorley Parliamentary constituency and England and Wales as a whole is available on the CD accompanying the published *Census 2001 Report for Parliamentary Constituencies*. The information for England and Wales as a whole is also available in the published *Census 2001 Key Statistics for local authorities in England and Wales* printed volume. Both these published volumes are available in the House of Commons Library and also on the National Statistics website at: http://www.statistics.gov.uk/census2001/cennews.aspat

The National Statistics website also includes profiles of each local authority area from the 2001 Census. Further detail on the population profile of Chorley local authority, including age and gender breakdowns, is available at: http://www.statistics.gov.uk/census2001/pyramids/pages/30ue.asp. A more general profile of the Chorley local authority area, including information on ethnicity and religion, is available at: http://www.statistics.gov.uk/census2001/profiles/30ue.asp.

With regard to the population growth of Chorley, please see the answer given in my previous answer (155307) giving mid-year population estimates for Chorley local authority, 1998–2002, the most recent years for which estimates are available. These showed that the population of Chorley has been growing in recent years.

### National Statistics

**Mr. Burstow:** To ask the Chancellor of the Exchequer if he will list the death rates for end stage renal failure in *(a)* England and *(b)* other European countries; and if he will make a statement. [159783]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Paul Burstow, dated 9 March 2004:*

As National Statistician I have been asked to reply to your recent Parliamentary Question on death rates for end-stage renal failure in England and other European countries. (159783)

Death rates for end-stage renal failure are not available as it is caused by a number of different diseases, including diabetes and infections, that damage the kidneys. Deaths will therefore be certified as due to one of these causes, so it is not possible to obtain reliable data on mortality from end-stage renal failure from the routine death registration system.

Age-standardised death rates for chronic renal failure, mentioned anywhere on the death certificate, are however available. These were 19.4 and 8.9 per 100,000 people for males and females respectively in England and Wales in 2002 (the latest year for which figures are available). Comparable figures are not readily available for other European countries.

Information on survival rates for patients receiving renal replacement therapy is available from the Euronean Dialysis and Transplant Association (EDTA) Registry. Their website address is: http://www.era-edta.org/erafset.htm

### Pre-tax Family Incomes

**Mr. George Osborne:** To ask the Chancellor of the Exchequer (1) how many families have incomes before tax of between £5,060 and £5,200; [159767]

(2) how many families have joint incomes before tax of between £50,000 and £51,380; [159768]

(3) how many families have joint incomes before tax of between £13,480 and £13,600. [159769]

**Dawn Primarolo:** Sample sizes from household income surveys for families with children with incomes before tax in each band are too small to yield reliable results. The information cannot be estimated from administrative data until all families with children receiving the tax credits have reported their 2003–04 income

### Rubies and Jadeite

**Vera Baird:** To ask the Chancellor of the Exchequer what the value of *(a)* rubies and *(b)* jadeite imported into the UK was in each of the past five years. [159883]

**John Healey:** HM Customs and Excise are responsible for the collection of data on imports. It is not possible to identify imports of rubies or jadeite, separately from other precious stones with which they are classified.

### Scottish Transport Group Dissolution Order

**Annabelle Ewing:** To ask the Chancellor of the Exchequer (1) what payments have been received from the Scottish Executive with respect to the Scottish Transport Group Dissolution Order; and on what dates; [160088]

(2) how much has been received to date by the Treasury with respect to the Scottish Transport Group pension fund. [160089]

**Mr. Boateng:** My right hon. Friend the then Secretary of State for Scotland announced on 13 February 2002, *Official Report*, column 364W a reduction in the 2001–02 Scottish Departmental Expenditure Limit of £50 million following the Scottish Transport Group Dissolution Order.

### Secondments

**Mr. Cousins:** To ask the Chancellor of the Exchequer what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156915]

**Ruth Kelly:** Since 2001, the Treasury has hosted the following secondments:

| *Organisation* | *Period* | *Directorate* |
|---|---|---|
| PricewaterhouseCoopers | 24 June 2003 to 24 October 2003 | Financial Regulation and Industry Directorate |
| Deloitte & Touche | 8 September 2003 to date | Public Services Directorate |
| Ernst & Young | 1 April 2003 to date | Budget and Public Finances Directorate |

Since 2001, the Treasury has seconded an official to KPMG from 8 September 2003 to date, to work in their Corporate Finance Department.

### Sudden Deaths

**Mr. Baron:** To ask the Chancellor of the Exchequer what action is being taken on *(a)* recording and *(b)* classifying sudden and unexpected death, where no cause of death can be detected at autopsy but where an underlying cardiac condition resulting in fatal cardiac arrhythmia is suspected. [159827]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. John Baron, dated 9 March 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question concerning the action being taken on *(a)* recording and *(b)* classifying sudden and unexpected death, where no cause of death can be detected at autopsy but where an underlying cardiac condition resulting in fatal cardiac arrhythmia is suspected. (159827)

All deaths in England and Wales that are sudden and unexpected must be referred to the coroner for investigation. It is the responsibility of the coroner to undertake any necessary investigations to ascertain the cause of death and to record the findings.

When the death is registered, the Office for National Statistics codes the cause according to the International Statistical Classification of Diseases and Related Health Problems. Currently the tenth revision of this classification is in use. If no precise cause is identified, but the certificate states that the death was sudden, it would be classified to R96, 'sudden death, cause unknown'. If a cardiac defect was identified on the certificate, the death would be classified under cardiovascular diseases, using the most precise and accurate code available for the identified condition.

Following publication in 2003 of the Third Report of the Shipman Inquiry and the Fundamental Review of Death Certification and the Coroner Service, the Government is committed to taking forward proposals for reform of the coroner and death certification service.

**Mr. Webb:** To ask the Chancellor of the Exchequer what his latest estimate is of the amount of overpayments of *(a)* child tax credit and *(b)* working tax credit made owing to official error; and if he will make a statement. [158769]

**Dawn Primarolo** *[holding answer 4 March 2004]:* As set out in its Code of Practice 'What happens if we have paid you too much tax credit?', the Inland Revenue will accept that an overpayment should not be recovered if it arose because of their mistake and the person could reasonably have thought their award was right. The total of overpayments during 2003–04 cannot be established until awards for that year are finalised. However, the Inland Revenue may accept during the year that the test of official error is satisfied and adjust payments accordingly. The overpayment will then be finally written off when the award is finalised.

### Unemployment (Wales)

**Mr. Martyn Jones:** To ask the Chancellor of the Exchequer how many unemployed people there are in Wales; and what the percentage change was in the last year in each constituency, listed in descending order of percentage reduction. [157663]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Len Cook to Mr. Martyn Jones, dated 9 March 2004:*

As National Statistician, I have been asked to reply to your recent Parliamentary Question about unemployment in Wales and its Parliamentary Constituencies. (157663)

In the three months ending in December 2003, there were an estimated 65,000 unemployed people aged 16 and over in Wales. Information on the levels of unemployment in each Parliamentary Constituency is not available as the Labour Force Survey sample is too small to give reliable estimates.

However, information is available on the number of people claiming Jobseeker's Allowance (JSA) in each Constituency in Wales. The total number of JSA claimants in Wales as a whole in January 2004 was 45,944. The attached table shows, for each Parliamentary Constituency in Wales, the percentage change in JSA claimants over the twelve month period ending January 2004.

*Percentage change from January 2003 to January 2004 in the number of claimants of Jobseeker's Allowance in Wales, by Parliamentary constituency*

| *Area* | *Percentage Change* |
|---|---|
| Wales | -9.1 |
| Caernarfon | -22.9 |
| Cerediglon | -19.6 |
| Wrexham | -18.0 |
| Cardiff South and Penarth | -15.7 |
| Clwyd South | -15.6 |
| Meirionnydd Nant Conwy | -15.3 |
| Vale of Glamorgan | -14.4 |
| Ynys-Mon | -13.3 |
| Llanelli | -13.1 |
| Newport East | -13.0 |
| Newport West | -12.5 |
| Blaenau Gwent | -12.0 |
| Gower | -11.4 |
| Vale of Clwyd | -11.1 |
| Clwyd West | -10.4 |
| Cardiff Central | -10.0 |
| Cardiff West | -10.0 |
| Carmarthen East and Dinefwr | -9.9 |
| Aberavon | -9.8 |
| Islwyn | -9.8 |
| Conwy | -9.4 |
| Alyn and Deeside | -8.2 |

Jobcentre Plus administrative system

### Valuation Office Agency

**Mr. Gray:** To ask the Chancellor of the Exchequer pursuant to the Answer of 27th February 2004, *Official Report*, column 579W, on the Valuation Office Agency, when the Valuation Office Agency made an enquiry of the Public Appointments Unit to seek suitable candidates for the position of non-executive director; how many of the four short-listed candidates were interviewed by the selection panel; and whether the position filled by Miss Grinstead was a new position. [160100]

**Dawn Primarolo:** The Valuation Office Agency approached the Public Appointments Unit in the latter part of 2001, and a list of potential candidates was supplied in November 2001. Of the four short listed candidates, three declined and one was interviewed. The non-executive post being filled was an existing position.

### Westminster Hall

**Bob Spink:** To ask the Chancellor of the Exchequer if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [159622]

**Ruth Kelly:** I refer the hon. Gentleman to the answer he received from the Leader of the House on 8 March 2004, *Official Report*, column 1234W.

# Written Answers to Questions

*Wednesday 10 March 2004*

## CONSTITUTIONAL AFFAIRS

### Asbestos

**Malcolm Bruce:** To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list the buildings occupied by his departmental and agency staff which require *(a)* remedial work on and *(b)* removal of asbestos; what this work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159651]

**Mr. Lammy:** My Department has 14 buildings that require remedial work and three buildings which require the removal of asbestos. These are:

*Remedial work*

Inner London Sessions House,
Royal Courts of Justice,
Technology and Construction Court,
Bow County Court,
Clerkenwell County Court,
Romford County Court,
Willesden County Court,
Woolwich County Court,
Ilford County Court,
West London County Court,
Edmonton County Court,
Brentford County Court,
Wandsworth County Court,
Shoreditch County Court

*Removal work*

Epsom County Court,
Swansea Crown Court (Guildhall),
Selborne House

The remedial works have a budget cost of £150,000 and the removal works a budget cost of £70,000. All remedial and removal works are scheduled to be completed by 31 March 2005. Future asbestos surveys will be funded from existing building maintenance budgets.

**Malcolm Bruce:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what proportion of buildings occupied by *(a)* staff of the Department and *(b)* staff of the Department's executive agencies have been surveyed for the purpose of identifying asbestos prior to the implementation of the Control of Asbestos at Work Regulations 2002. [159657]

**Mr. Lammy:** My Department will have had all of its HQ estate buildings surveyed for the purpose of identifying asbestos prior to the full implementation of the CAWR 2002. 72 per cent. of the Court Service estate has been surveyed to date with the balance due to be completed in the financial year 2004–05.

### Costs Orders

**Mr. Keetch:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what rules are set out regarding costs orders in relation to cases involving children; and if he will make a statement. [158955]

**Mr. Leslie:** The approach to costs contained in the Civil Procedure Rules 1998 now applies to all family proceedings, including private law proceedings relating to children. The court has discretion to make orders as to whether costs are payable by one party to another, and generally takes the approach that the unsuccessful party will be ordered to pay some or all of the costs of the successful party. The court may, however, make a different order and frequently will consider it appropriate to make no order for costs. In deciding what order, if any, to make about costs the court will consider all the circumstances of the case, including the conduct of the parties.

### Courts (London)

**Mr. Mark Field:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what discussions he *(a)* has had and *(b)* plans to have with representatives of the Greater London Magistrates' Court Association about court provision across London in advance of the formation of the unified courts authority in 2004; and if he will make a statement. [159466]

**Mr. Leslie:** I have had discussions with representatives from the Greater London Magistrates' Courts Authority (GLMCA) about court provision across London on 15 July 2003. Presently I have no further meetings arranged but would be happy to do so if required. Officials from my Department working in the Unified Courts Administration Programme have regular discussions with both the acting Justices' Chief Executive and other senior managers of the GLMCA on all matters including court provision.

### Ministerial Speeches

**Keith Vaz:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156152]

**Mr. Leslie:** The Ministerial Team at DCA made 84 policy speeches during this period. Those speeches where a transcript was available can be found on the DCA website at www.dca.gov.uk.

## WALES

### Asbestos

**Malcolm Bruce:** To ask the Secretary of State for Wales if he will list the buildings occupied by his staff which require *(a)* remedial work on and *(b)* removal of asbestos; what this work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159654]

**Mr. Touhig:** A complete asbestos survey of the Wales Office was conducted in 2002. The Wales Office is now compliant with 2002 regulations and no further work is required.

The cost of any future surveys or work required would be met from existing maintenance budgets.

**Malcolm Bruce:** To ask the Secretary of State for Wales what proportion of buildings occupied by his staff have been surveyed for the purpose of identifying the presence of asbestos prior to the implementation of the Control of Asbestos at Work Regulations 2002. [159659]

**Mr. Touhig:** The Wales Office arranged for a complete asbestos survey in 2002. Subsequently, all the recommendations of the survey have been undertaken, so the Wales Office is compliant with the 2002 regulations.

### Welsh Economy

**Mr. Martyn Jones:** To ask the Secretary of State for Wales if he will give a forecast for growth for the Welsh economy for the next three years. [157664]

**Mr. Hain:** Wales is seeing real economic growth, shown by increasing numbers of jobs; rising employment and falling unemployment; the third highest rise in earnings in Britain in 2002–03 and the progress made in closing the gap on economic inactivity.

Furthermore, Welsh GDP grew by 15.6 per cent. between 1997 and 2001

Based on this evidence and projections for UK growth Wales' economic growth seems set to continue in the future.

## TRANSPORT

### Asbestos

**Malcolm Bruce:** To ask the Secretary of State for Transport (1) if he will list the buildings occupied by his Department's staff, including agencies, which require *(a)* remedial work on and *(b)* the removal of asbestos; what that work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys; [159365]

(2) what proportion of buildings occupied by *(a)* staff of the Department and *(b)* staff of the Department's executive agencies have been surveyed for the purpose of identifying the presence of asbestos prior to implementation of the control of Asbestos at Work Regulations 2002. [159369]

**Mr. McNulty:** An updated list of the number of DfT properties identified as containing asbestos has been placed in the Libraries of the House. In terms of numbers of properties these represent some 20 per cent. of the total DfT estate but they mostly comprise small operational buildings.

The responsibility for taking action to comply with the requirements of the Control of Asbestos Work Regulations 2002 are delegated to the managers of the individual property centres within the Department. The action taken will depend on the nature of the property centres' occupancy of the buildings, whether or not asbestos has been found, where it is located and its quantity.

Although there are a number of buildings which do contain asbestos it does not follow that it poses a risk to staff or visitors because risks vary according to the type of asbestos present and how it is managed. Where asbestos has been found its existence has been entered onto asbestos registers and specialist consultants or contractors handle its management or removal.

Comprehensive information on the costs and budgets relating to asbestos surveys and works in each of the identified buildings and the nature of the works involved is not readily available without incurring disproportionate cost. However, we have identified that across the Department at least £204,500 has been allocated to be spent on remedial works and surveys during 2004–05.

### Rail Compensation

**Mr. Hancock:** To ask the Secretary of State for Transport what plans he has to change the compensation arrangements for rail passengers suffering *(a)* delays and *(b)* cancellations. [159593]

**Mr. McNulty:** Compensation for delays and cancellations to passengers will be paid under the conditions of each train operating company's Passengers Charter. In tendering for the renewal of franchises, the Strategic Rail Authority will ensure that the conditions of the train operator's Passengers Charter are subject to competitive pressure and will be taken into account in the franchise award evaluation criteria.

### Transport Spending

**Mr. Damian Green:** To ask the Secretary of State for Transport how much the Government have spent to date on the spending commitments set out in the 10-year plan on *(a)* roads, broken down by (i) strategic, (ii) local and (iii) London *(b)* railways, *(c)* London Underground and *(d)* all other transport; and if he will make a statement. [158235]

**Mr. McNulty:** Tables A2 and A3 of the Department's 2003 Annual Report (Cm 5907) provide data on transport spending from funds within DfT's Departmental Expenditure Limit (DEL). Spending on strategic roads is separately identified under 'Roads (includes Highways Agency)' whilst spending on local authority roads is included within the figures in the 'Transport in London' and 'Local Transport' lines. With the exception of funding for major road schemes in England out side London, it is a matter for local authorities to decide what proportion of their funding allocation is spent on roads. Outturn expenditure on local roads is published in the progress reports, accounts or other corporate documents of individual authorities but is not held centrally. Expenditure on railways, London Underground and other transport is separately identified in the Department's Annual Report.

In addition to funding provided from DfT's DEL, local authorities receive revenue funding for transport through ODPM's Formula Spending Share (FSS) process. We estimate that authorities spent approximately £2.76 billion of their FSS allocation on transport in 2001–02 and £2.83 billion in 2002–03.

## DEFENCE

### Continuous Attitudes Survey

**Angus Robertson:** To ask the Secretary of State for Defence (1) what questions concerning overstretch were asked in the 2003 editions of the Continuous Attitudes Survey for the *(a)* Royal Navy, *(b)* Army and *(c)* RAF; and if he will publish the answers; [160112]

(2) what questions concerning equipment were asked in the 2003 editions of the Continuous Attitudes Survey for the *(a)* Royal Navy, *(b)* Army and *(c)* RAF; and if he will publish the answers; [160113]

(3) what questions concerning contractualisation were asked in the 2003 editions of the Continuous Attitudes Survey for the *(a)* Royal Navy, *(b)* Army and *(c)* RAF; and if he will publish the answers; [160117]

(4) what questions concerning nationality were asked in the 2003 editions of the Continuous Attitudes Survey for the *(a)* Royal Navy, *(b)* Army and *(c)* RAF; and if he will publish the answers. [160118]

**Mr. Caplin:** Copies of the questions asked in the Services' Continuous Attitude Surveys are available in the Library of the House.

**Angus Robertson:** To ask the Secretary of State for Defence how many responses the Royal Navy Continuous Attitudes Survey received for the consultation round launched in September 2003; and if he will make a statement. [160114]

**Mr. Caplin:** In September 2003 the administration for the Royal Navy Continuous Attitude Survey (CAS) recorded the following: 2,000 Questionnaires were distributed, 107 were returned 'addressee unknown' and 946 were returned completed.

In September 2003 the administration for the Royal Marines CAS recorded the following: 1,027 Questionnaires were distributed, 23 were returned 'addressee unknown' and 409 were returned completed.

**Angus Robertson:** To ask the Secretary of State for Defence how many responses the Army Continuous Attitudes Survey received for the consultation round launched in December 2003; and if he will make a statement. [160115]

**Mr. Caplin:** The latest Army Serving Personnel Continuous Attitude Survey was distributed in December 2003 to 5,040 individuals. As at 4 March, 2,168 responses had been received.

### Eurofighter Typhoon

**Mr. Jack:** To ask the Secretary of State for Defence which *(a)* Ministers and *(b)* officials in his Department had meetings in the last nine months with BAE personnel to discuss the order for the Second Tranche of Eurofighter Typhoons; when the meetings took place; who attended; and what representations he has received from the other partners in this project on the ordering of Tranche II. [159497]

**Mr. Hoon:** Ministers and officials have had many meetings with BAE Systems personnel in the last nine months at which the order for the second Tranche of Typhoons has been discussed. Regular meetings have also taken place with our partner nations in the project as part of the ongoing commercial and international negotiations on the same subject.

### Forces (Overseas Postings)

**Mr. Hoyle:** To ask the Secretary of State for Defence how many *(a)* regular service and *(b)* Territorial Army personnel are serving overseas. [157851]

**Mr. Caplin:** Some 36,000 British service personnel are serving overseas, including some 1,200 members of the Territorial Army.

### Gulf War Illness

**Llew Smith:** To ask the Secretary of State for Defence pursuant to his answer of 23 February 2004, *Official Report*, columns 11–12W, to the hon. Member for Taunton (Mr. Flook), on Gulf War illness, if he will publish a description of the monitoring tests for depleted uranium to which he refers. [158259]

**Mr. Caplin:** The tests involve chemical processing of urine samples and analysis using inductive coupled plasma mass spectrometry. This reveals both the total concentration of uranium in the urine and the relative amounts of its two principal isotopes, 238U and 235U. The Depleted Uranium Oversight Board has judged that, taking into account experimental uncertainty, a 238U/235U ratio of 142 or higher indicates the presence of depleted uranium. A pilot exercise will soon be underway to evaluate the logistic arrangements for the testing process and to establish whether urine samples collected over a 24-hour period or single ("spot") samples are more appropriate. If reliable results can be obtained from spot samples, they will be used for the main testing programme as they are more convenient for the donor.

### Military Bases (Contamination)

**Norman Baker:** To ask the Secretary of State for Defence what studies have been commissioned by his Department into *(a)* the degree of contamination and *(b)* the prospects for remedial action at military bases in (i) the United Kingdom and (ii) dependent territories abroad. [158903]

**Mr. Caplin:** To date, over 500 Land Quality Assessments (LQA) have been prepared across the Defence estate since 1995 to identify the degree and extent of contaminated land, predominantly in the United Kingdom, but also in dependent territories such as Gibraltar and Cyprus. LQA identify potentially contaminative site activities. Studies are prioritised, e.g. on sites in proximity to vulnerable aquifers, or where contamination is known or suspected. This process determines remedial options.

Current Ministry of Defence policy is to undertake remediation of contaminated land where there is significant risk to human health or the environment and it is practical or necessary to remove all contamination from a site. This may be confined to the removal of radioactive contamination or other defence specific contaminants, wherein the MOD's environmental specialists (or specialist consultants) and the environmental regulators work closely together to establish the extent to which the land is to be decontaminated.

The MOD seeks to ensure compliance with relevant statutory environmental provisions and any additional requirements arising from international treaties and protocols to which the UK is a signatory. Overseas, the Department will apply UK standards where reasonably practicable and, in addition, comply with host nation standards. This ensures resources are used efficiently and land is being managed in the best interests of good environmental performance and sustainable development.

**Norman Baker:** To ask the Secretary of State for Defence (1) what studies his Department has commissioned on the levels of *(a)* toxic and *(b)* other pollution at military bases in the UK; and what publications his Department has issued in this respect since May 1997; [158904]

(2) how many locations there are where there is recorded contamination *(a)* at and *(b)* from military bases, broken down by (i) location, (ii) nature of contamination, (iii) remedial works taken or planned and (iv) the financial cost of contamination; and if he will make a statement. [158905]

**Mr. Caplin:** The information is not held centrally and could be provided only at disproportionate cost.

### Recruitment

**Matthew Taylor:** To ask the Secretary of State for Defence what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158195]

**Mr. Caplin:** This information is not held centrally and could be provided only at disproportionate cost.

## INTERNATIONAL DEVEOPMENT

### Afghanistan

**Mr. Ancram:** To ask the Secretary of State for International Development what steps his Department is taking to work with the governments of *(a)* Kazakhstan, *(b)* Turkmenistan, *(c)* Tajikistan and *(d)* Pakistan to stabilise wheat prices in Afghanistan; and what assessment he has made of the impact of wheat prices on stability within Afghanistan. [159503]

**Mr. Gareth Thomas:** We are working with the Afghan Government to assist them to build good relationships with all their neighbouring countries on a range of issues. To this end the Good Neighbourly Relations Declaration was signed in December 2002 between the Afghan Government and the six countries with which they share a common border. Discussions within this group encompass a range of issues, including trade.

Since the fall of the Taliban the cost of wheat in Afghanistan has fallen, partly due to aid agencies bringing in much needed food aid but also as a result of the break in the drought, which led to an 80 per cent., increase in the harvest. Discussions took place last year between my department, the Afghan Government and the aid agencies regarding the impact of wheat prices on the country. At that time it was noted that local purchase of wheat by aid agencies would increase its price and while this might have a positive impact for farmers it would also increase the market price for ordinary Afghans. The outcome of the discussions was a plan for WFP to procure 10,000 metric tons of wheat locally in 2004.

### Bilateral Aid

**Mr. Jenkins:** To ask the Secretary of State for International Development how much bilateral aid the UK gave to *(a)* Armenia, *(b)* Azerbaijan and *(c)* Georgia in 2003. [160082]

**Mr. Gareth Thomas:** The UK gave the following bilateral aid in 2003:

(a) Armenia: £1,933,221

(b) Azerbaijan: £182,730

(c) Georgia: £2,092,989

### Burundi

**Mr. Chidgey:** To ask the Secretary of State for International Development what measures are being taken to reduce the use of child soldiers in Burundi. [159040]

**Mr. Gareth Thomas:** The UK condemns unequivocally the use of child soldiers. We work closely with others in the international community including the UN to end the use of child soldiers. This includes support for a UNICEF programme to improve advocacy on the situation of children affected by armed conflict at all levels. The UK is also supporting a UN Security Council resolution on Children and Armed Conflict (currently under discussion) which calls on all parties to, inter alia, produce time-bound action plans to halt the recruitment and use of children in armed conflict.

We are working actively within the international community to achieve a full peace settlement in Burundi and the implementation of a comprehensive disarmament, demobilisation and reintegration programme. We have committed US $25 million for the Multi-Country Demobilisation and Reintegration Programme for the Great Lakes Region. A national child soldier reintegration project has begun to implement activities and to date 400 child soldiers have been demobilised. Funds from this will be used in Burundi for a special project managed by UNICEF to demobilise child soldiers and reintegrate them into their home communities.

### Commission for Africa

**Mr. Drew:** To ask the Secretary of State for International Development what payment will be made to those who will sit on the Commission for Africa; and how this will be funded. [159380]

**Hilary Benn:** Commissioners will not receive payment for sitting on the Commission for Africa. Travel and subsistence costs incurred on Commission work will be reimbursed from the budget allocated to the Commission by the Department for International Development.

### Jamaica

**Joyce Quin:** To ask the Secretary of State for International Development how much aid was given by the Government to Jamaica in each year since 1992, expressed in real terms. [159751]

**Mr. Gareth Thomas:** UK bilateral aid provided to Jamaica since 1992 is as follows:

*(Real terms 2002–03 = 100.00 total gross public expenditure)*

| | £ million |
|---|---|
| 1992–93 | 6.395 |
| 1993–94 | 7.959 |
| 1994–95 | 4.213 |
| 1995–96 | 12.042 |
| 1996–97 | 11.215 |
| 1997–98 | 3.573 |
| 1998–99 | 11.130 |
| 1999–2000 | 9.710 |
| 2000–01 | 8.945 |
| 2001–02 | 9.263 |
| 2002–03 | 10.708 |

The UK also provided aid to Jamaica through the multilateral agencies over this period. The imputed multilateral share is as follows:

| | £ million |
|---|---|
| 1992 | 1.0 |
| 1993 | 0.3 |
| 1994 | 3.7 |
| 1995 | 4.1 |
| 1996 | 6.2 |
| 1997 | 7.6 |
| 1998 | 9.9 |
| 1999 | 0.0 |
| 2000 | 4.5 |
| 2001 | 5.1 |

### Uzbekistan

**Tom Brake:** To ask the Secretary of State for International Development what progress Uzbekistan has made towards meeting the human rights goals set out by the European Bank for Reconstruction and Development. [159845]

**Mr. Gareth Thomas:** The European Bank for Reconstruction and Development (EBRD) is currently reviewing Uzbekistan's progress towards seven benchmarks for political and economic reform set out in the EBRD Strategy for Uzbekistan of March 2003. These include provisions in the area of human rights.

A mission of EBRD Directors recently visited Uzbekistan to review developments. They held discussions with the government, local and international NGOs, donors, local business and diplomatic community. The mission noted that some progress has been made on human rights, but much remains to be done. Detailed conclusions from the mission and the next steps for EBRD will be discussed by the full Board later this month.

## NORTHERN IRELAND

### Common Funding Formula

**Mr. Beggs:** To ask the Secretary of State for Northern Ireland when the Common Funding Formula will be introduced; what the reasons are for the delay in introducing it; and if he will make a statement. [157454]

**Jane Kennedy:** Following consultation with schools, which will be undertaken within the next few months, we aim to implement the Common Funding Formula in April 2005.

The decision to delay the implementation date for the introduction of new arrangements for funding schools was taken after very careful consideration of the issues and in particular the need to ensure that schools have sufficient opportunity to comment on the proposed outcomes. The consultation was due to commence in autumn 2003 but delays, including those related to the collation of verified data needed for this process, meant this would have provided very little time not only for schools to consider the details for this major change in schools funding but also for any issues arising to be fully considered.

The revised timetable offers the opportunity to take account of refinements needed as a result of the consultation process and of any changes which may be necessary in the future as a result of recommendations made by the Post-Primary Review Working Group a also the CCEA Review of the Curriculum.

### Fencing

**Kate Hoey:** To ask the Secretary of State for Northern Ireland whether *(a)* Lottery money and *(b)* public funds have been used, directly or indirectly, to send fencers representing the Republic of Ireland to (i) competitions in (A) Italy and (B) Germany, (ii) world championships and (iii) training camps in Eastern Europe. [158318]

**Angela Smith:** Both *(a)* Lottery money and *(b)* public funds, have been used to fund fencers who have represented the Republic of Ireland in (i) competitions in (A) Italy and (B) Germany, (ii) world championships and (iii) training camps in Eastern Europe.

**Kate Hoey:** To ask the Secretary of State for Northern Ireland how much funding the sport of fencing has received in Northern Ireland in each of the last five years. [158319]

**Angela Smith:** The sport of fencing has received the following Exchequer funding:

| | £ |
|---|---|
| 1999–2000 | 3,500 |
| 2000–01 | 3,500 |
| 2001–02 | 3,500 |
| 2002–03 | 7,525 |
| 2003–04 | 14,300 |

The sport of fencing has received the following Lottery funding:

| | £ |
|---|---|
| 1999–2000 | 18,000 |
| 2000–01 | 67,320 |
| 2001–02 | 9,720 |
| 2002–03 | 8,080 |
| 2003–04 | 14,240 |

**Kate Hoey:** To ask the Secretary of State for Northern Ireland how many fencers are on the Talented Athlete Next Generation programme in Northern Ireland. [158320]

**Angela Smith:** There are five fencers on the Talented Athlete Next Generation Programme.

**Kate Hoey:** To ask the Secretary of State for Northern Ireland how many fencers from Northern Ireland in receipt of United Kingdom Talented Athlete Funding have competed for a country other than the United Kingdom. [158321]

**Angela Smith:** There are no fencers in receipt of United Kingdom Talented Athlete funding that have competed for a country other than the United Kingdom.

### Funding

**Kate Hoey:** To ask the Secretary of State for Northern Ireland how much *(a)* lottery funding and *(b)* public funds have been allocated to Northern Ireland in each of the last five years. [158322]

**Angela Smith:** The Sports Council is responsible for the distribution of funding for sport in Northern Ireland. The total amount of *(a)* public funds and *(b)* lottery funding allocated by the Sports Council in each of the last five years is as follows:

| | £ |
|---|---|
| *Public funds* | |
| 1999–2000 | 2,406,970 |
| 2000–01 | 4,423,988 |
| 2001–02 | 3,536,324 |
| 2002–03 | 5,276,074 |
| 2003–04[1] | 7,472,075 |
| Total | 23,115,431 |
| *Lottery Funding* | |
| 1999–2000 | 7,218,436 |
| 2000–01 | 7,585,022 |
| 2001–02 | 8,254,768 |
| 2002–03 | 7,300,142 |
| 2003–04[2] | 5,111,326 |
| Total | 35,469,694 |

[1] Estimated to 31 March 2004

[2] 1 April 2003 to 31 January 2004

### Manufacturing (De-rating)

**Mr. Trimble:** To ask the Secretary of State for Northern Ireland what assessment he has made of the impact the phasing out of de-rating on manufacturing industries will have on *(a)* revenue, *(b)* profitability, *(c)* costs and *(d)* employment within the industry; and if he will make a statement. [157272]

**Mr. Pearson:** Our assessment on the likely impact of the phasing out of industrial de-rating on the manufacturing industry in Northern Ireland (NI) came from a variety of different sources; for example, studies by DTZ Pieda, Invest NI as well as evidence presented during the public consultation exercise in 2002 by the Enterprise, Trade and Investment and Finance and Personnel Assembly Committees, the CBI and local economists. The policy paper published in April last year included the Regulatory Impact Assessment, New TSN and Equality Impact Assessments. All this evidence was summarised, analysed and considered objectively and the various options were discussed openly with representatives of the business community before a final decision was made.

In terms of revenue, the estimated long-term yield from the rating of the manufacturing sector is around £55 million a year and I refer you to my earlier answer of 23 February 2004, *Official Report*, column 165W, for fuller detail.

In relation to the specific impact on profitability, costs and employment within the industry, a sudden withdrawal of de-rating could have a potentially detrimental impact on manufacturing business and this is why it is proposed to phase the removal of industrial de-rating from 1 April 2005 with businesses not paying full rates until April 2011. This lengthy phasing out period should ensure that no sustainable jobs are lost. Furthermore, the intention to introduce a hardship scheme that will apply to all businesses where exceptional circumstances exist and work on Government proposals to reduce electricity costs for business are further mitigating measures which will help manufacturing absorb the removal of de-rating.

### Money Advice

**Mr. Trimble:** To ask the Secretary of State for Northern Ireland what steps are being taken by the *(a)* Department of Enterprise, Trade and Investment and *(b)* Department of Social Development to modernise the provision of Money Advice; and if he will make a statement. [157271]

**Mr. Pearson:** The Consumer Strategy for Northern Ireland was published in March 2002. As a result, the Department of Enterprise, Trade and Investment commissioned research into the provision of a suitable framework for the delivery of effective money advice in Northern Ireland. This is now being taken forward within the context of the Department for Social Development's Information and Advice strategy, which is scheduled to be published for consultation in May 2004.

### Senior Civil Servant Pay

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland what the percentage pay award to Northern Ireland senior civil servants was which came into effect on 1 April 2003. [158634]

**Mr. Pearson:** The 2003 increase in pay bill cost for Senior Civil Servants in the 11 Departments of the Northern Ireland Administration was 5.37 per cent. The amount received by an individual depended on performance ranking and position on the payband. A separate pay system exists for the Senior Civil Service with increases made on the basis of recommendations made by the independent Senior Salaries Review Body. Unlike other staff groups the Senior Civil Service pay award process does not involve negotiations with trade unions.

### Sunbeds

**Lady Hermon:** To ask the Secretary of State for Northern Ireland how many public leisure facilities in Northern Ireland are equipped with sunbeds; what his Department's policy is on the provision of sunbeds in public leisure facilities in Northern Ireland; and what plans he has to phase out the use of sunbeds in public leisure facilities in Northern Ireland. [156949]

**Angela Smith:** There is no central register of facilities, including sunbeds, provided at public leisure centres and this information could be obtained only at disproportionate cost.

District councils have statutory responsibility for the provision of facilities for recreational, social, physical and cultural activities in their areas. The decision whether or not to provide sunbeds in public leisure centres is a matter for each council.

### Ulster Scots

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland, what margin of error is applied in Northern Ireland to measure demand for Ulster Scots. [159539]

**Angela Smith:** The 1999 Northern Ireland Life and Times Survey (NILT) sought to identify the percentage of the Northern Ireland population that spoke Ulster Scots. The questions used in this survey have a margin of error for all sample estimates within the parameters of ± 3 per cent.

An example is shown as follows:

| | *(%) speak Ulster Scots* | *Standard error of (%)* | *95% Confidence limits* |
|---|---|---|---|
| All | 2.0 | 0.30 | 1.4–2.6 |
| *Gender* | | | |
| Men | 2.7 | 0.56 | 1.6–3.8 |
| Women | 1.4 | 0.28 | 0.9–1.9 |
| *Age* | | | |
| 18–24 | 0.8 | 0.64 | 0–2.1 |
| 25–34 | 1.6 | 0.67 | 0.3–2.9 |
| 35–44 | 2.0 | 0.66 | 0.7–3.3 |
| 45–54 | 2.0 | 0.75 | 0.5–3.5 |
| 55–64 | 1.7 | 0.82 | 0.1–3.3 |
| 65+ | 2.9 | 0.83 | 1.3–4.5 |
| *Religion* | | | |
| Catholics | 1.2 | 0.35 | 0.5- 1.9 |
| Protestants | 2.1 | 0.43 | 1.3–2.9 |
| No religion | 3.4 | 1.19 | 1.1–5.7 |

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many attitudinal surveys he has received from bodies other than the Department of Education to measure the demand for the Ulster Scots language and culture in Northern Ireland; and from whom. [159561]

**Angela Smith:** I am aware of three exercises that have been carried out that might be termed attitudinal surveys to measure the demand for Ulster-Scots. These are:

Questions in the 1999 Northern Ireland Life and Times Survey (NILT),

Questions in the 2000 and 2001 Omnibus survey (RES) and

A research report undertaken in 2002 by Dunne, Dawson and Morgan.

## CULTURE, MEDIA AND SPORT

### Licensing Authorities

**Mr. Andrew Turner:** To ask the Secretary of State for Culture, Media and Sport if she will list for each licensing authority in England *(a)* the cost of and *(b)* the expenditure on liquor and entertainment licensing in the last 12 months for which figures are available; and for each prospective licensing authority and for England what estimate she has made of the annual (i) cost of and (ii) income from liquor and entertainment licensing after implementation of the Licensing Act 2003. [159876]

**Mr. Caborn:** No figures are kept centrally for the annual cost of, and the annual expenditure on, liquor and entertainment licensing by local authority area. Local authorities have no current responsibility for liquor licensing and fee income goes to the courts. The new arrangements under the Licensing Act 2003 will integrate six existing licensing regimes: liquor, public entertainment, theatre, cinema, late night refreshment and night cafe licensing. We estimate that the income from all these regimes collectively is about £36.8 million annually for England and Wales, if renewal fee income is spread across the period of the renewal (which varies). We estimate that the actual cost of the six regimes to the courts and local authorities involved is approximately £69.3 million annually. Estimates of future expenditure under the new arrangements set out in the Licensing Act 2003 are currently being considered. No final decisions have yet been taken about fee levels and these will affect total income. Fee levels will be set so as to permit full recovery of the costs of administration, inspection and enforcement associated with the licensing regime.

**Mr. Nigel Jones:** To ask the Secretary of State for Culture, Media and Sport what the timetable is for the transfer of licensing powers from magistrates to local authorities; when she intends to publish national guidance relating to the implementation of the Licensing Act 2003; and if she will make a statement. [159989]

**Mr. Caborn:** We will be laying the draft Guidance before both Houses for approval shortly. The start of

the transitional period, during which existing licence holders may apply to the licensing authorities to convert their existing licences to new premises licences and club premises certificates, is expected to be approximately six months after the date on which Parliament approves the Guidance. During this period of six months, licensing authorities will prepare and publish their statements of licensing policy. The transitional period is expected to last for nine months and, as a result, the Licensing Act is expected to be fully implemented by mid 2005.

### Private Finance Initiative

**Mr. Reed:** To ask the Secretary of State for Culture, Media and Sport how her Department's £150 million of PFI credits for the spending review period 2003–04 to 2005–06 are being allocated. [159951]

**Mr. Caborn:** DCMS is using its allocation of £150 million PFI credits for the spending review of 2003–04 to 2005–06 to support 16 PFI schemes in the following areas:

*£ million*

| *Nature of scheme* | *PFI credits allocated* | *Recipient authorities* |
|---|---|---|
| Community facilities (as part of wider schools projects, e.g. leisure facilities, theatre, library) | [1]26.594 | Sheffield borough council, Liverpool City council, Telford and Wrekin borough council, Croydon (London borough), South Tyneside council |
| Sports/Leisure | 60.097 | Brent council, Wolverhampton City council, Redbridge (London borough), Shepway district council, Rotherham borough council |
| Libraries/Archives | 67.277 | Oldham borough council, Cambridgeshire district council, Newcastle City council, Liverpool City council, Rochdale borough council |
| Theatre | 9.8 | Bournemouth borough council |
| Total | [2]163.768 | 16 PFI schemes |

[1] All joint funded with DfES.
[2] This figure is higher than £150 million PFI credits allocated within the 2003–04 to 2005–06 spending review as some additional credits were rolled over from the previous financial year. These were not allocated to one scheme in particular but were added to the overall sum available for allocation to new schemes during the 2003–04 to 2005–06 spending review.

### School Sports

**Mr. Reed:** To ask the Secretary of State for Culture, Media and Sport what plans her Department has to issue joint guidance with the Department for Education and Skills on the ideal specification for sports facilities for a secondary school. [159952]

**Mr. Caborn:** At present, Sport England publishes detailed guidance on developing sports facilities on school sites. The guidance deals with the inception, construction, and management of these facilities.

The Department will continue to work closely with the Department for Education and Skills and Sport England to consider what further steps should be taken to ensure that secondary schools are given appropriate guidance on the provision of sports facilities.

### Village Halls

**Dr. Murrison:** To ask the Secretary of State for Culture, Media and Sport what funding was given to village halls by the National Lottery in each year since its inception. [159676]

**Estelle Morris:** Since the introduction of the 1998 Lottery Act and changes to policy directions, we have encouraged distributors to work together to make Lottery funding more accessible and to support projects aimed at developing communities. Village halls and other community buildings encourage community spirit and help ensure the survival of many local interest groups.

There is currently no specific funding strand for village halls although many community buildings have benefited from National Lottery grants. The Community Fund is the main Lottery funder of community buildings and the following table shows the awards it has granted to community buildings since the start of the Lottery. In a stand alone programme, the Millennium Commission also awarded over £65.8 million to village halls and a breakdown is shown in the second table below. (This figure does not include urban community centres and includes the monies given to village halls as enhancement grants in 2003.) Other Lottery distributors have also awarded grants to village halls although these figures cannot be separately identified and displayed.

*Grants awarded by the Community Fund to projects involving community building*

| | *Applications* | *Amount requested (£)* | *Awards* | *Amount awarded (£)* | *Success rate (Percentage)* |
|---|---|---|---|---|---|
| 1995–96 | 250 | 11,983,973.00 | 31 | 1,194,336.00 | 12 |
| 1996–97 | 230 | 11,552,453.00 | 23 | 1,013,664.00 | 10 |
| 1997–98 | 702 | 60,412,623.00 | 175 | 9,266,546.00 | 25 |
| 1998–99 | 503 | 42,409,794.00 | 314 | 23,993,258.00 | 62 |
| 1999–2000 | 523 | 56,379,485.00 | 306 | 27,828,022.00 | 59 |
| 2000–01 | 497 | 66,603,473.00 | 196 | 21,292,221.00 | 39 |
| 2001–02 | 435 | 59,909,111.00 | 158 | 17,085,082.00 | 36 |
| 2002–03 | 457 | 58,776,770.00 | 142 | 14,420,027.00 | 31 |
| 2003- | 179 | 39,278,168.00 | 64 | 5,850,851 .00 | 36 |
| Total | 3,776 | 407,305,850.00 | 1,409 | 121,944,007.00 | 37 |
| Awards for all | 4,510 | 17,202,623.00 | 3,100 | 11,763,805.00 | 69 |
| Grand total | 8,286 | 424,508,473.00 | 4,509 | 133,707,812.00 | 54 |

*Grants awarded by the Millennium Commission to village hall projects*

| | £ |
|---|---|
| 1995 | 6,583,774 |
| 1996 | 35,390,498 |
| 1997 | 21,046,235 |
| 1998 | 1,431 ,924 |
| Subtotal | 64,452,431 |
| 2003 | 1,426,648 |
| Grand total | 65,879,079 |

### Websites

**Mr. Heald:** To ask the Secretary of State for Culture, Media and Sport what the total annual cost of her Department's websites, including those of its agencies, was in the most recent year for which figures are available. [159517]

**Mr. Caborn:** The total annual cost in 2003–04, covering all 12 of the Department's websites and that of the Royal Parks Agency, was £62,000 including VAT.

### Westminster Hall

**Bob Spink:** To ask the Secretary of State for Culture, Media and Sport if she will make it her policy to have senior Ministers reply to debates in Westminster Hall. [159612]

**Mr. Caborn:** I refer the hon. Member to the answer given by my right hon. Friend the Leader of the House on 8 March 2004, *Official Report*, column 1234W.

## TRADE AND INDUSTRY

### Business Link

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 27 February 2004, *Official Report*, column 588W, on Business Link, what the value is of the contracts offered by the Small Business Service to *(a)* BL Derbyshire, *(b)* BL Tees Valley and *(c)* BL Bedfordshire; and if she will make a statement. [158878]

**Mr. Timms:** The value of the Business Link Operator (BLO) Core Service funding allocation for 2003–04 is as follows.

| | £ |
|---|---|
| BL Derbyshire | 2,502,742 |
| BL Tees Valley | 1,460,480 |
| BL Bedfordshire | 1,515,800 |

I have nothing further to add to my hon. Friend's answer of 27 February 2004, *Official Report*, column 588W.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what plans she has to make available the independent audit reports of Business Link operators. [157225]

**Nigel Griffiths:** The independent audit reports of Business Link Operators are commercially restricted.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry which Business Link Operators have been required to undergo a business performance review. [157226]

**Nigel Griffiths:** Further to the five Business Link Operators named given to the hon. Member on 27 February 2004, *Official Report*, columns 588–89W, the following Business Link Operators have also been required to undergo a Business Performance Review:

BL Leicestershire

BL Northamptonshire Chamber Business Enterprise (Manchester)

BL South Yorkshire.

### Business Statistics

**Mr. Llwyd:** To ask the Secretary of State for Trade and Industry how many new businesses have been registered in *(a)* London and *(b)* Wales, broken down by local authority, in each of the past three years. [158037]

**Nigel Griffiths** *[holding answer 3 March 2004]:* The official measure of business start-up activity in the UK is VAT registrations. However, businesses are unlikely to be registered if they fall below the compulsory VAT threshold which has risen in each year since 1997. Only 1.8 million out of the estimated 3.8 million enterprises in the UK were registered for VAT in 2002.

Value Added Tax (VAT) registration data are available up to 2002. Data for 2003 will not be available until autumn 2004.

VAT registration rates per 10,000 resident adults (aged 16 and over) are shown to allow fair comparisons between areas. The numbers and rates of businesses registering for VAT in each London borough and Welsh unitary authority, in each calendar year are as follows:

*VAT registrations*

| | *Number* | | | *Rate per 10,000 resident adults* | | |
|---|---|---|---|---|---|---|
| | *2000* | *2001* | *2002* | *2000* | *2001* | *2002* |
| United Kingdom | 184,035 | 174,620 | 175,800 | 39 | 37 | 37 |
| London | 37,760 | 34,385 | 33,490 | 67 | 59 | 57 |
| Inner London | 20,955 | 18,820 | 18,195 | 96 | 82 | 78 |
| City of London | 1,460 | 1,110 | 1,015 | 2,345 | 1,653 | 1,428 |
| Camden | 2,260 | 1,910 | 1,910 | 142 | 112 | 110 |
| Hackney | 1,230 | 1,035 | 1,025 | 81 | 65 | 63 |
| Hammersmith and Fulham | 1,250 | 1,205 | 1,100 | 94 | 85 | 75 |
| Haringey | 985 | 910 | 840 | 58 | 51 | 46 |

*VAT registrations*

| | *Number* | | | *Rate per 10,000 resident adults* | | |
|---|---|---|---|---|---|---|
| | *2000* | *2001* | *2002* | *2000* | *2001* | *2002* |
| Islington | 1,380 | 1,245 | 1,230 | 97 | 84 | 82 |
| Kensington and Chelsea | 1,330 | 1,025 | 1,095 | 105 | 74 | 78 |
| Lambeth | 920 | 895 | 925 | 43 | 40 | 42 |
| Lewisham | 640 | 640 | 575 | 33 | 32 | 28 |

## Defence Exports

**Mr. Cousins:** To ask the Secretary of State for Trade and Industry what representations she has made to the US Administration about *(a)* requirements to produce US defense equipment in the USA, *(b)* restrictions on foreign content in defence exports with military sales support, *(c)* technology export controls and *(d)* limits on control of US subsidiaries by UK companies; and what the outcome of such representations has been. [157050]

**Mr. Hoon:** I have been asked to reply.

Ministerial colleagues and I expressed concerns last year about legislative proposals before Congress to impose further restrictions on overseas procurements to meet the United States' defense requirements. The legislation subsequently enacted did not include the proposals of most concern to us. Steps are regularly taken to press the case for United Kingdom companies to receive fair access to programmes for the supply of US-sourced equipment for third parties under foreign

military sales arrangements. The licensing of US technology for export to the UK has been discussed with the US Administration in the context of proposals for a UK waiver from the International Traffic in Arms Regulations.

On this I refer my hon. Friend to the answer I gave on 18 December 2003, *Official Report*, column 1066W. The matter of controls on foreign investment in the US has recently been raised with the US Administration by DTI Ministers. The Administration has given reassurances that the US would take proper account of the UK/US relationship in their case-by-case consideration.

### Iraq

**Sir Menzies Campbell:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 23 February 2004, *Official Report*, column 54W, on Iraqi oil, if she will list, by month, *(a)* the volume of Iraqi oil sold since May 2003, *(b)* the amount paid for the oil and *(c)* the amount received by the Development Fund for Iraq; and if she will make a statement. [158145]

**Mr. Timms** *[holding answer 9 March 2004]:* Information on the amount of Iraqi oil produced each month is given in Table 1 as follows. Information on the amount paid for the oil is not publicly available. As of 4 March 2004, US $6.15 billion of oil proceeds had been received by the Development Fund for Iraq. This information is available through the CPA website at www.cpa-iraq.org/budget/DFI_intro1.html

*Table 1: Iraqi oil production*

*Million barrels per day*

| | *Net production*[1] |
|---|---|
| May 2003 | 0.28 |
| June 2003 | 0.44 |
| July 2003 | 0.70 |
| August 2003 | 1.11 |
| September 2003 | 1.41 |
| October 2003 | 1.58 |
| November 2003 | 1.92 |
| December 2003 | 1.97 |
| January 2004 | 2.04 |

[1] Estimated Iraqi oil supply net of re-injected crude oil.

*Source:*
International Energy Agency

**Sir Menzies Campbell:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 23 February 2004, *Official Report*, column 54W, on Iraqi oil, on what basis Iraqi oil has been sold other than on a spot basis; to whom the oil has been sold; and if she will make a statement. [158146]

**Mr. Timms** *[holding answer 9 March 2004]:* Iraqi oil is sold by two other means, in addition to that sold on a spot basis.

The first is through tendered cargoes by which "parcels" of crude are advertised for sale and for which sealed priced bids are made. The second is through long-term agreements whereby certain regular buyers of Iraqi oil agree to buy a given volume of Iraqi oil at a pre-agreed sale price. These buyers may also be offered additional volumes at the same price should there be excess production.

The Iraqi State Oil Marketing Organisation (SOMO) is responsible for the sale of oil on behalf of the Ministry of Oil.

**Mr. Chidgey:** To ask the Secretary of State for Trade and Industry how many contracts for reconstruction projects in Iraq have been awarded to each British company to have won such a contract; and what the total value is of such contracts. [159003]

**Mr. Mike O'Brien:** Because of the large number of different organisations involved it has become increasingly difficult to maintain a clear picture of the total volume of contracts awarded, and the cumulative value of these contracts. Numerous British companies have been awarded contracts and sub-contracts for the reconstruction process in Iraq but some have asked us not to publicise their success because of issues of commercial confidentiality. As such, we are not able to put a value on the contracts awarded and the fact that many are involved in partnership with American, Iraqi and other companies.

### Nuclear Decommissioning Authority

**John Robertson:** To ask the Secretary of State for Trade and Industry what relationship she envisages between the Nuclear Decommissioning Authority and Nirex. [159023]

**Mr. Timms:** My right hon. Friend the Secretary of State for Environment, Food and Rural Affairs has announced that the Government are giving consideration to the future of Nirex. It will only be possible to set out definitively the relationship between Nirex and the Nuclear Decommissioning Authority once this consideration has been completed.

### Regional Venture Capital Funds

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what action her Department is taking to attract corporate investment in regional venture capital funds. [157210]

**Mr. Timms:** In order to enable Fund Managers to attract private sector investors, the Government subordinated its investment position in the Regional Venture Capital Funds (RVCFs). This has allowed around £74 million of Government investment to lever an additional £176 million from private sector investors, some of whom were corporate investors.

**Mr. Cousins:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 12 February 2004, *Official Report*, column 1628W, to the hon. Member for Eddisbury (Mr. O'Brien) on the Regional Venture Capital Fund, what the regional breakdown by *(a)* number and *(b)* value is of the regional venture capital fund investments; and what proportion of the funds have been drawn down in each region. [157000]

**Nigel Griffiths:** As at 31 January 2004, the nine Regional Venture Capital Funds had made 112 investments in 87 small businesses, totalling over £21 million. Details of the numbers of investments made in each region are contained in the table.

£

| RVCF | Total investments Number | Total investments Amount | Total fund size | DTI investment commitment | Drawn down from DTI as at 31 January 2004 |
|---|---|---|---|---|---|
| London | 10 | 2,250,000 | 50,000,000 | 15,000,000 | 2,950,000 |
| East Midlands | 19 | 3,245,047 | 30,000,000 | 9,000,000 | 3,650,000 |
| North East | 23 | 3,321,882 | 15,000,000 | 4,500,000 | 4,200,000 |
| West Midlands | 11 | 1,720,000 | 20,000,000 | 6,000,000 | 1,850,000 |
| South West | 4 | 1,000,000 | 25,000,000 | 7,500,000 | 1,000,000 |
| Yorkshire and Humber | 4 | 1,000,000 | 25,000,000 | 10,000,000 | 1,050,000 |
| South East | 27 | 6,100,000 | 30,000,000 | 7,500,000 | 7,050,000 |
| North West | 14 | 2,446,333 | 35,500,000 | 8,875,000 | 4,187,500 |
| East of England | 0 | 0 | 20,000,000 | 6,000,000 | 600,000 |

### Spam E-mails

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry what measures she plans to help those who receive spam to block spam e-mails from their systems. [159749]

**Mr. Timms:** Effective blocking and filtering are a key part of the solution to spam. My Department is looking at ways of building up a stronger dialogue with internet service providers and other stakeholders about the deployment of network based spam blocking and filtering systems, and the education of users about the steps they can take to avoid spam. Our most recent initiative was the launch last year of an online source of information on e-security. This resource draws together a range of tools, advice and guidance on core areas of information security, including spam, and is aimed particularly at smaller businesses. New content is currently being added to this site which can be found at www.ukonlineforbusiness.gov.uk/informationsecurity.

The Government believe that the problem of spam needs to be tackled in the longer term by a combination of regulation, international cooperation, industry action and user awareness. The UK implemented new EU rules on the sending of unsolicited commercial e-mail here in December last year and we are playing a leading role in the development of international work on how to tackle crossborder spam.

### Small Business (Rochdale)

**Mrs. Fitzsimons:** To ask the Secretary of State for Trade and Industry what central Government support the small business sector has received in the constituency of Rochdale in each year since 1996. [157506]

**Mr. Timms:** The constituency of Rochdale has benefited from the following funding from central Government.

*Business Link Core Funding*[1]

| | SBS Core Funding for Business Link for North Manchester (£) |
|---|---|
| 2003–04 | 2,868,225 |
| 2002–03 | 2,925,330 |
| 2001–02 | 2,661,103 |

[1] Business Link for North Manchester includes four other local authority areas in addition to Rochdale.

| L/A/Financial year | Number of offers | Total grant offered | Total project costs | Jobs to be created | Jobs Sfgd |
|---|---|---|---|---|---|
| 1996–97 | 29 | 1,198,000 | 9,160,899 | 274 | 116 |
| 1997–98 | 9 | 249,000 | 2,541,360 | 70 | 15 |
| 1998–99 | 14 | 959,500 | 7,878,023 | 217 | 84 |
| 1999–2000 | 7 | 929,000 | 10,619,376 | 117 | 293 |
| 2000–01 | 5 | 920,000 | 9,466,448 | 226 | 20 |
| 2001–02 | 3 | 380,000 | 3,329,350 | 82 | 18 |
| 2002–03 | 0 | 0 | 0 | 0 | 0 |
| 2003–04 | 1 | 249,000 | 2,369,000 | 77 | 0 |
| Total | 68 | 4,884,500 | 45,364,456 | 1,063 | 546 |

*Enterprise Grant Scheme*

From January 2000–04

24 offers

Total amount £912,300.

*Smart/Research and Development*

From January 2000–04

7 offers

Total amount £586,263.

### Regulatory Impact Assessments

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what work is being done to improve the quality of regulatory impact assessments carried out in her Department. [155324]

**Nigel Griffiths:** The Cabinet Office published updated guidance on regulatory impact assessments (RIA) in January 2003, which built on lessons learnt since the system of RIA was first introduced in 1998. The Department is promoting the application of the guidance to help improve the quality of RIAs produced by this Department.

### TETRA Contract

**Paul Flynn:** To ask the Secretary of State for Trade and Industry what assessment she has made of the termination by the Austrian Government of the TETRA contract for the ADONIS nationwide radio communication network in June 2003; and what factors will be taken into account when a decision is made on the Firelink contract in the United Kingdom. [156979]

**Mr. Timms:** The decision by the Austrian Government to terminate their TETRA contract is entirely a matter for them.

The Office of the Deputy Prime Minister is responsible for placing the contract for the Firelink project. The evaluation criteria for the Firelink procurement will take into account the operational requirements and commercial aspects set out in the invitation to submit proposals. The successful bidder would also have to comply with all relevant UK planning, environmental and safety regulations.

## CABINET OFFICE

### Civil Servants (Company Directors)

**Mr. Heald:** To ask the Minister for the Cabinet Office how many civil servants in his Department are directors of companies. [159343]

**Mr. Alexander:** The rules on civil servants and directorships are set out in paragraph 4.3.9 of The Civil Service Management Code, a copy of which is in the Library of the House.

Details of any civil servants who may hold an outside directorship will be held on an individual's personnel file. Such information is not held recorded centrally and could be obtained only at disproportionate costs.

### Civil Service

**Mr. Heald:** To ask the Minister for the Cabinet Office (1) what recent representations he has received regarding the need for legislation to protect the independence of the civil service; [159577]

(2) what progress has been made on the Government's commitment to bring forward legislation to protect the impartiality of the Civil Service in this parliamentary session; [159578]

(3) what recent representations he has received on establishing a Civil Service commission in statute. [159581]

**Mr. Alexander:** I refer the hon. Gentleman to my statement of 21 January 2004, *Official Report*, columns 1341–349. In addition, the Public Administration Select Committee published its proposals for a Civil Service Bill on 5 January 2004. I am also aware of the debate that took place on this issue in the other place on 5 March 2004, *Official Report*, columns 889–934.

**Mr. Heald:** To ask the Minister for the Cabinet Office what the annual change in the number of Civil Service employees was in each year since 1997–98; and if he will make a statement. [159579]

**Mr. Alexander:** The information requested is published annually in Civil Service Statistics, copies of which are available in the Libraries of the House and at www.civil-service.gov.uk/statistics

### Civil Service Training

**Mr. Heald:** To ask the Minister for the Cabinet Office what recent representations he has received regarding Civil Service training; and if he will make a statement. [160020]

**Mr. Alexander:** The Cabinet Office receives representations from a wide range of stakeholders and interested parties regarding Civil Service training including the Civil Service Trade Unions. The Centre for Management and Policy Studies which includes The Civil Service College is constantly seeking feedback on its courses with a view to ensure that Civil Service training meets the needs of the future of the Civil Service.

### Emergency Planning College

**Patrick Mercer:** To ask the Minister for the Cabinet Office what new training methods have been put in place at the Emergency Planning College at Easingwold over the past two years. [158981]

**Mr. Alexander:** A review of Emergency Planning College courses, their content and delivery methods was initiated in May 2003.

Changes resulting from this review, including new courses, will begin to take effect from September 2004.

### Government Services

**Mr. Heald:** To ask the Minister for the Cabinet Office pursuant to his answer of 2 March 2004, *Official Report*, column 764W, on Government services, what estimate each Government Department has provided on the amount of money expected to be saved by providing services through electronic means by 2005. [160018]

**Mr. Alexander:** Departments are required to develop business cases for major e-service projects. The Efficiency Review led by Sir Peter Gershon is working with departments to consider how electronic services could be used to deliver additional savings.

### Office of the e-Envoy

**Mr. Heald:** To ask the Minister for the Cabinet Office (1) what assessment he has made of the impact of the Office of the e-Envoy on the delivery of Government services online; and if he will make a statement; [160024]

(2) what assessment he has made of the progress of the Office of the e-Envoy; and if he will make a statement. [160022]

**Mr. Alexander:** In 2002 the Information Age Partnership commissioned a major assessment of the UK's performance across the e-agenda leading to the publication of an independent international benchmarking report, 'The world's most effective policies for the e-economy'. The benchmarking results showed that the UK had made particularly strong progress with low internet access prices and high embedding of ICT in education. The report also found that UK's 'e-government readiness'—defined as the preparedness of government to engage and drive the e-agenda, and particularly deliver e-government—was a strength relative to G7 nations. The Office of the e-Envoy is working with departments towards the target of achieving 100 per cent. of services online by 2005 with key services achieving high levels of use. 68 per cent. of government services are now available electronically.

**Mr. Heald:** To ask the Minister for the Cabinet Office how many *(a)* special advisers and *(b)* staff in total are employed in the Office of the e-Envoy. [160025]

**Mr. Alexander:** No special advisers are employed in the Office of the e-Envoy. On 1 March 2004 there were 102 staff in post in the office of the e-Envoy.

### Policy Hub

**Mr. Heald:** To ask the Minister for the Cabinet Office what assessment he has made of the impact of Policy Hub; and if he will make a statement. [160033]

**Mr. Alexander:** I would refer my hon. Friend to the answer I gave to the hon. Member for Gainsborough (Mr. Leigh) on 6 January 2004, *Official Report*, column 158.

**Mr. Heald:** To ask the Minister for the Cabinet Office what the total expenditure has been *(a)* in the past 12 months and *(b)* since the inception on Policy Hub; and if he will make a statement. [160034]

**Mr. Alexander:** The information is as follows:

*(a)* Expenditure on Policy Hub for the 12 months ending 31 January 2004, was £91,000. This reflects the costs of IT hosting, support and maintenance.

Since 1 February 2004, the site has been located on the Cabinet Office server. Hosting, support and maintenance costs are now absorbed by general Cabinet Office IT costs.

*(b)* Running costs since inception, including that for the twelve months ending 31 January 2004 quoted above, totals £207,000 excluding VAT. Policy Hub was launched by the Centre for Management and Policy Studies in the Cabinet Office in March 2002 as part of a wider IT Knowledge Management project, however, it is not possible to disaggregate the costs of Policy Hub from the other elements of the project.

### Recruitment

**Matthew Taylor:** To ask the Minister for the Cabinet Office what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158196]

**Mr. Alexander:** Cabinet Office staff recruitment processes and associated budgeting has been delegated to individual Management Units, who are supported by the Cabinet Office HR central recruitment team.

Staff costs for the Cabinet Office HR central recruitment team are available from 2002 to present and are:

2002–03: £216,712

2003–04: £187,678

Overall Cabinet Office recruitment costs and a breakdown between contracted out activity and recruitment procedure are not maintained centrally and could be provided in the detail required only at disproportionate cost.

**Mr. Heald:** To ask the Minister for the Cabinet Office how much money has been spent advertising Civil Service recruitment in *(a)* 1996–97 and *(b)* the most recent period for which figures are available. [160049]

**Mr. Alexander:** Responsibility for advertising government jobs lies with individual Government Departments. The information requested is not, therefore, collected centrally. The Civil Service Commissioners Code makes clear that a reasonable opportunity must be given to prospective applicants to become aware of vacancies.

### Regulation Costs

**Mr. H[illegible]** To ask the Minister for the Cabinet Office what estimate he has made of the *(a)* recurring and *(b)* non-recurring costs for (i) a typical business and (ii) all business of the regulations passed so far this Session. [160045]

**Mr. Alexander:** All proposals which have a potential impact on business, charities or voluntary bodies must be accompanied by a regulatory impact assessment determining whether the costs of the proposal are justified by its benefits. Costs of individual regulations can be found in the published regulatory impact assessments, available in the House Library.

### Regulatory Impact Assessments

**Mr. Stephen O'Brien:** To ask the Minister for the Cabinet Office (1) what percentage of regulatory impact assessments recommended that the regulatory instruments under examination should not proceed in the last year for which figures are available; [160123]

(2) how many regulatory instruments have failed to proceed following the negative conclusion of the regulatory impact assessments in each year since 2000. [160143]

**Mr. Alexander:** I refer the hon. Member to the answer I gave the hon. Member for North Norfolk (Norman Lamb) on 2 February 2004, *Official Report*, column 715W.

**Mr. Stephen O'Brien:** To ask the Minister for the Cabinet Office (1) what estimate he has made of the number of regulatory impact assessments conducted in 2003 which included a statement of what the respective department expected to happen in the absence of regulation; and what guidance his Department has issued on this subject; [160138]

(2) what assessment he has made of the possible effect on the net benefits of regulation of including a do nothing option in regulatory impact assessments; [160137]

(3) how many regulatory impact assessments conducted in 2003 contained a do nothing option. [160136]

**Mr. Alexander:** The Government are committed to regulating only where necessary and promoting the use of alternatives to regulation. This includes the do nothing option, which provides a useful baseline against which to judge the potential impact of a proposal. As set out in Cabinet Office guidance 'Better Policy Making: A Guide to Regulatory Impact Assessment', Departments are required to consider alternatives as part of the RIA process. RIAs are published and placed in the Libraries of the House.

**Mr. Stephen O'Brien:** To ask the Minister for the Cabinet Office what assessment he has made of the finding in the Evaluation of Regulatory Impact Assessments Compendium Report 2003–04, published

by the National Audit Office, that none of the sample regulatory impact assessments concluded that the costs to small business would be disproportionate. [160139]

**Mr. Alexander:** The Government welcome the National Audit Office's (NAO) Compendium Report on the Evaluation of Regulatory Impact Assessments (RIA), and is currently in the process of looking at the findings and recommendations of the report.

### Secondments

**Mr. Heald:** To ask the Minister for the Cabinet Office how many private sector workers are seconded to *(a)* the Strategy Unit and *(b)* the Office of the e-Envoy; and if he will make a statement. [160026]

**Mr. Alexander:** There is at present one private sector worker seconded to the Strategy Unit and none to the Office of the e-Envoy.

### Service Denial

**Mr. Jenkins:** To ask the Minister for the Cabinet Office how many *(a)* denial of service and *(b)* distributed denial of service attacks have been recorded on Government department and agency computer networks and websites in each of the last five years. [160058]

**Mr. Alexander:** IT infrastructure, including IT security arrangements, is the responsibility of individual departments. The information requested is not, therefore, collected centrally.

The Government have a continuous programme of work to identify vulnerabilities and prevent damage to critical national infrastructure, public sector networks and other inter-dependent information systems.

### Special Advisers

**Mr. Heald:** To ask the Minister for the Cabinet Office what powers special advisers within his Department have *(a)* to give direct orders to civil servants and *(b)* to exercise other executive powers; and if he will make a statement. [159585]

**Mr. Alexander:** The duties and responsibilities of special advisers are set out in the Code of Conduct for Special Advisers. Under the terms of the Civil Service Order in Council, up to three special adviser posts in the Prime Minister's office can have executive powers. Only one special adviser currently has such powers.

**Mr. Heald:** To ask the Minister for the Cabinet Office what the total cost has been of special advisers accompanying Ministers on visits *(a)* abroad and *(b)* within the United Kingdom in the last 12 months. [159569]

**Mr. Alexander:** The Government publishes on an annual basis the cost of all Ministers' visits overseas. The cost figure includes the costs of any special advisers accompanying the Minister overseas. The cost for the financial year 2003–04 will be published as soon as it is ready after the end of the current financial year. The detailed information requested is not held centrally and could be obtained only at disproportionate cost.

All travel complies with the requirements of 'Travel by Ministers' and the 'Civil Service Management Code' as appropriate.

**Mr. Heald:** To ask the Minister for the Cabinet Office what the total cost has been of provision of Government cars to special advisers in the last 12 months. [159570]

**Mr. Alexander:** Special advisers are not provided with allocated Government cars. As with all civil servants, special advisers are entitled to use official pool cars if departmental rules allow.

**Mr. Heald:** To ask the Minister for the Cabinet Office (1) what the total cost has been of provision of Government office facilities to special advisers *(a)* in the last 12 months and *(b)* since 1997–98; [159571]

(2) which Government-owned properties are used by special advisers for official business purposes; and if he will make a statement. [159574]

**Mr. Alexander:** Special advisers provide advice to Ministers. They will normally be located in the same building as the appointing Minister. The cost of providing office facilities to special advisers will not normally be separately identifiable from the cost of Ministers' private offices.

**Mr. Heald:** To ask the Minister for the Cabinet Office how many special advisers are employed *(a)* within his Department and *(b)* across Government as a whole; and if he will make a statement. [159572]

**Mr. Alexander:** Within the Cabinet Office, the Minister without Portfolio currently employs one special adviser.

As of 8 March, there are 77 special advisers employed across Government as a whole.

### Strategy Unit

**Mr. Heald:** To ask the Minister for the Cabinet Office what inquiries the Strategy Unit is undertaking. [159332]

**Mr. Alexander:** The Strategy Unit's current projects include:

Alcohol Misuse—producing an alcohol harm Reduction Strategy for England;

A study of the medium to long-term issues facing the UK Fishing industry;

A project on "Improving the prospects of people living in areas of multiple deprivation in England";

A project on "Improving the Life Chances of Disabled People";

A study of the long-term issues facing London and its role as the UK's capital and as a world city;

A joint analytical study with the Home Office on police reform; and

An analysis of the challenges raised by Countries at risk of Instability and how the UK should improve its strategic response to them.

Details of the Unit's work can be found on its website: www.strategy.gov.uk

**Mr. Heald:** To ask the Minister for the Cabinet Office how many *(a)* special advisers and *(b)* staff in total are employed in the Strategy Unit. [160028]

**Mr. Alexander:** *(a)* No special advisers are employed in the Strategy Unit. *(b)* There are currently 79 members of staff employed in the Strategy Unit.

**Mr. Heald:** To ask the Minister for the Cabinet Office (1) what assessment he has made of the impact of the Strategy Unit; and if he will make a statement; [160029]

(2) how many projects have been undertaken by the Strategy Unit *(a)* in the last 12 months and *(b)* since it was established; if he will make an assessment of their impact; and if he will make a statement. [160032]

**Mr. Alexander:** The Strategy Unit carries out long-term strategic reviews and policy analysis across a range of areas. It works with departments to improve strategic capability across government.

The Government Chief Social Researcher's Office, which is based in the Strategy Unit, also provides strategic leadership to social research across departments.

Details of the Strategy Unit's work can be found on its website www.strategy.gov.uk.

**Mr. Heald:** To ask the Minister for the Cabinet Office how many people have been employed on each project undertaken by the Strategy Unit since its inception. [160031]

**Mr. Alexander:** The Strategy Unit was formed in June 2002. Strategy Unit staff work across a number of project issues. Staff numbers usually average between 70 and 90 depending upon the workload.

### Valuation Office Agency

**Mr. Gray:** To ask the Minister for the Cabinet Office pursuant to the answer from the Paymaster General of 27 February 2004, *Official Report*, column 579W, on the Valuation Office Agency; whether the vacancy for a non-executive director of the Valuation Office Agency was advertised on the Public Appointments Unit website; when the names of the four candidates who were short-listed by the Valuation Office Agency for the position first entered the Cabinet Office's Public Appointments list; and whether they were self nominations. [159991]

**Mr. Alexander:** The vacancy for a non-executive director of the Valuation Office Agency was not advertised on the Public Appointments Vacancies website. The appointment was made in April 2002 prior to the development of the website which was launched on 27 March 2003. Since the website enables the open advertising of public appointments opportunities, it has replaced the use of a central list. In accordance with the Data Protection Act, the Department was not able to retain personal information about individuals who were on the list.

### Women (Consultation)

**Mr. Heald:** To ask the Minister for the Cabinet Office if he will list the women's organisations which have been consulted by his Department on proposed legislation during this Session; and whether their responses have been published. [160003]

**Mr. Alexander:** The Government are committed to ensuring that all relevant stakeholders are identified and involved in consultations on proposed legislation.

A 12-week public consultation on the draft Civil Contingencies Bill took place between 19 June and 11 September 2003. Views were sought from a wide range of organisations with an interest in civil protection activity, including the Women's Royal Voluntary Service.

The Government's response to the public consultation was published on 7 January and is available in the Libraries of the House.

## EDUCATION AND SKILLS

### Enterprise Advisers

**Mr. Blizzard:** To ask the Secretary of State for Education and Skills pursuant to his answer of 17 December 2003, *Official Report*, column 954W, on enterprise advisers, when the chief executive of the Learning and Skills Council will supply the information required. [157482]

**Mr. Miliband:** The LSC's chief executive has today written to the hon. Member about the start of the new Enterprise Advisor Service.

### Ministerial Speeches

**Keith Vaz:** To ask the Secretary of State for Education and Skills how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156154]

**Mr. Stephen Twigg:** My right hon. Friend has spoken at a number of events during this period, some transcripts of which can be found on the departmental website www.dfes.gov.uk. Details relating to a specific speaking event can be obtained by emailing the Department's Speeches Team through the link provided on this website.

### School Governors

**Mr. Jenkins:** To ask the Secretary of State for Education and Skills how his Department has improved the way in which it assists school governors in *(a)* making decisions and *(b)* assessing budgets. [160069]

**Mr. Miliband:** My Department has given school governing bodies greater freedom to take decisions through removing unnecessary restrictions on delegation under new arrangements deregulating governing body procedures introduced last September. The new arrangements allow governing bodies to decide for themselves whether the majority of decisions need to be taken by the whole governing body, a committee with delegated powers, or an individual governor or the head teacher. This will enable governing bodies to operate more flexibly, make better use of available expertise and speed up decision making.

Alongside this, we have improved information and communication arrangements so that governors have greater access to the information they need to take well informed decisions. Governors have access to up to date information across the full range of their responsibilities through GovernorNet, our governors' portal; the Governors' Guide to the Law, which we can now keep up to date on GovernorNet; GovernorLine, an

independent advice line backed up by a legal advice service which all governors can access free of charge seven days a week; and our termly Newsletter for School Governors which is available in hard copy for all governors. The Newsletter is used to raise governor awareness of current issues, which should improve governing body decision making. In addition, our National Training Programmes for New Governors and Governing Body Clerks should improve the ability of new governors to contribute at an earlier stage as well as governing body decisions to be better documented. A new programme for anyone chairing governing body meetings or committees "Taking the Chair" and a joint programme for head teachers, governing body chairs and other school leaders "Leading Together" will both be available in the autumn.

The Department has commissioned the National College for School Leadership and KPMG to design, develop and deliver a varied menu of support and guidance to help schools' budget management. This includes a dedicated website and helpdesk, which is available to all school governing bodies. There are also workshops for schools in those LEAs eligible for targeted transitional support, in the period January to March 2004. A team of two from each school can attend the workshop, which could include the chair of governors or the chair of the finance committee.

**Mr. Jenkins:** To ask the Secretary of State for Education and Skills how many school governor places in England are vacant; and what percentage this represents of capacity. [160078]

**Mr. Miliband:** There are approximately 350,000 school governor places at maintained schools in England. At any one time, across the country, around 12 per cent. of these places are vacant.

### Schools (Capital Spending)

**Mr. Jenkins:** To ask the Secretary of State for Education and Skills how much has been spent on schools capital spending programmes in each year since 1979 in *(a)* England and Wales and *(b)* Staffordshire. [160059]

**Mr. Miliband:** The following table shows capital allocations to local education authorities and schools in England and Staffordshire, from 1996–97 to 2003–04. Reliable figures are not available prior to this period. Allocations for Wales are a matter for the Welsh Office.

*Total capital allocations for England and Staffordshire from 1996–97 to 2003–04*

*£ million*

| | *England* | *Of which: Staffordshire* |
|---|---|---|
| 1996–97 | 700 | 3.7 |
| 1997–98 | 800 | 7.4 |
| 1998–99 | 1,100 | [1]25.9 |
| 1999–2000 | 1,400 | 15.5 |
| 2000–01 | 2,100 | 31.1 |
| 2001–02 | 2,200 | 23.0 |
| 2002–03 | 3,000 | 26.6 |
| 2003–04 | 3,800 | 35.5 |

[1] Includes £13.7 million of PFI credits.

### Students (Dependent Children)

**Vera Baird:** To ask the Secretary of State for Education and Skills (1) if the Higher Education Funding Council for England will collect and publish statistics for the number of students with dependent children attending higher educational institutions, broken down by *(a)* institution and *(b)* region; [159858]

(2) whether the Higher Education Funding Council for England collects statistics for the number of students with dependent children attending higher education institutions; and whether such statistics are publicly available. [159881]

**Alan Johnson** *[holding answer 9 March 2004]:* The Higher Education Statistics Agency (HESA) collects and publishes statistics on behalf of the Higher Education Funding Council for England (HEFCE). Data on the number of students with dependent children are not currently collected by HESA and there are no plans for their future collection or publication.

### Westminster Hall

**Bob Spink:** To ask the Secretary of State for Education and Skills if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [159611]

**Mr. Stephen Twigg:** I refer the hon. Member to the answer given by my right hon. Friend the Leader of the House on 8 March 2004, *Official Report*, column. 1234W.

## DEPUTY PRIME MINISTER

### Bed and Breakfast Accommodation

9. **Simon Hughes:** To ask the Deputy Prime Minister when the Government expect to meet their target that there should be no families in bed and breakfast for more than six weeks in London boroughs; and what steps he will take to sustain this policy. [159910]

**Yvette Cooper:** Official figures show that the number of families in bed and breakfast accommodation for more than six weeks halved between September 2002 and September 2003. Monitoring by the Office of the Deputy Prime Minister shows considerable progress has been made since then. From April local authorities will have a statutory obligation not to house families in bed and breakfast for more than six weeks.

### Local Democracy (Participation)

10. **Jim Dobbin:** To ask the Deputy Prime Minister what action his Department is taking to increase participation and engagement in local democratic structures. [159911]

**Mr. Raynsford:** The Government are keen to encourage participation and engagement in local democracy and continues to pursue a range of initiatives aimed at achieving this.

These include local government reform, new community-based initiatives, electoral pilots, the extension of e-government, and the opportunity for people to vote on regional devolution in the northern regions.

### Council Houses

11. **Bob Russell:** To ask the Deputy Prime Minister how many council houses he expects will be built in the financial year 2004–05. [159912]

**Keith Hill:** The total number of local authority dwellings proposed to be built or acquired in 2004–05 for England is about 350.

### Council Tax

12. **Mr. Ben Chapman:** To ask the Deputy Prime Minister if he will make a statement on changes to council tax levels in 2004–05. [159913]

**Mr. Raynsford:** The Office of the Deputy Prime Minister will publish definitive information on council tax levels in 2004–05 once we have validated returns from all authorities. In the meantime, I am pleased to say that most councils are budgeting prudently, and that council tax increases are expected to be, on average, less than half last year's levels.

**Simon Hughes:** To ask the Deputy Prime Minister pursuant to the statement by the Parliamentary Under-Secretary of State on 10 February 2004, *Official Report*, column 1347, if he will place in the Library a copy of the letter to the Mayor of London on the capping of council tax. [159174]

**Mr. Raynsford:** No. The Office of the Deputy Prime Minister has written to a number of authorities but as a matter of policy it has not published either the names of these authorities or the text of the letters. It would be invidious to single out authorities by making public the letters they have received on this matter.

### Student Housing

13. **Julie Morgan:** To ask the Deputy Prime Minister what plans he has to prevent concentration of student housing in cities from affecting the sustainability of communities. [159914]

**Keith Hill:** Several Members of this House have made representations to me about the concentration of student housing in cities. There is limited scope for what can be achieved through national planning and housing policies. It is essential that universities and host local authorities work together to develop and share best practice and to plan and manage the impact students have on the wider community.

Therefore, I have agreed to arrange a meeting with key stakeholders, including the Minister of State for Further and Higher Education, Universities UK and the Local Government Association to take this issue forward.

### Local Government (East Lancashire)

14. **Mr. Chaytor:** To ask the Deputy Prime Minister if he will make a statement on the options under consideration for local government reorganisation in East Lancashire. [159915]

**Mr. Raynsford:** The options under consideration for local government reorganisation are matters for the independent Boundary Committee for England.

Government will not take a view on any prospective scheme for reorganisation until we have received the final recommendations from the Boundary Committee, which we expect in May 2004.

### Burials (Private Land)

**Mr. Fabian Hamilton:** To ask the Deputy Prime Minister under what circumstances *(a)* a planning condition may be imposed and *(b)* a section 106 agreement may be made to limit the frequency of burials on private land to one a week, averaged over *(a)* three, *(b)* six, *(c)* nine and *(d)* 12 months. [159964]

**Keith Hill:** A limited number of burials over a period of time may not constitute a "change of use" and no planning permission is necessary. Exceeding this "limited" number of burials may require planning approval.

Planning conditions can only be attached to planning permissions. They are imposed to enable planning permission to be given. It is for the local authority to determine what conditions should be imposed to make it possible to grant permission for the desired use.

Section 106 of the Town and Country Planning Act 1990 enables a person with an interest in land to enter into a planning obligation to

(a) restrict the development or use of the land in any specified way;

(b) require specified operations or activities to be carried out in, on, under or over the land;

(c) require the land to be used in any specified way; or

(d) require a sum or sums to be paid to the authority on a specified date or dates or periodically.

The obligation can be in the form of an agreement between a local planning authority or a unilateral undertaking.

Planning obligations under section 106 may be made at any time, but in practice they are usually made between a developer and a local planning authority in the context of a planning permission. A person with an interest in land cannot be compelled to enter into planning obligations.

### Community Plan Areas

**Mr. Clifton-Brown:** To ask the Deputy Prime Minister which urban development corporations, either existing or proposed, cover the four community plan areas; what the dates are for their inception; what discussions have taken place with their constituent local authorities; and for what reason the Stansted-Cambridge community plan was extended to the whole of Cambridgeshire and Peterborough. [159963]

**Keith Hill:** The Sustainable Communities Plan included a commitment in the Growth Areas to set up strengthened local delivery agencies with the necessary powers to drive forward development and the investment, public and private, it requires. For each major growth location the Office of the Deputy Prime Minister consulted local authorities on their views of the

best approach before taking a final decision. In the majority of locations we have agreed that a local authority led local partnership is the best way forward. In a few locations with regeneration objectives, cross-boundary issues and large scale or difficult sites, the long-term focus, funding and special powers of an Urban Development Corporation (UDC) will be required to help to deliver the necessary change and maximise the potential for large scale investment. To date this approach has been either adopted or proposed in two locations in the Thames Gateway and one in the Milton Keynes-South Midlands Growth Area.

In the Thames Gateway, a UDC was established for Thurrock on 29 October 2003. Following public consultation earlier this year, and subject to parliamentary approval, it is expected that a second UDC will be established for London Thames Gateway in summer 2004. In both Thurrock and London Thames Gateway, Ministers and officials have been engaged in lengthy and wide-ranging discussions with local authorities on the proposals to establish a UDC.

In Milton Keynes-South Midlands, a UDC has been proposed for West Northamptonshire. As in the Gateway, we are firmly committed to a partnership approach for the proposed UDC, working closely with the local authorities, English Partnerships and the RDA. Prior to consultation, the Government and local authorities agreed that a UDC would be needed for West Northamptonshire to drive forward the regeneration of the area. We are currently engaged in a public consultation on the proposed UDC that will end on 12 March 2004. Subject to parliamentary approval, it is expected that the West Northamptonshire UDC will come into operation later in 2004. For Milton Keynes the proposed delivery mechanism will be an Urban Development Area (UDA), overseen by a Committee of English Partnerships. This "Milton Keynes Partnership Committee" will include representatives of the local authority, English Partnerships, the Local Strategic Partnership and the private sector. Consultation on the proposed UDA ended on 5 March.

On 2 February, we announced our intention to extend the London-Stansted-Cambridge (L-S-C) Growth Area to include Peterborough and all of Cambridgeshire. This decision takes account of the important role and potential of Peterborough in contributing to sustainable housing growth linked to the London-Stansted-Cambridge Growth Area, and the work of the Regional Planning Panel for the East of England in preparing new regional planning guidance for the region.

It also reflects the important work under way on sustainable housing growth across Cambridgeshire, and particularly through the Cambridge Sub Region Infrastructure Partnership, which includes Fenland, East Cambridgeshire and Huntingdonshire.

### Fire Engines (Accidents)

**Mr. Oaten:** To ask the Deputy Prime Minister how many accidents involving fire engines took place in each London borough in 2003. [160214]

**Mr. Raynsford:** The Office of the Deputy Prime Minister understands from the London Fire and Emergency Planning Authority that the following is the number of accidents involving fire appliances that took place in each London borough in 2003:

| *Borough* | *Total* |
|---|---|
| Barking and Dagenham | 18 |
| Barnet | 13 |
| Bexley | 6 |
| Brent | 14 |
| Bromley | 12 |
| Camden | 20 |
| City of London | 7 |
| Croydon | 13 |
| Ealing | 19 |
| Enfield | 16 |
| Greenwich | 15 |
| Hackney | 14 |
| Hammersmith and Fulham | 7 |
| Haringey | 12 |
| Harrow | 5 |
| Havering | 6 |
| Hillingdon | 13 |
| Hounslow | 11 |
| Islington | 23 |
| Kensington and Chelsea | 28 |
| Kingston | 5 |
| Lambeth | 36 |
| Lewisham | 16 |
| Merton | 8 |
| Newham | 16 |
| Redbridge | 3 |
| Richmond | 3 |
| Southwark | 17 |
| Sutton | 7 |
| Tower Hamlets | 32 |
| Waltham Forest | 7 |
| Wandsworth | 16 |
| Westminster | 34 |
| Total | 472 |

### Mobile Phone Masts

**Sir Michael Spicer:** To ask the Deputy Prime Minister if he will provide further *(a)* planning guidelines and *(b)* resources to local planning authorities with respect to applications for G3 technology telecommunications masts. [160249]

**Keith Hill:** Current planning guidance for all electronic communication developments is set out in Planning Policy Guidance Note 8 (revised) (PPG8). The Office of the Deputy Prime Minister has also issued a Code of Best Practice on Mobile Phone Network Development. The Office of the Deputy Prime Minister has no plans to change these arrangements at present.

The Office of the Deputy Prime Minister is, however, making £350 million of additional resources available to planning authorities over three years to drive performance improvement. Authorities are free to spend this money in whatever way they wish.

### Public Sector Procurement

**Mrs. Roche:** To ask the Deputy Prime Minister what assessment he has made of the effectiveness of public

sector procurement as a tool for inner city regeneration; and what plans his Department has to develop the use of public sector procurement in the future. [158085]

**Yvette Cooper:** No specific assessment has been made of the effectiveness of public sector procurement as a tool for inner city regeneration. The National Procurement Strategy for Local Government, jointly published by the Office of the Deputy Prime Minister and the Local Government Association (LGA) in October 2003, sets out a three-year strategy for procurement which encourages public sector bodies to consider wider corporate objectives such as economic and social regeneration as well as the need for better and cost-effective services for citizens.

### Regional Assemblies

**Mr. Jenkin:** To ask the Deputy Prime Minister when he will answer the question tabled by the hon. Member for North Essex on 10 February, reference 155144, on elected regional assemblies; and what has delayed his response. [159828]

**Mr. Raynsford:** The relevant question was answered on 4 March 2004, *Official Report*, column 1106W.

It will be for the Elected Regional Assembly in each of the three regions to decide on how best to meet its long-term accommodation requirements, including location.

In reaching a decision on any initial temporary accommodation which may be required once an Elected Regional Assembly is in place, the Government will consult the regional chambers in the north-east, north-west and Yorkshire and the Humber.

**Mr. Jenkin:** To ask the Deputy Prime Minister how many regional assembly members would be elected by *(a)* a the first-past-the-post system and *(b)* the additional member system in each of the regions where the Government propose to establish elected regional assemblies. [159830]

**Mr. Raynsford:** The Office of the Deputy Prime Minister laid out in the White Paper, "Your Region, Your Choice", published May 2002 that the electoral system for the regional assemblies would be the additional member system. This will mean that two thirds of the members in each region will be elected as constituency members, and one third will be top-up regional list members. Each region will have between 25–35 members in total.

**Mr. Jenkin:** To ask the Deputy Prime Minister when the number of assembly members for the proposed elected regional assemblies in the north-west and Yorkshire and the Humber will be determined. [159831]

**Mr. Raynsford:** The Office of the Deputy Prime Minister announced in the White Paper, "Your Region, Your Choice", published in May 2002, that each assembly will have between 25 and 35 members.

Section 21 of the Regional Assemblies (Preparations) Act 2003 requires the Secretary of State to direct the Electoral Commission to advise him. The topics on which advice can be requested are listed and include the number of electoral areas that an assembly should have. The Act requires that this direction be made no later than two years after a yes vote is gained in a referendum.

**Mr. Jenkin:** To ask the Deputy Prime Minister what the constituencies for regional assembly members elected by the first-past-the-post system would be in *(a)* the north-east, *(b)* the north-west and *(c)* Yorkshire and the Humber. [159832]

**Mr. Raynsford:** Two thirds of the members in each region will be elected by regional constituencies under the first-past-the-post system, while the other third will be elected as "top-up" list members under the Additional Member System.

Section 21 of the Regional Assemblies (Preparations) Act 2003 requires the Secretary of State to direct the Electoral Commission to advise him. The topics on which advice can be requested are listed and include the electoral areas for the assembly. The Act requires that this direction be made no later than two years after a yes vote is gained in a referendum.

**Miss McIntosh:** To ask the Deputy Prime Minister whether administrative cost savings consequent on the change in status of local government in North Yorkshire in the event of the establishment of a Regional Assembly would be deducted from future funding allocations to the county. [159196]

**Mr. Raynsford:** The Office of the Deputy Prime Minister will be discussing how to treat the costs and potential savings of reorganisation with local government. A working group has been established to look at costs and the wider practical implications of reorganisation. Its first meeting took place on 9 March.

### South East England Development Agency

**Mr. Andrew Turner:** To ask the Deputy Prime Minister if he will list each project on the Isle of Wight funded by South East England Development Agency (SEEDA) in the last 12 months for which information is available, showing the *(a)* funding from SEEDA for each project and *(b)* intended outcomes of each project. [155257]

**Mr. Raynsford:** In the financial year April 2003 to March 2004, South East England Development Agency will invest a total of £13 million on 17 projects on the Isle of Wight. The purpose of those projects is to support the sustainable economic development of the Island. Forecasted core outputs should:

create or safeguard 388 jobs, create or fill 1,672 learning opportunities between three and 30 hours duration and 112 over 30 hours and create 40 new businesses while sustaining a further 12 for 12 months. The following table applies this in more detail to individual projects.

SEEDA has also provided £35,000 towards the Island's Community Wind project. This has funded a feasibility study which has been extended to cover use of renewable energy in refurbishment and newbuild in an estate in Newport. As well as added value through dissemination there is also a possibility of creating two jobs.

*Isle of Wight SEEDA forecast spend and core outputs for 2003–04*

| | | *Core tier 3 outputs* | | | | | |
|---|---|---|---|---|---|---|---|
| *Project* | *Forecast spend (£)* | *New jobs created/ safeguarded* | *Hectares of brownfield land remediated or recycled* | *Number of learning opportunities created and filled (3–30 hours)* | *Number of learning opportunities over 30 hours* | *New businesses created* | *New businesses sustained for 12 months* |
| Ryde 2000—SRB scheme | 1,699,000 | 25 | — | 307 | — | 25 | 12 |
| Island Inclusive—SRB scheme | 106,106 | — | — | 75 | — | — | — |
| Rural Development Programme | 400,000 | 17 | — | 52 | — | 14 | — |
| Leader + (rural) | 100,000 | — | — | 133 | — | — | — |
| Market Town Initiative: (Sandown, Shanklin, Ventnor)[1] | 184,342 | 2 | — | 5 | — | 1 | — |
| Regional Selective Assistance Project | 200,000 | 44 | — | — | — | — | — |
| Better Skills Better Community | 338,000 | — | — | 1,000 | — | — | — |
| Learning for all | 130,000 | — | — | 100 | 100 | — | — |
| Management Development—PLATO[2] | 25,500 | — | — | — | 12 | — | — |
| Isle of Wight Enterprise Hub[3] | 44,355 | — | — | — | — | — | — |
| Cowes Marine Cluster[3] | 91,000 | — | — | — | — | — | — |
| Direct Development Activities (GKN, Cowes Waterfront, 3 Gates Road) | 9,600,000 | 300 | Output is not calculated until land is remediated | — | — | — | — |
| Isle of Wight Economic Partnership Funding | 90,000 | [4]— | [4]— | [4]— | [4]— | [4]— | [4]— |
| Total spend in Isle of Wight 2003–04 | 13,008,303 | [4]— | [4]— | [4]— | [4]— | [4]— | [4]— |

[1] Market Towns also deliver rural outputs such as improved community facilities and child care places.
[2] This programme applies across Hampshire and the Isle of Wight and this represents a pro-rata allocation for the Isle of Wight.
[3] Will deliver supplementary outputs such as business advice.
[4] Not applicable

## FOREIGN AND COMMONWEALTH AFFAIRS

### Accession States

**Glenda Jackson:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether British embassies and high commissions in the EU accession countries will issue UK workers registration certificates; and whether there will be a charge for such certificates. [156932]

**Beverley Hughes:** I have been asked to reply.

My right hon. Friend the Home Secretary indicated in his statement to the House on 23 February 2003, *Official Report* columns 23–25, that, from 1 May, accession country nationals will have free movement across EU borders. They will not be required to apply for entry clearance to travel to the United Kingdom in search of work. With the exception of Malta and Cyprus, citizens of the new member states will need to register with the Home Office when they find a job in the UK, providing information about where and for whom they are working. Employers will be required to satisfy themselves that accession country nationals in their employ apply for and receive registration under this scheme.

The registration scheme will be run by the Immigration and Nationality Directorate. The Directorate is looking into whether all or part of the administrative costs of the scheme could be recovered through charges.

Registration under the scheme will be issued for 12 months, and within that period will be valid for as long as the worker is in the registered employment. The worker should apply to renew the registration if he or she finds a job with a new employer. Registration under the scheme will apply only to workers in the United Kingdom, not to those who are not working.

### Afghanistan

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate his Department has made of the number of *(a)* Afghan National Army personnel and *(b)* Afghan police that will (i) have completed training and (ii) be working officially within Afghanistan by 30 June. [159016]

**Mr. Straw** *[holding answer 9 March 2004]:* We currently estimate that around 10,000 Afghan National Army personnel and at least 5,000 Afghan police personnel will have completed training and be operational in Afghanistan by 30 June.

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the German Government regarding the role of the German military in eradicating poppy production in the north of Afghanistan. [159018]

**Mr. Straw** *[holding answer 9 March 2004]:* As lead nation co-ordinating international counter-narcotics assistance to Afghanistan, the UK works closely with all Afghan and international partners, including Germany, to co-ordinate Afghanistan's drug control efforts to best effect. We have regular discussions with German counterparts about counter-narcotics assistance to Afghanistan.

Although no international military forces are involved in the Afghan campaign to eradicate opium poppy, we encourage the Afghan authorities to use existing liaison mechanisms to ensure that all drug enforcement interventions are de-conflicted with the

wider security programmes in place. We understand the mandate for the German military forces in Afghanistan agreed by the German Parliament currently precludes any engagement in counter-narcotics activity of any type.

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the British Government's objectives are for the conference on Afghan reconstruction in Berlin on 31 March and 1 April; and if he will make a statement. [159019]

**Mr. Straw** *[holding answer 9 March 2004]:* We will use the Berlin Conference to reaffirm our commitment to Afghanistan; to encourage other donors to contribute additional resources to the reconstruction effort; and to take forward the Action Plans that emerged from the joint Afghan/UN/UK Counter-Narcotics Conference in Kabul on 9 February.

The conference will also provide an opportunity to take stock of progress to date against the Bonn Agreement of December 2001, and to agree with the Afghan Government and our international partners a blueprint for continued engagement over the next three to five years.

My right hon. Friend the Secretary of State for International Development, made a Written Statement on 1 March 2004, *Official Report*, column 74WS, setting out the UK's increased pledge of at least £500 million for Afghanistan up to 2006–07. We are encouraging our international partners to follow our example and provide sufficient resources to allow Afghanistan to build on the achievements of the Bonn Process to date.

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had regarding the role played by the German Government in setting the agenda for the international summit on Afghanistan to be held in Berlin. [159504]

**Mr. Straw** The agenda for the Berlin Conference on Afghanistan (31 March to 1 April) has been set by the Afghan Transitional Administration, in consultation with Germany and other international partners.

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the US Administration on stability in Uruzgun, Afghanistan during the period of February to 30 June 2004. [159537]

**Mr. Straw:** Foreign and Commonwealth Office officials at all levels are in regular contact with their US counterparts on all aspects of the current situation in Afghanistan, including security and stability in the regions.

## Cyprus

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 13 January 2004, *Official Report*, column 643W, on Cyprus, whether the University of Oslo has completed its report on the elections to the Assembly of the Turkish Republic of Northern Cyprus; and if he will make a statement. [159536]

**Mr. Straw** *[holding answer 9 March 2004]:* The publication of the University of Oslo report has been delayed. We expect it to be published in the very near future.

## Hong Kong/China

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs what UK assets in Hong Kong were given to China at the handover of sovereignty; and what their value was. [158505]

**Mr. Rammell:** Under the terms of the 1984 Sino-British Joint Declaration, the British Government agreed to restore Hong Kong to the People's Republic of China on 1 July 1997. A small number of military sites were covered by a separate Exchange of Notes in 1994 (Cm 2888 of June 1995). In practice the Hong Kong Special Administrative Region Government took over on 1 July 1997 the functions previously exercised by the colonial Hong Kong Government. This was done without any compensation and it was therefore not appropriate to put any value on what was handed back.

The Joint Declaration provides Hong Kong with a high degree of autonomy from mainland China except in foreign and defence affairs. The Joint Declaration states that the Hong Kong Special Administrative Region "shall deal on its own with financial matters, including disposing of its financial resources" and "shall use its financial revenues exclusively for its own purposes and they shall not be handed over to the Central People's Government".

## Iraq

**Norman Lamb:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 15 December 2003, *Official Report*, column 733W, on Iraq, if he will make a statement on the extent of the involvement of Mr. Nadhmi Auchi in the company which has been awarded the licence for the provision of mobile telecommunications services in the central region of Iraq including Baghdad. [149424]

**Mr. Rammell:** The Coalition Provisional Authority has informed us that the licence for the central Iraq sector, including Baghdad, was awarded to Orascom Iraq Holding Ltd, a wholly-owned subsidiary of Orascom Telecom Holding SAE, an Egyptian joint stock company. As the company is registered outside the UK, we are not in a position to verify information on its shareholders. Only UK registered companies are required to list their shareholders with Companies House.

**Norman Lamb:** To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of investigations by the Pentagon Inspector General into the awarding of contracts for the provision of mobile telecommunications services in Iraq; and if he will make a statement. [149438]

**Mr. Rammell:** We have asked the United States Government for clarification and are awaiting a response.

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on *(a)* the 28 February deadline for the

approval of the Fundamental Law in Iraq and *(b)* the 31 May deadline for elections to the transitional assembly. [158148]

**Mr. Straw** *[holding answer 9 March 2004]:* The Transitional Administrative Law (TAL) was signed by the Iraqi Governing Council (IGC) on 8 March after intensive debate. The agreement on a TAL is a great achievement. The UN's recent report on the holding of the elections in Iraq concluded that properly organised elections to a Transitional National Assembly would not be feasible until late 2004 at the earliest and more probably early 2005. The IGC and the CPA have accepted the UN's recommendations on timings for the elections.

**Sir Menzies Campbell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what security arrangements have been agreed between the Coalition Provisional Authority and the Iraqi Governing Council; what time limits are attached to those agreements; what requirements they place on any future provisional government of Iraq; what their basis is in *(a)* Iraqi and *(b)* international law; and if he will make a statement. [158149]

**Mr. Straw** *[holding answer 9 March 2004]:* The status of multinational forces in Iraq and the legal mandate that will govern their presence and operations after the handover of authority to an Iraqi Government remain under consideration.

### Kurdish Independence

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on Kurdish independence within a federal Iraq following the publication of the draft interim national constitution. [158554]

**Mr. Rammell:** The long term political structure of Iraq will be determined by the Transitional National Assembly due to be elected by January 2005. However, the Transitional Administrative Law recognises the administrative and legislative functions of the Kurdistan Regional Government, which is recognised as the official regional government of those territories that were administered by that Government as of 19 March 2003.

Functions performed by the Kurdistan Regional Government shall continue to be exercised throughout the transitional period, except over those issues which fall within the exclusive competence of the central federal government as specified in the Transitional Administrative Law.

### Temporary Staff

**Matthew Taylor:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158239]

**Mr. Mike O'Brien:** We do not have a central record of the numbers of staff employed under contract from agencies; to obtain these figures would incur disproportionate costs. However the cost of temporary staff supplied to the Foreign and Commonwealth Office is:

| *Financial year* | *Agency costs (£)* |
|---|---|
| 2001–02 | 1,933,841 |
| 2002–03 | 1,850,779 |
| 2003–04 (until end November 2003) | 1,063,713 |

### Ukraine

**Tom Cox:** To ask the Secretary of State for Foreign and Commonwealth Affairs what plans his Department has to develop closer *(a)* economic and *(b)* trading ties with the Ukraine; and if he will make a statement. [159544]

**Mr. MacShane:** Economic and trade ties between the UK and Ukraine are developing. For example, a Birmingham Chamber of Commerce trade mission visited Ukraine in February. Also the UK is a major investor in Ukraine, notably through BP's partnership with the Russian company TNK and through direct investments in Ukraine by the UK oil and gas company JKX. Trade will develop once Ukraine accedes to the WTO. The EU signed a bilateral WTO protocol with Ukraine last year; Ukraine is negotiating with other WTO members. The EU-Ukraine Partnership and Co-operation Agreement provides for an eventual Free Trade Agreement.

**Tom Cox:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of the Ukraine concerning its future membership of the European Union; and what *(a)* advice he plans to give and *(b)* co-operation he plans to undertake with the Ukraine in this matter. [159545]

**Mr. MacShane:** The UK has regular contacts with Ukraine at official and ministerial level, at which Ukraine's relationship with the EU is often discussed. I visited Ukraine on 14 and 15 September 2003. My right hon. Friend the Foreign Secretary met Ukrainian Foreign Minister, Kostyantyn Gryshchenko on 12 January 2004.

Ukraine has a long way to go before the question of EU membership can be addressed. For now, Ukraine should focus on domestic reform and developing closer relations with the EU both through implementation of its Partnership and Co-operation Agreement and through full participation in the new European Neighbourhood Policy, which is aimed at strengthening the EU's relations with its neighbours.

The Foreign Secretary made clear to Foreign Minister Gryshchenko in January that closer relations between Ukraine and the EU will depend on Ukraine's democratic process and its progress with democratic and other reforms. The extent to which the 2004 presidential elections are free and fair will be a crucial test.

The UK has committed almost £3 million to help create an environment in which elections can be more democratic, including by enabling the independent Ukrainian media to expose electoral malpractice. Of this amount, some £600,000 directly targets the 2004 presidential election. The UK will also provide support to international election monitoring.

**Tom Cox:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of the Ukraine concerning its future membership of NATO; and what his policy is on such membership. [159546]

**Mr. MacShane:** My right hon. Friend the Foreign Secretary discussed NATO issues with the Ukrainian Foreign Minister Kostyantyn Gryshchenko in January.

We welcome Ukraine's determination to pursue full Euro-Atlantic integration. The UK continues to work closely with Ukraine and NATO Allies to promote full implementation of the NATO-Ukraine Action Plan launched at the Prague Summit in November 2002.

Any enhancement of NATO-Ukraine relations needs to be based on a shared commitment to Euro-Atlantic values and standards. The extent to which the 2004 presidential elections are free and fair will be a crucial test of Ukraine's readiness for a closer relationship with NATO.

**Tom Cox:** To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to visit the Ukraine; and if he will make a statement. [159547]

**Mr. MacShane:** I refer my right hon. Friend to the answer I gave to the hon. Member for Canterbury (Mr. Brazier) on 10 February 2004, *Official Report*, column 1308W.

### United Nations

**Richard Ottaway:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether there have been breaches by the UK of the *(a)* Convention on the Privileges and Immunities of the United Nations 1946 and *(b)* Vienna Convention on Diplomatic Relations 1961 in the last two years. [159378]

**Mr. Straw:** The United Kingdom is obliged to comply with the Vienna Convention on Diplomatic Relations 1961 and the Convention on the Privileges and Immunities of the United Nations 1946 in accordance with international law. There have been a small number of cases where, through administrative error, arriving diplomats have been referred for medical checks or had their personal effects opened in a manner not in accordance with the Vienna Convention on Diplomatic Relations. On each occasion the matter was amicably resolved after the Foreign and Commonwealth Office apologised to the diplomatic mission concerned.

### US Visas

**Peter Bottomley:** To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of *(a)* British passport holders and *(b)* British journalists who visited the USA in each of the last five years; if he will make a statement on the new visa arrangements for travel from the UK to the US; and what assessment he has made of the effect of the new arrangements on the timescale for issuing US visas to UK citizens. [159156]

**Mr. Mullin:** The Office for National Statistics estimates the number of UK residents visiting the US in each of the last five years as:

| | *Number of UK residents (million)* |
|---|---|
| 1999 | 4.73 |
| 2000 | 5.06 |
| 2001 | 4.66 |
| 2002 | 4.21 |
| 2003 | 3.8 |

It is not possible to break these figures down between British Citizens, other British Nationals and others resident in the UK, or give figures for British passport holders who travelled to the US from another country in which they are normally resident.

The US embassy in London issued the following numbers of five-year multiple entry visas to 'representatives of the media':

| | *Number of visas issued* |
|---|---|
| 1999 | 1,906 |
| 2000 | 2,034 |
| 2001 | 2,078 |
| 2002 | 1,816 |
| 2003 | 2,001 |

My right hon. Friend the Foreign Secretary has expressed concern to US Secretary of State Colin Powell at the effect of changes to the US Visa Waiver Programme due to come into effect on 26 October 2004. Discussions are under way with the US authorities. It is too early to predict the outcome.

### Westminster Hall

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [159620]

**Mr. Straw:** I refer the hon. Member to the answer my right hon. Friend the Leader of the House gave on 8 March 2004, *Official Report*, column 1234W.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Climate Change

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the national security implications of climate change. [157945]

**Mr. Morley:** Across Government, we are carrying out internal assessments to identify how policy and operational responsibilities in all Departments could be affected by climate change. This process is currently reporting, and has included both the Ministry of Defence and the Foreign and Commonwealth Office. The MOD is continuing to look at the implications of climate change for national security.

Some of the potential linkages between climate change and security include increased pressure on food and water resources and energy supplies, which in turn (and in combination with other factors) may contribute to the causes of migration, instability and conflict.

### Waste

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to increase the total for private finance initiative credits for waste disposal plans. [156387]

**Mr. Morley:** My right hon. Friend the Secretary of State recognises the increasing contribution that the private finance initiative (PFI) is making in the area of waste management and disposal. £475 million of PFI credits are being made available for waste projects over the period from 2001–02 to 2005–06. To date, eight waste PFI projects have reached contract completion and there have been seven new approvals since April 2003. PFI is being considered as one funding route as part of the current Government Spending Review covering spending up to 2007–08. The outcome of the Spending Review will be announced in the summer.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs at what level she intends to fix penalties for local waste authorities which do not meet waste targets. [156389]

**Mr. Morley:** The level of penalty for Waste Disposal Authorities which landfill more than their available allowances under the Landfill Allowances Trading Scheme will be made known when the outcome to the recent consultation is published on the Defra website www.Defra.gov.uk. This is likely to be in early April. Waste Disposal Authorities will be able to avoid the imposition of penalties by making full use of the flexibilities in the scheme.

**Simon Hughes:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to reduce the amount of waste generated by *(a)* households and *(b)* businesses in London. [155273]

**Mr. Morley** *[holding answer 23 February 2004]:* The Government's national policies to reduce the amount of waste generated will have an impact on London.

The Government have committed over £40 million over the next three years (2003–06) to the Waste and Resources Action Programme's (WRAP) waste minimisation work. Its work tackles household waste minimisation through four schemes:

- an expansion of home composting;
- promotion of re-usable nappies;
- a research and development programme, aimed at identifying and developing innovative approaches to waste minimisation;
- work with major retailers to reduce the amount of waste entering the waste stream from supermarkets.

Two London local authorities will participate in the 22 home composting pilot schemes that WRAP is running in 2004–05.

In addition WRAP will take forward an education and awareness programme. This will operate at both a national and local level to raise the public's awareness about waste issues, including waste minimisation.

The Government have also provided significant extra funding through the London Recycling Fund, which in its first two years specifically funded a number of waste minimisation schemes.

The London Recycling Fund has recently reviewed its business plan and has announced that waste minimisation and reuse is one of its three main priority areas for funding.

The Mayor of London's municipal waste management strategy "Rethinking Rubbish in London" sets out a number of policies he proposes to take to reduce municipal waste growth in London.

For businesses the Producer Responsibility Obligations (Packaging Waste) Regulations 1997 (as amended) set targets for the recovery and recycling of packaging waste and provide incentives to reduce the amount of packaging handled.

The Government have entered into a voluntary agreement with the newspaper industry, which has seen recycled content of newspapers increase to well over the target of 60 per cent. last year. The Government are looking to enter into more agreements of this kind.

The Government fund Envirowise, a business support programme dedicated to making businesses more resource efficient, saving money by minimising waste. Last year alone, Envirowise helped UK businesses to achieve annual cost savings of over £175 million, with a reduction of 1.6 million tonnes of solid waste. It also funds the Sustainable Technologies Initiative that provides funding for research and development projects aimed at minimising waste at source.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to require the Environment Agency to maintain more precise data on *(a)* inert, *(b)* non-hazardous and *(c)* hazardous waste arisings. [156406]

**Mr. Morley:** None. The Environment Agency already keeps data on the origin, quantity, type and destination of every load of special waste. There are no plans to make these more precise. The Department is examining data needs in the context of the Landfill Directive targets to divert biodegradable municipal waste from landfill but also more widely in relation to the EU Waste Statistics Regulation. The intention is to consult on a draft data strategy. A decision will be made in due course as to who would be responsible for collecting these data.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the meetings she has held with the Deputy Prime Minister since 1 June 2001 to determine how the United Kingdom will provide the new waste management capacity that the Environment Agency has indicated is necessary to achieve compliance with the Landfill Directive; and what achievements have resulted from these meetings. [156407]

**Mr. Morley:** My right hon. Friend, the Secretary of State, meets the Deputy Prime Minister frequently to discuss all manner of topics. ODPM and Defra are working together to revise Planning Policy Guidance (PPG) 10, which covers Planning and Waste Management. The current PPG 10, issued in September

1999, deals with the planning considerations to be taken into account in preparing waste local (i.e. land use) plans. In updating PPG 10 (to Planning Policy Statement 10) the government aims to provide more strategic support for local authority decision makers in providing for new waste capacity—whether in plans or planning decisions. The aim is to publish a draft PPS 10 for consultation at the earliest opportunity.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs when the National Interim Waste Acceptance Procedures will be published. [156408]

**Mr. Morley:** The waste acceptance criteria that currently apply and will continue to do so until Council Decision 2003/33 is implemented in England and Wales, are referred to in Regulation 10 and Schedule 1 of the Landfill (England and Wales) Regulations 2002. Consultation on the amending regulations implementing the Council Decision has ended and the outcome of that consultation should be published on the Defra website www.Defra.gov.uk in March.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs when her Department will publish the *(a)* interim Hazardous Waste Regulations and *(b)* draft Hazardous Waste Regulations. [156409]

**Mr. Morley:** A draft of new Hazardous Waste Regulations will be made available when Defra goes out to consultation on the Regulations later this year. Defra has no plans to issue interim Hazardous Waste Regulations.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she has taken to ensure that hazardous waste is not transported between England and other parts of the UK to evade regulatory requirements; and if she will make a statement. [156412]

**Mr. Morley:** While regulatory requirements for hazardous waste in different parts of the UK may not be completely identical, the European Hazardous Waste List and the requirements of the Hazardous Waste Directive will be completely transposed throughout the UK. Movements of hazardous waste in the UK are tracked from the point of production to the point of final disposal, so those transporting such waste from one part of the UK to another will be unable to evade regulatory requirements.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs when her Department will lay before Parliament the amendments to the Landfill (Amendment) Regulations 2002. [156413]

**Mr. Morley:** Following the publication later this month of the consultation outcome on the Landfill (England and Wales) (Amendment) Regulations 2004, the aim is to lay those Regulations before Parliament in April. This will enable the deadline of 16 July 2004 for transposing Council Decision 2003/33 on waste acceptance criteria into national legislation to be met.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the waste streams to be banned from landfill from 16 July 2004. [156414]

**Mr. Morley:** There are no waste streams that will be banned from landfill from 16 July 2004. Hazardous liquid wastes and wastes that are explosive, corrosive, oxidising or flammable have been banned from being disposed of to landfill since 16 July 2002 and whole tyres have been banned from landfill at new sites and hazardous landfills since 16 July 2003.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what high temperature incineration capacity exists in *(a)* France, *(b)* Germany and *(c)* the UK for treatment of hazardous waste; [156415]

(2) what the rate of utilisation of high temperature incineration capacity within the United Kingdom was in the latest year for which figures are available. [156436]

**Mr. Morley:** In the UK there are two operational merchant high temperature incinerators and one mothballed. The two operational plants have a current combined capacity of approximately 110,000 tonnes per annum for hazardous waste, and utilisation was broadly in line with capacity last year. There are also a number of in-house HTI plant, generally attached to other industrial facilities.

Waste industry sources advise that France has 16 hazardous waste incinerators which corresponds to 770,000 tonnes per annum.

In Germany there is incineration capacity for approximately 1 million tonnes of hazardous waste per annum in approximately 30 plant (18 of which are integrated with other industrial plant).

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs whether advice has been given to Government departments on how to dispose of *(a)* end of life fluorescent light bulbs and *(b)* other waste that will be classified as hazardous when the Hazardous Waste Regulations come into force. [156416]

**Mr. Morley:** It is anticipated that commitments for sustainable waste stream management on the Government Estate will be published during Spring/ Summer 2004 as part of the waste section of the Framework for Sustainable Development on the Government Estate (Framework).

Practical guidance (to include information about fluorescent tubes and hazardous waste) will be produced and placed on the Framework website.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate *(a)* her Department and *(b)* the Environment Agency has made of the total capacity using separate cells at non-hazardous landfill sites that will be able to accept stable non-reactive waste in each year from 2004 to 2010. [156417]

**Mr. Morley:** The Environment Agency is examining its records in order to identify those non-hazardous landfill operators who have expressed an interest in constructing a separate cell in their non-hazardous landfill sites for stable non-reactive hazardous waste. When complete, this work will provide a snap-shot of the position that the Hazardous Waste Forum will factor into its work on treatment and disposal capacity

post July 2004. Whether or not to provide this disposal option is a commercial decision of the waste management industry.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the extent to which the Environment Agency's Regulatory Guidance Note 6 will prohibit the development of a separate cell at a non-hazardous landfill site able to take stable non-reactive waste. [156418]

**Mr. Morley:** The Environment Agency has a duty to protect the environment and the requirements in its Regulatory Guidance Notes are drawn up with this duty to the fore. The technical/regulatory guidance that the Agency has produced on the use of separate cells for stable non-reactive hazardous waste—RGNs 6 and 11—reflect the need to maintain physical separation of the stabilised waste from chemically aggressive leachate from biodegradable waste in the same site. Providing landfill operators act in a responsible manner, there is no reason why RGN 6 should prevent the proper development of separate cells for stable non-reactive hazardous waste at non-hazardous landfill sites.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what methods were used to treat hazardous liquid waste in 2003; and how much hazardous liquid waste was sent to each of these methods; [156419]

(2) how much hazardous liquid waste was sent for treatment by landfill in each year from 2000 to 2002. [156420]

**Mr. Morley:** The Environment Agency is preparing the information requested and I will write to the hon. Member.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what penalties the European Commission could apply if the United Kingdom were to defer the ban on co-disposal of hazardous wastes with non-hazardous waste resulting from the Landfill Directive; and whether her Department has discussed such deferral with the European Commission. [156425]

**Mr. Morley:** The Landfill (England and Wales) Regulations 2002 implement the provision in the Landfill Directive that bans the co-disposal of different categories of waste, except in certain specified circumstances, from 16 July 2004. The ban is therefore already part of UK legislation approved by Parliament and as a result, there has been no reason to discuss deferral with the European Commission. The question of possible penalties also does not arise.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what action *(a)* her Department and *(b)* the Environment Agency have taken to liaise with (i) the Home Office, (ii) police forces and (iii) local authorities to (A) assess levels of risk associated with the unlawful disposal of hazardous waste and (B) implement a strategy to minimise the risk to the environment and human health. [156427]

**Mr. Morley:** Defra worked closely with the Home Office on development of environmental measures in the Anti-social Behaviour Act 2003.

The Anti-social Behaviour Act extends a range of powers, currently only available to the Agency, to waste collection authorities to ensure they can tackle illegal dumping effectively.

The Act also gives the Secretary of State the power to issue statutory directions to reinforce an existing voluntary agreement between the Local Government Association and the Environment Agency to create a clearer division of responsibilities. Defra published a consultation on proposed statutory directions on 23 February 2004.

The Environment Agency have worked with Defra and the Local Government Association to develop "Flycapture", the National Fly-Tipping Database, that is due to go live from April 2004. This will assess the scale and cost of illegal dumping in England and Wales.

Defra also worked closely with the Agency, local authorities and other Government departments to issue a Fly-Tipping Strategy that aims to ensure that legislation to combat fly-tipping is as effective as possible.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs whether she asked the Minister for Ecology and Sustainable Development in the French Government at meetings of the EU Environment Council why France already requires pre-treatment of hazardous waste; and what response that Minister made. [156432]

**Mr. Morley:** My right hon. Friend discusses all manner of topics with her Ministerial colleagues in the margins of Environment Council meetings. The approach of other Governments in the EU in respect of waste management issues reflect long term attitudes to the environmental problems that can arise if waste is not handled correctly. For its part, it is the aim of this Government to continue to move towards a more sustainable waste management system in the UK by placing greater emphasis on minimising waste and on re-using, recycling, recovering or treating the waste that is produced.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what volume of hazardous liquid waste was disposed directly to public sewers in 2003; and if she will make a statement on the implications for *(a)* human health and *(b)* the environment of such disposal. [156433]

**Mr. Morley:** Data on the volume of liquid waste and waste water discharges to public sewers is not held centrally, but the Environment Agency publishes relevant information pertaining to its regulatory functions in its Pollution Inventory. This information consists of the annual loads of a range of substances released to sewer and controlled waters and is available on the Environment Agency's "What's in your backyard" website (http://216.31.193.171/asp/1_introductior..asp)

The entry of hazardous substances into sewers in England and Wales is subject to authorisation by sewerage undertakers under the Water Industry Act 1991, by the Environment Agency under the Environmental Protection Act 1990 and by the Environment Agency or local authority under the Pollution Prevention Control Act 2000. In determining its authorisations the

Environment Agency ensures that discharges which may impact on the environment do not pose a significant risk to human health or the environment.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what meetings she has had with representatives of the *(a)* Confederation of British Industry and *(b)* Chemical Industries Association on developing a strategy to inform waste producers of their obligations under the Landfill Directive. [156435]

**Mr. Morley:** My right hon. Friend, the Secretary of State, and other Defra Ministers meet both organisations as and when necessary and may discuss a range of issues. A strategy to inform waste producers of their obligations under the Landfill Directive is an integral part of the Hazardous Waste Forum's Action Plan, published in December 2003. Both the Confederation of British Industry and the Chemical Industries Association are members of the Forum and were actively involved in drawing up the strategy. Also, both organisations have an important role to play in the delivery of that strategy.

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs what checks are made on low-level radioactive waste sites; how often they are checked; and by whom checks are done. [157261]

**Mr. Morley:** The Environment Agency (EA), under the provisions of the Radioactive Substances Act 1993, regulates low-Level Radioactive Waste (LLW) disposal sites in England and Wales. This is achieved through authorisations which impose various conditions on the site operator. The authorisations require the operator to routinely report to the EA disposals against the authorised limits. In addition to reviewing these reports, the EA periodically inspects all authorised LLW disposal sites, to ensure that the conditions of the authorisation remain appropriate, and are being complied with.

The primary UK national LLW disposal site, operated by BNFL at Drigg in West Cumbria, is regulated by both the EA and by the Nuclear Safety Directorate of the Health and Safety Executive, under the provisions of the Nuclear Installations Act 1965.

The EA monitors radioactivity in surface waters (leachates, boreholes and nearby rivers and streams) around waste disposal (landfill) sites where disposals of low-level radioactive waste are authorised. This is undertaken on an annual or bi-annual basis.

BNFL undertake quarterly monitoring programmes of boreholes at the Clifton Marsh landfill site. In addition the company carries out quarterly dose rate surveys in relation to the Ulnes Walton landfill site and monitoring of the River Lostock close to the outfall point. The results of these monitoring programmes can be found on the BNFL website at www.bnfl.com.

The EA undertakes a thorough radioactivity monitoring regime in the vicinity of the Drigg site. This includes monitoring of surface waters and sediments bi-annually and monitoring of sands, sediments and seaweeds on the West Cumbrian coast four times per year. The Food Standards Agency also carries out monitoring of foods in West Cumbria to check that food produced around Sellafield and Drigg is safe. The monitoring includes seafoods caught from the Irish Sea off the West Cumbrian coast.

From 2002, the results of all the environmental monitoring carried out by the Environment Agency and by the Food Standards Agency are reported jointly and annually in the Radioactivity in Food and the Environment report series, copies of which are placed in the Library.

### Air Quality Expert Group

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* total budget and *(b)* budget for administration were for the Air Quality Expert Group in financial year 2002–03. [158683]

**Alun Michael:** The estimated total budget for AQEG in financial year 2002–03 was £74,000. The estimated administration budget was £27,500, based on the costs of Defra staff resources to run the Secretariat.

### Asgard Systems

**Alistair Burt:** To ask the Secretary of State for Environment, Food and Rural Affairs under what circumstances a court action may be brought against the Environment Agency concerning the quality of advice given by the Agency on an enquiry by a business or member of the public; and if she will make a statement. [156717]

**Mr. Morley:** I am advised that where a public body, such as the Environment Agency, has given advice to a person, that person may be able to bring some form of court action against the public body if that body has acted in some way that is improper, negligent or in breach of its statutory duties. The nature and likely merits of any such action would depend on the particular circumstances of the case. Consequently, any person thinking of taking legal action against a public body would be well advised to seek independent legal advice before doing so.

### Batteries (Disposal)

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will hold a consultation exercise on the forthcoming EU directive on the disposal and recycling of batteries. [157527]

**Mr. Morley:** The Government intend to issue a consultation document on the draft Batteries Directive this spring.

### Biosafety Protocol

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what position the UK took at the recent meeting of parties to the Biosafety Protocol in Kuala Lumpur in relation to the creation of an international liability regime. [159796]

**Mr. Morley** *[holding answer 8 March 2004]:* In line with the EU's common position (as set out in December's Environment Council Conclusions), the UK supported the adoption of a process with respect to the appropriate elaboration of international rules and procedures in the field of liability and redress for damage resulting from transboundary movements of genetically modified organisms (GMOs), and making a final report to the meeting of the Parties within four years (by 2008).

The EU/UK position was that the most appropriate mechanism for this process should be a group of technical and legal experts.

### Bovine TB

**Mr. Paterson:** To ask the Secretary of State for Environment, Food and Rural Affairs how many human cases of M.bovis have been linked to occupational exposure to infected cattle in the last 10 years. [157956]

**Miss Melanie Johnson:** I have been asked to reply.

There are no official records for occupational exposure, though two cases, themselves linked, are reported to have been linked to occupation in recent years. The most up to date available figures for human M.bovis infection in England and Wales since 1993 are shown in the table. Figures are not yet available for 2002.

| *Year* | *Total M.bovis human infections* |
|---|---|
| 1993 | 37 |
| 1994 | 31 |
| 1995 | 20 |
| 1996 | 32 |
| 1997 | 30 |
| 1998 | 30 |
| 1999 | 31 |
| 2000 | 18 |
| 2001 | [1]27 |

[1] Provisional data

*Source:*
MycobNet Health Protection Agency Communicable Disease Surveillance Centre 1993–2001.

### Cetaceans

**Andrew Mackinlay:** To ask the Secretary of State for Environment, Food and Rural Affairs what measures the Government have taken since 1997, and what further measures are proposed, to reduce the number of dolphins and porpoises killed; and if she will make a statement. [156215]

**Mr. Bradshaw:** Since 1997, the Government have funded a number of research projects to identify fisheries in which dolphin and porpoise bycatch occurs and to develop and trial measures to reduce this bycatch. This work has led in particular to the identification of a dolphin bycatch problem in the offshore pair trawl fishery for bass and the development of an escape grid mechanism as a potential means of reducing this bycatch. Trials of this device are currently taking place. Work has also identified that acoustic devices known as pingers are effective in reducing bycatch of harbour porpoises in fixed gear fisheries.

Alongside this work this Department, along with devolved Administrations, published in March 2003 the UK Small Cetacean Bycatch Response Strategy which made a number of recommendations to reduce bycatch. We are currently considering responses to this consultation document with a view to the implementation of this strategy. As EU measures will be most effective in reducing bycatch in community waters, the strategy will need to take account of the outcome of current discussions on European Commission proposals to reduce bycatch. I welcome the Commission proposals and I am looking for their early implementation.

### Departmental Premises (Chelmsford)

**Mr. Burns:** To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department plans to sell its premises in Beeches Road, Chelmsford; and if she will make a statement. [159993]

**Alun Michael:** Defra does not own premises at Beeches Road, Chelmsford; it leases space from Department of Works and Pensions. We have no plans to leave.

### Ducks

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs how many ducks other than ruddy ducks, broken down by species, have been culled as a result of the ruddy duck control scheme. [159213]

**Mr. Bradshaw:** A total of five ducks other than ruddy ducks have been killed during shooting operations since April 1999; two female tufted ducks, one male tufted duck, one male teal and one juvenile long-tailed duck, this compares to a total of over 4,200 ruddy ducks shot.

A further seven ducks (mallard chicks) died during the trap-testing which took place during the control trial. This compares to 17 ruddy ducks trapped.

The killing of non-target birds is taken very seriously and every effort is made to minimise such losses. The Standard Operating Procedures issued to all field operatives make it clear that there should be a high degree of vigilance over identification and that shooting should only take place if safe to do so without causing injury or death to non-target species.

### End of Life Vehicles Directive

**Mr. Bill O'Brien:** To ask the Secretary of State for Environment, Food and Rural Affairs how many vehicle dismantlers registered with the Environmental Agency for a site licence before the 1 February deadline under implementation of the European End of Life Vehicles Directive; and how many vehicle dismantlers she estimates are operating without licences. [157982]

**Mr. Morley:** The Environment Agency received 600 applications from vehicle dismantlers wanting to register for their site licences before the 31 January deadline. In addition, 900 sites are already licensed to treat ELVs.

It is very difficult to estimate how many vehicle dismantlers are operating without a licence because registered exempt sites may continue to accept depolluted ELVs. The agency has yet to check how many previously exempt sites have not applied for a licence, but these sites are mainly small scale and already operate to high standards of environmental protection.

### Environmentally Sustainable Procurement

**Mr. Sheerman:** To ask the Secretary of State for Environment, Food and Rural Affairs in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159102]

**Mr. Morley:** My right hon. Friend the Secretary of State set out an overview of the Government's approach to sustainable procurement on 30 October 2003, *Official Report*, column 15WS, signalling how recommendations from the inter-departmental Sustainable Procurement Group (SPG) would be taken forward.

The emphasis in the first phase of action will be on the frameworks for sustainable procurement practice and the embedding across Government of minimum specification standards which represent good environmental practice. We consider that these are essential steps towards tackling the still tougher challenge of encouraging environmental innovation through public procurement.

The report of the SPG (www.sustainable-development.gov.uk/sdig/improving/partf/report03/08.htm) recommended that the theme of sustainable procurement and inhovation should be a focus for further work over the coming year. That work has now started, and will be taken forward in the context also of the Government's Innovation Report, published by the Department of Trade and Industry in December (www.dti.gov.uk/innovationreport/innovation-report-full.pdf).

It is expected that the forthcoming procurement section of the "Framework for Sustainable Development on the Government Estate" (see http://www.sustainable-development.gov.uk/sdig/improving/index.htnn) will set Government wide commitments for embedding sustainable development considerations in departmental procurement strategies.

### Fallen Stock

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the implications for farmers of delays in the start-up of the fallen stock collection service; and what arrangement she has put in place to exempt farmers from possible prosecution under the EU directive on prevention of burying deadstock. [159404]

**Mr. Bradshaw** *[holding answer 5 March 2004]*: The ban on burial has been in place since 1 May 2003 and, as we made clear then, we expect farmers to use existing approved outlets such as knacker yards, hunt kennels, maggot farms, rendering facilities or incineration plants for disposal of their fallen stock. However, we have asked local authorities to take a pragmatic approach to enforcement where farmers have made every effort to dispose of their fallen stock via these outlets but are genuinely unable to comply.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs how many people signed up to the fallen stock collection scheme, broken down by region. [159405]

**Mr. Bradshaw** *[holding answer 5 March 2004]*: There has been no invitation to farmers to sign up to the National Fallen Stock Scheme. Initial expressions of interest in joining the scheme were sought from farmers last year.

### Farm Payments

**Mr. Nicholas Brown:** To ask the Secretary of State for Environment, Food and Rural Affairs in what circumstances the Government are unable to disclose the names and addresses of *(a)* individuals and *(b)* companies in receipt of direct payments under the Common Agricultural Policy; and if she will make a statement. [160168]

**Alun Michael:** The Rural Payments Agency (RPA) is bound by commercial confidentiality in its dealings with its customers, whether sole traders or farmers or corporations, breach of which by disclosing information relating to the affairs of individual traders or farmers or corporations would expose the RPA to the liability of legal proceedings in tort.

In relation to individual farmers or traders, information which is of a personal nature, such as individual payments to such persons, is personal data which is protected from voluntary disclosure under the Data Protection Act 1998. While the RPA can release global figures relating to payments, which do not identify individual persons, including corporations, it is unable to release individual figures without incurring the liabilities under the two principles referred to.

### GM Crops

**Gregory Barker:** To ask the Secretary of State for Environment, Food and Rural Affairs how many GM plants per square metre would be expected to grown in a field of conventional crops of which 0.9 per cent. of plants are GM in respect of *(a)* oil seed rape, *(b)* sugar beet and *(c)* maize. [158276]

**Mr. Morley** *[holding answers 2 March 2004]*: Seed drilling rate is variable, depending on conditions, and only a proportion of those seeds sown will establish. Approximate figures for established plants are as follows: Oilseed rape 50–60 crop plants per metre square; Beet 8–10 plants per metre square; and, Fodder Maize 10 plants per metre square. Accordingly, 0.9 per cent. of these values would give 0.45–0.54 plants per metre square for Oilseed Rape; 0.07–0.09 plants per metre square for Beet; and, 0.09 plants per metre square for Maize.

### Household Waste

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the legislative changes required to allow local authorities to adopt direct and variable charging schemes for the collection and disposal of household waste. [158231]

**Mr. Morley:** Amendments to sections 45 and 51 of the Environmental Protection Act 1990 would be required to allow waste collection authorities and waste disposal authorities to charge householders for the collection, processing, treatment and disposal of household waste and for household waste delivered to Civic Amenity sites respectively. Provision would also need to be made under such powers for secondary legislation to provide for the exercise of those powers by local authorities.

### Landfill

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs for how long after use of a landfill site has been discontinued low-level radioactive waste monitoring is carried out. [157296]

**Mr. Morley:** Responsibility for regular annual monitoring of radioactivity in the environment around landfill sites in England and Wales rests with the Environment Agency and the Scottish Environment Protection Agency for Scotland.

There is no fixed time after which monitoring for radioactivity around landfill sites will cease to be undertaken once they cease to receive radioactive wastes. Monitoring programmes are kept under review and any decision to discontinue monitoring is only made after careful evaluation. Evaluation takes into account the inventory of waste disposed to a site, including the radionuclides and quantities, the characteristics of the disposal site, and whether monitoring results have shown that radioactivity is consistently low or not detectable.

The results of radioactivity monitoring carried out around landfill sites are reported annually. Results for 2002 are presented in Radioactivity in Food and the Environment Report (RIFE—8), which is available in the House of Commons Library.

### Meat and Livestock Commission

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how much funding was given to the Meat and Livestock Commission in each of the last five years. [157706]

**Alun Michael:** Funding (ie from net Statutory Levy income and non-commercial fee and grant income) received by the Meat and Livestock Commission in the last five years was as follows:

| | *£ million* |
|---|---|
| 1998–99 | 39.566 |
| 1999–2000 | 38.461 |
| 2000–01 | 36.668 |
| 2001–02 | 27.667 |
| 2002–03 | 31.531 |

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how her Department's funding to the Meat and Livestock Commission is spent; and what rules apply to the promotion of *(a)* Welsh (i) lamb and (ii) beef, *(b)* Scottish (i) lamb and (ii) beef and *(c)* English (i) lamb and (ii) beef. [158582]

**Alun Michael:** The Agriculture Act 1967 requires the Department to pay for the remuneration and expenses of Meat and Livestock (MLC) Commissioners. As regards how the MLC spend the statutory general and promotional levies raised by them on cattle, sheep and pigs, this information is available in the MLC's annual report and accounts which Ministers are required under the Act to lay before each House of Parliament.

Bodies in receipt of MLC levy funding must abide by EU State Aid rules when undertaking lamb or beef promotion campaigns. These rules place restrictions on the use of State (including levy) funds for the advertising of agricultural products on the basis of origin. Welsh lamb, Welsh beef, Scotch lamb and Scotch beef have been awarded Protected Geographical Indication (PGI) status by the European Commission. This means that the European Commission has accepted the link between the geographical origin and the characteristics of the product. In such cases, State money may be used to fund advertising where origin is part of the message. English lamb and English beef do not have PGI status.

### Mobile Homes

**Mr. David Atkinson:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will provide financial assistance for owners of mobile homes in flood risk areas who are required by their insurance company to raise their homes above flood level; and if she will make a statement. [155866]

**Mr. Morley:** The Government do not offer financial assistance for homes in flood risk areas. Financial issues relating to maintenance and insurance of the property are the responsibility of the property owner.

For mobile homes as with other properties, insurers will examine the risks on a case-by-case basis, and will use their best efforts to continue to provide cover. The Association of British Insurers believes that nearly all homes are insurable to a degree, provided appropriate action is taken to protect the property, eg by raising homes above flood level.

### National Fruit Collection

**Hugh Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a statement on the land ownership issues at Brogdale as they affect the National Fruit Collection; [159262]

(2) if she will make a statement on the future of the National Fruit Collection at Brogdale; [159263]

(3) if she will make a statement on the criteria her Department used to assess a suitable manager for the National Fruit Collection. [159264]

**Alun Michael:** The National Fruit Collection belongs to Defra and we have contracts with Brogdale Horticulture Trust covering its maintenance and curation; and with Imperial College (Wye) on scientific programme direction. Under overriding lease provisions, agreed some years ago, we have access to the NFC until 2016, irrespective of land ownership or land holding considerations. We have been holding a number of discussions with Brogdale Horticulture Trust about the future curation contract arrangements which we hope to conclude shortly.

### Radioactive Waste

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what mechanisms she is evaluating to ensure that people hundreds of years hence are aware of *(a)* the presence and *(b)* the dangers of existing radioactive material which has a half-life extending beyond hundreds of years; [152619]

(2) what safeguards she intends to put in place to prevent radioactive contamination of future generations from *(a)* existing stocks of (i) intermediate level and (ii) high-level radioactive material and *(b)* from stocks predicted to arise over the next 50 years. [152692]

**Mr. Morley:** The safe operation of interim radioactive material and waste storage and eventual disposal facilities is a matter for regulatory control by the Health and Safety

Executive and the environment agencies. Both Ministers and the regulatory bodies require safety cases submitted for the operation of such facilities to provide demonstration of adequate protection of the public and the environment both now and into the future. The Committee on Radioactive Waste Management (CoRWM) has been set up under the "Managing Radioactive Waste Safely" programme to provide recommendations to UK Government and the devolved Administrations on the best option, or combination of options, for safe long-term management of the UK's higher activity radioactive wastes, including all intermediate and high level waste, liable to arise in the foreseeable future.

## Water Charges

**Mrs. Calton:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the percentage change in charges to householders for water charges in the last five years, broken down by region; and what advice has been given to water providers with respect to such charges. [157372]

**Mr. Morley:** Water bills and sewerage bills are set separately by each water and sewerage company and water company in England and Wales. The boundaries of these companies do not conform to the boundaries between England and Wales nor to the boundaries between English regions. It has therefore not been possible to make assessments on the basis requested.

The Director General of Water Services (Ofwat) sets upper price limits for water and sewerage companies and approves companies' yearly charges schemes for customers. The Secretary of State issues guidance to Ofwat on Government policies affecting price limits and on the approval of charges schemes.

The average household water and sewerage bills for each company in England and Wales in each financial year since 1996–97 are set out in the following two tables.

*Nominal average household sewerage bill (£)*

| | *1996–97* | *1997–98* | *1998–99* | *1999–2000* | *20000–01* | *2001–02* | *2002–03* | *2003–04* |
|---|---|---|---|---|---|---|---|---|

## TREASURY

### Compliance Performance Targets

**Mr. Gray:** To ask the Chancellor of the Exchequer pursuant to the Answers of 26 January 2004, *Official Report*, column 110W, and 1 March 2004, *Official Report*, column 658W, on compliance performance targets, what the compliance performance estimate the for Inland Revenue was for 2003–04 as agreed as part of the planning process for the current year; and what the estimates for the compliance performance were in 2003–04 of *(a)* the Large Business Office and *(b)* International Division. [160099]

**Dawn Primarolo:** The Inland Revenue has not drawn up compliance performance estimates since 1999–2000, when a global estimate for the Department was given. As the Board's report for 2003 sets out, yield figures vary according to the number and tax effect of the complex enquiries brought to settlement in each year, and this is also affected by the consequences of litigation undertaken.

### Project ASPIRE

**Mr. Gray:** To ask the Chancellor of the Exchequer pursuant to the Answer of 27 February 2004, *Official Report*, column 575W, on the Inland Revenue, which commissioners of the Inland Revenue had prior knowledge of the suppliers with whom the Inland Revenue team intended to meet as part of the market making exercise for Project ASPIRE. [160014]

**Dawn Primarolo:** As the Board member responsible for Business Services, Tim Flesher had prior knowledge of the suppliers with whom the Inland Revenue team intended to meet as part of the Market Making exercise for Project ASPIRE.

**Mr. Gray:** To ask the Chancellor of the Exchequer who the board member referred to in paragraph 54 of the Minutes of Evidence of the Public Accounts Committee, HC 431-i, Session 1999–2000, as responsible for John Yard's division on 12 April 2000 was; on what date that board member started the planning for re-tendering the Inland Revenue's information technology service referred to in the Minutes of Evidence; and on what date it was decided to conduct the market making exercise referred to in the Minutes of Evidence. [160016]

**Dawn Primarolo:** As I stated in my answer of 6 February 2004, *Official Report*, column 1081W, the Board member responsible for Business Services on 12 April 2000 was Tim Flesher, who at that time was the Inland Revenue's Deputy Chairman. As I also stated in my answer of 16 December 2003, *Official Report*, column 803W, planning for the ASPIRE project began in January 2001. The Market making exercise was conceived by the Inland Revenue between August and October 2001, as stated in my answer of 14 October 2003, *Official Report*, column 141W.

**Mr. Gray:** To ask the Chancellor of the Exchequer pursuant to the Answer of 30 January 2004, *Official Report*, columns 569–70W, which commissioners were present at the meeting on 7 March 2002 on Project ASPIRE; whether the commissioners addressed the assembled suppliers; and whether the commissioners were informed in advance of those suppliers who had indicated that they would attend the meeting. [160015]

**Dawn Primarolo:** Sir Nicholas Montagu KCB, Chairman of the Inland Revenue, and Tim Flesher, the former Deputy Chairman of the Inland Revenue were present at the meeting on 7 March 2002. Both addressed the meeting and had been informed in advance about which suppliers would attend the meeting.

### Public Sector Borrowing

**Mr. Tyrie:** To ask the Chancellor of the Exchequer what the *(a)* public, *(b)* private and *(c)* total borrowing of (i) those higher education institutions in receipt of funding from the Higher Education Funding Councils, (ii) housing associations and (iii) Network Rail was in each year from 1997–98 to 2002–03; and what the latest available figures are for the (A) public, (B) private and (C) total debt of each. [156160]

**Mr. Boateng:** Details of the borrowing for academic years 1997–81 to 2002–03 by higher education institutions in receipt of funding from the Higher Education Funding Council for England were published for each year by HEFCE in their "Outcomes of financial forecasts, annual monitoring statements and corporate planning statements", copies of which have been placed in the Library of the House.

Details of the borrowing for financial years 1997–98 to 2002–03 by housing associations are available in the Housing Corporation's Annual Private Finance Monitoring Bulletins 1998 to 2003, copies of which have been placed in the Library of the House.

Network Rail has been responsible for operating, maintaining and renewing Britain's rail infrastructure only since October 2002. Consequently, 2002–03 is the only financial year for which published information on borrowing is available. This is in the company's annual report and accounts copies of which are available in the Library of the House. None of their borrowing at the end of the year was from the public sector. The position for the current year is not yet publicly available.

### Redundancy Money

**Vera Baird:** To ask the Chancellor of the Exchequer what plans he has to review the threshold at which tax is paid on redundancy money. [159882]

**Dawn Primarolo:** As with all taxes the threshold at which tax is paid on redundancy money is a matter for the Chancellor to consider as part of the annual Budget process.

### Scottish Football Industry

**Pete Wishart:** To ask the Chancellor of the Exchequer what responsibilities his Department has in relation to the Scottish football industry; and if he will make a statement. [156824]

**Dawn Primarolo** *[holding answer 27 February 2004]:* Sport is primarily a devolved matter in Scotland and so the responsibility of the Scottish Executive. In relation to non devolved fiscal aspects, the 2003 Pre-Budget Report announced that the Government is to consider

how it can best help to support Football Supporters' Trusts, in particular by a review of how they are treated by the Inland Revenue.

### Small Business Taxation

**Mr. Pickthall:** To ask the Chancellor of the Exchequer pursuant to his answer of 3 March, *Official Report*, column 910W, on small business taxation, what plans he has to change the taxation of small businesses. [159644]

**Dawn Primarolo:** All taxes are reviewed as part of the annual Budget process.

### Timber

**Ms Walley:** To ask the Chancellor of the Exchequer what construction and refurbishment HM Treasury is undertaking; at what locations; and what measures are being implemented to ensure that all timber used *(a)* on the construction sites and *(b)* in the final project will come from legal and sustainable sources. [158105]

**Ruth Kelly:** The Treasury is not undertaking any construction and refurbishment projects. The Department moved into refurbished premises at 1 Horse Guards Road in the summer of 2002.

**Ms Walley:** To ask the Chancellor of the Exchequer which companies have contracts for furniture provision for HM Treasury; and what measures have been implemented to ensure that when a product contains wood, it can be shown to come from legal and sustainable sources. [158107]

**Ruth Kelly:** The Treasury purchases its furniture though direct contracts and framework agreements let by OGC Buying Solutions or Inland Revenue. In all cases there are clauses in the contract that require any wood products to come from sustainable sources.

## WORK AND PENSIONS

### Housing Benefit

**Patrick Mercer:** To ask the Secretary of State for Work and Pensions for what reason the Housing Benefit Regulations *(a)* require a Rent Officer to review the rent of a private landlord and *(b)* do not require a rent officer to review the rent of a registered social landlord. [158985]

**Mr. Pond:** Claims received from those in the private rented sector will generally be referred to the local Rent Officer for a rental valuation to determine the HB claim. The Rent Officer will look at the level of rents within the neighbourhood as well as in the wider locality. Any subsequent restriction in the rent used to calculate Housing Benefit will reflect a reasonable market rent for suitable accommodation of the appropriate size within the locality. This ensures that benefit paid to claimants is sufficient to pay for an appropriate dwelling whilst, at the same time, protecting the public purse.

Generally, local authorities are not required to refer registered social landlord (RSL) tenancies to the rent officer for determination; the full contractual rent, less any ineligible charges, is used to calculate Housing Benefit. RSL rents are subject to Housing Corporation regulation and are generally set within prevailing market levels. However, where the local authority considers the rent to be excessive, or the accommodation overlarge for the tenant's needs, it is required to refer the tenancy to the Rent Officer. Where a tenancy is referred to a Rent Officer, Housing Benefit would be restricted to a maximum rent in the usual way.

### Age Discrimination

**Linda Perham:** To ask the Secretary of State for Work and Pensions what assessment he has made of the effectiveness of the Code of Practice on age discrimination in the workplace. [156084]

**Malcolm Wicks:** The Code of Practice was launched in 1999 and an initial evaluation of its impact was, undertaken in 2001. This showed that the number of companies using age in recruitment had fallen from 27 per cent. to 13 per cent., awareness of the Code had risen from 14 per cent. to 37 per cent. and the number of companies having a policy against employing older workers had dropped from 14 per cent. to 7 per cent. Since then we have continued to promote the business case for recruiting, training and retaining older workers through the Age Positive, campaign and website, www.agepositive.gov.uk. We are commissioning more research with employers this year to further assess the impact of the campaign.

In December 2002, we published an updated version of the Code of Practice 'Age Diversity at work: a practical guide for business' which sets out the standards for non-ageist approaches to recruitment, training, promotion, redundancy and retirement. The campaign, which since last year has included enhanced promotion in Wales and Scotland, has been attracting considerable media coverage. This has resulted in a considerable increase in employer interest across the whole of Great Britain, as well as much increased traffic to the website. A sample survey of employers undertaken by Cranfield School of Management in 2003 indicated that a third of employers believe they have non-ageist policies in place and a further third were planning to adopt non-ageist policies within the coming two years. Copies of the survey have been placed in the Library.

### Benefit Payments

**Simon Hughes:** To ask the Secretary of State for Work and Pensions how many *(a)* child benefit recipients, *(b)* pensioners and *(c)* other benefit recipients received payments (i) into bank accounts, (ii) into Post Office Card Accounts and (iii) through post offices using pension and benefit books in (A) Greater London and (B) each London borough at the most recent date for which figures are available. [158402]

**Mr. Pond:** The available information requested is shown by each London local authority as at 24 January 2004. Child benefit is the responsibility of my right hon. Friend, the Chancellor of the Exchequer and War Pensions are the responsibility of my right hon. Friend, the Secretary of State for Defence.

*Recipients of benefits in London local authorities broken down by method of payment*

| | Total | Bank accounts | Percentage of recipients paid by bank account | Post Office card account | Percentage of recipients paid by Post Office card account | Order book | Percentage of recipients paid by Order book |
|---|---|---|---|---|---|---|---|
| *Non pensioners* | | | | | | | |
| All London local authorities | 828,255 | 417,105 | 46.66 | 22,625 | 2.53 | 388,525 | 43.46 |
| Inner London-West | 111,460 | 57,920 | 48.28 | 4,190 | 3.49 | 49,345 | 41.13 |
| Camden | 28,255 | 14,950 | 48.64 | 790 | 2.57 | 12,515 | 40.73 |
| City of London | 535 | 300 | 50.51 | 15 | 2.71 | 220 | 37.12 |
| Hammersmith and Fulham | 20,915 | 11,015 | 49.35 | 1,270 | 5.68 | 8,630 | 38.66 |
| Kensington and Chelsea | 14,435 | 8,010 | 52.17 | 735 | 4.77 | 5,690 | 37.07 |
| Wandsworth | 25,365 | 12,090 | 44.03 | 505 | 1.85 | 12,765 | 46.48 |
| Westminster | 21,960 | 11,555 | 49.14 | 875 | 3.72 | 9,525 | 40.51 |
| Inner London—East | 280,320 | 130,965 | 42.86 | 9,020 | 2.95 | 140,330 | 45.92 |
| Hackney | 36,715 | 17,565 | 44.16 | 1,645 | 4.13 | 17,505 | 44.01 |

## Care Grants

**Sandra Gidley:** To ask the Secretary of State for Work and Pensions how much money has been allocated in care grants in each year since 1999 *(a)* in total for England and *(b)* broken down by local authority. [157370]

**Mr. Pond:** The available information for England is in the table.

*Community Care Grant budget and expenditure for England since 1999*

£

| | Initial budget | Contingency Reserve allocation | Total allocation | Expenditure |
|---|---|---|---|---|
| 1999–2000 | 77.14 | 0.34 | 77.48 | 77.38 |
| 2000–01 | 78.71 | 0.26 | 78.97 | 78.87 |
| 2001–02 | 80.95 | 0.21 | 81.15 | 80.62 |
| 2002–03 | 84.91 | 0.81 | 85.72 | 85.02 |
| 2003–04 | 92.72 | 0.36 | 93.08 | — |

*Notes:*
1. All figures are given in millions.
2. Figures are rounded to the nearest £0.01 million.
3. Figures may not sum due to rounding.
4. The Contingency Reserve allocation for 2003–04 is the allocation so far this year.

*Source:*
DWP figures; Social Fund Policy Budget and Management Information System

The information is not available at local authority level.

Initial budgets and contingency reserve allocations are set at Social Fund/Jobcentre Plus district level. Information regarding all district initial budgets and contingency reserve allocations are available in the Library; this includes information regarding the impact of boundary changes made in 2002–03.

## Council Tax Benefit

**Mr. Burstow:** To ask the Secretary of State for Work and Pensions how many people are claiming Council Tax Benefit. [159916]

**Mr. Pond:** The information is not available in the format requested.

As at August 2003, 4,657,400 households were in receipt of Council Tax Benefit in Great Britain.

*Source:*
DWP Data 100 per cent. sample (figures rounded to nearest hundred).

## Ministerial Speeches

**Keith Vaz:** To ask the Secretary of State for Work and Pensions how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156148]

**Mr. Andrew Smith:** I and members of the Government make a number of speeches on a wide range of domestic and international issues. Copies of my speeches are available on the Departmental website at www.dwp.gov.uk (contained within the Media Centre then Ministers Speeches).

## Westminster Hall

**Bob Spink:** To ask the Secretary of State for Work and Pensions if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [159614]

**Mr. Andrew Smith:** I refer my hon. Member to the Written answer given by my right hon. Friend the Leader of the House on 8 March 2004, *Official Report*, column 1234W.

## Winter Fuel Payments

**Mr. Crausby:** To ask the Secretary of State for Work and Pensions how many people have requested application forms for winter fuel payments via e-mail in each year since the facility became available. [159851]

**Malcolm Wicks:** During the 2002–03 Winter Fuel Payment exercise there were 250 requests for a Winter

Fuel Payment claim form via e-mail. To date for this winter 2003–04 there have been 410 requests for a Winter Fuel Payment claim form via e-mail.

### Funding (Dorset)

**Jim Knight:** To ask the Secretary of State for Work and Pensions what grants were awarded to local authorities in Dorset by his Department in financial year 2003–04 that fall outside the revenue support grant. [156203]

**Mr. Pond:** I refer the hon. Member to the answer given by my right hon. Friend the Minister for Local and Regional Government on 1 March 2004, *Official Report*, column 750W.

## HOME DEPARTMENT

### "Reducing Crime, Changing Lives"

**Mr. Martyn Jones:** To ask the Secretary of State for the Home Department when he last met representatives of NAPO to discuss the implications of the Carter Report; and when he next plans to meet NAPO representatives on this subject. [155614]

**Paul Goggins:** As the Minister responsible for the Probation Service I meet at least twice a year with representatives of the relevant trade unions, including National Association of Probation Officers in the Ministerial Trade Union Forum. The last meeting was held on 17 December prior to the publication of Patrick Carter's report and the Home Office response, "Reducing Crime—Changing Lives".

**Mr. Gerrard:** To ask the Secretary of State for the Home Department what consultation took place, and for what period, on the plans contained in, "Reducing Crime, Changing Lives". [155840]

**Paul Goggins:** "Reducing Crime, Changing Lives" was published on 6 January. The closing date for responses was 3 March.

### "The Old and the New" Report

**Mr. Kilfoyle:** To ask the Secretary of State for the Home Department when he will implement the recommendations of the report The New and the Old from the Life in the United Kingdom Advisory Group. [159239]

**Beverley Hughes:** I refer my hon. Friend to the Written Ministerial Statement made by my right hon. Friend, Baroness Scotland of Asthal on 2 February 2004. *Official Report*, column WS13, and to the related papers deposited in the Library, which set out the steps we are taking to implement the recommendations of the report.

### EU Accession States

**Mr. Burstow:** To ask the Secretary of State for the Home Department pursuant to the statement by the Home Secretary on 23 February 2004, *Official Report*, columns 23–36, on immigration from the accession states, what assessment he has made of the impact of the policy on the recruitment of health care professionals to work in the UK. [158585]

**Beverley Hughes:** Relevantly qualified healthcare professionals from the EU accession states will be able to work in the United Kingdom after accession.

All nationals from Poland, Czech Republic, Slovakia, Slovenia, Hungary, Latvia, Estonia and Lithuania who find work in the UK will be required to apply to register with the Home Office under the new 'Worker Registration Scheme' as soon as they find work. This should have no impact on the ability of the NHS to recruit health care professionals from EU accession states.

**Glenda Jackson:** To ask the Secretary of State for the Home Department (1) to whom and how often employers will be required to forward the number of EU accession citizens in their employ; whether employers will be permitted to charge the employee for such registrations; and whether employers will be fined if they fail to keep such information up-to-date; [156980]

(2) whether the issuing of a worker's registration certificate will enable a citizen of an EU accession state to look for work in the United Kingdom if employment is not already guaranteed; [156982]

(3) who will issue the registration certificate enabling EU accession nationals to work in the UK; and whether there will be a charge for such a certificate; [156992]

(4) when the work registration certificates enabling EU accession states citizens to work in the UK will begin to be issued; for how long such a certificate will enable the holder to seek work; and whether it will be necessary for such certificates to be re-applied for should the holder move to another part of the UK from that in which their initial employment was found. [156998]

**Beverley Hughes:** My right hon. Friend the Home Secretary indicated in his statement to the House on 23 February 2003, *Official Report* columns 23–25, that, from 1 May, accession country nationals will have free movement across EU borders. They will not be required to apply for entry clearance to travel to the United Kingdom in search of work. With the exception of Malta and Cyprus, citizens of the new member states will need to register with the Home Office when they find a job in the UK, providing information about where and for whom they are working. Employers will be required to satisfy themselves that accession country nationals in their employ apply for and receive registration under this scheme.

The registration scheme will be run by the Immigration and Nationality Directorate. The Directorate is looking into whether all or part of the administrative costs of the scheme could be recovered through charges.

Registration under the scheme will be issued for 12 months, and within that period will be valid for as long as the worker is in the registered employment. The worker should apply to renew the registration if he or she finds a job with a new employer. Registration under the scheme will apply only to workers in the United Kingdom, not to those who are not working.

**Bob Spink:** To ask the Secretary of State for the Home Department what restrictions he plans to introduce to prevent unwanted mass immigration after accession of Eastern European countries to the EU in May. [153097]

**Beverley Hughes:** Based on research and experience of previous accession, the Home Office does not expect migration from the accession countries after May 1 to be at levels which would damage the labour market. Measures to ensure we can both monitor the impact on the labour market and prevent access to work-seeking benefits, child benefit and housing support were announced by my right hon. friend the Home Secretary to the House of Commons on 23 February 2004, *Official Report*, columns 23–25, in which he outlined the regulations the Government will be bringing forward to ensure that income related benefits, housing support and child benefit are not abused.

Accession state nationals who want to work in the UK will be required to register as a worker once they have found a job. This will allow the Government to very closely monitor the numbers of people coming to work in the UK.

In the unexpected event of a large influx of workers to the UK, which threatened the level of employment or standard of living in a particular region or occupation we would impose restrictions on workers.

**Mr. Simmonds:** To ask the Secretary of State for the Home Department what discussions have taken place between his Department and its counterparts in the new EU accession states regarding the security of peripheral EU borders. [157576]

**Beverley Hughes:** Home Office Ministers and officials have discussed the security of periphery EU borders with accession state counterparts on many occasions over the past 12 months (and longer), both bilaterally and within the EU framework. These discussions will continue during the lead up to formal accession in May and beyond.

Examples of these discussions include the recent bilateral meetings between my hon. Friend the Member for Don Valley (Caroline Flint) and Polish and Hungarian counterparts; a joint UK-Finnish border management conference attended by all 13 accession and candidate countries; bilateral technical co-operation meetings with Cyprus, the Czech Republic, Malta, Poland and Slovenia; a UK-hosted seminar on justice and home affairs issues attended by all accession states; and UK participation in border control projects in Malta and Poland.

## Foreign Nationals

**Mr. Simmonds:** To ask the Secretary of State for the Home Department how many foreign nationals entered the UK in each year since 1997. [157583]

**Beverley Hughes:** The latest available information is given in the table.

*Passengers given leave to enter the United Kingdom, excluding EEA nationals: 1997–2002*

| | *Number of journeys[1] (million)* |
|---|---|
| 1997 | 10.9 |
| 1998 | 11.5 |
| 1999 | 12.0 |
| 2000[2] | 13.0 |
| 2001[2] | 12.8 |
| 2002 | 12.6 |

[1] Includes people granted leave to enter the UK in the year shown but who may have been temporarily admitted in previous years.
[2] A change in procedures may have resulted in some under-recording for the fourth quarter of 2000 and the first quarter of 2001.

Data on passengers given leave to enter the United Kingdom are published in the Command Paper "Control of Immigration: Statistics United Kingdom 2002" (Cm6053), obtainable from the House Library, the Stationery Office and via the Home Office website http://www.homeoffice.gov.uk/rds/hobpubs1.html.

## Anti-Social Behaviour Orders

**Mr. Stephen O'Brien:** To ask the Secretary of State for the Home Department how many Anti-Social Behaviour Orders have been issued, broken down by *(a)* region of offender and *(b)* age of offender since their inception; and how many of these offenders have since been sentenced to custody. [158842]

**Ms Blears:** Anti-Social Behaviour Orders (ASBOs) were introduced from 1 April 1999 on application to the magistrates court acting in its civil capacity. The Police Reform Act (2002) authorised the magistrates courts and the Crown court to issue ASBOs on conviction, and the county courts (from 1 April 2003), to issue ASBOs on application. Data are given in table A of numbers of ASBOs issued, at all courts, as reported to the Home Office, by court type, area and age, up to 30 September 2003 (latest available).

In table B data are given, by age group and area, from 1 June 2000 up to 31 December 2002 (latest available) on breaches of ASBOs resulting in a custodial sentence.

*Table A: Number of anti-social behaviour orders issued at all courts, as reported to the Home Office, from 1 April 1999 to 30 September 2003, by court type, age and area: England and Wales*

| MCC/Police force area | *Total issued* | *Age 10–17* | *Age 18 and over* | *Unknown[1]* |

[1] Breaches are counted in this table on a persons basis, i.e. multiple breaches (occurring at the same time), or where the order has been breached on more than one occasion, are all counted as one breach.
[2] Includes breaches where the ASBO recipient was a juvenile when the order was given.
[3] Including City of London.
[4] Excluding two persons given a fully suspended sentence and five cases where a sentence of one day in police cells was given.

**John Mann:** To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of the use of Anti-Social Behaviour Orders as a means of fighting prostitution. [159458]

**Caroline Flint:** Anti-Social Behaviour Orders have been used in several parts of England and Wales to tackle the anti-social behaviour resulting from prostitution. They are only one of the tools available to tackle anti-social behaviour, and anecdotal evidence suggests that they are more effective in dealing with the anti-social effects of prostitution when used together with support to help sex workers exit prostitution. Work is currently under way to scope the issues around prostitution and this will consider the effectiveness of all means of dealing with prostitution.

**John Mann:** To ask the Secretary of State for the Home Department how many of those applying for Anti-Social Behaviour Orders in the past year have been registered social landlords. [159459]

**Ms Blears:** The Police Reform Act (December 2002) empowered registered social landlords to apply for Anti-Social Behaviour Orders (ASBOs) directly. Data are collected on the type of applicant only on those orders issued in the magistrates court, acting in its civil capacity, and within the county courts. Orders can also be made following conviction of an offence in the criminal courts—there is no applicant for these orders.

From 1 December 2002 up to 30 September 2003 (latest available), 13 of the 715 applications for ASBOs, as reported to the Home Office, have been made by registered social landlords. All were issued.

**John Mann:** To ask the Secretary of State for the Home Department how many Anti-Social Behaviour Orders have been issued to those under the age of 18 in the past year. [159462]

**Ms Blears:** Information is given in the following table.

*Number of anti-social behaviour orders issued, at all courts, by age and period, as reported to the Home Office, from 1 January 2002 to 30 September 2003 (latest available) England and Wales*

| Age | 1 January 2002 to 30 November 2002 | 1 December 2002[1] to 30 September 2003 |
|---|---|---|
| 10–17 | 205 | 371 |
| 18 and over | 130 | 334 |
| Unknown | 23 | 1 |
| Total | 358 | 706 |

[1] Following introduction of the Police Reform Act (December 2002) data for December 2002 have been included in the first quarter 2003.

**John Mann:** To ask the Secretary of State for the Home Department how many people have been prosecuted for breach of an Anti-Social Behaviour Order in the last 12 months for which figures are available. [159679]

**Ms Blears:** The available information relating to breaches of Anti-Social Behaviour Orders (ASBOs), within England and Wales, covers the period 1 June 2000 to 31 December 2002. Of the total number of 329 persons prosecuted for breach of an ASBO during this period, 305 persons were found guilty.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department how many Anti-Social Behaviour Orders have been issued by *(a)* Merseyside Police and *(b)* local authorities in Merseyside in each of the last five years. [159596]

**Ms Blears:** Anti-Social Behaviour Orders (ASBOs) were introduced from 1 April 1999 on application, by the Police or Local Authority, to the magistrates' court acting in its civil capacity. The Police Reform Act (2002) authorised the magistrates' courts and the Crown Court to issue ASBOs on conviction, and the county courts (from 1 April 2003), to issue ASBOs on application. Data are given in the table of numbers of ASBOs issued, at all courts, within Merseyside, up to 30 September 2003 (latest available).

Data are collected on the type of applicant on those orders only issued in the magistrates court, acting in its civil capacity, and within the county courts. Orders can also be made following conviction of an offence in the criminal courts—there is no applicant for these orders. Where applicable, data on the type of applicant are given in the table.

*Number of ASBOs, issued within Merseyside, at all courts, by period and applicant, 1 April 1999 to 30 September 2003*

| | Applications by | | | | Issued where the applicant was | | | | |
|---|---|---|---|---|---|---|---|---|---|
| Period | Police | Local authority | County courts | Total | Police | Local authority | County courts | Total | Issued on conviction |
| 1 April 1999 to 31 May 2000[1] | [2] | [2] | [3] | 12 | [2] | [2] | [3] | 8 | [3] |
| 1 June 2000 to 31 December 2000 | 2 | 1 | [3] | 3 | 2 | 1 | [3] | 3 | [3] |
| 1 January 2001 to 31 December 2001 | 0 | 7 | [3] | 7 | 0 | 7 | [3] | 7 | [3] |
| 1 January 2002 to 30 November 2002 | 0 | 22 | [3] | 22 | 0 | 22 | [3] | 22 | [3] |
| 1 December 2002 to 30 September 2003 | 4 | 23 | [3] | 27 | 4 | 22 | 1 | 27 | 0 |
| Total | 4 | 53 | [2] | 71 | 6 | 52 | 1 | 67 | 0 |

[1] From 1 April 1999 to 31 May 2000 data was collected by police force area only on numbers issued or refused.
[2] Not available.
[3] Not applicable.

## Asylum and Immigration

**Lady Hermon:** To ask the Secretary of State for the Home Department what assessment he has made of provision for *(a)* the processing of asylum applications and *(b)* the housing of asylum seekers in Northern Ireland. [157969]

**Beverley Hughes:** The UK Immigration Service has staff based at Belfast International Airport part of whose responsibility is to screen new asylum applicants encountered in Northern Ireland.

After screening, new applicants are normally interviewed by staff from the Immigration and Nationality Directorate's Asylum Casework Group to determine whether they have a valid claim, as is the procedure elsewhere in the UK.

The number of asylum applications received in Northern Ireland is relatively low and I am confident that the numbers of staff and facilities available for this work is commensurate with the current level of demand.

The Northern Ireland Housing Executive has responsibility for housing those asylum seekers who are supported by the National Asylum Support Service. These asylum seekers are referred to the Housing Executive by the Northern Ireland Council for Ethnic Minorities. The National Asylum Support Service does not disperse asylum seekers to Northern Ireland and the numbers supported there are low. Accommodation is provided to acceptable standards and is subject to housing inspections.

**Mr. Randall:** To ask the Secretary of State for the Home Department how many travellers were subject to immigration control at *(a)* Heathrow and *(b)* all other UK ports in each of the last five years for which there are records; and of these, what proportion were referred to medical inspectors (i) at Heathrow and (ii) at other ports. [156845]

**Beverley Hughes:** The figures for travellers subject to immigration control and who were granted leave to enter at *(a)* Heathrow and *(b)* all other UK ports in each of the last five years are as follows.

*Passengers given leave to enter the United Kingdom, excluding European Economic area (EEA) nationals, 1998 to 2002[1]: United Kingdom*

*Number of journeys (million)*

| | Heathrow | Other ports | Total |
|---|---|---|---|
| 1998 | 6.7 | 4.8 | 11.5 |
| 1999 | 6.8 | 5.2 | 12.0 |
| 2000 | 7.4 | 5.6 | 13.0 |
| 2001 | 7.4 | 5.4 | 12.8 |
| 2002[1] | 7.7 | 4.9 | 12.6 |

[1] Provisional.

*Notes:*

1. The data are of the number of journeys made; a person who makes more than one journey is counted on each occasion.
2. Long-standing policy is that any person subject to immigration control who:
(i) mentions health or medical treatment as a reason for coming to the United Kingdom, or appears unwell; or
(ii) is seeking leave to enter the United Kingdom for six months or more and is at high risk of having been exposed to tuberculosis should be referred by the immigration officer to a medical inspector.

The Department of Health does not collect data on the number of referrals for medical inspection. Data supplied by Heathrow and Gatwick health control units indicates the following number of referrals over the previous five years:

| | Heathrow | Gatwick |
|---|---|---|
| 1998–99 | 72,079 | Not known |
| 1999–2000 | 88,079 | 7,705 |
| 2000–01 | 108,170 | 5,845 |
| 2001–02 | 148,619 | 6,960 |
| 2002–03 | 164,655 | 3,745 |

Since these figures relate to financial years and those for travellers calendar years it is not possible to determine the actual proportion of travellers who were referred to the medical inspector.

**Mr. Cousins:** To ask the Secretary of State for the Home Department (1) whether an on site nurse forms part of the service contracted by the National Asylum Support Service from Angel Heights, Newcastle; and whether this contract provides for female support workers as a result of a recent change in clients; [157044]

(2) what payments his Department has made to NHS agencies and services in Newcastle in this financial year in respect of asylum seeker dispersal support. [157045]

**Beverley Hughes:** The Home Office is not responsible for providing funding to NHS agencies to meet the costs of providing medical treatment to asylum seekers who have been dispersed. The National Asylum Support System does not provide on site nurses in any of its dispersal accommodation.

**Lady Hermon:** To ask the Secretary of State for the Home Department how many *(a)* successful and *(b)* unsuccessful asylum applications there have been from Ethiopian citizens in the last five years; and how many of the unsuccessful applicants have been deported. [157650]

**Beverley Hughes:** The table shows the number of asylum applications and initial decisions for nationals of Ethiopia (excluding dependants) in 1999, 2000, 2001, 2002 and 2003. Initial decisions do not necessarily relate to applications received in the same period.

*Applications received for asylum in the United Kingdom, excluding dependants, and initial decisions[1,2,3], by year, nationals of Ethiopia*

*Principal applicants*

| | *1999* | *2000* | *2001*[4] | *2002*[5] | *2003*[5] |
|---|---|---|---|---|---|
| Applications received | 455 | 415 | 610 | 700 | 640 |
| *Initial decisions* | | | | | |
| Total initial decisions | 260 | 895 | 1,175 | 705 | 740 |
| *Cases considered under normal procedures* | | | | | |
| Grants of asylum | 20 | 40 | 90 | 50 | 15 |
| Grants of ELR | 5 | 80 | 240 | 170 | 40 |
| Grants of HP | n/a | n/a | n/a | n/a | — |
| Grants of DL | n/a | n/a | n/a | n/a | 95 |
| Total refusals | 35 | 355 | 845 | 485 | 590 |
| *Backlog clearance exercise* | | | | | |
| Grants of ELR under backlog criteria[6,7] | 190 | 390 | n/a | n/a | n/a |
| Non compliance refusals under backlog criteria[6,8] | 10 | 30 | n/a | n/a | n/a |

n/a = not applicable.

[1] Figures rounded to the nearest five.

[2] Decision figures do not necessarily relate to applications received in the same period.

[3] Information is of initial determination decisions, excluding the outcome of appeals or other subsequent decisions.

[4] Revised figures.

[5] Provisional figures.

[6] Cases decided under pragmatic measures aimed at reducing the pre 1996 asylum backlog.

[7] May include a small number of cases where asylum has been granted.

[8] May include a small number of cases where the application has been refused on substantive grounds.

The table shows the available data, for outcomes of adjudicator appeals at the Immigration Appellate Authority (IAA) for nationals of Ethiopia in 2001, 2002 and 2003. Appeals may relate to initial decisions made in earlier periods. Corresponding information on appeals to the Immigration Appellate Tribunal (IAT) relating to Ethiopian nationals (including appeals made by the Secretary of State) is not available and could be produced only at disproportionate cost by examination of individual case files. Data on the nationality of appeals made in 1999 and 2000 are not available.

*Outcome of appeals[1,2] determined by adjudicators of the Immigration Appellate Authority, excluding dependants, nationals of Ethiopia, 2001 to 2003*

*Number of principal appellants*

| *Appeals determined by adjudicators* | *2001* | *2002* | *2003* |
|---|---|---|---|
| Total determined | 265 | 615 | 1,060 |
| *Allowed* | | | |
| Total | 110 | 230 | 325 |
| As percentage of determined | 42 | 37 | 31 |
| *Dismissed* | | | |
| Total | 140 | 340 | 685 |
| As percentage of determined | 53 | 55 | 65 |
| *Withdrawn* | | | |
| Total | 15 | 50 | 50 |
| As percentage of determined | 6 | 8 | 5 |

[1] Provisional figures rounded to nearest 5 (except percentages). Figures may not add up due to independent rounding. Data on appeal outcomes by nationality in this table are derived from Immigration and Nationality Directorate electronic sources.

[2] Figures include cases withdrawn by the Home Office, as well as the appellant.

Deportations are a specific subset of removals alongside persons subject to administrative removal, removal due to illegal entry action or those refused entry at port and subsequently removed.

Estimates of the number of nationals of Ethiopia who had sought asylum at some stage and who were removed from the UK between January 2001 and September 2003 (the latest date for which figures are available) are shown in the table. These figures include persons departing 'voluntarily' after the initiation of enforcement action against them, and persons leaving under Assisted Voluntary Returns Programmes run by the International Organization for Migration. Removals do not necessarily relate to initial decisions made in the same period. Data on the nationality of removals made in 1999 and 2000 are not available.

*Removals and voluntary[1] departures of principal asylum applicants (excluding dependants), nationals of Ethiopia[2,3,4]*

*Number*

| | |
|---|---|
| 2001 | 10 |
| 2002 | 10 |
| January to September 2003 | * |

[1] Includes persons departing "voluntarily" after enforcement action had been initiated against them, persons leaving under Assisted voluntary return programmes run by the International Organisation for Migration, and removals on safe third country grounds.

[2] Figures rounded to the nearest five, with "*" = 1or 2.

[3] Data have been estimated due to data quality issues.

[4] Provisional figures

Information on asylum applications, initial decisions, appeals and removals are published quarterly. The current publication covering the fourth quarter of 2003, and provisional 2003 data, is available on the Home Office Research Development and Statistics Directorate website at http://www.homeoffice.gov.uk/rds/immigration1.html. Data on the nationality of removals are published a quarter in arrears. Data for the final quarter of 2003 will be published at the end of May.

### Cannabis

**Simon Hughes:** To ask the Secretary of State for the Home Department how many people in Greater London have been *(a)* fined and *(b)* given a prison sentence for (i) supplying, (ii) trafficking and (iii) possession of cannabis in each of the last five years. [159220]

**Caroline Flint:** The available information is contained in the table.

*Persons[1] fined and sentenced to immediate custody[2] for cannabis related offences in Greater London[3]*

| *Greater London, 1998 to 2002* | *1998* | | *1999* | | *2000* |
|---|---|---|---|---|---|
| *Offence* | *Persons fined* | *Persons sentenced to immediate custody* | *Persons fined* | *Persons sentenced to immediate custody* | *Persons fined* |
| Supplying or offering to supply (or being concerned in supplying or offering to supply) cannabis | 24 | 66 | 10 | 65 | 6 |
| Possession of cannabis with intent to supply | 42 | 230 | 31 | 192 | 15 |
| Production of or being concerned in the production of cannabis | 75 | 19 | 43 | 23 | 30 |
| Possession of cannabis | 4,044 | 71 | 3,804 | 61 | 3,487 |

| | *2001* | | *2002* | |
|---|---|---|---|---|
| *Offence* | *Persons fined* | *Persons sentenced to immediate custody* | *Persons fined* | *Persons sentenced to immediate custody* |
| Supplying or offering to supply (or being concerned in supplying or offering to supply) cannabis | 9 | 36 | 9 | 44 |
| Possession of cannabis with intent to supply | 22 | 106 | 35 | 105 |
| Production of or being concerned in the production of cannabis | 27 | 22 | 34 | 12 |
| Possession of cannabis | 3,238 | 43 | 4,120 | 45 |

[1] These data are on the principal offence basis.
[2] Includes unsuspended imprisonment, secure training orders, detention in a young offender institution and detention and training orders.
[3] Includes Metropolitan and City of London police forces.

Statistics for 2003 will be published in the autumn.

### Connexions Service

**Mr. Gerrard:** To ask the Secretary of State for the Home Department which staff organisations and trade unions were consulted by Patrick Carter during his inquiry into the Connexions services. [155838]

**Paul Goggins:** Patrick Carter's report "Managing Offenders-Reducing Crime" was an independent review of the correctional services. The Government's response "Reducing Crime-Changing Lives" seeks views from stakeholders on a number of issues relating to the management of offenders.

### Convicted Defendants

**Mrs. Anne Campbell:** To ask the Secretary of State for the Home Department how many convicted defendants there were in the last three years, broken down by ethnic origin; what proportion of convicted defendants were sent to prison, broken down by ethnic origin; and if he will make a statement. [158704]

**Paul Goggins:** Information on the ethnic origin of convicted defendants is only currently available for magistrates courts in six pilot areas. This information was included in "Statistics on Race and the Criminal Justice System 2002" and in earlier years, available on the Home Office website: http://www.homeoffice.gov.uk/rds/pdfs/s95race2002.pdf.

### Coroners' Inquiries

**Miss McIntosh:** To ask the Secretary of State for the Home Department what the average time taken is to arrange a coroner's inquiry into a death. [155684]

**Paul Goggins:** In 2002, the average time taken to process an inquest, from the time the death was reported to the coroner, until the time the inquest was concluded, was four months. The average time taken for the coroner to issue a certificate permitting a body to be released for burial or other disposal, in cases where an inquest was subsequently held, was seven days.

### Crime Reduction Policy

**Mr. Oaten:** To ask the Secretary of State for the Home Department if he will make a statement on the progress made towards local crime reduction targets in each area participating in the Small Retailers in Deprived Areas scheme. [160202]

**Ms Blears:** In June 2001, the Home Secretary announced funding of £15 million over three years for a project to improve the security of small retailers in the 10 most deprived areas throughout England and Wales.

Individual projects are developed by local Crime and Disorder Reduction Partnerships in conjunction with Regional Home Office Directors. Part of this process is to ensure adequate local targets have been set, and systems put in place to measure performance against them.

A detailed evaluation of the scheme is currently under way and will be completed in the autumn. The findings, which will be widely disseminated, will identify effective interventions that have been shown to have a beneficial impact on crime against small retailers. The evaluation will also examine other ways in which the scheme has impacted upon businesses and the surrounding retail environment—such as the fear of crime among business, fear of crime among customers, business viability and partnership working.

### Criminal Prosecutions (Lancashire)

**Mr. Hoyle:** To ask the Secretary of State for the Home Department (1) how many *(a)* successful and *(b)* unsuccessful criminal prosecutions were brought for crimes perpetrated in each Lancashire constituency in each of the last three years; [157681]

(2) how many criminal charges were pressed for crimes perpetrated in Chorley in each of the last three years. [157682]

**Paul Goggins:** Statistics on those charged with offences are not collected centrally, nor is it possible to break down the court proceedings data collected centrally to constituency level.

The following table, however, gives the numbers of defendants *(a)* convicted and *(b)* not convicted in the Lancashire Police Force area as a whole:

*Defendants convicted and those not convicted of offences of all types at all courts in the Lancashire police force area, 2000–02*

| | *Defendants convicted* | *Defendants not convicted*[1] |
|---|---|---|
| 2000 | 49,625 | 19,729 |
| 2001 | 48,077 | 19,441 |
| 2002 | 48,259 | 19,781 |

[1] Includes defendants whose proceedings were discontinued, those discharged under Sec 6 MCA 1980, and those whose charges were withdrawn, dismissed or acquitted.

Statistics for 2003 will be published in the autumn.

### Cyclists (Prosecution)

**Mark Tami:** To ask the Secretary of State for the Home Department how many cyclists were prosecuted for failure to comply with legal requirements in respect of road use in the UK in each of the last five years. [156553]

**Paul Goggins:** The number of defendants proceeded against for pedal cycle offences in England and Wales 1998 to 2002 is as follows:

*Defendants proceeded against at magistrates courts for all pedal cycle offences[1], England and Wales 1998 to 2002*

| | *Proceeded against* |
|---|---|
| 1998 | 2,380 |
| 1999 | 1,487 |
| 2000 | 1,023 |
| 2001 | 760 |
| 2002 | 636 |

[1] These data are on the principal offence basis.

Statistics on court proceedings for 2003 will be published in the autumn.Information for Scotland is a matter for the Scottish Office and that for Northern Ireland for the Northern Ireland Office.

### Disorder Penalty Notices

**Mr. Jenkins:** To ask the Secretary of State for the Home Department how many penalty notices for disorder have been issued by police forces during the pilot period. [160061]

**Ms Blears:** Pilots for penalty notices for disorder operated between August 2002 and September 2003 in four police force areas involving five police forces: West Midlands (force wide), Essex (force wide), North Wales (initially in their Central division then force wide from April 2003), Metropolitan (Croydon division) and British Transport Police (West Midlands area). Just over 6,000 penalty notices for disorder were issued during the pilots.

### DNA Investigation Techniques

**Lady Hermon:** To ask the Secretary of State for the Home Department when DNA low copy number first became available as a product for use in assisting the investigation of cold calls; and if he will make a statement. [159698]

**Ms Blears** *[holding answer 9 March 2004]:* A DNA low copy number product first became available for investigation of both cold and current cases in January 1999.

### Driving Convictions

**Simon Hughes:** To ask the Secretary of State for the Home Department how many convictions for *(a)* causing death by dangerous driving, *(b)* dangerous driving and *(c)* careless driving there were in (i) Greater London and (ii) each London borough in each of the last five years. [158408]

**Caroline Flint:** Available information for the years 1997 to 2001 is given in the table. It is not possible from the data collected centrally to identify each London Borough within the geographical area of Greater London.

2002 data will be available in the Spring.

*Findings of guilt at all courts for specific offences, Greater London police[1], 1997–2001*

| *Offence* | *1997* | *1998* | *1999* | *2000* |
|---|---|---|---|---|
| Causing death by dangerous driving[2] | 16 | 24 | 22 | 23 |
| Dangerous driving[4] | 484 | 419 | 384 | 444 |
| Careless driving[5] | 10,067 | 9,203 | 8,172 | 6,168 |

[1] Figures amended since publication of the Home Office 'Offences relating to motor vehicles England and Wales 2001 Suppiementary tables'.
[2] Offence under the Road Traffic Act 1988, s1 as amended by the Road Traffic Act 1991 s1 and Criminal Justice Act 1993 s67.
[3] Offence under the Road Traffic Act 1988 s2 as amended by the Road Traffic Act 1991 s2.
[4] Offence under the Road Traffic Act 1988 s3, ss 12(1), 26(2), 33(3) and 168; Road Vehicles (Construction and Use) Regulations 1986 Regs 19,104–107 and 109.

### European Monitoring Centre on Racism and Xenophobia

**Denzil Davies:** To ask the Secretary of State for the Home Department who the Chairperson and members of the Executive Board of the European Monitoring Centre on Racism and Xenophobia are. [157297]

**Fiona Mactaggart:** Under the Executive Board of the European Monitoring Centre (EUMC) governing regulation, its Executive Board is composed of the Chairman of the EUMC Management Board, the Vice-Chairman and up to three other members of the Management Board, including the person appointed by the Council of Europe and the representative of the European Commission.

The members of the current Executive Board are Robert Purkiss (Chairman), Petros Stangos (Vice-Chairman), Helene Loow, Joseph Voyame (Council of Europe) and Bernhard Jansen (European Commission).

We understand that a new Executive Board will be elected by the Management Board at its meeting in June.

### Forensic Science Service

**Mr. Grogan:** To ask the Secretary of State for the Home Department pursuant to the oral answer of 19 January 2004, *Official Report*, column 1073, on the Forensic Science Service, whether the £20 million to £30 million sum mentioned is *(a)* a one off capital cost and *(b)* a recurring annual revenue cost. [159879]

**Ms Blears** *[holding answer 9 March 2004]:* The £20 million to £30 million is an estimate provided by the independent McFarland Review and refers to the one-off capital investment considered necessary to sustain Forensic Science Service business at current levels.

### Grants

**Mr. Hoyle:** To ask the Secretary of State for the Home Department what grants that fall outside the revenue support grant were awarded by his Department to local authorities in *(a)* Lancashire and *(b)* Chorley in each of the last three financial years. [156513]

**Ms Blears:** The information available is set out in the following table.

*£ million*

| *Lancashire police authority* | *2001–02* | *2002–03* | *2003–04* |
|---|---|---|---|
| Home Office Principal Formula grant | 96.9 | 97.4 | 105.2 |
| Crime Fighting Fund | 1.1 | 3.3 | 5.4 |
| Rural Policing Fund | 0.06 | 0.06 | 0.06 |
| Airwave | 7.2 | 0.5 | 0.5 |
| BCU funding | — | — | 1.2 |
| Community Support Officers | — | 0.5 | 0.3 |
| Street Crime Initiative | — | 0.8 | 0.4 |
| Special Priority Payments | — | — | 0.6 |
| DNA Expansion Programme | — | 1.9 | 1.5 |
| Capital grant | 3.7 | 2.5 | 2.3 |
| Premises Improvement Fund | — | 0.5 | 0.5 |
| Arrest Referral—Lancashire Police | — | 0.3 | 0.5 |
| Criminal Justice Interventions Programme (CJIP)—Drug Testing | — | 0.3 | 0.2 |
| Crime and Disorder Reduction Partnerships[1] | 8.3 | 5.0 | 3.2 |
| Of which: Funding for Chorley | 0.2 | 0.2 | 0.2 |
| Total | 117.26 | 113.06 | 121.86 |

[1] Includes Building Safer Communities Fund, Partnership Development Fund, Communities Against Drugs and Safer Communities Initiative, Funding for CCTV, Violence against women (VAW), Neighbourhood Wardens, Street Wardens and Small Retailers in Deprived Areas and the Reducing Burglary Initiative.

### Gender Dysphoria

**Lynne Jones:** To ask the Secretary of State for the Home Department when his Department will publish guidelines on the treatment of prisoners with gender dysphoria. [159028]

**Paul Goggins:** The Prison Service expects to publish these guidelines once the Gender Recognition Bill has become law and it is in a position to include guidance on the implications of this legislation for its policies and practices.

### Identity Cards

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what further consultation is planned with the public regarding identity cards. [156092]

**Beverley Hughes:** Since the six month consultation period on entitlement cards and identity fraud officially ended on 31 January 2003, consultation with the public has been ongoing via the despatch of the Next Steps publication to all those who responded to the consultation exercise, the identity cards website, and the recording of all public correspondence received.

A covering consultation paper will accompany the draft Bill on identity cards, which was announced in the Queen's speech. The paper will enable further consultation with the public as well as specific stakeholder groups on the detail of the Bill. This will be in addition to any pre-legislative scrutiny by Parliament.

During this period, there will also be opportunity to consult on the wider issues around how a scheme may work in practice. A communications strategy will be developed to ensure engagement with the public.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department if he will make a statement on the work of the Identity Cards Programme Board. [157007]

**Beverley Hughes:** As indicated in "Identity Cards: The Next Steps" (Cm 6020), the Identity Cards Programme Board has been established by the Home Office to co-ordinate and drive forward the different elements of the Government strategy. The board is chaired by the Permanent Secretary of the Home Office. Progress at every stage will be monitored and reviewed as further decisions are taken during the implementation. Before decisions are taken on implementation, there will be an intensive phase of feasibility assessment and prototyping so that decision making is soundly based and risks in the programme are kept to a minimum.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department if he will make a statement on the nature of the proposed national identity database; and what plans he has to use 2D barcodes to store the biometric template on identity cards. [157028]

**Beverley Hughes:** Data held on the National Identity Register will be basic identity information—such as name, address, date of birth, gender, immigration status and a confirmed biometric—and this will be set out in statute. Organisations using the National Register to verify identity will not be able to get to other personal information, for instance health or tax records, via the register.

At present there is no firm decision on the technology which will be used on the card. Technologies will be evaluated in how well they meet our requirements, in particularly in the areas of security, capacity and adherence to international standards.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department if he will make a statement on the work of the UK Passport Agency pilot scheme, including his assessment of the *(a)* popularity and *(b)* effectiveness of different forms of biometric identifiers. [157029]

**Beverley Hughes:** The UK Passport Service (UKPS) is running a six-month trial beginning in March 2004 to test the recording and verification of facial recognition, iris and fingerprint biometrics. Approximately 10,000 participants will take part in the trial. Results from the trial will help inform the Government's plans to introduce biometrics to support improved identity authentication and help prevent identity fraud.

The objectives of the UKPS biometrics trial include the following:

to test the use of biometrics through a simulation of the passport process

to include exception cases, e.g. people who may have difficulties in enrolment

to measure the process time and hence estimate costs

to assess customer perceptions and reactions

to assess practical aspects of incorporation of biometrics into a biometric database

to identify issues and risks and produce an outline implementation plan.

In relation to the popularity and effectiveness of biometrics in the context of the UKPS's trial, the work is largely based around recommendations from a report in August 2002 by the National Physical Laboratory (NPL) entitled: "Feasibility Study on Use of Biometrics in an Entitlement Scheme", and which is available on the Home Office Identity Cards website at www.homeoffice.gov.uk/comrace/identitycards.

UKPS already plans to introduce a passport with a facial image held in a chip from mid 2005. The NPL report was commissioned by UKPS and DVLA to examine the feasibility of using additional biometrics as a means of establishing a unique identity, to support better identity authentication alongside work on the proposed entitlement (now identity card) scheme.

The report discusses the most significant component of the cost of such a scheme as being the time and effort to enrol individuals and collect their biometric data, (especially the impact of exception cases on throughput performance), and that this is one of the least well-understood aspects of biometric technologies. The report recommended further studies in this area.

It is this recommendation which lies behind the objectives of the current trials being conducted by UKPS.

In addition, and as published in "Identity Cards: A summary of findings from the Consultation Exercise on Entitlement Cards and Identity Fraud", UKPS carried out evaluation questionnaires during the demonstrations of iris and fingerprint biometrics in 2002–03. While not fully representative, the sample illustrated a positive attitude towards biometrics. For example, over 85 per cent. wanted to take the opportunity to establish their identity more securely using either fingerprint or iris biometrics, as long as the technology was secure.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department (1) what measures he proposes to deter access to a national identity database for improper reasons; [157031]

(2) how the national identity database will be monitored to detect a potential compromise of its security; [157032]

(3) if he will outline the risk management system proposed for the security of the identity card scheme; [157036]

(4) what measures will be in place under the current identity card proposals to ensure that the identity database is not vulnerable to hackers. [157038]

**Beverley Hughes:** The security and integrity of the database are integral to maintaining trust in the Identity Cards scheme. The specifications and design of the database and its security features have not yet been established but will take into account security advice from the earliest stages and the design process will include threat and vulnerability assessments. Threats which will be assessed will include unauthorised internal and external access to data.

Home Office officials are already working with security experts to ensure that security issues are considered from the start of the database design, and with other government departments which have similar databases with similar security needs, such as the United Kingdom Passport Service.

The Identity Cards Programme takes risk management extremely seriously and has developed its approach to risk management in line with Home Office best practice. The Programme Board and Ministers are considering the Governance arrangements for the ID Cards scheme and will consider what the risk management system should be in order to ensure the security of the Identity Card scheme.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department if he will make a statement on whether some categories of individuals have a higher failure rate with certain biometric identifiers; and what measures he plans to overcome this problem. [157034]

**Beverley Hughes:** In his announcement on 11 November 2003, my right hon. Friend, the Home Secretary stated that the Government have decided to begin the process of introducing a national identity cards scheme.

The first stage of the process will include work across Government to develop effective technology, particularly on biometrics, and to introduce systems to ensure that biometric data can be collected, stored and used effectively. This includes a biometric pilot which is being run by the United Kingdom Passport Service (UKPS) to test the recording of face, iris and fingerprint biometric information.

One of the specific objectives of the UKPS pilot is to test biometric enrolment on a sample of people who may have difficulties with enrolment. Data gained from this pilot will inform the design of the Identity Card scheme's enrolment processes and procedures for enrolling those unable to provide certain biometrics.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department whether it is possible to combine data from the national identity database with other databases or information systems under the current identity card proposals. [157299]

**Beverley Hughes:** As set out in "Identity Cards: The Next Steps" (Cm 6020), the National Identity Register will be built from scratch as people are issued with identity cards and will not rely solely on other sources of data. Before an entry on the National Identity Register is confirmed, it will be checked against other databases such as passports, driving licences and immigration records.

Organisations using the National Identity Register to verify identity will not be able to get to other personal information, for instance health or tax records via the Register.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department (1) what action his Department is taking to prevent functionality creep in relation to identity cards; [158658]

(2) what study he has undertaken, in relation to his policy on identity cards, of the use by the US Administration of social security numbers; [158672]

(3) when a complete specification of requirements of the identity cards database will be available; and to what analysis this specification will be subject. [158710]

**Beverley Hughes:** The Government are aware of concerns about function creep. Our scheme will include safeguards to ensure that there is no extension of functions without proper justification and authorisation. Neither the statutory purposes of the scheme nor the range of information held on the National Identity Register could be extended without Parliament's authorisation.

During the development of the identity cards proposals officials looked at policy and practice in many different countries. The problems in relation to the US Social Security Number were highlighted in the Cabinet Office Identity Fraud Study which was published at the start of our consultation period. This was one of the factors which has led to the government's conclusion set out in "Identity Cards: The Next Steps" that the National Identity Register needs to be established from scratch and that checks on an identity need to be more stringent than those currently in place for passports and driving licences.

The specification of requirements for the database will be drawn up as part of the procurement process. The process will be subject to evaluation to assess how well our requirements are met, particularly in the areas of security, capacity and adherence to international standards. The timing of the procurement process is dependent on the legislative timetable.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what assessment he has made of the ease with which encryption methods for identity cards can be upgraded. [159758]

**Beverley Hughes:** There are ongoing maintenance procedures which are a requirement of any encryption scheme. These include but are not limited to key issuing, certificate issuing, certificate revocation and technology upgrade.

Home Office officials are taking advice from cryptography experts within government on the design of the encryption scheme. The necessity for measures to permit maintenance and upgrade of the encryption scheme will be taken into account during the design.

### Kent County Council Act

**Mr. Damian Green:** To ask the Secretary of State for the Home Department what plans he has to extend to the rest of England the provisions of the Kent County Council Act 2001; and if he will make a statement. [159720]

**Ms Blears:** In line with Clause 20 of the Kent County Council Act, the council will be submitting a report on the working provisions of the Act to the Secretary of State no later than 1 December 2004, which will then be laid before Parliament.

The Home Office has also commissioned the University of Kent to evaluate the effectiveness of the legislation and we will also lay a summary of the results of this research before Parliament.

These two reports will allow the government to make an informed decision as to whether we should pursue similar legislation nationally.

### Local Government Finance (Dorset)

**Jim Knight:** To ask the Secretary of State for the Home Department what grants were awarded to local authorities in Dorset by his Department in financial year 2003–04 that fall outside the revenue support grant. [156206]

**Ms Blears:** The information is set out in the table.

| | *£ million* |
|---|---|
| *Police Authority* | |
| Home Office Principal Formula Police grant | 39.7 |
| Crime Fighting Fund | 2.3 |
| Rural Policing Fund | 0.4 |
| Airwave | 0.2 |
| BCU funding | 0.5 |
| Community Support Officers | 0.2 |
| Special Priority Payments | 0.4 |
| DMA Expansion Programme | 0.5 |
| Capital grant | 1.1 |
| Premises Improvement Fund | 0.5 |
| Arrest Referral | 0.1 |
| *Crime and Disorder Reduction Partnerships* | |
| Building Safer Communities Fund | 0.9 |
| Other[1] | 0.2 |
| Total | 47.0 |

[1] Regional Fund and funding to tackle anti-social behaviour, domestic violence and vehicle crime provided to BCUs and CDRPs and Dorset county council.

### Managed Migration Programmes

**Mr. Nigel Jones:** To ask the Secretary of State for the Home Department if he will make a statement on how he makes use of the assistance provided by the *(a)* UK

National Recognition Information Centre and *(b)* UK National Reference Point for Vocational Qualifications in the support of Managed Migration programmes. [157365]

**Beverley Hughes:** The criteria for the issue of work permits and for the Highly Skilled Migrant Programme requires Work Permits (UK) to be satisfied that overseas workers possess the skills and qualifications necessary to take up jobs in the UK. To qualify for a work permit the job is expected to require the individual to have either:

(a) UK equivalent degree level qualification; or,

(b) a Higher National Diploma (HND) level qualification which is relevant to the post on offer; or,

(c) an HND level qualification which is not relevant to the post plus one year of relevant full-time work experience at National/ Scottish Vocational Qualification (N/SVQ) level 3 or above; or,

(d) three years full time experience, at N/SVQ level 3 or above, of using specialist skills acquired through doing the type of job for which the permit is sought.

In considering this element of the work permit application Work Permits (UK) will, in some cases, consult the UK National Recognition Information Centre and the UK National Reference Point for Vocational Qualifications to ensure the qualifications and skills obtained overseas meet the work permit criteria.

### Mr. Paul Watson

**Mr. Challen:** To ask the Secretary of State for the Home Department what steps he is taking to ensure that documents requested by the hon. Member for Morley and Rothwell's constituent, Mr. Paul Watson, regarding his criminal record in support of his defence at trial in France are provided swiftly. [156480]

**Paul Goggins** *[holding answer 26 February 2004]:* Officials in the Home Office have liaised with the French authorities and they understand that a letter of request will shortly be issued in Mr. Watson's case. The UK Central Authority at the Home Office will arrange for it to be dealt with as expeditiously as possible once they receive it.

### National Offender Management Service

**Mr. Gerrard:** To ask the Secretary of State for the Home Department who the employer for qualified probation officers will be under the National Offender Management Service. [155837]

**Paul Goggins:** In the short term probation officers will continue to be employed by probation boards. Future arrangements have yet to be finalised and will be subject to the usual consultation arrangements with staff and unions.

**Mr. Gerrard:** To ask the Secretary of State for the Home Department what role chief officers will have under the National Offender Management Service. [155839]

**Paul Goggins:** In the short term the role of chief officers will remain as it is. Any proposed changes will be subject to the usual consultation arrangements.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what plans he has for the public protection function of the Probation Service to be the subject of contestability under the National Offender Management Service structures. [159811]

**Paul Goggins:** The details of contestability within correctional services will be developed as part of the implementation of the Reducing Crime—Changing Lives reforms. Inter-agency work to protect the public and encourage rehabilitation will remain a crucial element of the work of the National Offender Management Service.

### Naturalisation Application

**Mr. Chope:** To ask the Secretary of State for the Home Department when the application for naturalisation dated 19 November 2003 by Mrs. Tomes of Christchurch, reference T1072596, will be processed. [159408]

**Beverley Hughes** *[holding answer 5 March 2004]:* Mrs. Tomes application has been processed and a decision was reached on 3 March.

### No Fixed Abode

**Mr. McCabe:** To ask the Secretary of State for the Home Department whether the monetary grant made available to all prisoners on release from custodial sentence is greater if a prisoner states no fixed abode as their address. [157994]

**Paul Goggins:** A higher rate of discharge grant (£94.40) is paid to prisoners on release only if there is a need to seek, obtain and pay for accommodation. It is only paid to prisoners with no accommodation arranged in advance if this arises through no fault of the prisoner. Otherwise the standard rates of discharge grant paid are £46.75 (for prisoners aged 25 and older) or £37 (for prisoners aged 18 to 24).

### Online Passport Applications

**Mr. Heald:** To ask the Secretary of State for the Home Department how many passport applications have been made online in each year since the service became available. [158044]

**Beverley Hughes:** UK Passport Services (UKPS) online passport application is an electronic service that allows applicants to enter their details on to an electronic passport application form. The form is then pre-populated and sent to the applicant by post for inclusion of their signature, payment and supporting documentation.

UKPS's online service has been available since 13 November 2000. The table shows the number of application forms completed online each year since the service became available.

| | *Number of forms completed* |
|---|---|
| 2000 (13 November until 31 December) | 1,670 |
| 2001 | 46,514 |
| 2002 | 93,156 |
| 2003 | 149,003 |
| 2004 (1 January until 29 February) | 62,046 |

## Police

**Mr. Gordon Prentice:** To ask the Secretary of State for the Home Department how many days were lost through sickness in *(a)* the Lancashire constabulary and *(b)* police forces of a similar size and displaying similar characteristics in England since 2000; and if he will make a statement. [157798]

**Ms Blears:** The total number of days lost to sick leave, and average days per officer and support staff member, in Lancashire Constabulary, and the most similar forces, in each of the years since 2000 are identified:

| *Force* | *Days lost to sick leave* | *Days per officer* | *Days per staff* |
|---|---|---|---|
| *1999–2000* | | | |
| Avon and Somerset | 54,244 | 11.5 | 11.8 |
| Durham | 22,463 | 10.6 | 9.0 |

| England and Wales | 2,158,146 | 10.4 | 11.7 |

The National Policing plan for 2002, I set a target of 11.5 days for police officers and 12.0 for police staff by the end of 2005–06. Achieving further reductions in sickness absence is one of the principle objectives of the Strategy for a Healthy Police Service.

The Strategy for a Healthy Police has continued to focus forces on the reduction of sickness absence, and provide forces with funding to improve their occupational health, safety and welfare provision further.

Sickness absence figures have improved since the launch of the Strategy, with overall sickness absence now at a national average of 10.4 days per officer per year, and 11.7 per support staff member. The best performing forces have continued to make improvements, but the gap between best and worst performers has also significantly narrowed.

Lancashire has continued to make progress in reducing its sickness absence levels.

**Mr. Drew:** To ask the Secretary of State for the Home Department pursuant to the answer of 23 February 2004, *Official Report*, column 243W, on police, what the reasons were for the rise in numbers of accidents in which police vehicles were involved in Gloucestershire; and what the approximate cost of this increase was. [159392]

**Caroline Flint:** Unfortunately, the table showing the number of accidents involving police vehicles given in the answer contained some errors. I apologise for this. The correct table is now shown as follows.

We do not keep records centrally on the reasons for every police vehicle accident across the country. The Home Office has, however, consulted the Chief Constable of the Gloucestershire Constabulary, who informs us that all police vehicle accidents in his Force area are carefully monitored. Procedures and policies are kept under review in line with national Association of Chief Police Officers guidelines. Officers driving police vehicles undergo extensive training and the safety of officers and the public is taken extremely seriously.

It is not possible to say exactly why this increase has occurred. The number of police vehicle accidents fluctuates over time, across the country. Gloucestershire Constabulary has increased its number of operational officers and vehicles over recent years. This has increased vehicle mileage to 4,138,830 miles in the last 12 months. Information is not available centrally on the costs of police vehicle accidents. However, a significant number of accidents recorded involve only minor damage with no risk of injury to any party. None of the accidents resulted in fatalities, to either police officers or members of the public.

*Total police vehicle accidents*

*Notes:*

[1] Data not yet submitted by force.

1. The information is provided by Her Majesty's Inspectorate of Constabulary, to whom forces submit statistical returns.
2. All figures are for financial years.
3. The figures for police vehicle accidents include all incidents in which a police vehicle sustains damage, including those where no other vehicle is involved. They encompass a very wide range of incidents from the very serious to the trivial, such as a scratched vehicle in a police yard.

**Mr. Jenkins:** To ask the Secretary of State for the Home Department how many *(a)* officers and *(b)* civilians served in the Staffordshire police force in each year since 1996. [160060]

**Ms Blears:** The information requested is set out in the table.

*Staffordshire Police–strength 31 March 1996 to 31 December 2003*

| | Police officers | Police staff |
|---|---|---|
| 31 March 1996 | 2,209 | 754 |
| 31 March 1997 | 2,211 | 763 |
| 31 March 1998 | 2,292 | 866 |
| 31 March 1999 | 2,238 | 1,004 |
| 31 March 2000 | 2,170 | 858 |
| 31 March 2001 | 2,129 | 935 |
| 31 March 2002 | 2,133 | 1,030 |
| 31 March 2003 | 2,202 | 1,146 |
| 31 December 2003 | 2,253 | Not available |

**Phil Sawford:** To ask the Secretary of State for the Home Department on how many occasions his Department has made available additional funding for police authorities to cover the cost of large scale and expensive investigations in each of the last five years. [157371]

**Ms Blears:** Between 1999–2000 and 2003–04, 45 special grants were paid to 22 police authorities for large scale, exceptionally high cost police operations. Cases were considered in the light of individual circumstances, subject to funds being available in each year.

The majority of payments have been for major public order and security operations. Four special grants have been for major criminal investigations. The table sets out special grant payments made in each year since 1999–2000.

£ million

| Force area | 1999–2000 | 2000–01 | 2001–02 | 2002–03 | 2003–04 to date |
|---|---|---|---|---|---|
| Cambridgeshire | – | 1.0 | – | [2]4.65 | – |
| Cleveland | – | 1.9 | – | – | – |
| Devon and Cornwall | 0.52 | – | – | – | – |
| Dorset[1] | 1.6 | 0.9 | – | 0.89 | 1.87 |
| Essex[6] | 2.0 | 0.135 | – | – | – |
| Gloucestershire[5] | – | – | – | 0.25 | 4.696 |
| Greater Manchester[3] | – | – | 3.14 | 3.3 | – |
| Kent | 0.67 | – | – | – | – |
| Lancashire[1] | 0.89 | – | 1.89 | 1.5 | 1.08 |
| Lincolnshire[7] | – | – | – | – | 0.5 |
| London, City of | – | – | 1.2 | – | – |
| Metropolitan police | – | 1.0 | 1.0 | – | – |
| North Yorkshire | – | – | 1.0 | – | 0.1 |
| South Yorkshire | 1.0 | 1.0 | – | 1.0 | – |
| South Wales | – | – | 0.3 | 0.3 | 0.15 |
| Staffordshire | 0.36 | – | – | – | 0.25 |
| Surrey | – | 0.1 | – | [7]0.28 | – |
| Sussex[1] | – | 1.66 | 1.75 | – | – |
| Warwickshire | 0.15 | – | – | – | – |
| West Midlands | 0.116 | – | – | – | – |
| West Yorkshire[4] | – | – | 2.22 | – | 1.0 |
| Wiltshire[7] | – | 0.87 | – | – | – |
| Total | 7.306 | 8.565 | 12.5 | 12.17 | 9.646 |

[1] Dorset, Lancashire and Sussex regularly receive special grants for the cost of policing the annual Labour and Conservative party conferences.
[2] Includes £3.5 million for the Soham murder investigation.
[3] Policing of the Commonwealth Games and Oldham riot.
[4] Bradford riot policing costs.
[5] Grant to date for policing of RAF Fairford during Iraq war.
[6] Stansted Airport hijack.
[7] Surrey was assisted with the cost of the Amanda Dowler, Deepcut Barracks and SE rapist investigations, Wiltshire with the cost of the Porton Down investigation. Lincolnshire is being assisted with a major fraud investigation.

**Mr. Hurst:** To ask the Secretary of State for the Home Department how much compensation was paid by police authorities in England and Wales to claimants in respect of assaults by serving police officers in each year from 1990 to 2003. [159721]

**Ms Blears:** Information concerning how much compensation was paid by police authorities in England and Wales to claimants in respect of assaults by serving police officers in each year from 1990 to 2003 is not held centrally either by the Home Office or, I understand, by the Association of Police Authorities. It could therefore be obtained only at disproportionate cost.

**Mr. Hurst:** To ask the Secretary of State for the Home Department (1) how many successful claimants against police authorities in England and Wales in respect of assault by serving police officers were themselves originally charged with assault or a public order offence in each year from 1990 to 2003; [159723]

(2) how many successful claims against police authorities in England and Wales in respect of assault by serving officers were concluded in each year from 1990 to 2003. [159724]

**Ms Blears:** Information concerning how many successful claims against police authorities in England and Wales, in respect of assault by serving officers, were concluded in each year from 1990 to 2003 is not held centrally by the Home Office or I understand by the Association of Police Authorities. It could therefore be obtained only at disproportionate cost.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what the percentage change in full-time police officers in Crosby has been since 1997. [160537]

**Ms Blears:** Crosby is part of the Sefton Basic Command Unit (BCU). Information on strength at BCU level is collected annually and reflects the position at the end of March for each year. Information on BCU strength is only available from 2002.

Between March 2002 and March 2003 police strength for the Sefton BCU increased by 0.5 per cent. (from 431 to 433). The deployment of officers to BCUs is a matter for the Chief Constable (Norman Bettison QPM) and within the Sefton BCU deployment of officers is a matter for Divisional Commander.

### Prison Education

**Charles Hendry:** To ask the Secretary of State for the Home Department pursuant to his answer of 1 March 2004, *Official Report*, column 722W, on prison education, what security limits internet access for prisoners; and what circumstances permit 31 prisoners to have regular access to the internet. [160225]

**Paul Goggins** *[holding answer 9 March 2004]:* The Prison Service has a duty to protect the public. Integral to this is the restriction of prisoner communications. This is necessary in order to prevent escapes, disorder in prisons, the intimidation of witnesses, or making unwanted or inappropriate contact with victims of crime and/or children, and the conducting of criminal activity from within jails. To allow prisoners generally to have access to the internet would undermine security.

The prisoners who have regular access to the internet have been granted this for the particular requirements of the work at which they are employed. Their allocation to this work is subject to an individual risk assessment. They sign agreements about their use of the internet. They are monitored closely by an information technology (IT) manager and the websites they visit are controlled and subject to audit.

Although no prisoners have access to the internet for education there are schemes provided by the Department for Education and Skills in prisons that seek to give prisoners training in internet IT skills, without open connection to the internet itself.

### Prison Suicides

**Mr. Stinchcombe:** To ask the Secretary of State for the Home Department how many prisoners committed suicide in England and Wales before *(a)* having their mental health assessed and *(b)* receiving treatment for mental health problems, for each of the last five years. [155402]

**Paul Goggins:** The data requested are not collated centrally and could only be provided by examination of individual case records, which would be at disproportionate cost.

Upon reception into prison, all newly received prisoners, plus those who change status, (for example by being convicted), and those transferred from another establishment, are assessed to determine whether they have any immediate physical and mental health needs.

The Department of Health and the Prison Service are working together to implement a revised reception health screening process during 2004. These new arrangements focus particularly on ensuring prompt and effective identification of those individuals with mental health problems, or who may be at risk of suicide/self-harm, so that they can be appropriately treated and cared for.

### Prisoners

**Paul Flynn:** To ask the Secretary of State for the Home Department for what offences female Jamaican nationals were serving prison sentences in the UK in each of the last five years. [153257]

**Paul Goggins:** The number of sentenced female Jamaican nationals in prison in England and Wales, by offence group, is given in the following table. Figures are for the 30 June each year from 1997 to 2003.

Information relating to Scotland and Northern Ireland is a matter for Ministers in the Scottish Parliament and Northern Ireland Assembly.

*Sentenced female Jamaican prisoners by offence, at 30 June, 1999 to 2003*

| | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|
| Violence against the person | 1 | 0 | 2 | 3 | 3 |
| Burglary | 1 | 0 | 0 | 0 | 0 |
| Robbery | 1 | 0 | 0 | 1 | 1 |
| Theft and handling | 1 | 1 | 1 | 1 | 1 |
| Fraud and forgery | 2 | 1 | 1 | 5 | 4 |
| Drugs offences | 129 | 152 | 249 | 425 | 374 |
| Other offences | 2 | 1 | 1 | 0 | 1 |
| Offence not recorded | 0 | 0 | 1 | 1 | 1 |

### Research Licences

**Ms Walley:** To ask the Secretary of State for the Home Department what licences have been issued since 1997 for carrying out research involving the observation of captured wild rats in a model sewer system. [158099]

**Caroline Flint:** The information requested is not maintained in that form in a central database. A check of work currently licensed under the Animals (Scientific Procedures) Act 1986 has not identified any projects involving observational studies of this type. However, licence authorities under the 1986 Act would not be required for such work if it was unlikely to cause pain, suffering, distress or lasting harm.

### Special Constables

**Mr. Paice:** To ask the Secretary of State for the Home Department if he will list, broken down by force and in total, the average number of hours worked per head by special constables in each of the last three years. [159996]

**Ms Blears** *[holding answer 9 March 2004]:* There are no statistics published on the average number of hours worked per head by Special Constables.

### Travel Documents

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department what measures are proposed to ensure that people arriving in the UK are aware of the offence of deliberately losing or destroying travel documents. [159527]

**Beverley Hughes:** We will advise those coming to the United Kingdom of the potential consequences of destroying or disposing of their documentation through our embassies and High Commissions abroad and the foreign media. This will be reinforced by displaying warning notices immediately on arrival at UK ports of entry.

### Work Permits

**Mr. Andrew Turner:** To ask the Secretary of State for the Home Department how many work permits were issued in each year since 1997; and what *(a)* forecasts he has made and *(b)* evidence of need he has collected for each year to 2010. [156087]

**Beverley Hughes** *[holding answer 25 February 2004]:* The total number of work permits issued, including extensions, in the period from 1997 to the third quarter 2003 (the latest date for which information is available) is as follows:

| | *Number* |
|---|---|
| 1997 | 44,958 |
| 1998 | 53,961 |
| 1999 | 60,743 |
| 2000 | 88,651 |
| 2001 | 120,823 |
| 2002 | 136,151 |
| 2003 | 108,221 |

The work permit system is designed to be flexible and responsive to the needs of employers and the economy. There are no forecasted targets for the number of work permits issued, although Work Permits (UK) does make

internal planning assumptions about expected volumes of applications, in order to allocate resources to process applications. Work Permits (UK) Business Plan for 2003–2004 makes a planning assumption of 230, 500 applications received. This total includes Sector Based Scheme, Highly Skilled Migrant Programme and Seasonal Agricultural Workers Scheme applications and extensions.

These planning assumptions are informed by monitoring trends in volumes of applications and consultation with stakeholders, including other government departments on labour market conditions.

However, there is no long-term forecast of expected volumes of applications.

**Mr. Hoyle:** To ask the Secretary of State for the Home Department if he will make a statement on his assessment of the benefit to the UK of work permits. [157295]

**Beverley Hughes:** The work permit arrangements are a key part of the Government's managed migration strategy, under which the United Kingdom seeks to offer legal routes for the admission of those foreign nationals who possess skills and qualifications that are in short supply here and who will contribute to the economy.

The work permit arrangements offer an efficient and responsive means of ensuring that UK employers are able to recruit overseas workers with the skills that they need, while protecting the interests of resident workers.

### Yarl's Wood Detention Centre

**Mr. Gerrard:** To ask the Secretary of State for the Home Department when an annual report was prepared by the independent monitoring board for Yarl's Wood. [157447]

**Beverley Hughes:** The Independent Monitoring Board for Yarl's Wood Immigration Removal Centre produced a first report in spring 2002 covering the period from their first meeting in November 2001 to the temporary closure of the centre on 31 March 2002.

The Board will produce an annual report covering the period from the re-opening of Yarl's Wood at the end of September 2003 to December 2004 by 31 January 2005 in accordance with the Detention Centre Rules.

## HEALTH

### "Agenda for Change"

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 26 February 2004, *Official Report*, column 537W, on "Agenda for Change", to what extent there will be flexibility for individual employers to pay recruitment and retention premiums. [159738]

**Mr. Hutton:** Under the proposed new national health service pay system, "Agenda for Change", NHS employers will be able to pay recruitment and retention premiums to individual postholders or groups of postholders where market pressures would otherwise prevent employers from being able to recruit and retain staff in sufficient numbers. Before paying recruitment and retention premia, NHS employers will need to satisfy themselves that agreed criteria have been met and will need to have consulted with staff representatives, neighbouring employers, strategic health authorities and other stakeholders.

### A and E Departments

**Mr. Hurst:** To ask the Secretary of State for Health how many patients were treated in the accident and emergency departments of NHS hospitals in each year from 1990 to 2002. [156014]

**Ms Rosie Winterton:** The number of patients attending accident and emergency departments in national health service hospitals in England 1989–90 to 2002–03 is shown in the table.

*Attendances at A&E departments, England, 1989–90 to 2002–03*

| | *New attendances* | *Follow-up attendances* | *Total attendances* |
|---|---|---|---|
| 1989–90 | 11,207,099 | 2,728,203 | 13,935,302 |
| 1990–91 | 11,204,059 | 2,512,913 | 13,716,972 |
| 1991–92 | 11,035,326 | 2,270,155 | 13,305,481 |
| 1992–93 | 10,993,202 | 2,077,009 | 13,070,211 |
| 1993–94 | 11,364,703 | 1,923,987 | 13,288,690 |
| 1994–95 | 11,942,599 | 1,869,123 | 13,811,722 |
| 1995–96 | 12,461,909 | 1,772,381 | 14,234,290 |
| 1996–97 | 12,483,633 | 1,642,544 | 14,126,177 |

Department of Health form KH09

### Angiography

**Mr. Burstow:** To ask the Secretary of State for Health when his Department started collecting the figures for angiography waiting times; and if he will make a statement on the reasons for collecting this data centrally. [158965]

**Miss Melanie Johnson:** Improving angiography access times forms an important part of the national service framework for coronary heart disease. Strategic health authorities outlined their plans to improve access in the local delivery plans (LDPs). Monitoring against the LDPs started in 2003–04. It is expected data will be of sufficient quality to publish shortly.

Hospital episode statistics which have been used previously outline the length of time someone had waited when treated, not the time someone is waiting.

### Asthma

**Simon Hughes:** To ask the Secretary of State for Health how many patients *(a)* over and *(b)* under 45 years were admitted to hospital for asthma in (i) Greater London and (ii) each London borough in the last five years. [158443]

**Mr. Hutton:** The information is not available in the format requested. Information on patients admitted to London hospitals with a primary diagnosis of asthma by

primary care trust of residence for the year 2002 to 2003, has been placed in the Library. Information for previous years by PCT of residence is not available.

### Bereavement Services

**Mr. Fabian Hamilton:** To ask the Secretary of State for Health what steps he has taken to encourage a co-ordinated approach to bereavement services within his Department. [159966]

**Ms Rosie Winterton:** A three year training and development strategy was started in 2003 to enable clinical and other staff to manage bereavement well. This required additional funding of £2.7 million per year paid directly to trusts. An additional £300,000 is spent each year by the Department over the three year period for the central preparation of professional standards, training tools and materials to be used by trusts. Joint protocols have been developed between the national health service and coroners to train staff in procedures for obtaining consent for post mortem examinations and for provision of support at the time of death.

**Mr. Fabian Hamilton:** To ask the Secretary of State for Health whether NHS hospitals have staff specially allocated to provide the newly bereaved with sound information on existing laws and procedures so that they can be supported in making quick decisions about funerals. [159967]

**Ms Rosie Winterton:** The provision of bereavement counselling services within the national health service trusts is a requirement set by the Chief Medical Officer as part of his recommendations following the Alder Hay Inquiry. Families have the right to be provided with sensitive support and advice from NHS trusts at the time of bereavement, responsive to different religious and cultural beliefs. In order to meet this requirement, a three year training and development programme for all trusts was started in 2003. A survey of all trusts will be undertaken in April 2004 to establish the level of support currently in place.

### Capital Projects

**Mr. Luff:** To ask the Secretary of State for Health what assessment he has made of the implications for the proposed Droitwich Spa one-stop shop of his decision to change the funding arrangements for the project. [157961]

**Dr. Ladyman:** Significant new revenue funding is being made available to support public, private capital investment in the primary care estate based on local prioritisation of development proposals.

The funding arrangements have changed as a result of the new general medical services (GMS) contract which has been negotiated between the NHS Confederation and the General Practitioners Committee.

Previously revenue premises costs were funded via both the non cash limited and cash limited GMS routes. From April 2004 this funding will become resource limited and primary care trusts will manage this in conjunction with those resources in their unified allocation.

The future of the Droitwich Spa development will depend on the priority for investment in this facility relative to other such developments within the west Midland south area.

This will be decided by a planning group compromising all of the primary care trust chief executives within the west Midlands south area.

### Cardiac Care

**Simon Hughes:** To ask the Secretary of State for Health how many people from each primary care trust area in England received cardiac treatment at hospitals in Greater London in the last six years for which information is available. [158410]

**Mr. Hutton:** The information requested for the year 2002 to 2003, has been placed in the Library. Information for previous years is not available.

### Chorley Hospital

**Mr. Hoyle:** To ask the Secretary of State for Health if he will list new health services available at Chorley Hospital since 2000; and how much money has been spent on Chorley Hospital since 2000. [157676]

**Miss Melanie Johnson:** Chorley and South Ribble Hospital was commissioned as a new district general hospital in 1995–96. Since 2000, there has been approximately £10 million of investment in the following areas:

New medical ward

12 station dialysis unit

new dermatology/diabetes centre

bedside televisions/telephone system

multi-faith prayer room

two new theatres

new clinic for breast services

orthopaedic/fracture clinics

new discharge lounge

new nursery for staff child care

new sterile services unit.

Service developments include:

renal dialysis

extended elective orthopaedic service, serving Chorley and Preston

dermatology service for Chorley and Preston

further facilities for admission of medical patients

plastic surgery outpatients

vascular surgery outpatients

additional orthopaedic clinics

*Source:*
Cumbria and Lancashire Strategic Health Authority.

### Coldeast Hospital, Fareham

**Mr. Hoban:** To ask the Secretary of State for Health if he will make a statement on the future use of the Coldeast Hospital Site in Fareham. [160053]

**Mr. Hutton** *[holding answer 9 March 2004]:* The ownership of the Coldeast Hospital site is split between the Secretary of State for Health, Fareham and Gosport Primary Care Trust (PCT) and West Hampshire National Health Service Trust.

Reserved matters planning consent has recently been granted for a total of 253 housing units on those parts of the site owned by the Secretary of State for Health and the Fareham and Gosport PCT.

Options for the sale of the Secretary of State's land are currently being considered. Fareham and Gosport PCT is firming up its plans for the health service needs of both Fareham and Gosport residents and the health campus on the Coldeast site is a key part of those plans.

### Communications Masts

**Andy King:** To ask the Secretary of State for Health what action the Department has taken to investigate the potential health risks of Tetra masts in residential areas. [159376]

**Miss Melanie Johnson:** The Stewart Report, in 2000, provided a thorough and comprehensive consideration of the public health concerns associated with mobile phone systems and is available on the web site at www.iegmp.org.uk. The report dealt principally with signals from the widely used mobile phone (GSM) technologies but it did note some contradictory results when examining the biological effects of pulsed radio signals similar to those associated with TETRA (Terrestrial Trunked Radio). While no obvious health effect was suggested, it did recommend a precautionary approach.

The main conclusion about base stations from the Stewart Report was that:

> "the balance of evidence indicates that there is no general risk to the health of people living near to base stations on the basis that exposures are expected to be small fractions of guidelines".

A substantial number of measurements of potential exposures of the public from base station emissions, have now been made by a number of bodies, including the National Radiological Protection Board (NRPB)—www.nrpb.org and the Radiocommunications Agency (now part of OFCOM—www.ofcom.org.uk). These measurements include emissions from TETRA base stations. In all cases exposures have been very much lower than the guidelines published by the International Commission on Non-Ionizing Radiation Protection (ICNIRP).

The latest report from NRPB's Advisory Group on Non-Ionizing Radiation (AGNIR), entitled "Health Effects from Radiofrequency Electromagnetic Fields" was published on 14 January 2004 addressed the base station issue and concluded that: "Exposure levels from living near to mobile phone base stations are extremely low, and the overall evidence indicates that they are unlikely to pose a risk to health."

Following a request by the Home Office to the NRPB, the issue of possible health effects caused by signals from TETRA base stations was comprehensively addressed by AGNIR. It published its report, "Possible Health Effects from Terrestrial Trunked Radio (TETRA)", in 2001. This is available as Documents of NRPB, Volume 12, No 2, 2001, or on the NRPB web site at www.nrpb.org. AGNIR noted that whereas the signals from the TETRA handsets are pulsed, those from TETRA base stations are not pulsed. AGNIR concluded, therefore, that there is no reason to believe that signals from TETRA base stations should be treated differently from other base stations. The AGNIR report also found that exposures of the public to signals from TETRA base stations are small fractions of international guidelines.

TETRA technologies are included within the Mobile Telecommunications and Health Research (MTHR) programme set by the Government 2001—www.mthr.org.uk. An associated programme, specifically on TETRA, is being funded by the Home Office—http://www.homeoffice.gov.uk. A number of projects are already under way, but it will be some time before the results are available.

### Community Pharmacists

**Mr. O'Hara:** To ask the Secretary of State for Health what assessment he has made of *(a)* patients' need for monitored dosage systems and *(b)* the wide variation in payment mechanisms to community pharmacists for these, including charges to individual patients. [158999]

**Ms Rosie Winterton:** No such assessment has been made nationally. However, primary care trusts may make local arrangements to assess need, arrange provision of services and establish a local payment mechanism.

As part of new national community pharmacy contractual framework discussions, we are examining arrangements for the provision of compliance aids of which monitored dosage systems is but one.

**Miss McIntosh:** To ask the Secretary of State for Health whether all the EU accession countries are compliant with the minimum training requirements in *(a)* medicine, *(b)* nursing and *(c)* dentistry as laid down in the relevant EC Directives. [159203]

**Mr. Hutton:** All acceding states are committed to ensuring that the qualifications they award to doctors and nurses responsible for general care and dentists who begin their training on or after the date of accession meet specified minimum requirements. It is for the European Commission, which is closely monitoring their progress, to see that these obligations are met. It intends to update Member States shortly.

### Correspondence

**David Winnick:** To ask the Secretary of State for Health when he will reply to the hon. Member for Walsall North's letter of 3 February regarding a constituent, departmental ref.PO1043437. [159635]

**Miss Melanie Johnson** *[holding answer on 8 March 2004]:* A reply was sent to the hon. Member on 2 March 2004.

### Dentistry

**Mr. Swire:** To ask the Secretary of State for Health what the scale of charges to patients using NHS dentists is. [155306]

**Ms Rosie Winterton:** National health service dental charges are subject to the National Health Service (Dental Charges) Regulations 1989, as amended. Under the current arrangements, those patients liable to pay a charge are required to make a contribution to the cost of their treatment equal to 80 per cent. of the dentist's item of services fees. These fees and their related patient charges are set out in the Statement of Dental Remuneration available at http://www.dh.gov.uk/assetRoot/04/01/93/20/04019320.pdf. This can also be found in the Statement of Dental Remuneration, Amendment No. 91 a copy of which is available in the Library.

Currently about 24 per cent. of NHS adult patients are exempt from charges or qualify for a reduced charge. Children and certain other groups are exempt from charges.

**Tim Loughton:** To ask the Secretary of State for Health when information relating to dentists in Adur, Arun and Worthing was last updated by NHS Direct on the NHS website. [156048]

**Ms Rosie Winterton:** The Department does not collect information regarding updates on dentists made by NHS Direct. However, I am advised by NHS Direct that primary care trusts have a system in place for updating information about dentists on the NHS website at www.nhs.uk. I understand this was last updated in February 2004 for Adur, Arun and Worthing PCT.

**Tim Loughton:** To ask the Secretary of State for Health which dental surgeries are taking on non-exempt adults in *(a)* West Sussex and *(b)* Adur, Arun and Worthing Primary Care Trust. [156050]

**Ms Rosie Winterton:** Information on which dental surgeries are taking adults who pay patient charges can be found on the NHS.UK website at www.nhs.uk. The information on the website is provided by primary care trusts (PCTs), and covers all national health service dental providers, not just principals and assistants in the general dental service.

The information on the site as at 2 March 2004 shows a total of 53 dental practices in Adur, Arun and Worthing PCT area, one of which is registering charge paying adults for treatment (four are registering charge exempt adults). For the Western Sussex PCT, 48 dental practices are listed, two of which are registering charge paying adults. The information does change regularly, often daily, and both the website and NHS Direct (which also uses the information) advise members of the public to telephone the dental practice to double check that the information is still accurate.

### Digital Hearing Aids

**Mr. Nigel Jones:** To ask the Secretary of State for Health what the average waiting time is for digital hearing aids in *(a)* England and *(b)* Gloucestershire; and if he will make a statement on measures he intends to take to reduce waiting times. [159044]

**Dr. Ladyman:** Information on waiting times for non-consultant led specialities such as audiology is not collected centrally and so we are unable to estimate an average waiting time for digital hearing aids in England. At the end of December 2003, waiting times from referral to fitting at Gloucestershire Royal Hospital were 54 weeks for patients referred by the ear, nose and throat department, 56 weeks for those referred by general practitioners and 112 weeks for patients who self referred for reassessments. These times all include an eight-week period from assessment through to the fitting of the hearing aid.

The Royal National Institute for the Deaf modernisation team is carrying out a number of initiatives to reduce waiting times and new courses have been introduced to increase the number of audiologists available nationally.

### Drug-related Deaths

**Mr. Burstow:** To ask the Secretary of State for Health what progress has been made on the target to reduce the number of drug-related deaths in England since 1999. [159775]

**Miss Melanie Johnson:** I refer the hon. Member to the response I gave him on 3 March 2004, *Official Report*, column 1021W.

### Drugs Trials

**Paul Flynn:** To ask the Secretary of State for Health what plans he has to require pharmaceutical companies to publish all results from drugs trials they conduct. [158528]

**Miss Melanie Johnson:** There are no plans currently in place to require disclosure of company drug trial results. The Government welcome the pharmaceutical industry's support for the Department of Health's research governance framework for health and social care, which recognises that it is researchers' responsibility to ensure that research findings are opened to critical review through the accepted scientific and professional channels and disseminated promptly once established. The Government encourages the pharmaceutical industry to disclose drug trial results to the maximum extent consistent with regulatory process and intellectual property rights.

### Environmental Protection

**Norman Baker:** To ask the Secretary of State for Health if he will make a statement on the mechanisms his Department uses to ensure that environmental considerations are taken into account at each stage of the policy formation process. [155430]

**Miss Melanie Johnson** *[holding answer 23 February 2004]:* The Department has recently reviewed its policy-making processes and is considering how best policy-makers can ensure that all relevant considerations are taken into account when formulating policy.

### EU Accession Countries (Migrants)

**Miss McIntosh:** To ask the Secretary of State for Health how many *(a)* doctors, *(b)* dentists and *(c)* nurses from the EU accession countries he expects to come to work in the UK after 1 May. [159202]

**Mr. Hutton:** The Department has made no such estimate. Decisions on whether to offer employment to doctors, dentists and nurses from the accession countries are matters for local national health service employers.

### Food Labelling

**Chris Grayling:** To ask the Secretary of State for Health what assessment he has made of the European Commission's proposal for a regulation on nutrition and health claims made on foods; and if he will make a statement. [158461]

**Miss Melanie Johnson:** In order to inform the United Kingdom negotiating position on this proposal, a full public consultation has been undertaken and an open meeting with stakeholders held. In addition, the Food Standards Agency, the lead Department for the proposal, has had detailed discussions with other Government Departments.

The Government welcomes the European Commission's proposal for harmonising rules on the regulation of nutrition and health claims and will seek, through the negotiation process, to provide adequate protection for consumers whilst minimising effects on the food industry.

### Foundation Trusts

**Mr. Burstow:** To ask the Secretary of State for Health what the reasons are for establishing a risk fund for foundation trust applicants implementing the new financial flows reforms. [154098]

**Mr. Hutton:** The funding will be made available to address the costs of highly complex and specialised cases for first wave national health service foundation trusts applicants for 2004–05 as the methodology to address these costs within the national tariff will not be complete until 2005–06.

**Mr. Burstow:** To ask the Secretary of State for Health from which budget the funding for the risk fund for foundation trust applicants implementing the new financial flows reforms was transferred; and if he will make a statement. [154142]

**Mr. Hutton:** The funding will be made available from the Department's unallocated provision for 2004–05.

### Free Health Care (Students)

**John Mann:** To ask the Secretary of State for Health what plans he has to extend free *(a)* prescriptions and *(b)* dental care to students undertaking an apprenticeship. [159461]

**Ms Rosie Winterton:** Free national health service prescriptions are available to everyone under 16. Free NHS dental treatment is available to everyone under 18. Free NHS prescriptions and free NHS dental treatment are available to everyone up to their nineteenth birthday if they are in full-time education. People who have children, or who are disabled and have low earnings may receive tax credits and a tax credit exemption certificate entitling them to free NHS prescriptions and free NHS dental treatment automatically. Otherwise, anyone can apply for help with their health costs through the NHS low income scheme. The extent of any help is based on a comparison between the claimant's weekly income and requirements at the date the claim is received. We have no plans to change the current arrangements.

Patients who need frequent prescriptions may benefit from purchasing a prescription prepayment certificate.

### GPs

**Dr. Murrison:** To ask the Secretary of State for Health how many *(a)* principals and *(b)* non-principals were in general practice in each year since 1990 in terms of (i) whole time equivalents and (ii) total employed. [158759]

**Mr. Hutton:** The information requested has been placed in the Library.

**Simon Hughes:** To ask the Secretary of State for Health how many general practitioners were appointed in *(a)* Greater London and *(b)* each London borough in the last 12 months; how many vacancies there were in that period; and how many general practitioners are in practice in (i) Greater London and (ii) each London borough. [158439]

**Mr. Hutton** *[holding answer 3 March 2004]:* Information on general practitioner vacancies and appointments is not collected at London borough level. Information for the five London strategic health authorities has been placed in the Library.

### Great Ormond Street Hospital

**Bob Spink:** To ask the Secretary of State for Health if he will set up an inquiry into Great Ormond Street Hospital's *(a)* treatment of junior doctors' pay obligations while on rotation and *(b)* handling of junior doctors' working hours. [R] [158545]

**Mr. Hutton:** It is for local national health service trusts to implement national policy by ensuring they have appropriate arrangements in place for dealing with grievances/complaints, in line with national guidance, as part of good employment practice.

Under those arrangements, there is regular monitoring to ensure that rotas are satisfactory and that safe services are provided.

Great Ormond Street, working with staff representative organisations, has these arrangements in place and policies and procedures under which any concerns can be raised and addressed.

**Bob Spink:** To ask the Secretary of State for Health how many junior doctors' rotas at Great Ormond Street Hospital are non-compliant with *(a)* the New Deal and *(b)* the EU Working Time Directive; and if he will make a statement. [R] [158547]

**Mr. Hutton:** The Department does not collect this information. However, I am informed by North Central London Strategic Health Authority that:

> Great Ormond Street Trust has 44 separate rotas. 40 are currently New Deal compliant.Great Ormond Street Trust is scoring 87 per cent, overall compliance with the New Deal—above the national average—and continues to make good

progress. 24 rotas are European Union Working Time Directive compliant and plans are in place to convert the others by September 2004, which is the deadline for compliance.

### Health Resource Groups

**Mr. Burstow:** To ask the Secretary of State for Health what assessment his Department has made of the robustness of the health resource group for specialist services, in advance of the implementation of these groups as a basis for the financial flows reforms. [158502]

**Mr. Hutton:** The Department is carrying out a review of specialised services so as to ensure that providers of these services are fairly reimbursed under the financial flows reforms. We recognise that, for some of these services, case mix adjustment based on current health care resource group classifications (HRGs) may not, by itself, provide sufficient reimbursement to specialised providers. Work is under way to refine HRGs to overcome this problem. We are also looking at other options such as adjustments to tariff for patients who have an exceptionally long stay in hospital. We shall be consulting widely with providers and commissioners of these services to make sure that we find the best way forward for each service.

### Hip Replacements

**Bob Spink:** To ask the Secretary of State for Health what the waiting time for hip replacements is at the Royal London Hospital. [159132]

**Mr. Hutton:** The Department of Health does not collect this information by specific procedure.

Data on patients waiting for trauma and orthopaedic elective admission at Barts and the London National Health Service Trust, of which the Royal London Hospital is a part, as at 31 December 2003 (the latest data available), is shown in the table.

*Patients waiting for trauma and orthopaedic elective admission at Barts and the London NHS Trust: position at 31 December 2003*

| | *Patients waiting for admission by months waiting* |
|---|---|
| Less than 3 months | 582 |
| 3 to 5 months | 402 |
| 6 to 8 months | 237 |
| 9 to 11 months | 76 |
| Total | 1,297 |

### Medical Negligence

**Mr. Byers:** To ask the Secretary of State for Health what the cost to the NHS in respect of *(a)* medical negligence cases and *(b)* other legal claims was in each year since 1992; and what estimate he has made of the potential costs arising from outstanding cases. [159817]

**Ms Rosie Winterton** *[holding answer on 8 March 2004]:* Payments made for medical negligence and other legal claims in each year since 1996 are shown in the table. Information for the period 1992 to 1995 cannot be separately identified.

*£ million*

| | *Medical negligence in year payments* | *Other legal claims in year payments/ receipts* |
|---|---|---|
| 1996–97 | 235 | 22 |
| 1997–98 | 144 | 23 |
| 1998–99 | 221 | 38 |
| 1999–2000 | 373 | 19 |
| 2000–2001 | 415 | 10 |
| 2001–02 | 446 | 4 |

*Note:*
Changes to accounting policies imposed by the HM Treasury over the years mean that these amounts are not directly comparable.
Estimates of potential costs of outstanding cases:
(i) The estimated cost of settling all actual clinical negligence claims and incidents that have occurred but may not necessarily result in claims is £5.25 billion as at 31 March 2002.
(ii) The estimated cost of settling all other legal claims is £113 million as at 31 March 2002.
*Sources:*
*Medical negligence*
NHS (England) Summarised Accounts 1996–97 to 2001–02 (the latest year published, the report for 2002–2003 is yet to be published)
*Other legal claims*

Health authority audited summarisation forms 1999–2000 to 2001–02
Primary care trust audited summarisation schedules 2000–01 to 2001–02
NHS trust audited summarisation schedules 1996–97 to 2001–02

### Medicines and Healthcare Products Regulatory Agency

**Paul Flynn:** To ask the Secretary of State for Health what plans he has to use public funds to finance the Medicines and Healthcare Products Regulatory Agency. [158524]

**Mr. Hutton:** The Medicines and Healthcare products Regulatory Agency (MHRA) uses public funds to finance the net costs of its work on medical devices. The MHRA's work on medicines is funded by fees from users, principally pharmaceutical companies, as has been the case for more than ten years.

### Men's Health

**Sandra Gidley:** To ask the Secretary of State for Health what steps he is taking to develop the evidence base required for health practitioners to improve the health of men most at risk of *(a)* heart disease, *(b)* cancer and *(c)* obesity following the cancellation of the Health Development Agency's men's health work programme. [159328]

**Miss Melanie Johnson:** The evidence base on coronary heart disease (CHD), cancer and obesity has been and continues to be extensively developed by the Health Development Agency (HDA) for both men and women. In particular, in 2002–04 the HDA published evidence briefings on obesity, physical activity, smoking cessation and alcohol. Furthermore, the HDA produced guidance on CHD and cancer in response to and support of the national service frameworks.

In 2004–05, the HDA will be commissioning a consortium of the University of Oxford, the University of Loughborough and the South East Public Health Observatory, as an evidence and guidance collaborating

centre, on physical activity. The HDA is currently involved in producing guidance on the treatment and prevention of obesity in conjunction with the National Institute for Clinical Excellence.

Specifically in relation to men's health, the HDA will be taking men's health forward as a cross-cutting issue. As a result of the work it has undertaken, the HDA will be producing a database of intervention and prevention strategies related to men's health. There are two pieces of commissioned work on the research priorities and a mapping exercise of published and on-going research in the field of men's health.

The HDA is focusing on the complete range of social diversity in the population, including, gender, as well as age, geography, socio-economic grouping and ethnicity. This is consistent with the Wanless II Report, published in February. The range of social diversity is reflected in all aspects of programme development and implementation across the HDA.

A number of publications have been made available from work in this area, as follows:

Health Development Agency (2000). Coronary Heart Disease. Guidance for implementing the preventive aspects of the national service framework. Available at http://www.hda-online.org.uk/documents/chdframework.pdf.

Health Development Agency (2002). Cancer Prevention. A resource to support local action in delivering The NHS Cancer Plan. Available at http://www.hda-online.org.uk/documents/cancer prevention.pdf.

Naidoo B. Edited by Quigley R, Taylor L and Warm D (2004—forthcoming). The effectiveness of public health interventions to reduce smoking initiation and increase smoking cessation: a review of reviews. Available at http://www.hda.nhs.uk/evidence/EBBD.html#pub.

Waller S, Naidoo B, Thorn B (2002). Prevention and reduction of alcohol misuse: Evidence briefing. Available at http://www.hda.nhs.uk/evidence/EBBD.html#pub. Watson J (2004—forthcoming). Men and health: Report of a Delphi study to scope themes for evidence-based reviews.

## Mental Health

**Mr. Cousins:** To ask the Secretary of State for Health how many acute mental illness beds were available *(a)* for the elderly, *(b)* for children, *(c)* for other age groups and *(d)* in secure units in 2002–03 in the area covered by Newcastle Primary Care Trust; and what the occupancy rates were in each case. [157049]

**Miss Melanie Johnson:** In 2002–03, there were no mental illness beds at the Newcastle Primary Care Trust. However, figures for the Newcastle, North Tyneside and Northumberland Mental Health National Health Service Trust for the same period are shown in the table.

| | *Available bed days* | *Occupied bed days* | *Percentage occupancy rate* |
|---|---|---|---|
| Mental illness: elderly short stay | 125 | 110 | 80.0 |
| Mental illness: elderly long stay | 125 | 114 | 91.2 |
| Mental illness: children | 20 | 14 | 70.0 |
| Mental illness: children long stay | 0 | 0 | 0 |
| Mental illness: other ages/secure | 49 | 45 | 91.8 |
| Mental illness: other ages/short stay | 314 | 250 | 79.6 |
| Mental illness: other ages/long stay | 94 | 71 | 75.5 |

*Source:*
Department of Health KH03 Form.

**Dr. Evan Harris:** To ask the Secretary of State for Health what his Department's total spending on anti-discrimination in mental health work has been over the last two years; and what the planned expenditure is for the next two years. [158558]

**Ms Rosie Winterton:** The Department conducts its anti discrimination in mental health work through the "Mind out for mental health" campaign. Campaign spending over the last two years is shown in the table.

£

| | *Spending* |
|---|---|
| 2002–03 | 905,662 |
| 2003–04 | [1]824,305 |

[1] Forecast of final outturn.

Decisions on expenditure for mental health anti discrimination work for the next two years have not yet been made.

## Needlestick Injury

**Laura Moffatt:** To ask the Secretary of State for Health when he expects to publish guidelines to NHS staff on needlestick injury. [158690]

**Mr. Hutton:** The Department is in the process of producing new guidance on the Management of Occupational Health and Safety Services in the national health service in response to the National Audit Office Report, "A Safer Place to Work—improving the management of health and safety risks to staff in the NHS". The new guidance will include comprehensive new guidelines on the management of needlesticks. It is due to be published later this year.

## NHS Dentistry

**Mrs. Humble:** To ask the Secretary of State for Health what progress has been made in the recruitment of NHS dentists in Blackpool North and Fleetwood. [157913]

**Miss Melanie Johnson:** Blackpool Primary Care Trust (PCT) is addressing the issue of recruitment by developing access to services through facilities and staff employed at the Fylde Coast Medical services. Wyre PCT has taken a number of steps to address current vacancies. These include:

a dental surgery within a proposed new primary care centre to be built in 2005;

a golden hello for new practitioners in the area; and

an advert in the February edition of the British Dental Journal.

**Mr. Hoyle:** To ask the Secretary of State for Health what the average distance for people to access NHS dentists is in *(a)* Lancashire and *(b)* Chorley. [157087]

**Miss Melanie Johnson:** The average direct distances from postcodes in Lancashire and Chorley to the nearest dentist are 0.67 miles and 0.77 miles respectively.

### NHS Financial Reforms

**Mr. Burstow:** To ask the Secretary of State for Health whether there will be a risk fund for all NHS trusts implementing the new financial flows reforms over the next five years. [154146]

**Mr. Hutton:** We do not expect such a fund will be necessary from 2005–06 onwards for either national health service trusts or NHS foundation trusts. This is because methodology to address the costs of highly complex and specialised cases within the tariff is planned to be developed for implementation from 2005–06.

### NHS Funding

**Mr. Burstow:** To ask the Secretary of State for Health if he will estimate the size of the risk fund needed to implement the national tariff payment by results system across all NHS trusts; and if he will make a statement. [152821]

**Mr. Hutton:** In 2004–05, we are considering allocating up to £50 million to specialist and teaching first wave national health service foundation trusts which are implementing the full transition to payment by results a year ahead of the rest of the NHS. The funding will be made available to address the costs of highly complex and specialised cases for first wave applicants for 2004–05, because the methodology to address these costs within the national tariff will not be ready for implementation until 2005–06. These funds will be available for 2004–05 only.

### NHS Obsolete Equipment

**Tom Brake:** To ask the Secretary of State for Health what assessment he has made of the *(a)* value and *(b)* type of obsolete but working NHS equipment that was discarded in 2003. [158787]

**Miss Melanie Johnson:** No assessment has been made of the amount of obsolete but working equipment in the national health service. However the NHS Purchasing and Supply Agency is involved in several initiatives to look at how unwanted but working items can be disposed of most efficiently.

### NHS Staff

**Mr. Burstow:** To ask the Secretary of State for Health what research has been commissioned by his Department into the attitudes of staff in the NHS since 1997. [154988]

**Mr. Hutton:** The Department of Health Policy Research Programme has funded research on a range of issues in the national health service which has included components whereby staff's attitudes have been sought across a range of issues. Research containing a significant element on staff attitudes has been commissioned on topics including:

cohort studies of nurses' careers;

cohort studies of doctors' careers;

the attractiveness of the NHS as an employer;

the establishment of the role of nurse consultant;

the establishment of the role of modern matron;

the extension of nurse prescribing;

the retention of women in the primary care nursing workforce after the age of 50;

benchmarking and bowel care in community home settings;

vaccinating health workers against influenza;

labour costs, clinical outcomes and staff attitudes;

health infomatics education for health professionals;

staff satisfaction, patient satisfaction and patient outcomes;

overseas doctors' experiences and expectations of training in the UK;

the attractiveness of the NHS as an employer to potential nursing and allied health professionals staff;

staff involvement in the NHS.

A list of Policy Research Programme projects have been placed in the Library.

In addition, NHS trusts are required to conduct staff opinion surveys and 10 core questions about staff involvement and communications were added to local surveys in 2001 and 2002 and the results fed into performance ratings. From 2003 Commission for Health Improvement took over responsibility for conducting national NHS staff opinion surveys which will assess staff attitudes to a number of areas of their work.

### NHS Trust Documents

**Helen Jones:** To ask the Secretary of State for Health pursuant to the answer of 12 February 2004, *Official Report*, column 1695, on NHS trust documents, whether his Department collects and retains copies of *(a)* Mersey Regional Ambulance Service's lone worker policy and *(b)* the job description of its communications manager; and for what reason it has not obtained a copy of Ms Pearl Browne's report on the management of the Mersey Regional Ambulance Service. [157612]

**Miss Melanie Johnson** *[holding answer 3 March 2004]:* The Department does not routinely collect copies of Mersey Regional Ambulance Service's lone worker policy and the job description of its communications manager. The Pearl Brown report on the management of the Mersey Regional Ambulance Service is a confidential report commissioned solely by the trust and neither the Department nor the Cheshire and Merseyside Strategic Health Authority had any input to it.

### NHS Trust Finance

**Mr. Lansley:** To ask the Secretary of State for Health whether public dividend capital on the balance sheets of NHS hospital trusts is classified as debt. [159302]

**Mr. Hutton** *[holding answer on 5 March 2005]:* National Health Service trusts account for public dividend capital (PDC) as equity. PDC is a form of public sector financing which does not conform to the standard accounting definitions of equity and debt used in the private sector. It is more akin to an equity stake than a loan, as it is remunerated by dividend rather than fixed or variable interest.

### Nursing

**Mr. Drew:** To ask the Secretary of State for Health how many nurses have come to the UK from abroad in each of the last five years to work in the NHS; and from which countries. [158975]

**Mr. Hutton:** The information requested is not collected centrally.

The Nursing and Midwifery Council holds information on the number of nurses registering to practise in the United Kingdom each year from overseas. This information can be found at www.nmc-uk.org.

**Mr. Drew:** To ask the Secretary of State for Health what marketing his Department is undertaking to attract nurses from abroad to work in the NHS. [158976]

**Mr. Hutton:** The Department has agreements with the Governments of the Philippines, Spain, Indonesia and India to recruit nurses into the national health service. Our embassies market nursing campaigns through websites, conferences and advertising.

In addition, project leads based in the United Kingdom co-ordinate advertising and marketing.

The Department has developed a website, www.nursinguk.nhs.uk, aimed at supporting nurses from abroad who wish to come and work in the NHS.

Information on how to apply independently to the NHS, together with information about registration is available on the Department's website at www.dh.gov.uk/PolicyAndGuidance/HumanResourcesAndTraining/MoreStaff/fs/en.

### Obesity

**Linda Perham:** To ask the Secretary of State for Health what steps he is taking to reduce the incidence of obesity-related illness and death. [156085]

**Miss Melanie Johnson:** The Government are concerned at the impact of obesity on health and are committed to addressing the current trend in both children and adults. Prevention and management of obesity is already at the heart of the Government's priority areas, including coronary heart disease, cancer and diabetes.

The Government launched their major consultation on public health this month. The Public Health White Paper will provide the overarching framework for all Government efforts to improve public health. The consultation will enable a wide range of stakeholders to contribute to the debate on overweight and obesity. The consultation will also take account of the recommendations from Derek Wanless recent report "Securing Good Health for the Whole Population". The Government will draw up their White Paper in the light of the consultation . This will present real opportunities to progress work on the prevention and management of overweight and obesity. A planned obesity summit will form an important part of the consultation process. Work has already started through the food and health action plan and the activity co-ordination team, which will be of direct relevance to the prevention and management of obesity.

Locally, primary care trusts as local providers and commissioners of services will determine the most appropriate methods to deliver health care to their populations, based on clinical need and effectiveness, as well as local circumstance, drawing on the available evidence. Under the new general medical services contract from April 2004 practices will be required to offer consultation for chronic disease and related health problems (such as obesity), offer relevant health promotion advice to patients and refer patients to other treatment that may be necessary.

There are 10 specialised obesity clinics for adults and seven for children in England. The National Institute for Clinical Excellence's guidance on drugs and surgery is already available. NICE, collaborating with the Health Development Agency, have been tasked by the Department of Health to develop guidance on the identification, prevention and management of obesity and maintenance of weight reduction, due in 2006.

### Patients Choice Scheme

**Bob Spink:** To ask the Secretary of State for Health (1) what the qualifying criteria are for patients who wish to take advantage of the patient choice scheme; [159133]

(2) how patients can opt into the patient choice scheme; and if he will list the hospitals in the South East which take on patients under that scheme for each category of treatment; [159134]

(3) how many patients have taken advantage of the patient choice scheme to reduce treatment waiting time. [159135]

**Mr. Hutton:** The London patient choice project and the cardiac choice project offer choice of treatment in an alternative hospital to clinically appropriate patients waiting longer than six months for surgery in the specialties of ophthalmology, orthopaedics, general surgery, ear, nose and throat, urology and cardiac surgery.

In both schemes, eligible patients are contacted by a patient care adviser and offered choice of hospital and appointment.

The cardiac choice scheme is a national scheme which started in July 2002. Since then, 6,089 patients have been offered choice and 3,034, or 51 per cent., have opted for treatment elsewhere.

The London patient choice project is a pan-London scheme which started in October 2002. Since then, 17,133 patients have been offered choice and 10,850, or 63 per cent., have chosen to have treatment at another hospital.

There are seven other choice pilots in England but these are not routinely monitored.

Hospitals in the South East (defined here as London, the South East and East Anglia) which can take patients under the cardiac choice scheme are:

National health service trusts

Papworth Hospital NHS Trust

Barts and the London NHS Trust

Guy's and St. Thomas' NHS Trust

Hammersmith Hospitals NHS Trust

King's College Hospital NHS Trust
Royal Brompton and Harefield NHS Trust
St. George's Healthcare NHS Trust
St. Mary's NHS Trust
University College London Hospitals NHS Trust
Brighton and Sussex University Hospitals NHS Trust
Oxford Radcliffe Hospital NHS Trust
Southampton University Hospitals NHS Trust
UK independent sector hospitals
BMI London Independent
BUPA Cambridge
BUPA Chalybeate, Southampton
HCA Harley Street Clinic
HCA London Bridge Hospital
HCA Wellington Hospital
King Edward VII Hospital, Midhurst, Sussex.

There are a number of hospitals outside of the South East which can also take patients under the cardiac choice scheme.

Hospitals in London which can take patients under the London patient choice scheme are:

National health service trusts
Bromley Hospitals NHS Trust
Chelsea and Westminster Healthcare NHS Trust
Epsom and St. Helier University Hospitals NHS Trust
Guy's and St. Thomas' NHS Trust
Hammersmith Hospitals NHS Trust
King's College Hospital NHS Trust
Lewisham Hospital NHS Trust
Mayday Healthcare NHS Trust
Moorfields Eye Hospital NHS Trust
North West London Hospitals NHS Trust
Royal National Orthopaedic Hospital NHS Trust
St Mary's NHS Trust
University College London Hospital NHS Trust
UK independent sector hospitals
HCA Lister
HCA Portland
HCA Princess Grace.

### Pest Infestations

**Mr. Burstow:** To ask the Secretary of State for Health how many pest infestations he estimates there were in NHS hospitals in each year since 1996 in *(a)* England and *(b)* each strategic health authority. [158542]

**Mr. Hutton:** The information requested is not collected centrally. It is for individual national health service hospitals to make their own arrangements to deal with, or otherwise ensure the prevention of, pest infestations.

The NHS has recently been reminded of the need to ensure that proper control procedures are in place. Action Area Three (Reducing Reservoirs of Infection) of "Winning Ways", the Chief Medical Officer's Report on measures to tackle healthcare associated infections, requires that

"all healthcare settings should aim to eradicate pests such as rats, mice, ants, cockroaches pigeons and flies".

### Physiotherapists

**Mr. Burstow:** To ask the Secretary of State for Health how many vacancies there were for physiotherapists in each NHS region in each year since 1999. [158519]

**Mr. Hutton:** Information on the number of physiotherapy vacancies lasting three months or more is shown in the table. As at March 2003, there were 671 such vacancies in England, which equates to a rate of 4.7 per cent., a fall from 5.2 per cent. the year before.

*NHS hospital and community health services: Three month vacancies for qualified physiotherapy staff in Government Office Regions and England as at 31 March each specified year*

*Three month vacancy numbers*

| | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|
| England | 425 | 512 | 655 | 715 | 671 |
| North East | 12 | 27 | 31 | 56 | 25 |
| North West | 63 | 78 | 78 | 64 | 45 |
| Yorkshire and the Humber | 33 | 40 | 62 | 81 | 70 |
| East Midlands | 27 | 31 | 40 | 61 | 38 |
| West Midlands | 69 | 66 | 84 | 93 | 71 |
| East Of England | 53 | 75 | 57 | 43 | 98 |
| London | 98 | 101 | 164 | 180 | 175 |
| South East | 48 | 74 | 107 | 77 | 107 |
| South West | 21 | 19 | 32 | 62 | 42 |

*Notes:*
Three month vacancy information is as at 31 March 2003.
Three month vacancies are vacancies which trusts are actively trying to fill, which had lasted for three months or more (whole time equivalents).
*Source:*
Department of Health Vacancies Survey, March 2003.

### Pulmonary Disease

**Mr. Burns:** To ask the Secretary of State for Health (1) what assessment he has made of the National Institute for Clinical Excellence guidelines on the management of chronic obstructive pulmonary disease in primary and secondary care; and if he will make a statement; [155109]

(2) whether, following the recommendations by the National Institute for Clinical Excellence, he will make it a priority for all hospitals and general practitioner surgeries to have access to *(a)* a spirometer and *(b)* adequate training in the use of spirometry; [155112]

(3) what steps he will take following the recommendations by the National Institute for Clinical Excellence to ensure that all patients with chronic obstructive pulmonary disease have access to a multidisciplinary healthcare team; [155110]

(4) whether, following the recommendations by the National Institute for Clinical Excellence, he will make it a priority for all hospitals and general practitioner surgeries to have access to non-invasive ventilation for the treatment of people with severe chronic obstructive pulmonary disease; [155111]

(5) if, following the recommendations by the National Institute for Clinical Excellence, he will provide funding for pulmonary rehabilitation courses to run in every hospital for all patients who consider themselves functionally disabled by chronic obstructive pulmonary disease. [155113]

**Dr. Ladyman** *[pursuant to his reply, 5 March 2004, c. 1167–68W]:* I regret that my previous response was incorrect, and should have read as follows.

As part of our commitment to improve services for patients with chronic obstructive pulmonary disease (COPD) we commissioned the National Institute for Clinical Excellence (NICE) to prepare clinical guidelines for the National Health Service in England and Wales for the prevention, diagnosis, management and treatment of COPD. These guidelines were published on 25 February.

Now that the guidelines have been published primary care trusts, in partnership with local stakeholders, will decide what local service improvements need to be made. They have the responsibility for deciding what services to provide for their populations, including those with COPD and other respiratory diseases. They are best placed to understand local health needs and commission services to meet them.

The NHS is currently receiving the largest sustained increase in funding in its history. The total of PCT allocations for the next three years are £45 billion for 2003–04, £49.3 billion for 2004–05 and £53.9 billion for 2005–06. This represents an increase of £12.7 billion or an average of 30.8 per cent. over the three years 2003–04 to 2005–06. PCTs will use these allocations to implement local service improvements, which may include NICE's recommendations on COPD.

### Radiographers

**Dr. Murrison:** To ask the Secretary of State for Health how many radiographers there were in the UK in each year since 1990 in terms of *(a)* whole-time equivalents and *(b)* the total employed. [158824]

**Mr. Hutton:** The available information is shown in the table. Between 1997 and 2002, the number of radiographers by headcount employed in the national health service has increased by 11 per cent. Whole-time equivalent radiographers have increased by 10 per cent.

*NHS hospital and community health services: Qualified radiography staff in England by area of work as at 30 September each specified year*

| | *Diagnostic radiographers* | *Therapeutic radiographers* |
|---|---|---|
| | *whole-time equivalent* | |
| 1990 | [1]— | 1,206 |
| 1991 | 7,539 | 1,139 |
| 1992 | 7,777 | 1,152 |
| 1993 | [1]— | 1,186 |
| 1994 | 7,989 | 1,190 |
| 1995 | 8,065 | 1,056 |
| 1996 | 8,527 | 1,174 |
| 1997 | 8,626 | 1,275 |
| 1998 | 8,860 | 1,333 |
| 1999 | 9,009 | 1,358 |
| 2000 | 9,169 | 1,309 |
| 2001 | 9,264 | 1,391 |
| 2002 | 9,489 | 1,374 |
| | | *headcount* |
| 1990 | [1]— | 1,296 |
| 1991 | 8,891 | 1,243 |
| 1992 | 9,210 | 1,267 |
| 1993 | [1]— | 1,320 |
| 1994 | 9,520 | 1,323 |

*NHS hospital and community health services: Qualified radiography staff in England by area of work as at 30 September each specified year*

| | *Diagnostic radiographers* | *Therapeutic radiographers* |
|---|---|---|
| | *whole-time equivalent* | |
| 1995 | 10,294 | 1,252 |
| 1996 | 10,265 | 1,308 |
| 1997 | 10,364 | 1,407 |
| 1998 | 10,645 | 1,473 |
| 1999 | 10,839 | 1,491 |
| 2000 | 11,036 | 1,453 |
| 2001 | 11,163 | 1,543 |
| 2002 | 11,489 | 1,542 |

[1] not available

*Note:*

A new classification of the non-medical workforce was introduced in 1995. Information based on this classification is not directly comparable with earlier years.

*Source:*

Department of Health Non-Medical Workforce Census

### Recruitment Advertising

**Pete Wishart:** To ask the Secretary of State for Health what his Department's expenditure on recruitment advertising was in each of the last three years, broken down by publication; and what proportion of such expenditure was *(a)* to advertise vacant posts and *(b)* in the form of other general recruitment advertising. [155526]

**Ms Rosie Winterton:** Figures for advertising vacant posts are shown in the table.

| *Year (1 April to 31 March)* | *Recruitment budget spend (£)* |
|---|---|
| 2003 to date | 146,331.25 |
| 2002–03 | 345,229.15 |

The figures shown in the table do not include the Department's agencies. Figures prior to the year 2002–03 are not available.

The figures for general recruitment advertising are shown in the table.

| | *Expenditure (£ million)* |
|---|---|
| 2001–02 | 5 |
| 2002–03 | 4.3 |
| 2003–04 | 4.9 (estimated) |

Details of where advertisements are placed are not centrally recorded, and can be provided only at disproportionate cost. Where advertisements are placed will depend on the nature of the vacancies or target audience.

The Department has a robust external recruitment policy which complies with the rules and requirements of "Minister's Rules for Selection", "The Civil Service Order in Council", Treasury and equal opportunity and employment protection legislation.

**Mr. Evans:** To ask the Secretary of State for Health how much his Department has spent on recruitment advertising in each year since 1997. [156451]

**Ms Rosie Winterton:** I refer the hon. Member to the reply I gave the hon. Member for North Tayside (Pete Wishart) today.

### Rheumatoid Arthritis

**Mr. Edwards:** To ask the Secretary of State for Health what recommendations he has received from the National Institute for Clinical Excellence on making Humira available on prescription in the NHS in England for the treatment of rheumatoid arthritis; and if he will make a statement. [159479]

**Dr. Ladyman:** The National Institute for Clinical Excellence (NICE) has not yet been asked to produce any guidance on Humira for the treatment of rheumatoid arthritis but the suitability of Humira for referral to NICE is under consideration.

### Saxon Square Health Centre

**Mr. Chope:** To ask the Secretary of State for Health pursuant to the answer of 26 February 2004, *Official Report*, columns 555–56W, on Saxon Square Health Centre (Christchurch), for what reasons it is not in the best interests of the NHS for further negotiations to be held immediately with the head leaseholder; with which NHS trust negotiations are taking place for a transfer of the leasehold; when discussions began; and when he expects them to conclude. [159285]

**Mr. Hutton** *[holding answer 5 March 2004]:* The Royal Bournemouth and Christchurch National Health Service Trust has expressed an interest to occupy this health centre.

Negotiations with the trust commenced in October 2003 and they will be completed as soon as possible. Progress is dependent on the costs to be incurred by the trust to occupy these offices.

Where property is held on a lease, it is usual that the head lessee will only be approached when a fully appraised proposal has been prepared.

### School Nurses

**Simon Hughes:** To ask the Secretary of State for Health how many school nurse whole-time equivalents were employed in each of the primary care trusts in Greater London for each of the last five years. [158411]

**Mr. Hutton:** The information requested is not held centrally.

### Sexual Health

**Phil Sawford:** To ask the Secretary of State for Health how many cases of sexually transmitted diseases were treated by the NHS in each of the last 10 years for which figures are available. [158091]

**Miss Melanie Johnson:** Information on the number of cases of sexually transmitted infections (STIs) treated by the national health service is not routinely collected. However, data is collected on the number of diagnoses of STIs made in genito-urinary medicine clinics. These are shown in the table for the years 1992 to 2002.

*Number of diagnoses of sexually transmitted diseases made in genito-urinary medicine clinics in England: 1992 to 2002*

| | *Male* | *Female* | *Total* |
|---|---|---|---|
| 1992 | 177,064 | 195,218 | 372,282 |
| 1993 | 170,520 | 193,286 | 363,806 |
| 1994 | 178,866 | 212,010 | 390,876 |
| 1995 | 196,943 | 231,567 | 428,510 |
| 1996 | 202,465 | 249,438 | 451,903 |
| 1997 | 216,916 | 264,976 | 481,892 |
| 1998 | 228,963 | 277,945 | 506,908 |
| 1999 | 242,087 | 291,703 | 533,790 |
| 2000 | 260,899 | 309,173 | 570,072 |
| 2001 | 277,636 | 331,090 | 608,726 |
| 2002 | 295,411 | 348,988 | 644,399 |

*Source:*
KC60 statutory returns from GUM clinics.

**Simon Hughes:** To ask the Secretary of State for Health what steps he is taking to encourage best practice in sexual health promotion among vulnerable communities in London. [159172]

**Mr. Hutton:** Primary care trusts (PCTs) provide sexual health promotion services which meet the needs of their local populations. To support them in this role, in 2003, the Department published good practice guidance for use by PCTs and others on both the commissioning of sexual health services and effective sexual health promotion. These documents include guidance on working with communities most at risk of poor sexual health and HIV. In addition, the Department undertakes nationally funded sexual health promotion, targeting those groups most at risk of HIV, including activities in the London area.

A joint project by the five London strategic health authorities is on-going to develop a framework for modernising sexual health services across London.

**Simon Hughes:** To ask the Secretary of State for Health what steps his Department is taking to increase awareness of sexually transmitted diseases among *(a)* heterosexual and *(b)* homosexual males. [159193]

**Miss Melanie Johnson:** Through the Department's sexual health promotion work, we are raising public awareness of sexual health nationally through activities such as the Sex Lottery campaign. This targets 18 to 30-year-olds in raising awareness of sexually transmitted infections. Campaign materials include those specifically targeting young men, such as ambient materials in pubs and clubs (including men's washrooms) and advertisements in men's magazines.

The Department is funding the Men's Health Forum to investigate men's perception and attitudes towards chlamydia, the most common sexually transmitted infection, and to identify the best ways to target men (both with information and for screening).

The Department is also currently committing £1 million a year to support the Medical Research Council's sexual health and HIV research programme. Men at increased risk of sexually transmitted infections and HIV are a focus of a number of existing projects, and will be highlighted in future calls for new research, under this programme.

Gay and bisexual men are identified in the sexual health strategy as one of the groups disproportionately affected by poor sexual health. For these men, the

Department contracts the Terrence Higgins Trust to undertake targeted sexual health promotion and HIV prevention, in partnership with community based organisations across the country.

In addition to this national work, primary care trusts are responsible for meeting the sexual health needs of their local populations. The sexual health promotion toolkit (2003) provides guidance and practical advice to those working in the field of sexual health promotion. It includes specific tips and good practice for working with men of all ages to ensure that they are proactively targeted and services are open and welcoming to men.

### Smoking

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 7 January 2004, *Official Report*, column 398W, on smoking, when he will publish the findings of the research on the success of the NHS Stop Smoking Service. [159321]

**Miss Melanie Johnson:** The Department of Health commissioned a team led by Glasgow University to carry out a comprehensive evaluation of the impact and effectiveness of the national health services stop smoking services.

The first results of this evaluation were published in September 2003. "Bauld L et al. Impact of UK national health service smoking cessation services: variations in outcomes in England. Tobacco Control 2003; 12:296–301". The key finding was that "Well-developed, evidence-based NHS services, reflecting good practice, are yielding positive outcomes." The final results of the studies are due to be published in autumn 2004.

A copy of the research has been placed in the Library.

### Sudden Death (Cardiac Conditions)

**Mr. Baron:** To ask the Secretary of State for Health what action is being taken to offer treatment to people of all ages who are susceptible to sudden death due to underlying cardiac conditions that if not treated may result in a fatal cardiac arrhythmia. [159826]

**Miss Melanie Johnson** *[holding answer 9 March 2004]:* The Government are committed to ensuring further improvements in these services and are discussing this matter with my hon. Friend the Member for Stockton, South (Ms Taylor) in the context of the Cardiac Risk in the Young (Screening) Bill, which is due for second reading on Friday 12 March.

### Surgical Instruments (Reuse)

**Mr. Burstow:** To ask the Secretary of State for Health if he will publish his Department's guidance on the reuse of surgical instruments after brain biopsies. [158515]

**Miss Melanie Johnson:** Guidance on the reuse of surgical instruments after brain procedures, including biopsy, on patients known to have, or be at risk of CJD is already published in "Transmissible spongiform encephalopathy agents: safe working and the prevention of infection". This guidance, endorsed by the Advisory Committee on Dangerous Pathogens, is available at the Department's website at: www.dh.gov.uk/PolicyAndGuidance/HealthAndSocialCareTopics/CJD/CJDGeneralInformation/CJDGeneralArticle/fs/en?CONTENT ID = 4031067&chk = 4gOe2r. A copy is also available in the Library.

### Waiting Lists/Times

**Mr. Burstow:** To ask the Secretary of State for Health if he will list the last average in-patient waiting time for *(a)* England, *(b)* each region and *(c)* strategic health authority for each year since 1996. [159737]

**Mr. Hutton:** The table shows average (median) waiting times for elective inpatient admissions.

*Average (median) waiting times for elective in-patient admission: England and strategic health authorities: position at 31 December 2003*

| *England/SHA* | *Median waiting times (months)* |
|---|---|
| England | 2.59 |
| Norfolk, Suffolk and Cambridgeshire HA | 2.67 |
| Bedfordshire and Hertfordshire HA | 2.75 |
| Essex HA | 2.64 |
| North West London HA | 2.46 |
| North Central London HA | 2.70 |

*Note:*
The figures shown are estimates based on aggregate data, categorised into waiting time bands, and do not reflect shifts in the waiting time profiles within these bands, only between bands. The median is not very sensitive to reductions in maximum waiting times, and it is possible to see a rise in the median, whilst reducing maximum waiting times because of shifts in low time bands. Short-term progress on delivering maximum waiting times (including tackling the longest waiters) will not necessarily translate into a reduction in the median waiting time. Our policy, therefore, is to focus attention on the number of patients waiting the longest, and in each waiting time band.
*Source:*
Department of Health form QF01.

For information on average waiting times for previous years I refer the hon. Member to the response I gave on 4 February 2004, *Official Report*, column 977W.

### Work Force Census

**Mr. Burstow:** To ask the Secretary of State for Health for what reason the publication date of the report on NHS hospital and community health services non-medical work force census, England: 30 September 2003—detailed results as stated on his Department's website was put back from 26 February to 19 March. [158220]

**Mr. Hutton:** Publication was deferred in order to be more helpful to people using the data by publishing detailed information, which would not otherwise have been ready, on the same day as summary information.

### Yellow Card Scheme

**Paul Flynn:** To ask the Secretary of State for Health if he will extend the yellow card reporting scheme to allow narrative testimonies from patients. [158529]

**Miss Melanie Johnson:** The Medicines and Healthcare Products Regulatory Agency (MHRA) is piloting a scheme to allow patients to report suspected adverse drug reaction via NHS Direct. Patients in the catchment area of the South East London NHS Direct site are currently able to contact NHS Direct to report suspected adverse drug reactions, and the scheme is to be extended to other NHS Direct sites in due course.

Following an increase in the number of requests for access to Yellow Card data, an independent review is being undertaken by Dr. Jeremy Metters. The steering committee, set up to assist the review, has consulted widely with key stakeholders. The review is considering whether there can be improved involvement of patients in the scheme, which may include enabling patients to report suspected adverse drug reactions to the MHRA directly. The results of the review are expected to be published later this year.

### York District Hospital

**Miss McIntosh:** To ask the Secretary of State for Health when the children's assessment and treatment area at York District Hospital will be opened. [157523]

**Miss Melanie Johnson:** This is a local matter for York Hospitals National Health Service Trust.

# Written Answers to Questions

*Thursday 11 March 2004*

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Hazardous Waste

22. **Kevin Brennan:** To ask the Secretary of State for Environment, Food and Rural Affairs, if she will make a statement on the future provision of sites for the disposal of hazardous waste. [160300]

**Mr. Morley:** The Government recognise that implementation of the Landfill Directive will have a significant impact on the disposal of hazardous waste. In particular the ending of co-disposal from 16 July 2004 will lead to a reduction in the number of landfill sites taking hazardous waste. Coupled with the requirements for treatment of hazardous waste prior to landfill, this will lead to better management of hazardous waste and more incentive on producers to minimise the amount of waste produced.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what support she plans to give to Challenge Fund proposals with regard to waste disposal; and if she will make a statement. [156388]

**Mr. Morley:** The Waste Implementation Programme (WIP) has been established to help push England's waste management practices up the waste hierarchy, and specifically to divert increasing amounts of waste away from landfill. Properly known as the Waste Minimisation and Recycling Fund, the Challenge Fund is managed by WIP and does not provide funding for final disposal facilities. Rather, it provides local authorities with opportunities to pursue schemes that reduce the volume of the household waste stream, and to increase the amount of household waste recycled and composted. From 2005–06, the Challenge Fund will be replaced by a new Waste Management Performance Reward Grant, and Defra is currently consulting on its proposals for the design of this grant.

It is recognised that final disposal will remain an important element in local authorities' waste management plans. This need is addressed through the Environmental, Protective and Cultural Services (EPCS) block funding, which covers waste management among other local authority services. In addition, WIP is managing £355 million of waste PFI credits over the three-year period to 2006, providing the necessary investment in large-scale waste management facilities. WIP's New Technologies work stream is also promoting investment in near-market technologies that will encourage more sustainable ways of disposing of waste.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs how much hazardous waste can be *(a)* delivered and *(b)* deposited in each month from 16 July at landfill sites that have applied to take only hazardous waste from 16 July. [156411]

**Mr. Morley:** The Environment Agency is undertaking a permitting exercise for sites proposing to take hazardous waste after 16 July 2004. Latest information available indicates that, if all the permits were issued, the monthly capacity from 16 July 2004 would be approximately 95,000 tonnes (derived from expected annual inputs). This figure is for those sites accepting hazardous waste on a "merchant" basis. The amounts delivered would equate to those deposited.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs how many businesses produced hazardous waste in *(a)* 2002 and *(b)* 2003; and what estimate she has made of the number of businesses producing hazardous waste in each year from 2004 to 2008. [156421]

**Mr. Morley:** Data on this for the years 2002 and 2003 are not yet available. The average number of active special waste producers over previous years (1999 to 2001) was 100,000.

The number of active producers of hazardous waste is expected to rise to 750,000 when the revised European hazardous waste list is fully implemented.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* tonnage and *(b)* proportion of hazardous waste will require treatment from 16 July; and what the capacity of existing waste treatment infrastructure is. [156422]

**Mr. Morley:** The tonnage requiring treatment will depend on a number of factors, not least the amount arising. In 2002, some 5 million tonnes of special waste was consigned, and 47 per cent. was specifically consigned to treatment facilities (including recycling and reuse), 39 per cent. to landfill and 4 per cent. to incineration.

From 16 July 2004, all hazardous waste sent for disposal at a landfill will require some form of pre-treatment, unless this is of no practical benefit towards meeting the aims of the Landfill Directive. For hazardous waste, the Government believe that treatments are available that will reduce the mass to be landfilled, as well as the hazards to human health and/or the environment. Any decision that treatments are not available can only be made following a thorough evaluation of the treatment options.

Estimates on available capacity of existing hazardous waste treatment infrastructure were prepared for the Hazardous Waste Forum in September 2003 and posted on the forum's website: http://www.defra.gov.uk/environment/waste/hazforum/031021/enviros.pdf

The forum continues to keep this information under review as it becomes aware of changes to waste industry plans.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs whether it is her policy that there should be no stockpiles of hazardous waste from 16 July. [156424]

**Mr. Morley:** It is Government policy to ensure as smooth a transition as possible of the implementation of the requirements of the Landfill Directive, in particular the ending of the practice of co-disposal of hazardous and non-hazardous waste in the same cell from 16 July,

and to that end to avoid the need for storage of hazardous waste over and above that which normally occurs.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs which hazardous waste streams she has identified as the most problematic to treat and manage after 16 July; and what steps she has taken to ensure the safe management of these waste streams. [156426]

**Mr. Morley:** The Government have taken the advice from hazardous waste stakeholders through the Hazardous Waste Forum to identify the following waste streams which warrant particular attention.

Construction and demolition

Contaminated soils

Air pollution controls residues

Waste oils

Wastes from non-ferrous metals industry

Filter cakes from waste treatment

The task force on treatment and capacity is investigating in more detail these waste streams, and has set up two work streams paying particular attention to construction and demolition wastes (including contaminated soils) and waste oils. The task force is assessing the arisings and alternative capacity available, communicating the issues to the industries concerned, and looking at environmentally sound methods of managing the wastes.

In addition, the Environment Agency are identifying the top five waste streams per region, based on potential risk to the environment (quantities and hazardousness) and public health. Cradle to grave audits on these waste streams will be carried out which will include taking targeted enforcement action when appropriate.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs how much the Environment Agency has spent in the last year for which figures are available on the *(a)* detection and *(b)* prosecution of illegal disposal of hazardous waste; and how much it proposes to spend on these activities in (i) 2003–04 and (ii) 2004–05. [156428]

**Mr. Morley:** The agency spends in the order of £12 million annually on detection and prosecution of illegal waste activities including fly-tipping. Figures relating only to hazardous waste are not available. The amount that the agency spends is driven in part by the level of criminal activity. Between 2001 and 2002 the number of incidents the agency responded to increased by 19 per cent. across England and Wales. However, this masked a 73 per cent. increase in the number of incidents responded to in Thames region alone.

During 2003–04 additional funding has been made available for the development of "Flycapture", a national fly-tipping database, being set up by the Environment Agency. This will allow the collection and collation of summary data on fly-tipping incidents dealt with by the agency and local authorities.

The agency anticipates that its spend in this area will be in the order of £12 million during 2004–05. Spending in future years is subject to a spending review.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps she has taken to alert small and medium enterprises to their obligations as producers of hazardous waste. [156430]

**Mr. Morley:** Guidance will be issued at least three months before the implementation of the new regulations for hazardous waste to explain the obligations to be placed on producers. The guidance will be available in both paper and electronic formats to ensure that it is accessible to small and medium sized enterprises and we will be liaising with the Small Business Service and Federation of Small Businesses to ensure that the guidance is both appropriate and helpful to those in such enterprises.

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what funding she has allocated for 2004–05 for a campaign to inform waste producers of their obligations under the Landfill Directive. [156434]

**Mr. Morley:** A strategy to inform waste producers of their obligations under the Landfill Directive is an integral part of the Hazardous Waste Forum's Action Plan, published in December 2003. This strategy will receive the necessary funding although no specific budget has been allocated to cover the Government's role in this work. Also, Defra officials will continue to present papers on Landfill Directive issues at industry seminars on waste disposal as part of their normal duties.

**Mr. Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs how much hazardous waste was illegally dumped in *(a)* Lancashire and *(b)* Chorley in each of the last three years; and how many prosecutions resulted. [157262]

**Mr. Morley:** Responsibility for tackling illegal dumping and fly-tipping is shared between local authorities and the Environment Agency. Information on local authority incidents is not held centrally.

With regard to illegal special waste dumping, the Agency responded to 29 (2001), 54 (2002) and 62 (2003) incidents in Lancashire and of these 3 (2001), 1 (2002) and 0 (2003) were in the Chorley District.

*Prosecutions, North West Region (Central Area): 2001–03*

In the Environment Agency's North West Central Area as a whole (which includes Lancashire and Chorley) prosecutions taken were as follows:

Under Section 33 1*(a)* of the Environmental Prosecution Act 1990 (these may include Special Waste):

2001—11

Prosecutions under Regulation 5 (2) *(a)* of the Special Waste Regulations 1996

2002—1

Section 1, Control of Pollution (Amendment Act) 1989

2003—1

### Agency Budgets

**Mr. Laws:** To ask the Secretary of State for Environment, Food and Rural Affairs what the budget

of the *(a)* Environment Agency and *(b)* Countryside Agency were in each year from 1998–99 to 2005–06 (planned); and if she will make a statement. [156601]

**Alun Michael:** *(a)* The budget for the Environment Agency from 1998–99 to 2003–04 was as follows:

| | *£ million* |
|---|---|
| 1998–99 | 593.0 |
| 1999–2000 | 617.9 |
| 2000–01 | 640.3 |
| 2001–02 | 702.8 |
| 2002–03 | 782.5 |
| 2003–04 | 805.2 |

*(b)* The Countryside Agency was established on 1 April 1999. Its budget from 1999–2000 to 2003–04 was as follows:

| | *£ million* |
|---|---|
| 1999–2000 | 54.1 |
| 2000–01 | 63.5 |
| 2001–02 | 100.6 |
| 2002–03 | 108.7 |
| 2003–04 | 112.0 |

The budget of the Environment Agency and Countryside Agency for future years will be confirmed in due course.

### Asbestos

**Malcolm Bruce:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the buildings occupied by her Department's staff, including agencies, which require *(a)* remedial work on and *(b)* the removal of asbestos; what that work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159364]

**Alun Michael:** No buildings occupied by Defra or its Executive Agencies staff require remedial work to residual asbestos. In 2003–04, £260,000 was spent on surveys and preparation of management plans as required by the Control of Asbestos at Work Regulations 2002.

In 2004–05, £200,000 has been allocated to complete the management plans. No further surveys are planned.

**Malcolm Bruce:** To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of buildings occupied by *(a)* staff of the Department and *(b)* staff of the Department's executive agencies have been surveyed for the purpose of identifying the presence of asbestos prior to implementation of the Control of Asbestos at Work Regulations 2002. [159374]

**Alun Michael:** All of them.

### Asgard Systems

**Alistair Burt:** To ask the Secretary of State for Environment, Food and Rural Affairs what advice was given by the Environment Agency to Mr. Ross Donovan in answer to his letter of 14 February 2001, asking for information on any legislation which a prototype waste to energy plant might need to comply with; and if she will make a statement. [156715]

**Mr. Morley:** On the basis of the information provided to the Environment Agency, the Agency advised Mr. Donovan that the activity did not require a permit under the Pollution Prevention and Control Regulations, but that the registration of the activity as an exempt activity under the Waste Management Licensing Regulations was required. The Agency reached this view based on the Pollution Prevention Control Regulations existing at that time.

**Alistair Burt:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the *(a)* meetings, *(b)* correspondence and *(c)* phone conversations between (i) her Department and (ii) the Environment Agency and (A) Mr. Ross Donovan of Biggleswade and (B) Asgard Systems Ltd of Bedford relating to the development of a waste to energy plant by Mr. Donovan. [156716]

**Mr. Morley:** A list of recorded communications with Mr Donovan and Asgard Systems Ltd. relating to the development of a waste to energy plant is provided in the table.

| *Date* | *Type of contact* | *Detail* |
|---|---|---|
| 24 February 2003 | Correspondence | Asgard made an application to the Environment Agency for registration as an exempt activity from Waste Management Licensing |
| 24 July 2003 | Meeting | Mr. Donovan met Environment Agency officials (followed by a letter from the Environment Agency to Mr. Donovan, clarifying that his plant would be subject to the Waste Incineration Directive, according to the Government's Waste Incineration Regulations issued in December 2002) |
| 11 September 2003 | Correspondence | Asgard e-mailed Defra official |
| 11 September 2003 | Telephone conversation | Defra official telephoned Asgard |
| 19 September 2003 | Correspondence | Mr. Donovan e-mailed Defra official |
| 14 November 2003 | Meeting | Defra and Environment Agency officials visited Mr. Donovan and colleagues at prototype plant near Milton Keynes |
| 14 November 2003 | Correspondence | Defra official e-mailed Mr. Donovan |
| 28 November 2003 | Telephone conversation | Defra official telephoned Mr. Donovan |
| 16 December 2003 | Correspondence | Defra official wrote to Mr. Donovan |
| 29 January 2004 | Meeting | Mr. Donovan, his colleagues and Alistair Burt MP met Elliot Morley (Minister for the Environment), and Defra and Environment Agency officials |

**Alistair Burt:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will instruct the Environment Agency to conduct an inquiry into the part played by the Agency in the liquidation of Asgard Systems Ltd of Bedford. [156719]

**Mr. Morley:** The Environment Agency has a well established "Complaints and Commendations Procedure" which is used to investigate any complaints against it. If Asgard Systems Ltd. makes a complaint to the Agency, it will undertake an appropriate inquiry according to this procedure.

### Carbon Dioxide Emissions (Aviation)

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to include aviation in the target of a 60 per cent. reduction in carbon dioxide emissions by 2050. [158830]

**Mr. Morley** *[holding answer 4 March 2004]:* The Government are committed to putting the UK on a path to a reduction in carbon dioxide emissions by some 60 per cent. by 2050. International flights from the UK do not currently count in the national inventories of greenhouse gas emissions as there is no international agreement yet on ways of allocating such emissions between countries. However, the Government's Energy White Paper made it clear that the aviation industry is encouraged to take account of, and where appropriate reduce, its contribution to global warming.

This was restated, and built on, in the recently published Air Transport White Paper which announced a package of measures to reduce the impact of aviation on climate change. This included the Government's intention to press for the inclusion of intra-EU air services in the forthcoming EU emissions trading scheme, and that this will be a priority for the UK Presidency in 2005, with a view to aviation joining the scheme from 2008, or as soon as possible thereafter.

### Batteries

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the environmental consequences of disposing of spent batteries to landfill. [156347]

**Mr. Morley:** The main environmental concerns associated with the landfilling of batteries relate to the potential generation and discharge of leachate into the environment of hazardous substances i.e. cadmium, lead and mercury, all known to be toxic to the aquatic environment and human health. Discharge of these substances to the environment are likely to occur through *(a)* the compaction of weight, leading to substances discharging from the battery and *(b)* percolation of rainfall further leaching these substances into groundwater. It is however worth noting that spent batteries constitute only 0.1 per cent. of the Municipal Solid Waste stream.

The Belgian Government recently commissioned a study Targeted Risk Assessment Report, (TRAR) currently under scientific peer review, to identify the environmental impacts of disposing batteries in landfill.

The TRAR study mainly focused on cadmium containing batteries and concluded that the impact of batteries on landfill leachate could not be judged, based upon current lack of knowledge and methodology. In addition, risks related to the uncertainties of hazardous substances from batteries going to leachate, would require the adoption of risk management measures.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of batteries were recycled in each European Union country in the last year for which figures are available. [156348]

**Mr. Morley:** Information on percentage of batteries recycled in European Union countries is not readily available for all battery chemistries. Member states have not been required to provide this in the past. However, officials are in the process of acquiring this data.

Portable battery collection rates are available for 2002 and are as follows:

| *Country* | *Collection rate in percentage of sales in 2002* | *Grams per inhabitant* |
|---|---|---|
| Austria | 44 | 179 |
| Belgium | 59 | 228 |
| France | 16 | 69 |
| Germany | 39 | 157 |
| Netherlands | 32 | 116 |
| Sweden | 55 | 193 |
| Spain | 14 | 61 |
| UK | 0.5 | 2 |

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs how many spent batteries, other than vehicle batteries, are generated each year in the United Kingdom; what quantity of each heavy metal is involved; and what percentage of these batteries are recycled. [156349]

**Mr. Morley:** No studies have been undertaken, so far, to assess the quantities of batteries that enter the waste stream annually in the UK. However, we do know that in 2002, 45.5 per cent. of the annual sales of the 15 European member states, went for final disposal (incineration or landfill) instead of being collected and recycled.

The following quantities of heavy metals are found in each battery.

*Recyclable materials of portable batteries*

| | *Percentage* |
|---|---|
| *Non rechargeable general purpose battery* | |
| Zinc | 20 |
| Manganese | 20 |
| Ferrous Metal | 20 |
| Copper | 10 |
| *Non rechargeable button cell* | |
| Zinc | 26 |
| Silver | 34 |
| Ferrous Metal | 30 |

*Recyclable materials of rechargeable batteries*

| | *Percentage* |
|---|---|
| *Nickel Cadmium* | |
| Cadmium | 15 |
| Nickel | 25 |
| Steel | 35 |
| *Nickel Metal Hydride* | |
| Nickel | 40 |
| Steel | 18 |
| *Lithium Ion* | |
| Acier | 22 |
| Cobalt | 17 |

The European Battery Recycling Association (EBRA) estimated that the UK sent 424 tonnes of nickel cadmium batteries, 45 tonnes of nickel metal hydride and 38 tonnes of zinc carbon, alkali and zinc air batteries for recycling in 2002.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a statement on the preparedness of *(a)* her Department and *(b)* the UK to meet the targets in the draft EU Directive on batteries and accumulators and spent batteries and accumulators; [156362]

(2) what steps she is taking to increase the percentage of batteries other than vehicle batteries that are recovered from the waste stream. [156346]

**Mr. Morley:** The draft Batteries Directive requires member states to achieve collection targets for household batteries (44 per cent.) and household Nickel Cadmium batteries (80 per cent.), and that all automotive and industrial batteries are collected and sent for recycling. At present, the UK is collecting less than one per cent. of household batteries and in 2002, 87 per cent. of the total automotive batteries put on the market were collected and sent for recycling. HMG will be commissioning work, in the near future, to obtain data on the collection and recycling rates of industrial batteries.

The Government welcome the draft Directive. Defra and DTI are already in talks with those stakeholders affected by the proposal and are looking at ways to secure early participation, to enable the UK to successfully meet the collection target within the given timeframe. In addition, both Departments are fully involved in discussions with the Commission and the European Parliament, to ensure that targets for the collection and recycling of household batteries are challenging, but achievable.

### Biofuels

**Mr. Jack:** To ask the Secretary of State for Environment, Food and Rural Affairs, if she will make a statement on the help given by her Department to each type of biofuels energy in order to encourage the development of this part of the energy sector. [160299]

**Margaret Beckett:** A range of support is available to farmers to grow energy crops. Funding has been provided for open days, conferences, a biofuels leaflet, R&D and reports to support the development of bio-energy. DEFRA works closely with other Government Departments on the development of policy.

### Climate Change

**Mr. Lazarowicz:** To ask the Secretary of State for Environment, Food and Rural Affairs, what steps she is taking to promote international agreement on measures to respond to climate change. [160297]

**Mr. Morley:** The Government takes every opportunity to promote international action on climate change bilaterally, through the EU and in international fora. Our commitment to the international existing agreements and our Energy White Paper's long-term vision show climate change action and healthy economic growth are compatible.

### Dairy Industry

**Mr. Edwards:** To ask the Secretary of State for Environment, Food and Rural Affairs, what representations she has received about problems in the diary sector. [160294]

**Alun Michael:** My right hon. Friend the Secretary of State regularly receives letters from MPs and others on dairy issues. Ministers frequently meet with representatives from all parts of the dairy sector and matters affecting the whole dairy supply chain are regularly discussed at the Forum chaired by my noble Friend Lord Whitty.

### Environment Council

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what position she will be taking at this month's EU Environment Council in respect of *(a)* medium and long-term greenhouse gas reductions and *(b)* the EU Chemicals Directive. [159798]

**Mr. Morley** *[holding answer 8 March 2004]:* The UK successfully pressed for language in the Environment Council Conclusions that established a process under which the EU will develop strategies for further action to tackle climate change post-2012 including medium- and long-term greenhouse gas reduction targets. This will kick-start the process of establishing our position in advance of the international negotiations on future action, which are due to start next year.

Regarding the new EU chemicals strategy (REACH), the Presidency invited the Council to consider its progress report on the work done so far by the ad hoc working group, and in particular the need for further work to be carried out to understand the full impact of the proposed Regulation. There was no substantive debate on the issue. We believe that it is essential that the Environment Council has the opportunity to be fully involved in decisions on REACH and we welcome the formation of the ad hoc working group as a way for both economic and environment ministry expertise to contribute to the discussions. The efforts made by the Presidency to take forward such a complex dossier are to be welcomed.

### Environmental Sustainability

**Mr. Sheerman:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the cost to local authorities of meeting the Government's recycling targets. [159011]

**Mr. Morley:** Waste Strategy 2000 sets out the Government's targets on recycling and composting. Appendix C to Annex C provides estimates of the cost of various municipal waste management options from 2000 to 2020. The present value of the additional costs to local authorities of reaching the recycling and composting targets, over and above a 'base case' which assumed current levels (in absolute terms) of recycling, composting and energy recovery, with all other waste going to landfill, were estimated at between £3.4 billion and £7.7 billion over the 20 year period.

### GM Crops

**Gregory Barker:** To ask the Secretary of State for Environment, Food and Rural Affairs what separation distance would be required to keep the contamination of non-GM crops with GM varieties below a level of 0.1 per cent. for *(a)* maize, *(b)* oil-seed rape and *(c)* sugar beet. [154708]

**Mr. Morley:** The European Union has agreed a threshold of 0.9 per cent. for labelling adventitious GM presence in non-GM products. We recognise that there are arguments for a lower threshold to apply particularly in relation to organic production, although no conclusion has been reached on this.

The separation distances needed between fields to limit cross-pollination to 0.1 per cent. (on a whole-field basis) were considered in a review produced for Defra in 2000 by the National Institute of Agricultural Botany (NIAB). This suggested the following distances on the basis of fields of an average size of two hectares or more:

oilseed rape (fully-fertile varieties): 100 metres

sweetcorn maize: 420 metres

forage maize: 290 metres

No distance was estimated in relation to sugar beet because cross-pollination does not affect the composition of the utilised plant tissues (only vegetative parts of the plant are harvested, rather than seeds or fruits). Moreover, beet crops are normally harvested before they flower and farmers usually control any 'bolting' plants that flower prematurely.

The information in the NIAB report needs to be considered further in the light of data from a Defra-funded research report on gene flow from the GM maize crops in the Farm Scale Evaluation (FSE) trials (available at: www.defra.gov.uk/environment/gm/research/epg-1-5-138.htm). This study concluded that in the case of a GM and non-GM maize crop growing alongside each other, the rate of individual GM cross-pollination events (per maize kernel) would be below 0.1 per cent. at a distance of 258 metres into the non-GM crop. A parallel report on gene flow from the FSE oilseed rape crops is in preparation and will be published in due course.

Another relevant Defra-funded research project has studied landscape-scale gene flow in oilseed rape crops (report available at: www.defra.gov.uk/environment/gm/research/epg-rg0216.htm). This does not estimate the separation distances needed for specific cross-pollination thresholds, but it notes that relatively small distances will limit cross-pollination between fully-fertile oilseed rape varieties to around 0.1 per cent. or below, and that pollination from one field to the next is likely to be less than 0.1 per cent. averaged over the field. At present it is difficult to estimate the separation distances that would be needed for a 0.1 per cent. threshold in relation to oilseed rape varieties that are not fully fertile. Further information that is relevant to this will be provided by the report noted above on gene flow from the FSE oilseed rape crops.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what research she commissioned into *(a)* product liability insurance and *(b)* co-existence, with regard to the possible introduction of GM crops. [159406]

**Mr. Morley** *[holding answer 5 March 2004]:* The issues of co-existence and liability have been explored in a report to the Government by the Agriculture and Environment Biotechnology Commission. We will set out our thinking on this shortly. The Government have not commissioned any specific research on insurance but has funded various projects on co-existence-related topics. These studies are published on our website www.defra.gov.uk when finalised.

### Household Waste

**Simon Hughes:** To ask the Secretary of State for Environment, Food and Rural Affairs what household recycling levels have been attained in *(a)* Greater London and *(b)* each London borough in each year since 1997. [158449]

**Mr. Morley:** The information requested is contained in Defra's Municipal Waste Management Survey 2001–02, copies of which are in the Library. Table 5B gives the information requested for London for the financial years 1996–97—2001–02. Annex B gives information for individual London local authorities for the financial years 1998–99—2001–02. Information for the years before 1998–99 was not published at the local authority level. The Management Survey can be downloaded from: http://defraweb/environment/statistics/wastats/mwb0102/index.htm. Further data on London's waste can be found at www.capitalwastefacts.com

The household waste recycling and composting rates for 2002–03 can be obtained from the following website: www.bvpi.gov.uk

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the progress made on pilot schemes for direct and variable charging for collection and disposal of household waste. [158232]

**Mr. Morley:** In its response to the Strategy Unit Report Waste Not Want Not, the Government undertook to carry out further work before a decision is taken on whether to enable local authorities to introduce pilot direct and variable charging schemes for collection and disposal of household waste. In co-operation with the Local Government Association and other stakeholders, and drawing on international experience, work is being undertaken to consider the practicalities of operating such schemes and how potential disadvantages could be overcome.

The Government will consider the results of this work during 2004.

### Oak Disease

**Mr. Dalyell:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on recent steps taken by her Department to combat oak disease. [160277]

**Mr. Bradshaw:** We have recently stepped up inspections of imported plants, doubled checks on nurseries, increased surveys of woodland and heathland around outbreaks. We are also taking special measures to deal with the most worrying outbreaks in two historic gardens in Cornwall.

### Plastic Bags

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what incentives are in place in the UK to discourage the *(a)* production and *(b)* handing out of plastic bags. [158279]

**Mr. Morley** *[holding answer 4 March 2004]:* None at present. Under the Packaging Regulations, businesses have tonnage obligations and they can reduce these, and their costs, by reducing the amount of packaging they handle.

While there are no formal measures in place targeted specifically at plastic bags, the Government fully support the retailers in the introduction of 'bag for life', reusable bags and plastic bag recycling schemes.

### Radon Gas

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to include radon testing in CON29 within the proposed Housing Investment Programme. [159894]

**Keith Hill:** I have been asked to reply.

There are no such plans. Under our proposals for home information packs, the pack is likely to include information on whether the property is located within a radon affected area. Issues of practicality and cost suggest that it would not be appropriate to require radon testing as part of a statutory home information pack scheme. However, this will be considered further by specialist working groups that are being set up to consider the contents of the pack before any final decisions are taken.

### Refrigerators

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs how many refrigerators were disposed of in each year since 1997 in the United Kingdom; what quantity of ozone depleting substances were on average contained in the coolant and foam from refrigerators being destroyed; and whether these ozone depleting substances are controlled substances within the remit of Article 16 (1) and (2) of Regulation (EC) No. 2037/2000 of the European Parliament and of the Council. [158088]

**Mr. Morley:** As EC Regulation 2037/2000 only applied to domestic refrigeration units containing ODS from the 1 January 2002, the Environment Agency does not have accurate figures for fridges disposed of prior to that date.

| *Number of fridges* | *2002* | *2003* |
|---|---|---|
| Disposed (units) in England and Wales | 299,000 | 979,336 |
| Exported for treatment to Germany and the Netherlands and Denmark (units) | 418,000 | 377,168 |

The average quantities of ozone depleting substances contained in the coolant and foam from fridges being destroyed are not collected through the current reporting mechanism. However, the average quantity of controlled substances recovered from the refrigerant and blowing agent that was subsequently destroyed in England and Wales for 2003 was 236.63g per fridge.

CFC contained in fridges are controlled substances under EC Regulation 2037/2000.

## CABINET OFFICE

### Supplier Companies Staffing

**Mr. Heald:** To ask the Minister for the Cabinet Office what guidance is issued to Government purchasing staff on requesting from potential supplier companies information about the number of people they employ. [160046]

**Mr. Boateng:** I have been asked to reply.

Procurement Guidance does not recommend that Departments request information from potential suppliers on the number of people they employ. However there is provision under the EC Services Directive (92/50/EEC) for Departments should they wish to do so, to request a

> "statement of the service provider's average annual manpower and the number of managerial staff for the last three years."

## MINISTER FOR WOMEN

### Fertility Treatment

**Mr. Amess:** To ask the Minister for Women what assessment she has made of the effectiveness of IVF treatment in the UK; and what the criteria are for IVF treatment on the NHS. [154324]

**Miss Melanie Johnson:** I have been asked to reply.

In vitro fertilisation (IVF) has revolutionised the treatment of infertility, allowing couples to have children they would otherwise have been denied. The success rate of IVF has continually increased over the years, as techniques have been refined. Currently the live birth rate per treatment cycle started in the United Kingdom is 22 per cent, (all women) and 25 per cent. (woman under 38).

The National Institute for Clinical Excellence (NICE) is expected to publish its guideline on the provision of National Health Service infertility services, including IVF, shortly. The Department of Health will consider issues of implementation in light of the recommendations in the NICE guideline.

## CHURCH COMMISSIONERS

### Charities Bill

26. **Hugh Bayley:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners what representations the Church Commissioners have made to the Government about the draft Charities Bill. [158943]

**Sir Stuart Bell:** The Church Commissioners and the Archbishops' Council both responded to the Strategy Unit's report on charity law reform and remain in discussion with the Home Office about the likely implications of the proposed legislation for the various parts of the Church of England.

### Lambeth Palace Library

27. **Chris Bryant:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners if he will make a statement on the future of Lambeth Palace Library. [158944]

**Sir Stuart Bell:** The Church Commissioners have, in consultation with the other National Institutions of the Church of England, instigated a review of the arrangements for housing and conserving the documentary heritage held by those institutions, and this will consider Lambeth Palace and other libraries. Extensive consultation has taken place and responses are being collated.

### Parish Priest Salaries

28. **Miss McIntosh:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners what the total salary cost of parish priests was in *(a)* 1996–97 and *(b)* 2003–04. [158945]

**Sir Stuart Bell:** In 1996 the total stipend cost for parochial clergy (not including Employer's National Insurance contributions) was approximately £130.5 million. In 2003 the figure was approximately £151.8 million.

### Graveyards

**Mr. Gordon Prentice:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners how much was spent maintaining church graveyards in each of the last three years. [158940]

**Sir Stuart Bell:** Such information is not held centrally. Responsibility for maintenance of churchyards lies with the Parochial Church Council. Grants may be available from local authorities, since they have a special power to contribute to maintenance. Where a churchyard has been closed by Order in Council, the PCC may transfer the maintenance burden to the local authority.

## INTERNATIONAL DEVELOPMENT

### Afghanistan

**Mr. Ancram:** To ask the Secretary of State for International Development what assistance the Government are giving to Afghanistan in relation to road reconstruction. [160230]

**Mr. Gareth Thomas:** Rebuilding Afghanistan's road networks is key to promoting regional trade and revitalising the Afghan economy. The UK contributes to road construction through our funding of the European Commission and the Asia Development bank, both of which are actively involved in major road building in Afghanistan. The Asia Development bank is engaged in several priority road projects, including the rehabilitation of the critically important Kabul-Kandahar-Spin Boldak road. The European Commission has undertaken the reconstruction of the Kabul-Jalalabad-Torkham road, another very important transport route. The travel times on this road have now been cut from six to three hours.

### Departmental Refurbishment

**Ms Walley:** To ask the Secretary of State for International Development which companies have contracts for furniture provision for his Department; and what measures have been implemented to ensure that when a product contains wood, it can be shown to come from legal and sustainable sources. [158106]

**Mr. Gareth Thomas:** DFID does not have contracts for the supply of furniture, but makes use of Office of Government Commerce (OGC) arrangements for pre-tendered goods and services. However, all suppliers used are provided with model specification clauses which set out Government procurement policies and so ensure that all timber used is from legal and sustainable sources. The two main suppliers used are both certified as operating systems that meet the standards set by the Forestry Stewardship Council (FSC).

**Ms Walley:** To ask the Secretary of State for International Development what construction and refurbishment his Department is undertaking; at what locations; and what measures are being implemented to ensure that all timber used *(a)* on the construction sites and *(b)* in the final projects will come from legal and sustainable sources. [158104]

**Mr. Gareth Thomas:** We are currently undertaking the refurbishment of our office at Abercrombie House, East Kilbride.

Throughout the project the contractor and the project managers have been informed of Government policy regarding procurement of timber used, and DFID has issued a model specification clause in accordance with the guidelines as issued by Defra. Documentation to support the sourcing of timber from the lead contractor, and also all relevant sub-contractors, is being obtained and independently verified.

### Uzbekistan

**Tom Brake:** To ask the Secretary of State for International Development what projects his Department is funding in Uzbekistan. [159844]

**Mr. Gareth Thomas:** DFID is currently assisting the Government of Uzbekistan and the World Bank in the design of a new health care reform project; providing organisational capacity-building support to civil society organisations; and providing financial support to small local projects through a small grants scheme. Uzbekistan will also be included in a Central Asia region HIV/AIDS project starting in September this year.

Additionally, the UK provides assistance to Uzbekistan through the EU programme of Technical Assistance to the Countries of the former Soviet Union and Mongolia (TACIS). In calendar year 2002 (the most recent year figures are available) the UK's attributed contribution was £0.96 million.

## SCOTLAND

### Parliamentary Questions

**Mr. Brady:** To ask the Secretary of State for Scotland how many days on average his Department took in Session 2002–03 to give a substantive answer to a parliamentary question for ordinary written answer; and what the greatest number of days taken to answer such a question was. [155931]

**Mrs. McGuire:** While records on average processing times for parliamentary questions are not collected, the Department answered approximately 70 per cent. of its Session 2002–03 ordinary written questions on time (five sitting days). Ministers attach great importance to Parliamentary Questions and endeavour to reply within the parliamentary deadlines wherever possible.

### Westminster Hall

**Bob Spink:** To ask the Secretary of State for Scotland if he will make it his policy to reply in person to debates in Westminster Hall. [159682]

**Mrs. McGuire:** I refer the hon. Member to the answer given by my right hon. Friend the Leader of the House on 8 March 2004, *Official Report*, column 1234W.

## CULTURE, MEDIA AND SPORT

### New Opportunities Fund (Crosby)

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Crosby in each year since 1997. [160450]

**Estelle Morris:** The New Opportunities Fund began making grants in 1999. The awards to Crosby are shown in the table.

| | £ |
|---|---|
| 1999 | 0 |
| 2000 | 900,513 |
| 2001 | 155,946 |
| 2002 | 69,425 |
| 2003 | 610,475 |
| To February 2004 | 0 |

### Television Licences

**Mr. Boswell:** To ask the Secretary of State for Culture, Media and Sport what proportion of BBC licence revenue is derived from notional payments from persons aged over 75 years. [160682]

**Estelle Morris:** In the financial year 2002–03, 14 per cent. of the BBC's television licence fee revenue was derived from payments from the Department for Work and Pensions in respect of free licences issued to people aged 75 or over.

**Mr. Todd:** To ask the Secretary of State for Culture, Media and Sport how many TV licences were *(a)* issued and *(b)* paid for in each of the last six years; and what the unit cost of the collection process was in each of those years. [159690]

**Estelle Morris:** All television licences have to be paid for, whether by the individual or, in the case of free licences issued to people aged 75 or over, by the Department for Work and Pensions. The total number of licences issued in each of the last six years, the number of free licences issued in each year since their introduction in November 2000 and the gross cost of issue per licence were:

| | *Total licences issued (million)* | *Free licences issued (million)* | *Gross cost per licence (£)* |
|---|---|---|---|
| 1997–98 | 22.4 | — | 4.88 |
| 1998–99 | 23.0 | — | 5.79 |
| 1999–2000 | 23.2 | — | 4.91 |
| 2000–01 | 23.5 | 3.0 | 5.61 |
| 2001–02 | 23.9 | 3.2 | [1]3.99 |
| 2002–03 | 24.4 | 3.3 | 6.00 |

[1] Licence fee collection costs were significantly reduced in 2001–02 by a rebate from Consignia for non-performance of contractual obligations.

**Mr. Kaufman:** To ask the Secretary of State for Culture, Media and Sport (1) what the cost is of the National Television Licensing Authority's Get One or Get Done advertising campaign; who pays for it; which advertising agency is responsible for the campaign; and if she will ask the authority to sever its connection with this agency forthwith; [158578]

(2) who in the National Television Licensing Authority is responsible for its Get One or Get Done campaign; and if she will make representations to the authority for the dismissal of the person or persons responsible; [158579]

(3) what connection the BBC has with the National Television Licensing Authority's Get One or Get Done campaign. [158580]

**Tessa Jowell:** As Licensing Authority, the BBC has statutory responsibility for the administration of the television licensing system. TV Licensing's marketing and communications are carried out by the AMV Consortium under contract to the BBC.

The BBC has indicated that it does not publicise the costs of individual advertising campaigns, for reasons of commercial sensitivity. However, the corporation has confirmed that all such campaigns undergo a series of legal compliance checks before they are approved by the corporation.

The Government have no power to intervene in the everyday management of the television licensing system nor would it be appropriate for it to seek to influence the BBC's choice of contractors, staff or advertising campaigns.

### Television Programme Guidelines

**Mr. Drew:** To ask the Secretary of State for Culture, Media and Sport (1) what procedures are applicable to a company bound by the Independent Television guidelines on the amount of *(a)* political and *(b)* current affairs coverage that fails to meet its requirements; [160128]

(2) how many complaints she has received concerning failures of companies bound by the Independent Television guidelines to meet the appropriate level of *(a)* political and *(b)* current affairs coverage. [160129]

**Estelle Morris:** These are matters for Ofcom.

## HOUSE OF COMMONS COMMISSION

### Clerk's Department

**David Winnick:** To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission how many full-time appointments there have been to the Clerk's Department in the last five years; and how many were *(a)* female and *(b)* of an ethnic minority. [160417]

**Sir Archy Kirkwood:** There have been 155 full-time appointments to the Clerk's Department in the five year period up to 10 March 2004, of whom 86 were female (55.5 per cent.). 13 of the 155 have since left the Clerk's Department (six of whom were female). Of the 142 appointees still employed, 80 are female (56.3 per cent.).

House of Commons staff are currently in the process of completing and returning revised ethnicity survey questionnaires. Of the 142 current staff who started within the last five years, approximately half have so far returned their questionnaires. Of these, 5.3 per cent. are from an ethnic minority background. If this proportion holds good for all the staff in this group, approximately eight of them will be from an ethnic minority background.

## TRANSPORT

### British Transport Police Numbers

**Simon Hughes:** To ask the Secretary of State for Transport how many British Transport police officers were based in each British Transport police force area in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04. [160648]

**Mr. McNulty:** The British Transport police have provided the following information.

| | *Police officers* | | |
|---|---|---|---|
| *Area* | *2001–02* | *2002–03* | *2003–04* |
| Force Headquarters | 110 | 139 | 131 |
| London North | 310 | 311 | 295 |
| London South | 300 | 324 | 314 |
| London Underground | 405 | 476 | 537 |
| North Eastern | 192 | 193 | 201 |
| North Western | 270 | 263 | 258 |
| Midland[1] | 179 | 166 | — |
| South Western[1] | 141 | 127 | — |
| Western[1] | — | 2 | 279 |
| Scotland | 202 | 205 | 207 |
| On secondment | — | — | 29 |
| Total | 2,109 | 2,206 | 2,251 |

[1] Midland and South Western Areas were merged to form Western Area in 2003–04.

### Council Tax (DVLA)

**Mr. Walter:** To ask the Secretary of State for Transport whether the Driver and Vehicle Licensing Agency supplies local authorities with the vehicle registration numbers of people who are in arrears with their council tax payments. [160635]

**Mr. Jamieson:** The DVLA vehicle register is maintained primarily for vehicle taxation and law enforcement purposes and DVLA is registered under the Data Protection Act 1998 to carry out those duties.

The vehicle register is not an open record but information may be released in a number of circumstances. Section 29 (3) of the Data Protection Act exempts from its non-disclosure provisions information required for the assessment or collection of any tax or duty or of any imposition of a similar nature. Under this exemption, local authorities apply to DVLA for keeper details to trace council tax debtors through the registration numbers of their vehicles.

### Motorcycle Training

**Lembit Öpik:** To ask the Secretary of State for Transport if he will amend the regulations which enable *(a)* a motorcycle rider to complete compulsory basic training on an automatic machine and progress to ride a geared bike with no further training, *(b)* a novice rider to obtain a motorcycle restricted licence allowing him to ride a more powerful motorbike on the roads without providing proof that he has undertaken training or riding in the previous two years and *(c)* newly qualified motorcycle instructors to train others as instructors; and if he will make a statement. [159470]

**Mr. Jamieson:** We have no plans to make such amendments to the regulations at this time. We shall, however, keep under review the training arrangements for novice riders, and the persons authorised to instruct them, in the light of recommendations made to Government by the Advisory Group on Motorcycling, forthcoming changes to the practical motorcycling test and European proposals to amend motorcycle categories.

**Lembit Öpik:** To ask the Secretary of State for Transport if he will make a statement on his Department's policy on post-test training qualifications for motorcyclists. [159471]

**Mr. Jamieson:** The Driving Standards Agency is working in partnership with trainer and industry interests to create a voluntary rider development scheme to improve safety for motorcyclists who hold a full licence. Consultation with all interested parties is planned for later this year.

### Permanent Equipment (Highways)

**Bob Russell:** To ask the Secretary of State for Transport if he will require *(a)* the privatised former public utilities and *(b)* other companies providing similar services to pay a site rent to local authorities for permanent equipment located on the public highway. [157559]

**Mr. Jamieson:** We have no plans to require such bodies to pay a rent for locating permanent apparatus on the public highway.

### Resurfacing

**Mr. Chope:** To ask the Secretary of State for Transport for what reason no regulations have been introduced under section 78 of the New Roads and Streetworks Act 1991 to require statutory undertakings to contribute to resurfacing costs. [159731]

**Mr. Jamieson:** Over recent years research has been undertaken by the Transport Research Laboratory, on behalf of my Department, examining the effect of utility trenching on the long-term performance of roads. Any decision on whether to make regulations under section 78 of the 1991 Act will be taken in the light of this and other evidence collected into the effect on the quality of roads of works carried out by statutory undertakers.

The Traffic Management Bill contains more explicit provision supplementing the general powers in section 78, so that, should a decision be taken that it would be appropriate for utilities and others to contribute towards the cost of putting right any damage caused to roads by works, then these costs can be fairly shared between the relevant parties.

### Road Deaths and Injuries (Crosby)

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Transport what the percentage change in *(a)* deaths and *(b)* serious injuries on roads in Crosby has been since 1997. [160544]

**Mr. Jamieson:** The available information relates to the numbers of killed and seriously injured road casualties in the local authority district of Sefton, which includes the constituency of Crosby, and is given in the following table.

| | *1997* | *2002* | *Percentage change* |
|---|---|---|---|
| Killed | 10 | 10 | — |
| Seriously injured | 100 | 88 | −12.0 |

### Roads (Funding)

**Paul Flynn:** To ask the Secretary of State for Transport how much money has been spent on road building projects in each of the last five years; and if he will use funds allocated to future schemes to encourage rail travel instead. [155887]

**Mr. Jamieson:** The expenditure on road building projects in England in the last five years is set out in the following table:

*£ million*

| | *Outturn* | | | | *Forecast outturn* |
|---|---|---|---|---|---|
| | *1999–2000* | *2000–01* | *2001–02* | *2002–03* | *2003–04* |
| Highways agency[1] | 318 | 300 | 427 | 491 | 413 |
| Local authorities outside London[2] | — | — | 94 | 118 | 104 |
| London (TfL)[3] | — | — | 23 | 17 | 10 |
| Total | 318 | 300 | 544 | 626 | 527 |

[1] Highways Agency expenditure is that on major road schemes costing over £5 million. It also includes spend on trunk roads in London until July 2000.

[2] Local Authority spend is the value of Credit Approvals issued to support major local road schemes over £5 million. The Department does not hold figures for road building projects prior to the year 2001 when its database was set up.

[3] London spend is Transport for London's expenditure on major road schemes over £5 million. TfL has been responsible for road improvements in London since July 2000

*Notes:*

1. Road building projects outside of England are the responsibility of the devolved administrations.
2. All figures are rounded to the nearest million.

The 10 Year Plan for Transport provided for a balance of investment between roads, public transport and railways. Future spending is being reviewed as part of Spending Review 2004. In respect of switching funds from road to rail, we would consider this following the outcome of SR2004 and the rail review.

**Mr. Flook:** To ask the Secretary of State for Transport how much money has been spent by the Highways Agency on non-motorway roads in *(a)* Somerset, *(b)* Dorset, *(c)* Devon, *(d)* Cornwall, *(e)* North Somerset, *(f)* Wiltshire, *(g)* Bristol, *(h)* Bath and North East Somerset, *(i)* South Gloucestershire and *(j)* Gloucestershire in each year since 1990. [160499]

**Mr. Jamieson:** The Highways Agency started to collect information on expenditure on a county-by-county basis in 2001. Expenditure totals for the years 2001–02, 2002–03 and 2003–04 are therefore shown in the following table. Equivalent figures for earlier years are not available.

*Total spent on non motorways*

£

| *County* | *2001–02* | *2002–03* | *2003–04* |
|---|---|---|---|
| Bath and North East Somerset | 1,162,018.27 | 1,631,470.05 | 817,756.63 |
| Bristol | 12,362.45 | 10,157.40 | 11,302.04 |
| Cornwall | 9,654,395.57 | 12,044,323.34 | 10,079,002.14 |
| Devon | 38,596,255.32 | 37,682,602.50 | 35,572,643.94 |

*Total spent on non motorways*

£

| *County* | *2001–02* | *2002–03* | *2003–04* |
|---|---|---|---|
| Dorset | 4,272,792.34 | 3,688,271.91 | 4,285,587.89 |
| Gloucestershire | 9,383,633.66 | 21,770,465.06 | 21,619,119.63 |
| North Somerset | 0.00 | 0.00 | 0.00 |
| Somerset | 3,914,427.23 | 2,405,165.16 | 3,188,763.41 |
| South Gloucestershire | 326,983.05 | 461,811.81 | 347,131.44 |
| Wiltshire | 10,454,631.81 | 10,294,957.81 | 12,887,648.06 |

The Highways Agency has no roads in North Somerset that are not motorways.

### Transport Spending (Sittingbourne and Sheppey)

**Mr. Wyatt:** To ask the Secretary of State for Transport how much public money was spent on transport in the constituency of Sittingbourne and Sheppey between *(a)* 1992 and 1997, *(b)* 1997 and 2001 and *(c)* 2001 to 2004. [159490]

**Mr. McNulty:** Information on transport spending is not collected in the format requested.

### Weight Limits (Lorries)

**Mr. Caton:** To ask the Secretary of State for Transport (1) what plans he has to increase the penalties for lorry drivers breaching weight limits set on smaller bridges for second and subsequent offences; [161008]

(2) what plans he has to increase the penalty for lorry drivers breaching weight limits set on smaller bridges. [161009]

**Mr. Jamieson:** We have no plans to increase the penalties for lorry drivers breaching weight limits on smaller bridges for first or subsequent offences. Weight limits on bridges are notified by traffic signs, and failure to comply with such signs is an offence under section 36 of the Road Traffic Act 1988. The maximum penalty for this offence is a fine not exceeding £1,000 plus a three point endorsement.

## TREASURY

### Unemployment (Jarrow)

**Mr. Hepburn:** To ask the Chancellor of the Exchequer (1) what the change in the level of unemployment has been in the Jarrow constituency in each year since 1997; [159508]

(2) what the level of youth unemployment was in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear and *(d)* the UK in each year since 1997. [159524]

**Ruth Kelly:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl to Mr. Stephen Hepburn, dated 11 March 2004:*

The National Statistician has been asked to reply to your recent Parliamentary Questions about unemployment in the Jarrow constituency. I am replying in his absence. (159508, 159524)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Jarrow Parliamentary Constituency.

The ONS also publishes data on the number of people claiming Jobseeker's Allowance (ISA). Table 1 gives information on the change in the number of JSA claimants in the Jarrow Constituency for each year since 1997. Table 2 gives information, also for each year since 1997, on the number of the JSA claimants aged between 18 and 24 years in the Jarrow Constituency, the South Tyneside Unitary Authority, the Metropolitan County of Tyne and Wear and in the UK as a whole.

*Table 1: Total number of claimants[1] of Jobseekers Allowance in Jarrow parliamentary constituency: 1997–2003*

*Claimants*

| | *Number of claimants* | *Difference from previous year* |
|---|---|---|
| 1997 | 3,119 | -- |
| 1998 | 2,766 | -353 |
| 1999 | 2,820 | 54 |
| 2000 | 2,625 | -195 |
| 2001 | 2,377 | -248 |
| 2002 | 2,273 | -104 |
| 2003 | 1,986 | -287 |

[1] Annual average.

Jobcentre plus administrative system.

### Child Trust Fund

**Mr. Laws:** To ask the Chancellor of the Exchequer what his estimate is of the total cost of the Child Trust Fund for each year from 2004–05 to 2009–10, broken down by *(a)* start-up costs, *(b)* annual administration costs and *(c)* other costs; and if he will make a statement. [156758]

**Ruth Kelly:** I refer the hon. Member to the Regulatory Impact Assessment published with the Child Trust Fund Bill in November 2003, the Explanatory Note that accompanied the publication of the Child Trust Fund Bill on 4 February 2004; and the answers I gave the hon. Member for Tatton (Mr. Osborne) on 4 December 2003, *Official Report*, columns 138–39W.

### Departmental Advertising

**Mr. George Osborne:** To ask the Chancellor of the Exchequer (1) on how many occasions his Department has placed advertisements in Hello magazine; [157965]

(2) what the total cost of his Department's advertising in Hello magazine was in each of the last five years; [157967]

(3) what the cost is of each of his Department's advertisements in Hello magazine for tax credits. [157968]

**Dawn Primarolo:** A small amount of advertising has been placed in Hello! magazine by the Inland Revenue (IR) in recent years in support of its Tax Credits campaigns. This is because analysis of its readership indicated an appropriate percentage of people entitled to claim Tax Credits.

There was no advertising prior to 2002, but in the last three years IR placed:

2002: 4 insertions

2003: 2 insertions

2004: 3 insertions

There have been no advertisements placed in support of other issues or by any other departments responsible to the Chancellor of the Exchequer.

Like most central Government Departments, the IR buys media space using specialist agencies contracted through the Central Office of Information (COI).

Through its bulk-buying power, COI negotiates significant discounts on rate-card prices. To protect this, and the thus the added value it achieves for taxpayers' money, it maintains commercial confidentiality agreements in which it undertakes not to publicise charges levied by individual publications in single instances.

Media planning and buying for large campaigns such as New Tax Credits is focused purely on the most effective way of reaching the target audience–the publications they read or TV channels they watch, for example.

Overall spends for major campaigns are published regularly, often in response to parliamentary questions or press queries.

### Environmentally Sustainable Procurement

**Mr. Sheerman:** To ask the Chancellor of the Exchequer in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159148]

**Mr. Boateng:** Treasury's procurement has been handled by Inland Revenue since April 2002. Inland Revenue are continuing to develop their environmentally sustainable procurement strategies. It is too early at present to judge whether there is evidence of innovation in the design and supply of products.

### Income Tax (10p Rate)

**Mrs. Curtis-Thomas:** To ask the Chancellor of the Exchequer how many senior citizens in Crosby qualified for the 10p rate of income tax in each year since its introduction. [160581]

**Ruth Kelly:** All income taxpayers benefit from the 10p pence starting rate. The Survey of Personal Incomes estimates there are about 8,000 state retirement pension age taxpayers in the Crosby constituency in 2000–01. Constituency level estimates are not available for earlier years.

### Insurance Premium Tax

**Mrs. Iris Robinson:** To ask the Chancellor of the Exchequer if he will leave the basic rate of insurance premium tax unchanged in this year's Budget. [160324]

**Ruth Kelly:** As with all taxes, the future rates of Insurance Premium Tax are a matter for the Chancellor to consider as part of the Budget Process.

### Museums

**Miss Kirkbride:** To ask the Chancellor of the Exchequer what the cost to public funds of Gift Aid provisions used by the museum sector was in each year since it was introduced, broken down by *(a)* institution and *(b)* amount received. [160422]

**John Healey:** It is not possible to ascertain the amount repaid in Gift Aid in relation to the museum sector. Inland Revenue records do not distinguish amounts repaid to charities according to the type of charity. Information held by the Inland Revenue about the tax affairs of individual businesses could not be disclosed, Exemption 15 of the Open Government Code applies.

### Public Expenditure

**Mr. Cash:** To ask the Chancellor of the Exchequer if he will make a statement on the relationship of the Maastricht criteria to public expenditure levels, with reference to *(a)* the Treasury Red Books since 1997 and *(b)* the Treasury Paper of June 2003 on "Policy Frameworks in the UK and EMU". [160647]

**Ruth Kelly:** The scope of the Maastricht criteria is set out in Annexe A of the EMU study on "Policy Frameworks in the UK and EMU".

Projections for the public finances presented in the 2003 pre-Budget report, show that the UK continues to meet a prudent interpretation of the Stability and Growth Pact, that takes into account the economic cycle, the long-term sustainability of the public finances and the important role of public investment.

Projections of the public finances will be updated, as usual, in the forthcoming Budget.

### Tax Credits

**Mr. George Osborne:** To ask the Chancellor of the Exchequer (1) what assessment he has made of the administration of the Child Tax Credit and the Working Tax Credit since 6 April 2003; [158268]

(2) what discussions he has had with officials from the Inland Revenue regarding the administration of the Child Tax Credit and Working Tax Credit since 6 April 2003. [158269]

**Mr. Rosindell:** To ask the Chancellor of the Exchequer what recent discussions he has had with officials from the Inland Revenue regarding the administration of tax credits. [158706]

**Dawn Primarolo:** I have had regular discussions with Inland Revenue officials regarding the administration of Child Tax Credit and Working Tax Credit since 6 April 2003, including plans for the next stage of tax credits implementation.The process of finalising tax credit awards for 2003–04, and renewing claims for 2004–05, begins in April. We also plan in 2004–05 to bring within Child Tax Credit (CTC) those families with children receiving support for them though Income Support or income-based Jobseeker's Allowance (IS/JSA). The process of moving these families into Child Tax Credit will begin in April as planned. Families on IS/JSA already receiving CTC will start to receive support for their children solely through CTC. And new claimants of IS/JSA will no longer be awarded child allowances in those benefits and will receive CTC instead. The automatic phased transfer onto CTC of the remaining families with children within IS/JSA is planned to begin from October, subject to a final review in the summer. Meanwhile, families will continue to receive the same level of support through their benefits as they would from CTC.

**Mrs. Curtis-Thomas:** To ask the Chancellor of the Exchequer how many families in Crosby have received Child Tax Credit. [160442]

**Dawn Primarolo:** The estimated numbers of families receiving Child and/or Working Tax Credits in each constituency at 5 January 2004 are shown in "Child and Working Tax Credit Statistics, Geographical analyses—January 2004", which is on the Inland Revenue website at www.inlandrevenue.gov.uk/stats/personal-tax-credits/menu.htm.

The estimates are based on a sample of cases and are subject to sampling uncertainty.

## DEFENCE

### Falkland Islands

**Mr. Ben Chapman:** To ask the Secretary of State for Defence if he will make a statement on local purchase of vegetables and meat by the garrison at Mount Pleasant in the Falkland Islands. [159872]

**Mr. Ingram:** Locally grown salad vegetables are purchased for use at Mount Pleasant Airfield, but the produce available is limited. Local meat has not been procured because, prior to this year, it did not meet the Armed Forces Quality Standard and the Falkland Island abattoir was not EC approved. However, the Falkland Island Development Corporation has recently opened a fully compliant, purpose-built abattoir, and they are working to improve the quality of local lamb and mutton, with a view to supplying to Angliss (UK), the MOD's meat supplier, in the near future. An exploratory visit in January 2004 by Angliss (UK) proved to be most encouraging.

### Armed Forces Dentists

**Dr. Murrison:** To ask the Secretary of State for Defence how many *(a)* dental personnel and *(b)* dentists are employed within Her Majesty's Armed Forces, broken down by *(a)* grade, *(b)* whole-time equivalents and *(c)* headcount numbers for each year since 1990. [159673]

**Mr. Caplin:** Figures for all dental service personnel are shown in the table. The figures for officers represent qualified dentists for each service. The tables show figures for each equivalent NATO rank and these are set out. Since there are no part-time dental personnel, the total figure represents both the headcount and the whole-time equivalents.

### Armed Forces Personnel (Overseas)

**Mr. Hoyle:** To ask the Secretary of State for Defence how many personnel from other countries are serving in the *(a)* Army, *(b)* Royal Navy and *(c)* Royal Air Force; and from which countries they come. [156134]

**Mr. Caplin:** The number of foreign nationals serving in the Army at 1 January 2004 is 5,540. The following table gives a more detailed breakdown.

| *Nationality* | *Officers* | *Soldiers* |
|---|---|---|
| Irish Republican | 25 | 175 |
| Australian | 35 | 40 |
| Barbadian | [1]— | 5 |
| British Commonwealth | 5 | 10 |
| Cameroon | 0 | 10 |
| Canadian | 20 | 45 |
| Dominican | 0 | 10 |
| Fijian | [1]— | 1,720 |
| Gambian | 0 | 55 |
| Ghanaian | [1]— | 395 |
| Grenadian | 0 | 45 |
| Guyanese | 0 | 10 |
| Indian | 10 | 25 |
| Jamaican | [1]— | 870 |
| Kenyan | 5 | 60 |
| Malawi | 0 | 55 |
| Maltese | [1]— | 5 |
| Mauritian | 0 | 15 |
| New Zealander | 25 | 45 |
| Nigerian | [1]— | 45 |
| Pakistani | [1]— | 5 |
| Seychellois | 0 | 5 |
| Sierra Leone | [1]— | 20 |
| South African | 35 | 445 |
| Sri Lankan | [1]— | 10 |
| St. Lucia | [1]— | 215 |
| St. Vincent | 0 | 285 |
| Tongan | 0 | 5 |
| Trinidadian | [1]— | 60 |
| Ugandan | 0 | 20 |
| Zambian | [1]— | 10 |
| Zimbabwean | 25 | 485 |
| St. Helenian | 0 | 25 |
| Nepalese | 10 | [1]— |
| Not known/stateless | 35 | [1]— |

[1] Denotes less than five

The following nationalities have less than five officers and/or less than five soldiers:

Antiguan
Bangalee
Belizean
Botswana
Cypriot
Malaysian
Namibian (formally South West African)
Papuan
Singaporean
St. Kitts
Swazi
Tanzanian
West Indian
Falkland Islander
Gibraltarian
Montserrat Islander
American
German West
Iranian
Iraqi
Pacific Islander
Rhodesian
Swiss

For the Naval Service and RAF some information on 'not British' personnel is held but data are not accurate enough to provide a reliable estimate.

### Challenger 2

**Hugh Robertson:** To ask the Secretary of State for Defence what assessment has been made of the operational effectiveness of Challenger 2 main battle tanks when crews are wearing individual protective equipment against nuclear, biological and chemical attack. [159266]

**Mr. Ingram** *[holding answer 5 March 2004]:* The effect on the operational effectiveness of Challenger 2 tanks when their crew members are wearing individual protective equipment against nuclear, biological and chemical attack depends on a number of related and variable factors. These include the ambient temperature and the effectiveness of the crew cooling system; the length of time the equipment has been worn at high protection state; the amount of prior training undertaken by the crew; their physical fitness levels; and the psychological stresses imposed during battle. The requirement to operate Challenger 2 tanks in individual protection equipment is reflected in annual training.

### Correspondence

**Mr. Davidson:** To ask the Secretary of State for Defence when he will write to the hon. Member for Glasgow, Pollok with the answer he undertook to provide on 20 November 2003. [151197]

**Mr. Ingram:** I replied to my hon. Friend today.

### Hawk Trainer

**Mr. Hoyle:** To ask the Secretary of State for Defence how many Hawk advanced jet trainers have been procured; and when delivery will take place. [158261]

**Mr. Ingram:** Following the announcement last summer of our intention to procure Hawk 128 to meet our Advanced Jet Trainer requirement, detailed contractual negotiations with BAE SYSTEMS are continuing. Subject to a satisfactory conclusion, we are planning on placing an order for 20 aircraft with options for up to a further 24. The first aircraft would be delivered during 2008.

### Iraq

**Mrs. Liddell:** To ask the Secretary of State for Defence if he will make an assessment of the contribution of United Kingdom forces to the delivery of humanitarian aid in Iraq. [143725]

**Mr. Ingram:** Enabling the delivery of humanitarian aid has been a key priority for UK forces since the end of major combat operations on 1 May 2003.

In the period immediately after major combat operations ended UK forces cleared mines and other dangers in the waterway leading to Umm Qasr port and made safe the port area itself, opening the most important route into Iraq for humanitarian aid.

Since then UK forces have delivered limited amounts of aid themselves and, when requested, have provided assistance to Non-Governmental Organisations working on humanitarian programmes in Iraq.

**Mr. Woodward:** To ask the Secretary of State for Defence if he will list the humanitarian projects that United Kingdom forces have *(a)* completed and *(b)* not yet completed in Iraq since 1 May 2003. [147156]

**Mr. Ingram:** United Kingdom forces have undertaken over 700 reconstruction projects in Iraq since the end of major combat operations. For a list of projects I refer my hon. Friend to my letter reference: D/MIN(AF)/5234N dated 10 March a copy of which is available in the Library of the House in response to question number 137519 from the hon. Member for Moray (Angus Robertson).

**Mr. Swayne:** To ask the Secretary of State for Defence what force protection measures are in place to protect the operatives of non-governmental organisations and humanitarian organisations within the UK sphere of military operations in Iraq. [150226]

**Mr. Ingram:** The UK does not routinely provide force protection to humanitarian or non-governmental organisations (NGOs). Such organisations are directly responsible for assessing the risks to their staff. UK local commanders do discuss security and other practical issues with them on a regular basis.

The coalition as a whole is working to secure conditions in which UN agencies, NGOs, humanitarian organisations and the Iraqi people are able to go about their business.

**Tom Cox:** To ask the Secretary of State for Defence, how much has been paid to Iraqi families following the death of a member of their family while being held in British military custody. [158032]

**Mr. Ingram:** UK Authorities have paid £1,875 to an Iraqi family following a death in custody.

**Sir Menzies Campbell:** To ask the Secretary of State for Defence what the status of UK forces in Iraq will be after 31 July; what legal mandate will govern their presence and operations; and if he will make a statement. [158147]

**Mr. Ingram** *[holding answer 9 March 2004]:* The status of UK forces in Iraq and the legal mandate that will govern their presence and operations after the handover of authority to an Iraqi government remain under consideration.

**Adam Price:** To ask the Secretary of State for Defence whether techniques of sensory deprivation have been used on Iraqi detainees by members of the British armed forces. [158860]

**Mr. Ingram:** Members of the armed forces may only use blindfolds on apprehended individuals for reasons of operational security, such as movement through military sensitive areas. No other forms of sensory deprivation are permitted.

### Nuclear Submarines

**Mr. Charles Kennedy:** To ask the Secretary of State for Defence what arrangements are in place for providing compensation to the *(a)* residents and *(b)* businesses of Skye and Wester Ross in the event of a nuclear incident involving a nuclear submarine using the Z Berths at Aultbea and Broadford; and if he will make a statement. [159625]

**Mr. Ingram:** The Government underwrite the nuclear risks associated with the consequences of the operation of its nuclear submarines. The indemnification of these risks is not limited either financially or geographically and depending on the location and type of incident, would cover the local residents and businesses on the Isle of Skye and at Wester Ross.

### Government Contracts (Scotland)

**Angus Robertson:** To ask the Secretary of State for Defence how many procurement contracts were placed by his Department with companies based in Scotland in financial year *(a)* 2002–03, *(b)* 2001–02 and *(c)* 2000–01; what the (i) most expensive and (ii) least expensive contracts were; and what the total value of contracts was. [159245]

**Mr. Ingram:** Details of procurement contracts directly placed by the Department with companies based in Scotland in each of the financial years requested is detailed in the following table:

| | *Financial year* | | |
|---|---|---|---|
| | *2000–01* | *2001–02* | *2002–03* |
| Number of new contracts let | 724 | 604 | 600 |
| Total value of these contracts | £250 million | £1.2 billion | £850 million |
| Most valuable new contract let | £59 million | £395 million | £418 million |

It is not possible to provide meaningful data on the least valuable contracts let in each of these years because certain types of MOD contract are set up with a nominal value (normally £1) under which goods or services are then 'called-off' and paid for during the contract term.

**Angus Robertson:** To ask the Secretary of State for Defence how many research contracts were placed by his Department with research institutions based in Scotland in fiscal year *(a)* 2002–03, *(b)* 2001–02 and *(c)* 2000–01; what the total value of these contracts was; and what the total value of research contracts placed within the UK was. [159246]

**Mr. Ingram:** The information requested is not held centrally and could be provided only at disproportionate cost (Exemption 9 of the Code of Practice on Access to Government Information).

### Temporary Staff

**Matthew Taylor:** To ask the Secretary of State for Defence how many staff the Department employs on a temporary basis through employment agencies; what

percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158250]

**Mr. Caplin:** This information is not held centrally and could only be provided at disproportionate cost.

### Tomahawk Cruise Missiles

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what recent assessment he has made of the effectiveness of ship-borne Tomahawk cruise missiles. [158138]

**Mr. Ingram** *[holding answer 4 March 2004]:* The Tomahawk Land Attack Missile (TLAM) is a conventionally armed land attack missile. TLAM represents a major step forward in capability, enabling precision attacks at long range against selected targets. The missile's effectiveness is not affected by the platform from which it is launched.

### Westminster Hall

**Bob Spink:** To ask the Secretary of State for Defence if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [159615]

**Mr. Caplin:** I refer the hon. Member to the answer given to him on 8 March 2004, *Official Report*, column 1234W by my right hon. Friend the Leader of the House of Commons.

## PRIME MINISTER

### Geoff Mulgan

**Norman Baker:** To ask the Prime Minister how many hours Mr. Geoff Mulgan has spent working on the Big Conversation Project; and if he will make a statement. [160603]

**The Prime Minister:** Civil Servants act in accordance with the Civil Service Code.

For information on the Big Conversation, I refer the hon. Member to the answer I gave to the hon. Member for Rutland and Melton (Mr. Duncan) on 4 December 2003, *Official Report*, column 113W.

### Sir David King

**Mr. Tam Dalyell:** To ask the Prime Minister if he will make a statement on the implications of the findings of the Chief Scientist on climate change published in the journal *Science* in January. [160418]

**The Prime Minister:** The article in *Science* was based on analysis which the Chief Scientific Adviser first set out in his Zuckerman Lecture in October 2002. His conclusion was that the evidence for man-made climate change was convincing and that this cannot be ignored. The Government share that view.

This analysis underpinned the rationale behind the Energy White Paper, (CM5761) which sets out a programme to put the UK on a path to reduce the UK's carbon dioxide emissions by some 60 per cent. by 2050. It also underpins the UK's support for the United Nations Framework Convention on Climate Change and the Kyoto Protocol which are a vital first step to avoiding dangerous climate change. The UK has also been at the forefront of efforts to secure global action on climate change.

**Norman Baker:** To ask the Prime Minister with reference to the memorandum from Mr. Ivan Rogers to Sir David King, relating to public pronouncements on climate change, which wider policy aims would be adversely affected were Sir David King to grant interview requests from the media. [160599]

**The Prime Minister:** David King is on the record many times outlining the importance of climate change to the media, including on his recent visit to the United States where he took part in a press conference and chaired a workshop that the media attended.

**Norman Baker:** To ask the Prime Minister what *(a)* representations were received from and *(b)* discussions took place with the US authorities on Sir David King's public statements on climate change between their publication and the issuing of the memorandum to Sir David King by Mr. Ivan Rogers, on media requests for an interview. [160600]

**The Prime Minister:** The Government regularly have discussions with the US Government, at many levels, on a wide range of international issues including on climate change. As with previous Administrations, it is not the practice of this Government to make public details of discussions with foreign Governments.

## NORTHERN IRELAND

### Charities

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland if he will make a statement on legislative provisions on the monitoring and policing of companies registered as charities in Northern Ireland; and if he will propose amendments to Northern Ireland legislation to bring it into line with the rest of the United Kingdom in this regard. [158560]

**Mr. Spellar:** Only charities based in England and Wales are registered. The provisions for the monitoring and policing of charities which are also limited companies are the same as for those which are not.
In Northern Ireland:

the Inland Revenue deal with charitable status for tax purposes;

the PSNI can investigate any criminal offence alleged by or in connection with a charity;

the PSNI license street and house-to-house collections; and

the Department for Social Development can look at any dispute not involving criminal activity.

In Northern Ireland, most complaints about collections or criminal activity fall to the Police Service of Northern Ireland. The Department for Social Development will consider non-criminal complaints but, like the Charity Commission for England and Wales, cannot interfere in a charity's affairs where the trustees have acted properly (for example, where there is a dispute between trustees as to which of a number of equally legitimate policies should be pursued) or

consider cases which concern disagreements between trustees or between trustees and members which can and should be settled by the trustees themselves (for example, over the details of the employment of particular staff or selection of beneficiaries).

The Government are currently considering proposed changes to the charities legislation in England and Wales and elsewhere with a view to deciding whether changes to the existing Northern Ireland charity legislation would be desirable. Any proposed changes will, of course, be the subject of public consultation as well as consultation with interested bodies.

**Lady Hermon:** To ask the Secretary of State for Northern Ireland (1) what plans he has to introduce a charity commissioner for Northern Ireland; [158888]

(2) what plans he has to bring the law governing charities in Northern Ireland into line with that in England and Wales. [158889]

**Mr. Spellar:** In Northern Ireland the systems for dealing with charities are different from those in England and Wales:

the Inland Revenue deal with charitable status for tax purposes;

the PSNI can investigate any criminal offence alleged by or in connection with a charity;

the PSNI license street and house-to-house collections; and

the Department for Social Development can look at any dispute not involving criminal activity.

In Northern Ireland, most complaints about collections or criminal activity fall to the Police Service of Northern Ireland. The Department for Social Development will consider non-criminal complaints but, like the Charity Commission for England and Wales, cannot interfere in a charity's affairs where the trustees have acted properly (for example, where there is a dispute between trustees as to which of a number of equally legitimate policies should be pursued) or consider cases which concern disagreements between trustees or between trustees and members which can and should be settled by the trustees themselves (for example, over the details of the employment of particular staff or selection of beneficiaries).

The Government are currently considering proposed changes to the charities legislation in England and Wales and elsewhere with a view to deciding whether changes to the existing Northern Ireland charity legislation, including the option of establishing a Charity Commission for Northern Ireland, would be desirable. Any proposed changes will, of course, be the subject of public consultation as well as consultation with interested bodies.

## Civil Service

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland if he will make a statement on the pay dispute in the Northern Ireland Civil Service. [159558]

**Mr. Pearson:** Extensive negotiations over several months did not result in an agreed pay deal for the 11 Departments of the Northern Ireland Administration this year. Management Side presented an offer worth 3.67 per cent. on 5 November. As this could not be agreed, and Trade Union Side declined to negotiate within the 3.67 per cent. envelope, we took the decision to proceed to pay the award and communicated this to staff and Trade Union Side on 27 November. I have made clear to Trade Union Side that the 3.67 per cent. deal is the maximum that can be paid. We are however exploring other reasonable means of resolving the dispute. Meetings with Trade Union Side took place on Thursday 19 February and Monday 8 March, and a further meeting is being arranged.

Members of the NI Civil Service working in the Northern Ireland Office are subject to separate pay negotiations involving three Unions: NIPS A, PCS and the PDA. A formal offer of 3 per cent. was made to the Unions but was rejected. NIO intend to proceed to pay the award at the end of March.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what annual pay rises have been awarded to *(a)* the Northern Ireland civil service and *(b)* senior civil servants in Northern Ireland in each year since 1997. [159559]

**Mr. Pearson:** The annual pay rises awarded to *(a)* the Northern Ireland civil service and *(b)* senior civil servants in Northern Ireland in each year since 1997 are as follows:

*Percentage*

| | *Civil servants below the SCS* | *Senior civil servants* |
|---|---|---|
| 2003 | 3.67 | 5.37 |
| 2002 | 5.5 | 4.38 |
| 2001 | 4.85 | 4.4 |
| 2000 | 4.5 | 4.4 |
| 1999 | 3.97 | 4.3 |
| 1998 | 3.2 | 5.5 |
| 1997 | 3.2 | 4.5 |

## Cormorants

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland what measures he is taking to control cormorants and their predation on fish-stock. [160595]

**Angela Smith:** In Northern Ireland all wild birds are protected under the Wildlife (Northern Ireland) Order 1985. Cormorants are also protected under the EC Birds Directive (1979). If there is a specific local problem with cormorants seriously damaging fish stocks, my Department will consider applications for a licence to control the birds at the point of damage.

Any such a licence will require the licensee to report on activities authorised by it to the Department.

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland how many licences to cull cormorants have been issued in each of the last 10 years; and how many cormorants have been culled in each of the last 10 years. [160596]

**Angela Smith:** The figures requested are set out as follows. The licences are issued for the purpose of protecting fisheries, and the number culled is based on reports received from the licensees as a condition of their licences.

| | *Number of licences issued* | *Number of cormorants reported culled* |
|---|---|---|
| 1995 | 19 | 82 |
| 1996 | 20 | 107 |
| 1997 | 21 | 87 |
| 1998 | 21 | 99 |
| 1999 | 23 | 76 |
| 2000 | 16 | 77 |
| 2001 | 20 | 70 |
| 2002 | 31 | 93 |
| 2003 | 13 | 56 |
| 2004[1] | 2 | 10 |

[1] Up to 1 March 2004

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland what his estimate is of the number of cormorants in Northern Ireland in each of the last 10 years. [160597]

**Angela Smith:** The following figures are winter peak counts for cormorants in Northern Ireland. The total is made up from both breeding birds and winter visitors.

| | *Number* |
|---|---|
| 1994–95 | 1,475 |
| 1995–96 | 2,058 |
| 1996–97 | 1,785 |
| 1997–98 | 2,194 |
| 1998–99 | 3,229 |
| 1999–2000 | 2,761 |
| 2000–01 | 2,477 |

The data have not yet been validated for 2001 onwards.

**Mr. Donaldson:** To ask the Secretary of State for Northern Ireland if he will estimate *(a)* the number and *(b)* the percentage of salmon smolts returning seawards on the River Bush that were taken by cormorants in each of the last 10 years. [160598]

**Angela Smith:** No estimates of the levels of salmon smolt predation by cormorants have been made on the River Bush in the last 10 years. Previous studies carried out during the 1980s indicated that predation levels could be in excess of 50 per cent. of the wild smolt runs at that time.

### Education Jobs Evaluation

**Mrs. Iris Robinson:** To ask the Secretary of State for Northern Ireland whether non-teaching staff in the voluntary grammar and integrated education sector will be included in the job evaluation scheme being funded and carried out by the Department of Education in Northern Ireland. [159590]

**Jane Kennedy:** Job evaluations in the voluntary grammar school and grant-maintained school sectors are a matter for individual schools, as the employing authorities. The Department of Education will be discussing with representatives of these sectors the implications of job evaluations in Education and Library Boards, and any consequent budgetary pressures will be considered in light of the resources available and the associated circumstances.

### Electoral Register

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what steps he is taking to locate electors missing from the latest electoral register; and if he will make a statement. [158887]

**Mr. Spellar:** Electoral registration is primarily a matter for the Chief Electoral Officer. However, individuals who are eligible and are not on the register can still have their names added to the register under the system of rolling registration. The Electoral Commission will shortly be embarking on a major publicity drive to encourage this.

The Electoral Office and the Electoral Commission are working closely together to encourage potential electors to register. It is planned to focus on groups who are traditionally under-represented on the register, such as young people, those from disadvantaged backgrounds and those with literacy problems or whose first language is not English.

The Commission is also funding a call centre to deal with queries on the electoral process including registration. Rolling registration forms are widely available, including electronically from the Electoral office website.

### Means-Tested Benefits

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what benefits to which pensioners are entitled in Northern Ireland are means-tested; what steps he is taking to reduce the number of means-tested benefits in Northern Ireland; and if he will make a statement. [159668]

**Mr. Spellar:** Pensioners in Northern Ireland are eligible to claim state pension credit and housing benefit which are income-related or means-tested benefits.

The Government's policy is to focus help on the poorest pensioners. Income-related benefits are an integral part of a complementary mixture of social security provision alongside contributory and universal benefits. There are no plans to reduce the number of means-tested benefits available to people in Northern Ireland.

### New Deal

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many people have participated in the Preparation for Employment programme element of New Deal 25 + in Northern Ireland in each year since its inception. [159564]

**Jane Kennedy:** The Preparation for Employment programme was introduced in Northern Ireland in April 2001 as the main element of provision within the New Deal 25+.

The number of people who have participated in the Preparation for Employment programme and the former Intensive Activity Period, which it replaced, are as follows:

| | Number |
|---|---|
| November 1998 to March 1999 | 130 |
| 1999–2000 | 6,690 |
| 2000–01 | 3,441 |
| 2001–02 | 2,633 |
| 2002–03 | 3,176 |
| April 2003 to December 2003 | 1,408 |

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what the cost per participant is of the Preparation for Employment programme element of New Deal 25 +. [159565]

**Jane Kennedy:** The cost per participant on the Preparation for Employment programme element of New Deal 25+ ranges from £2,910 to £4,372, depending on the duration of participation i.e. 20 or 26 weeks and outcomes achieved.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what sanctions are applied to those who refuse to participate in the Preparation for Employment programme element of New Deal 25 Plus. [159566]

**Mr. Spellar:** The New Deal is founded on the principle of rights and responsibilities. The Preparation for Employment Programme element of New Deal 25 Plus is mandatory for those aged 25 to 49.

The sanction for a first failure to comply with the requirements of the Preparation for Employment Programme is the loss of jobseeker's allowance for two weeks. The sanction for a second failure to comply which occurs within 12 months of the imposition of the first sanction is the loss of jobseeker's allowance for four weeks. The sanction for a third or subsequent failure to comply which occurs within 12 months of the imposition of the previous sanction is the loss of jobseeker's allowance for 26 weeks.

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what plans he has to extend participation in the Preparation for Employment programme element of New Deal 25+ to those aged over 49 years. [159567]

**Jane Kennedy:** The Preparation for Employment programme element of New Deal 25+ is currently available to all unemployed jobseekers aged 25 or over when they have been in receipt of Jobseeker's Allowance (JSA) for 18 months, or for 18 out of the last 21 months. Those aged 50 or over, who meet the JSA eligibility criteria, are able to participate in the programme on a voluntary basis. The Department for Work and Pensions (DWP) will shortly commence a two year pilot, in selected areas of GB, requiring mandatory participation in the Preparation for Employment programme for those eligible JSA claimants aged 50 or over. The Department for Employment and Learning will examine the recommendations arising from the evaluation report of the pilot, when it is available, with a view to implementing them in Northern Ireland.

## Non-UK Residents

**Mr. Dismore:** To ask the Secretary of State for Northern Ireland what estimate he has made of the number of people resident in Northern Ireland who hold nationality from countries other than the UK. [156555]

**Mr. Pearson:** The closest approximation to the requested data derives from the Labour Force Survey in Northern Ireland, which collects information on nationality and country of birth. The most recent results indicate that between September and November 2003 there were an estimated 48,000 persons resident in Northern Ireland who were born outside the UK and held nationality from countries other than the UK. In addition, people born in Northern Ireland generally have the right to hold both British and Irish citizenship.

## Prison Statistics

**Mr. Clifton-Brown:** To ask the Secretary of State for Northern Ireland if he will list for each of the detention centres and prisons *(a)* how many places there were, *(b)* how many prisoners are occupying them and *(c)* how many prisoners share cells. [159958]

**Jane Kennedy:** As of 4 March 2004, the number of places available and the number of prisoners occupying them is as shown in the following table. The number of prisoners who share cells is difficult to establish as that figure changes on a daily basis and therefore the figures shown represent the approximate number of cells currently capable of being shared.

| | Maghaberry | Magilligan | Hydebank Wood |
|---|---|---|---|
| Number of cells available | 753 | 352 | 212 |
| Number of prisoners occupying cells | 716 | 348 | 196 |
| Approximate number of cells currently capable of being shared | 129 | 12 | [1]0 |

[1] In Hydebank Wood, no cells are capable of being shared although dormitories can accommodate a number of inmates.

## Punishment Beatings

**Mr. McGrady:** To ask the Secretary of State for Northern Ireland how many punishment beatings have been reported in the past two months, broken down by constituency; and how many there were in the same period in 2003. [158636]

**Jane Kennedy:** The information requested is as follows.

*Security situation statistics for Northern Ireland by District Command Unit number of casualties as a result of Paramilitary Style Assaults*

| DCU | January 2004 | February 2004 | January 2003 | February 2003 |
|---|---|---|---|---|
| North Belfast | — | — | 1 | — |
| South Belfast | 2 | 1 | — | — |
| East Belfast | — | 1 | 1 | — |
| West Belfast | 1 | 1 | 1 | 1 |
| Newtownabbey | 1 | — | 1 | 3 |
| Carrickfergus | 2 | — | 1 | — |
| North Down | 4 | — | — | — |
| Castlereagh | — | — | — | 1 |
| Lisburn | 1 | 1 | 1 | 1 |
| Antrim | 1 | 1 | 1 | — |
| Ards | — | — | 1 | — |
| Larne | — | — | — | 1 |
| Ballymena | — | — | — | — |
| Coleraine | — | — | — | — |
| Ballymoney | — | — | — | — |
| Moyle | — | — | 1 | — |
| Fermanagh | 1 | — | — | — |
| Strabane | — | 1 | — | — |
| Limavady | — | — | — | — |

*Security situation statistics for Northern Ireland by District Command Unit number of casualties as a result of Paramilitary Style Assaults*

| DCU | January 2004 | February 2004 | January 2003 | February 2003 |
|---|---|---|---|---|
| Omagh | — | — | — | — |
| Magherafelt | — | — | — | — |
| Foyle | 1 | 1 | — | 1 |
| Banbridge | 1 | — | — | — |
| Craigavon | — | — | — | — |
| Downpatrick | — | — | — | — |
| Newry and Mourne | — | — | — | — |
| Cookstown | — | — | — | — |
| Armagh | — | — | — | — |
| Dungannon and South Tyrone | — | 1 | — | — |
| Total for Northern Ireland | 15 | 8 | 9 | 8 |

*Note:*
2004 statistics are provisional and may be subject to minor amendment.

### Ulster Scots

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland (1) what criteria he uses to measure demand for the Ulster Scots language to be a subject option on the education curriculum; [159538]

(2) what he considers to be an appropriate level of demand to merit the inclusion of the Ulster Scots language in the curriculum; [159562]

(3) if the system used by the Department of Education in Northern Ireland for measuring demand for Ulster Scots is scientifically based and quality assured; [159540]

(4) what steps the Department of Education has taken to seek the views of the public on the issue of demand for Ulster Scots language; [159541]

(5) what criteria he uses to measure demand for the Ulster Scots language to be a subject option on the education curriculum; whether the system used to measure demand is *(a)* scientifically based and *(b)* quality assured; what margin of error there is in the measurements of demand; what steps he has taken to seek the views of the public on such demand; and if he will publish the results of (i) surveys and (ii) measurements of demand for the Ulster Scots language in Northern Ireland; [159560]

(6) what equality impact assessment he has carried out on his policy on the inclusion of the *(a)* Irish and *(b)* Ulster Scots languages in the school curriculum. [159563]

**Jane Kennedy:** To merit consideration of the inclusion of the Ulster Scots language in the curriculum would require a demand from a significant number of schools. As part of a recent widespread public consultation on the proposals for a revised statutory curriculum all consultees had the opportunity to comment on the content of the proposed curriculum and the potential equality impact of the detailed proposals. No such demand was evident during the consultation.

### Unionist Paramilitary Groups

**Mr. Hancock:** To ask the Secretary of State for Northern Ireland if he will make a statement on recent meetings with Unionist parties which discussed methods of curbing the activities of Unionist paramilitary groups. [158778]

**Mr. Paul Murphy:** In our discussions with all political parties, including those involved in the review of the operation of the Belfast Agreement, we have emphasised the need for an end to paramilitary activity, as set out in paragraph 13 of the Joint Declaration. We believe all parties must use any influence they have in order to bring this about.

## WORK AND PENSIONS

### Benefits Appeals

**Simon Hughes:** To ask the Secretary of State for Work and Pensions how many *(a)* successful and *(b)* unsuccessful appeals were made against decisions on (i) disability and (ii) sickness benefits in each year since 1997 in Greater London. [158460]

**Maria Eagle:** This is a matter for Christina Townsend, Chief Executive of the Appeals Service. She will reply to the hon. Member.

*Letter from Christina Townsend to Mr. Simon Hughes, dated 11 March 2004:*

The Secretary of State has asked me to reply to your question regarding the number of successful and unsuccessful appeals against decisions on disability and sickness benefits since 1997 in Greater London.

The information is not available for Greater London. However the available information is outlined in the table. The Appeals Service regional sites based at Nottingham, Sutton, and Birmingham deal with parts of Greater London.

I hope this reply is helpful.

*Successful and Unsuccessful appeals against decisions made on disability and sickness benefits by year (1998–2003)—Figures from regional sites at Nottingham, Sutton and Birmingham*

| | Cleared at Hearing | Cleared in favour of appellant | Cleared against appellant | Other decisions | Decision upheld |
|---|---|---|---|---|---|
| *2003* | | | | | |
| *Nottingham* | | | | | |
| *Sickness* | *8,025* | *3,550* | — | *105* | *4,370* |
| *Disability* | *17,520* | *8,495* | *5* | *375* | *8,645* |
| *Sutton* | | | | | |
| Sickness | 2,760 | 1,680 | — | 5 | 1,070 |
| Disability | 5,360 | 3,570 | 5 | 15 | 1,775 |
| *Birmingham* | | | | | |
| Sickness | 4,960 | 1,935 | — | 15 | 3,010 |
| Disability | 10,275 | 4,720 | 40 | 75 | 5,440 |
| *2002* | | | | | |
| *Nottingham* | | | | | |
| Sickness | 5,730 | 2,230 | — | 70 | 3,430 |
| Disability | 16,300 | 8,060 | 15 | 290 | 7,935 |
| *Sutton* | | | | | |

*Appeals figures notes:*
Sickness Benefits means—Severe Disablement Allowance; Personal Capability Assessment (non IB); Incapacity Benefit
Disability Benefits means—Industrial Injuries Disablement Benefit; Disability Working Allowance; Disability Living Allowance; Disabled Persons Tax Credit; Attendance Allowance
Figures for 1997 have not been included, as they are not available for the full year and as result would be inconsistent with other years.
All figures are subject to change as more up to date data becomes available.
Figures for the latest months may rise significantly as information feeds through to the Appeals Service.
Figures are rounded to the nearest five except for the National Live Load, which is rounded to the nearest hundred.
'–' denotes data equal to nil or negligible.
Incapacity Benefit data is not available before 2000 due to a change in methodology. The live load figures for Sickness Benefits and Disability Benefits as at August 2003 were 2,715,800 and 4,228,100 respectively. These figures cannot be broken down to those for Appeals Service regional office areas to give the number of appeals cleared as a percentage of the live load.

### Disability Discrimination Act

**Mr. Goodman:** To ask the Secretary of State for Work and Pensions what measures his Department is taking to prepare *(a)* businesses and *(b)* service providers for the implementation of the parts of the Disability Discrimination Act 1995 which come into effect later this year. [160692]

**Maria Eagle:** We are making significant changes to the Disability Discrimination Act (DDA) on 1 October 2004 to improve access to employment and to goods and services for all disabled people in this country. Employers with fewer than 15 staff will be covered by the employment duties for the first time. Service providers will also be under new duties to make reasonable adjustments to physical barriers which prevent disabled people accessing their services.

We are taking action on three fronts to prepare employers and service providers for these changes:

undertaking targeted campaigns using a range of press, broadcast and web-based media to raise awareness of the new duties;

directly mailing around a million individual small businesses to explain their responsibilities under the DDA and the business benefits of making adjustments for disabled people; and

running another Access All Areas award to encourage the spread of best practice among service providers.

This activity complements the Disability Rights Commission's Open4All campaign, which is targeted at small service providers.

## HOME DEPARTMENT

### Burglary

**Simon Hughes:** To ask the Secretary of State for the Home Department how many people were *(a)* charged, *(b)* prosecuted and *(c)* found guilty of burglary in Greater London in each year since 1997; how many of these were under (i) 16, (ii) 18 and (iii) 21 years; and how many of those found guilty were given (A) custodial and (B) non-custodial sentences, broken down by age group. [159219]

**Paul Goggins:** The available information is contained in the table and relates to offenders proceeded against at the magistrates courts and found guilty and sentenced at all courts for burglary of all types in Greater London, 1997 to 2002.

Statistics on court proceedings for 2003 will be published in the autumn.

*Persons proceeded against at magistrates courts and those found guilty and sentenced at all courts for offences of burglary[1] by age and outcome*
*Greater London[2] 1997 to 2002*

| | Number of persons | | | | |
|---|---|---|---|---|---|
| | Persons proceeded against | Persons found guilty at all courts | Persons sentenced | Sentenced to immediate custody | Given non-custodial sentences |
| *1997* | | | | | |
| All ages | 5,547 | 3,551 | 3,609 | 1,815 | 1,794 |
| of whom: | | | | | |
| Aged 10–15 | 493 | 288 | 289 | 51 | 238 |
| Aged 16–17 | 830 | 539 | 551 | 159 | 392 |
| Aged 18–20 | 1,143 | 769 | 781 | 363 | 418 |
| *1998* | | | | | |
| All ages | 5,534 | 3,408 | 3,611 | 1,880 | 1,731 |
| of whom: | | | | | |
| Aged 10–15 | 507 | 296 | 299 | 35 | 264 |
| Aged 16–17 | 763 | 487 | 487 | 154 | 333 |
| Aged 18–20 | 1,037 | 646 | 699 | 353 | 346 |
| *1999* | | | | | |
| All ages | 5,309 | 3,313 | 3,358 | 1,739 | 1,619 |
| of whom: | | | | | |
| Aged 10–15 | 479 | 276 | 275 | 30 | 245 |
| Aged 16–17 | 670 | 424 | 424 | 138 | 286 |
| Aged 18–20 | 998 | 646 | 640 | 324 | 316 |

*Persons proceeded against at magistrates courts and those found guilty and sentenced at all courts for offences of burglary[1] by age and outcome*
*Greater London[2] 1997 to 2002*

## Correspondence

**Miss Widdecombe:** To ask the Secretary of State for the Home Department when he expects to reply to the letters of 31 July 2003 and 24 November 2003 from the hon. Member for Maidstone and the Weald about Mrs. Rosa Wiles. [157997]

**Beverley Hughes:** Our records show that I wrote to the right hon. Lady on 4 August 2003 in response to a previous letter of 23 July 2003. The right hon. Lady's office confirmed this reply dealt with the points raised in the right hon. Lady's letter of 31 July 2003 and that a further reply was not required. Although there was no record of the right hon. Lady's letter of 24 November 2003 having been received by the Home Office your office sent a copy and I wrote to the right hon. Lady on 11 March.

**Mr. Kaufman:** To ask the Secretary of State for the Home Department when he intends to reply to the letter to him dated 28 January from the right hon. Member for Manchester, Gorton with regard to Mr. J. Hussain. [158696]

**Mr. Blunkett:** I wrote to my right hon. Friend on 11 March.

**Mr. Gerald Kaufman:** To ask the Secretary of State for the Home Department (1) when he intends to reply to the letter to him dated 15 January from the right hon. Member for Manchester, Gorton with regard to Mr. A. Nicholls; [159987]

(2) when his Department will reply to the letter to him from the right hon. Member for Manchester, Gorton dated 15 January with regard to Mr. A. Nicholls. [160489]

**Mr. Blunkett:** The Minister of State wrote to my right hon. Friend on 11 March.

## Corruption

**Malcolm Bruce:** To ask the Secretary of State for the Home Department whether his Department intends to establish a specialised authority to combat corruption in line with Article 36 of the UN Convention Against Corruption. [158356]

**Caroline Flint:** The UK is already in compliance with article 36 of the UN Convention against Corruption which stipulates that each State Party shall ensure the existence of a body or bodies or persons specialised in combating corruption through law enforcement. There are persons specialised in combating corruption in a number of law enforcement authorities which have responsibility for investigating or prosecuting corruption offences, such as the CPS and the Metropolitan Police.

## Curfew Orders

**Mr. Hoyle:** To ask the Secretary of State for the Home Department how many curfew orders have been made in Chorley in each of the last five years. [157114]

**Paul Goggins:** The information requested is contained in the table and relates to offenders sentenced to a curfew order for all offences in the Chorley Petty Sessional Area (PSA) and at the Crown court when committed from the Chorley PSA, in the years 1998 to 2002.

*Persons[1] sentenced to a curfew order[2] for all offences in the Chorley PSA, 1999 to 2002*

| | *Sentenced to a curfew order* |
|---|---|
| 1999 | — |
| 2000 | 5 |
| 2001 | 8 |
| 2002 | 11 |

[1] These data are on the principal offence.
[2] Curfew orders were introduced nationally in December 1999

Statistics on court proceedings for 2003 will be published in the autumn.

**Simon Hughes:** To ask the Secretary of State for the Home Department how many *(a)* home and *(b)* child curfew orders have been made in (i) Greater London and (ii) each London borough in each of the last five years. [159218]

**Paul Goggins:** It is not possible, from the statistics collected centrally, to identify persons released from custody on Home Detention Curfew orders by area.

The available information is contained in the table and relates to juveniles aged 10–17 sentenced to a curfew order for all offences in the Greater London area, each borough in outer London and each magistrates court in inner London (it is not possible from the statistics collected centrally to identify boroughs in inner London). The figures include curfew orders imposed at the Crown Court when committed for trial or sentence from the courts/boroughs shown.

*Number[1] of juveniles aged 10–17 sentenced to a curfew order for all offences in Greater London[2] and each London borough—1998 to 2002[1]*

| | Sentenced to a curfew order | | | | |
|---|---|---|---|---|---|
| *Magistrates court/borough* | *1998* | *1999* | *2000* | *2001* | *2002* |
| *Inner London magistrates courts[2]* | | | | | |
| Bow Street | — | — | — | — | — |
| Camberwell Green/Tower Bridge | — | — | 1 | 6 | 24 |
| Guildhall Justice Rooms | — | — | — | — | — |
| Greenwich/Woolwich | — | — | — | — | — |
| Highbury Corner | — | — | — | — | — |
| Horseferry Road | — | — | — | 1 | — |
| Marylebone | — | — | — | — | — |
| South Western | — | — | 3 | 30 | 56 |
| Thames | — | — | 11 | 33 | 36 |
| West London | — | — | 5 | 16 | 46 |
| *Outer London boroughs* | | | | | |
| Barking and Dagenham | — | — | — | 4 | 11 |
| Barnet | 1 | — | 3 | 2 | 5 |
| Bexley | — | — | — | — | 5 |

| Newham | — | — | — | 2 | 13 |
| Redbridge | — | — | — | 1 | 5 |
| Richmond-upon-Thames | — | — | — | 3 | 5 |
| Sutton | — | — | — | 1 | 7 |
| Waltham Forest | — | — | — | 9 | 6 |
| Total | 13 | 13 | 42 | 142 | 292 |

[1] These data are on the principal offence basis.
[2] Information held centrally does not allow a breakdown of cases by borough in the inner London area.

Statistics on court proceedings for 2003 will be published in the autumn.

**Mr. Evans:** To ask the Secretary of State for the Home Department how many home curfew orders have been made in *(a)* Ribble Valley and Fulwood and *(b)* Lancashire in each of the last five years. [156501]

**Paul Goggins:** The available information is contained in the table and relates to persons sentenced to a curfew order for all offences at all courts in the Lancashire police force area, 1998 to 2002. It is not possible to separately identify the areas of Ribble Valley and Fulwood in the statistics collected centrally.

*Number of persons[1] sentenced to a curfew order for all offences at all courts in the Lancashire police force area[2], 1998 to 2002*

| | *Sentenced to a curfew order* |
|---|---|
| 1999 | 1 |
| 2000 | 58 |
| 2001 | 61 |
| 2002 | 195 |

[1] These data are on the principal offence basis
[2] Curfew orders were introduced nationally in December 1999

Statistics on court proceedings for 2003 will be published in the autumn.

### Litter Abatement Orders (Merseyside)

**Mrs. Curtis-Thomas:** To ask the Secretary of State for the Home Department on how many occasions local authorities in Merseyside have issued a litter abatement order to landowners in each of the last five years. [159598]

**Alun Michael:** I have been asked to reply.

Under the Environmental Protection Act 1990, Principle Litter Authorities can serve litter abatement notices" on the occupier of land or, if unoccupied, on the owner of the land. "Litter abatement orders" can be served by a magistrates' court should any person be aggrieved by the defacement of litter or refuse on relevant land and highways make a complaint.

The information collected by the Department for Environment, Food and Rural Affairs indicates that Knowsley, Liverpool, Sefton, St. Helens or Wirral local authorities have not issued any litter abatement notices to landowners during the last five years.

### Looked-After Children

**Mr. McNamara:** To ask the Secretary of State for the Home Department how many looked-after children aged 10 or over were cautioned or convicted for an offence in each year since 1994; and what the figures were for all children. [158068]

**Paul Goggins:** Figures on looked after children aged 10 or over who were convicted or subject to a final warning or reprimand have been collected annually since 2000 for those children who have been continuously looked after for at least 12 months. These figures, provided by the Department for Education and Skills, cover England only, and are shown in the following table:

*Offending by children who had been looked after continuously for at least 12 months, years ending 30 September 2000 to 2002—England*

*Number[1] of children*

| | *Number of looked after children aged 10 or older at 30 September* | *of which: Number convicted or subject to a final warning or reprimand during the year* |
|---|---|---|
| *Number* | | |
| 2000 | 25,700 | 2,800 |
| 2001 | 27,000 | 2,800 |
| 2002 | 28,200 | 2,700 |
| *Percentage* | | |
| 2000 | — | 10.8 |
| 2001 | — | 10.4 |
| 2002 | — | 9.7 |

[1] Numbers shown are rounded to the nearest 100.

National figures for 2003 are due to be published in April.

Similar information for Wales is not available

The following table shows the number of all children found guilty or cautioned (given reprimands or final warnings from June 2000) in England and Wales:

*Children aged 10–17 cautioned and found guilty at all courts for all offences[1]. England and Wales 1994–2002*

| | *Children cautioned* | *Children found guilty* | *Total* | *Proportion of total children in age group (percentage)* |
|---|---|---|---|---|
| 1994 | 124,654 | 62,062 | 186,716 | 3.8 |
| 1995 | 120,561 | 67,864 | 188,425 | 3.7 |
| 1996 | 113,065 | 74,675 | 187,740 | 3.6 |
| 1997 | 104,520 | 79,151 | 183,671 | 3.5 |
| 1998 | 109,725 | 86,506 | 196,231 | 3.7 |
| 1999 | 103,978 | 90,280 | 194,258 | 3.7 |
| 2000 | 97,541 | 91,423 | 188,964 | 3.5 |
| 2001 | 98,042 | 95,530 | 193,572 | 3.6 |
| 2002 | 86,589 | 94,546 | 181,135 | 3.3 |

[1] These data are on the principal offence basis

Statistics for 2003 for England and Wales will be published in the autumn.

### No Fixed Abode

**Mr. McCabe:** To ask the Secretary of State for the Home Department what assessment he has made of whether the monetary grant made available for prisoners on release from custodial sentence offering no fixed abode as an address acts as an incentive to give no fixed abode as their address; and whether paedophiles giving no fixed abode on release avoid immediate listing on the Register of Sex Offenders. [157995]

**Paul Goggins:** A higher rate of discharge grant is paid to prisoners on release only if there is a need to seek, obtain and pay for accommodation. It is only paid to prisoners with no accommodation arranged in advance if this arises through no fault of the prisoner.

The Prison Service undertook a large-scale survey in March and April 2003 of sentenced prisoners nearing release. 29 per cent. said they did not have accommodation arranged on release, compared to 33 per cent. in a similar survey undertaken in November and December 2001.

Registered sex offenders are subject to the notification requirements of the Sex Offenders Act 1997. They are required to provide the police with their home address within three days of their release from prison. Where an offender does not have a home address (which is his sole or main residence in the UK), he is required to provide the police with an address of premises in the UK which he regularly visits.

### Oakington Immigration Centre

**Mr. Lansley:** To ask the Secretary of State for the Home Department what has been the cost of policing arising from *(a)* the activity at, and *(b)* escapes from the immigration centre at Oakington, Cambridgeshire. [157353]

**Ms Blears:** The Chief Constable has informed me that the costs of policing activity incurred by the force over the period 1 January 2002 to 1 March 2004 was:

(a) £950 for responding to 83 calls to assist at the Oakington immigration centre.

(b) £3,250 to deal with 31 incidents involving escapees from the centre.

### Operation Artemis

**Mr. Gray:** To ask the Secretary of State for the Home Department what estimate he has made of the likely cost to the police of Operation Artemis. [160086]

**Caroline Flint:** There was no cost to the police from Operation Artemis. Operation Artemis was a French-led European Union operation to the Democratic Republic of the Congo to support the United Nations Mission present in the country and to provide a secure environment under which the interim administration could function.

It was deployed for a short period from June 2003 until 15 September 2003 and was a military mission with no civilian police involvement.

### Police Officers

**Mr. Edward Davey:** To ask the Secretary of State for the Home Department how many police officers there were in each *(a)* London borough and *(b)* Metropolitan police division in each year since 1992, in terms of (i) budgeted establishment and (ii) officers in post. [158839]

**Ms Blears:** The deployment of officers to territorial divisions is an operational matter for the Commissioner of Police of the Metropolis (Sir John Stevens). The information requested has been provided by the Commissioner in tabular form. Table 1 sets out the position in the MRS between 1992 and 1998. Table 2 continues with figures for a revised structure in 1999 and 2000. Table 3 sets out the position following the boundary changes on 1 April 2000. These tables have been placed in the Library.

The structure of Metropolitan Police territorial divisions and Borough Operational Command Units over the period 1992 to 2003 has changed. Figures are not therefore strictly comparable year on year as a result of boundary and organisational changes in the Metropolitan Police Service (MRS). In particular organisational changes were made following boundary changes on 1 April 2000 with the Essex, Hertfordshire and Surrey forces. The current territorial areas, introduced in 2000, are not therefore compatible with the previous force structure.

### Prisons

**Mrs. Gillan:** To ask the Secretary of State for the Home Department whether all prisons issue prisoners with a plastic sack marked HM Prison Service to contain their belongings on discharge; and what assessment he has made of alternatives to this practice. [156033]

**Paul Goggins:** Plastic sacks stamped with the Prison Service logo are used to store prisoners' property while they are in custody. The Prison Service has made it clear that their use for prisoners' property on discharge is not acceptable. Since October 2002 the Prison Service has made available to prisons plain nylon barrel bags for use for prisoners' property on discharge. These have been well received by prisoners and staff.

**Mr. Laws:** To ask the Secretary of State for the Home Department what his estimate is of the average weekly hours of purposeful activity in *(a)* privately run prisons and *(b)* state run prisons; and if he will make a statement. [156829]

**Paul Goggins:** During this financial year, to the end of January prisoners undertook an average of 23 hours of purposeful activity per week in public sector prisons and 26.3 hours in contracted out prisons.

*Note:*
These figures are provisional and have been taken from establishment purposeful activity returns for the financial year 2003 to present.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many prisoners are housed in modular temporary units, broken down by prisons. [159278]

**Paul Goggins** *[holding answer 5 March 2004]:* The number of prisoners accommodated in Modular Temporary Units (MTUs) is not held centrally. I refer the hon. Member to the reply I gave her on 10 February 2004, *Official Report*, column 1431 for the capacity of MTUs across the prison estate, broken down by establishment.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department how many sites are being assessed as potential new sites for prisons. [159279]

**Paul Goggins** *[holding answer 5 March 2004]:* The Prison Service is actively seeking potential sites suitable for the development of prison establishments. The details of any individual sites cannot be disclosed for commercial reasons.

### Women Prisoners

**Mrs. Gillan:** To ask the Secretary of State for the Home Department what action he has taken to implement the results of the research commissioned from Prisoners' Families on enabling women prisoners to keep in touch with their families. [159311]

**Paul Goggins:** The work carried out by Action for Prisoners' Families will continue to inform the development of family policy and practice at Cookham Wood and other women's prisons.

## TRADE AND INDUSTRY

### Trading Standards

**Mr. Heald:** To ask the Secretary of State for Trade and Industry what information the Office collects on the on-line submission of complaints to trading standards offices. [158900]

**Mr. Sutcliffe:** The Department of Trade and Industry and the Office of Fair Trading do not collect statistics about the on-line submission of complaints to trading standards Departments. However, ConsumerComplaints.org.uk is a site developed with DTI support, which enables consumers to complain on-line. The complaint is automatically directed to the appropriate Trading Standards Department. Individual trading standards Departments use computer systems that are able to generate reports on how complaints are received. This would include a report on the number of complaints received on-line, compared to other methods.

### Bankruptcies

**Mr. Sheerman:** To ask the Secretary of State for Trade and Industry how many companies went bankrupt in *(a)* Huddersfield and *(b)* the UK in each year since 1997. [160042]

**Mr. Sutcliffe:** Company Insolvency data for Huddersfield are not separately identifiable. Compulsory insolvencies are only broken down by Official Receivers Office. Huddersfield county court comes under the jurisdiction of the Official Receivers Office at Leeds, which also has responsibility for Bradford, Dewsbury, Halifax, Harrogate, Keighley, Leeds, Otley, Pontefract, Skipton, Wakefield and Todmorden. Company Insolvency Figures for the UK are provided in the following table:

*Company insolvencies in the UK 1997 to 2003*

| | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* |
|---|---|---|---|---|---|---|---|
| England and Wales | 12,610 | 13,203 | 14,280 | 14,317 | 14,972 | 16,305 | 14,184 |
| Scotland | 477 | 566 | 572 | 583 | 602 | 788 | 631 |
| Northern Ireland | 113 | 99 | 103 | 136 | 100 | 102 | 143 |
| UK total | 13,200 | 13,868 | 14,955 | 15,036 | 15,674 | 17,195 | 14,958 |

### Biomass Electricity Project, Winkleigh

**Mr. Burnett:** To ask the Secretary of State for Trade and Industry if she will list the requests for payment from *(a)* her Department and *(b)* the South West Regional Development Agency in respect of the proposed Biomass Electricity Generation project at Winkleigh, Devon. [157145]

**Mr. Timms** *[holding answer 27 February 2004]:* The Department received an application for grant assistance of £11.50 million for this project under the Bioenergy Capital Grants Scheme in October 2002. The project was given a grant offer of £11.50 million in February 2003. No payments have yet been made, under this grant.

In parallel, the South West of England Regional Development Agency has received an application for support totalling £623,900 in respect of this project. Project funding has been authorised and to date £384,391 has been paid (mainly for land acquisition) leaving £239,509 to be paid as other elements of the project are completed.

### British Nuclear Fuels

**Dr. Jack Cunningham:** To ask the Secretary of State for Trade and Industry how many workers who transferred from AEA Technology to British Nuclear Fuels on 2 December 2003 lost pension benefits as a

result; for what reasons they are required to pay increased contribution rates for pensions in their new jobs; and if she will make a statement. [159886]

**Mr. Timms** *[holding answer 10 March 2004]:* The staff that transferred on 1 December 2003 have until the end of May to decide which pension option they would like to take up out of those presented to them as part of the flexible transfer process.

As a minimum, transferring staff retained the value of their existing AEA Technology ("AEAT") pension fund. This existing pension fund had diminished during employment with AEAT but on transfer the funds were augmented via a mechanism involving AEAT, BNFL and employee's contributions. The Government Actuary's Department considered that the value of pension benefits arising from the augmented funds to represent a fair and equitable transfer of benefits under the stated Government guidelines on transfer of pension benefits within the public sector.

Transferring staff contribution rates are the same as those that they would have been required to make under their previous employment with AEAT if the transfer had never occurred.

**Mr. Watson:** To ask the Secretary of State for Trade and Industry what discussions she has had with BNFL about their overseas contracts. [160017]

**Mr. Timms:** BNFL operates within a Governance Framework agreed by the Department as shareholder. Within this framework, BNFL is required to seek departmental agreement to specific contracts subject to certain criteria. On behalf of the Secretary of State, officials have regular discussions with BNFL regarding their overseas contracts in this context.

### Correspondence

**Mr. Chope:** To ask the Secretary of State for Trade and Industry when the hon. Member for Christchurch will receive a substantive response to his letter of 18 December 2003 about the employment of non-UK labour in the construction industry and the Posting of Workers Directive. [157590]

**Mr. Sutcliffe:** As set out in the reply to the hon. Member for Christchurch, these are very important issues upon which the Government are seeking to obtain the full facts. I will write to him when I have further information to provide.

### Employment Rights Advice Booklets

**Lynne Jones:** To ask the Secretary of State for Trade and Industry what the expected annual cost savings to her Department are of its decision to cease production of hard copy prints of most of its employment rights advice booklets. [159683]

**Mr. Sutcliffe:** We anticipate savings in the region of £380,000 per annum.

**Lynne Jones:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 1 March 2004, *Official Report*, column 630W, to the hon. Member for Northampton, North (Ms Keeble), on employment rights leaflets, which leading customers of her Department's information service were consulted in relation to the decision to cease production of hard copy prints of most of the service's employment rights advice booklets. [159685]

**Mr. Sutcliffe:** Ceasing production of hard copy documents was one of the recommendations of a review on how our information on employment rights could be better focused on users needs. A practitioner group was set up as the means of consultation. Listed are the groups invited to be part of that group:

CBI

Trade Unions Congress

Small Business Council

Commission for Racial Equality

NACAB

British Retail Consortium

Parents at Work

Equal Opportunities Commission

MaternityAlliance

Amicus

EEF

ACCA

West Midlands Employment and Low Pay Unit

Construction Confederation

British Hospitality Association

Canary Wharf Group PLC

Leo Abse and Cowen

LG Electronics

ACAS

Disability Rights Commission

CIPD

British Chambers of Commerce

Federation of Small Business

An Employment Law Consultant

**Lynne Jones:** To ask the Secretary of State for Trade and Industry pursuant to her answer of 1 March 2004, *Official Report*, column 630W, to the hon. Member for Northampton, North (Ms Keeble), how many end users were surveyed during her Department's recent review of its information service; and how these end users were selected. [159686]

**Mr. Sutcliffe:** The review was conducted on the basis of consultation with users groups. A survey was not undertaken.

**Lynne Jones:** To ask the Secretary of State for Trade and Industry how many paper copies of each of her Department's employment rights booklets were ordered by customers in the most recent annual period for which information is available. [159687]

**Mr. Sutcliffe:** I refer the hon. Member to the following list.

| *Employment Rights Publication* | *Annual issues up to 5 September 2003* |
|---|---|
| Industrial action ballots and notice to employers. PL962 (Rev 1) | 1,202 |
| Written statement of employment particulars. PL700 (Rev 5) | 12,587 |
| Trade Union political funds: a guide for trade unions, their members and others. PL868 (Rev 3) | 752 |
| Industrial action and the law: a guide for employees, trade union members and others. PL869 (Rev 4) | 2,302 |
| Industrial action and the law: a guide for employers, their customers and suppliers and others. PL870 (Rev 4) | 1,135 |
| Family emergency? your right to time off. PL506 | 9,224 |
| Argyfwng teuluol? eich hawl I gael amser I ffwrdd | 121 |
| Benefit repayment: a guide for employers required to repay state benefit previously claimed by an employee who has won an employment tribunal award. PL720 (Rev 4) | 1,771 |
| Trade union executive elections: a guide for trade unions, their members and others. PL866 (Rev 3) | 516 |
| Time off for public duties. PL702 (Rev 4) | 3,230 |
| Unjustifiable discipline by a trade union: a guide for trade unions, their members and others. PL865 (Rev2) | 1,002 |
| Access to workers during recognition and derecognition ballots. PL500 | 555 |
| Guarantee payments. PL724 (Rev 2) | 4,030 |
| Union membership: rights of members and non-members. PL871 (Rev 7) | 2,724 |
| Hawliau mamolaeth: arweiniad I gyflogwyr a gweithwyr. PL958 (Diw 7) | 158 |
| Suspension from work on medical or maternity grounds under health and safety regulations. PL705 (Rev4) | 1,402 |
| Trade union funds and accounting records: a guide for trade unions, their members and others. PL867 (Rev 3) | 732 |
| *Family emergency? Your right to time off (audiotape). PL506* | 74 |
| *Time off for dependants: a guide for employers and employees (audiotape.* | 60 |
| Contracts of employment: changes, breach of contract and deductions from wages. PL810 (Rev 6) | 18,420 |
| Sunday shop and betting work: employees' rights. PL960 (Rev 1) | 1,567 |
| Contractau cyflogaeth: newidiadau, torri contract a thynn'u ol o gyflog. PL810 (Diw 6) | 0 |
| Disclosures in the public interest: protections for workers who 'blow the whistle'. PL502 (Rev 2) | 3,444 |
| Rights to notice and reasons for dismissal. PL707 (Rev 13) | 10,256 |
| Adoptive parents: rights to leave and pay when a child is placed for adoption in the UK (PL518) | 2,848 |
| Working fathers: rights to paternity leave and pay. A guide for employers and employees. PL517 | 20,935 |
| Transfers of undertakings: a guide to the regulations. PL699 (Rev 6). | 10,886 |
| Dismissal: fair and unfair. A guide for employers. PL714 (Rev 10) | 15,551 |
| Hawliau unigol gweithwyr: arweiniad i gyflogwyr a gweithwyr. PL716 (Diw 9) | 159 |
| Parental leave: a guide for employers and employees. PL509 | 12 |
| Parental leave: a short guide. PL510 | 235 |
| Unfairly dismissed? PL712 (Rev 17) | 8,621 |
| Pay statements: what they must itemise. PL704 (Rev 5) | 4,640 |
| Maternity rights: a guide for employers and employees. PL958 (Rev 7) | 3,310 |
| *Employment agencies: know your rights. PL511* | 1,518 |
| Industrial action and the law: citizen's right to prevent disruption. PL943 (Rev 1) | 1,331 |
| Rights to notice and reasons for dismissal (audiotape version). PL707 (Rev 13) | 138 |
| PL833 (REV 6) Redundancy Consultation and Notification | 10,810 |
| Limits on payments and awards. PL827 (Rev 8) | 6,148 |
| Maternity leave changes: a basic summary. PL507 (Rev 3) | 21,833 |
| Adoptive parents rights to leave and pay: a basic summary. PL515 (Rev 1) | 14,154 |
| Paternity leave and pay: a basic summary. PL514 (Rev 1). | 23,814 |
| Flexible working the right to request: a brief summary. PL516 (Rev 1) | 24,298 |
| Continuous employment and a week's pay: rules for calculation. PL711 (Rev 8) | 7,431 |
| Redundancy entitlement statutory rights: a guide for employees. PL808 (Rev 6) | 28,733 |
| *Individual rights of employees: a guide for employers and employees. PL716 (Rev 10)* | 7,477 |
| Maternity rights: a guide for employers and employees. Babies due on or after 6 April 2003. PL958 (Rev 9) | 15,273 |
| Picketing. PL928 (Rev 1) | 1,090 |
| The payment of union subscriptions through the check-off: a guide for employers, trade unions and their members, taking account of legislation up to and including the Deregulation (Deduction from Pay of Union Subscriptions) Order 1998. PL944 (Rev 1) | 594 |
| Employment Rights (Dispute Resolution) Act 1998: a guide to its provisions | 345 |
| Time off for dependants: a guide for employers and employees | 8,441 |
| Offsetting pensions against redundancy payments: a guide for employers. RPL1 | 293 |
| Example form of a written statement of employment particulars. PL700A (Rev 1) | 5,065 |
| A short guide to the working time regulations | 16,096 |
| Your guide to the working time regulations: workers and employers. July 2003 | 7,537 |
| Working Time Regulations Rheoliadau Amser | 0 |
| Your rights if your employer is insolvent: a guide for employers, employees and others. PL 718 (Rev 7) | 45,215 |
| National minimum wage: a short guide for young workers. (Somali) | 18 |
| The minimum wage and 'therapeutic work'. | 0 |
| A detailed guide to the national minimum wage (October 2001 edition). PL501 | 6,361 |
| Isafswm cyflog cenedlaethol: canllaw byr I gyflogeion. (A short guide to the national minimum wage) | 145 |
| Isafswm cyflog cenedlaethol: canllaw byr I gyflogwyr. (A short guide to the national minimum wage) | 96 |
| National minimum wage: a short guide for employees | 14,303 |
| National minimum wage: A short guide for employees (Bengali) | 254 |
| National minimum wage: A short guide for employees (Chinese) | 190 |
| National minimum wage: A short guide for employees (Greek) | 207 |
| National minimum wage: A short guide for employees (Gujarati) | 270 |
| National minimum wage: A short guide for employees (Hindi) | 248 |
| National minimum wage: A short guide for employees (Punjabi) | 259 |
| National minimum wage: A short guide for employees (Somali) | 162 |

| *Employment Rights Publication* | *Annual issues up to 5 September 2003* |
|---|---|
| National minimum wage: A short guide for employees (Turkish) | 205 |
| National minimum wage: A short guide for employees (Urdu) | 218 |

| The minimum wage and therapeutic work (Braille) | 11 |
| The minimum wage and therapeutic work (Audio cassette) | 33 |

*Notes:*
1. Publications in italics will remain in hard copy format.
*Source:*
Extract from DTI Publications Full Title Usage Report 5 September 2003.

**Lynne Jones:** To ask the Secretary of State for Trade and Industry if she will list the *(a)* most regular users of her Department's distribution service and *(b)* the total number of employment rights booklets ordered by each such user in the most recent annual period for which information is available. [159688]

**Mr. Sutcliffe:** The following is a list of the organisations ordering the largest number of publications for the year ending 29 February 2004. Figures are for all booklets ordered by the organisation and not by subject matter.

Annual figures on employment rights booklets ordered by organisations are not readily available and would not be cost effective to produce.

*Top 100 organisations ordering the highest number of publications from the DTI distribution centre*

| *Address number* | *Organisation* | *Total order quantity*[1] |

[1] 31 January 2003 to 1 February 2004

**Energy Services Working Group**

**Brian White:** To ask the Secretary of State for Trade and Industry which members of the energy efficiency industry she has appointed to her Energy Services Working Group. [160097]

**Mr. Timms:** The Energy Services Working Group has now completed its work and submitted a final report to Ministers on 23 January. John Chesshire of the Energy Efficiency Partnership for Homes was a member of the Group. Other members, apart from Government officials, were Nick Eyre of the Energy Saving Trust and representatives of all the major energy suppliers. Minutes of the meetings of the Group, together with papers presented to it and the interim and final reports are available on the DTI website at: www.dti.gov.uk/energy/environment/energy_efficiency/eswg/shtml

**EU Emissions Trading Scheme**

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what impact she expects the EU emissions trading scheme to have on electricity prices. [158850]

**Mr. Timms:** The impact of the EU emissions trading scheme will depend on the price of carbon in the market and the extent to which this is passed through by generators. The Department has based its estimates on a carbon price in a range from €5–25/tonne of $CO_2$. In the first phase of the scheme at least, from 2005 to 2007, the Department believes that the carbon price is more likely to be towards the bottom of the range. The electricity price increase corresponding to a carbon price of €5/tonne is estimated to be 3 per cent. for domestic customers and 6 per cent. for industrial customers.

The Department commissioned ILEX Consulting to undertake work on the implications of the emissions trading scheme on the power sector. Their report can be found at: www.dti.gov.uk/energy/sepn/ilex_report.pdf

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what assessment she has made of the impact of her Department's interpretation of the EU emissions trading scheme on UK competitiveness. [158851]

**Mr. Timms:** The Department has considered carefully the implications of the EU emissions trading scheme for UK competitiveness in decisions on the overall cap. The expected impacts on energy costs and their effects on trade and the regions and countries of the UK have been published in the following document: www.dti.gov.uk/energy/sepn/euetsimplications.pdf

We will keep this under review as national allocation plans of other member states become clearer.

### Household Fuel Expenditure

**Brian White:** To ask the Secretary of State for Trade and Industry what the average proportion of household expenditure spent on household fuel was in *(a)* 1975, *(b)* 1980, *(c)* 1985, *(d)* 1990, *(e)* 2000 and *(f)* 2003. [160096]

**Mr. Timms:** The average proportion of household expenditure spent on fuel in *(a)* 1995, *(b)* 1980, *(c)* 1985, *(d)* 1990, *(e)* 2000 and *(f)* 2003 is set out in the following table.

| | *Household expenditure on fuel (Percentage)* |
|---|---|
| 1975 | 5.5 |
| 1980 | 5.6 |
| 1985 | 6.2 |
| 1990 | 4.5 |
| 2000–01 | 3.1 |
| 2002–03 | 2.9 |

*Source:*
ONS–Family Expenditure Survey, 1975, 1980, 1985, 1990, 2000–01.
Expenditure and Food Survey from 2001–02.

### Internet Access

**Lynne Jones:** To ask the Secretary of State for Trade and Industry how many workers she estimates *(a)* are unable to use and *(b)* do not have direct access to the internet. [159699]

**Mr. Sutcliffe:** The DTI's International Benchmarking Study (DBS) measures the use of ICT by business and is produced annually. The IBS 2003 found that:

(a) 77 per cent. of ICT using organisations are completely or mostly content with their in-house ICT skills.

(b) 10 per cent. of businesses do not have internet access.

IBS results are weighted to reflect employee distribution. A copy of the 2003 study (URN 03/147) is available from the Libraries of the House.

### Miners' Pension Funds

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry if she or one of her Ministers will meet ex-miners from the Lichfield constituency in London to discuss current arrangements for miners' pension funds in the next four months. [160043]

**Mr. Timms:** Issues relating to the current arrangements for the miners' pension funds are matters for the Schemes' Trustees.

### Nanotechnology

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry what the Government's policy is on nanotechnology; and if she will make a statement. [159740]

**Ms Hewitt:** The global market for nanotechnology is forecast to exceed $1,000 billion within the next decade and it is vital that the UK is a strong player in this market. My noble Friend the Minister for Science announced our investment of £90 million in our Micro and Nanotechnology Manufacturing Initiative in July 2003 to help industry harness the commercial opportunities offered by nanotechnology. £50 million will be spent on collaborative R&D projects and £40 million on a new network of micro and nanotechnology facilities. This will help business build on the UK's excellent track record in small-scale science and win a share of this developing market. This activity will build on the substantial and wide ranging investment we are already making through the Research Councils. We expect to invest a further £100 million in our science base for nanotechnology based research over the next few years.

In addition in December 2003 I launched the "Innovation Report: Competing in the global economy: the innovation challenge, December 2003". This report describes a range of new DTI products to support technological innovation which are already being applied to support UK interests in nanotechnology.

It is the policy of this Government to be open about our approach to new technologies, to acknowledge uncertainties and to ensure that the public are engaged in the decision making process. To address any potential concerns the Government commissioned the Royal Society and the Royal Academy of Engineering to carry out an independent study to make sure we are able to benefit from the advances that nanotechnology promises with the right regulatory safeguards and protections in place. The study will also be used to inform policy on what safeguards might be required over and above existing legislation and guidance.

### Nirex

**Mr. Simon:** To ask the Secretary of State for Trade and Industry what assessment she has made of the impact on long-term radioactive waste management of *(a)* the continued ownership of Nirex by the nuclear industry, *(b)* the ownership of Nirex by the Nuclear Decommissioning Authority and *(c)* a Nirex independent of the nuclear industry. [159666]

**Mr. Timms:** The Government have established the independent Committee on Radioactive Waste Management (CoRWM) to advise it by the end of 2005 on the long-term management of the UK's higher activity wastes. Consideration of the arrangements for managing these wastes before receiving that advice would be premature.

**Mr. Watson:** To ask the Secretary of State for Trade and Industry what meetings her Department has held with *(a)* BNFL and *(b)* British Energy to discuss the budget for Nirex. [160010]

**Mr. Timms:** The Department is in regular contact with BNFL and British Energy on a range of issues, including their shareholdings in Nirex.

### Nuclear Decommissioning Authority

**Mr. Watson:** To ask the Secretary of State for Trade and Industry whether any income accrued by the Nuclear Decommissioning Authority from *(a)* the commercial reprocessing of spent nuclear fuel and *(b)* Magnox power generation will be returned to the (i) decommissioning and (ii) clean-up of nuclear sites. [160009]

**Mr. Timms:** Yes. All such income will be received by Government and credited to the Nuclear Decommissioning Funding Account that will record the sums available to the Nuclear Decommissioning Authority (NDA). Commercial income credited to the Account will be separately identified.

**Mr. Chaytor:** To ask the Secretary of State for Trade and Industry if she will make a statement on plans to establish a Nuclear Decommissioning Authority. [160286]

**Mr. Timms:** Proposals to establish the Nuclear Decommissioning Authority were set out in the 2002 White Paper, 'Managing the Nuclear Legacy: A strategy for action', and are provided for in the Energy Bill, due to begin Report stage in the other place on 18 March.

The Bill will be introduced in this House as soon as the legislative timetable permits. We hope the Bill will receive Royal Assent by July, and our goal remains to have an operational NDA in place by April next year.

**Mr. Tynan:** To ask the Secretary of State for Trade and Industry what recent discussions she has had regarding the establishment of the Nuclear Decommissioning Authority. [160288]

**Mr. Timms:** The Government continue to engage in their proposals to establish the Nuclear Decommissioning Authority (NDA) with a broad range of stakeholders, including industry, the regulators, local and regional government organisations, trades unions, Non-Governmental Organisations, suppliers and members of the public. Legislation to establish the NDA is under discussion in the other place.

**Mr. Watson:** To ask the Secretary of State for Trade and Industry (1) whether the Nuclear Decommissioning Authority will accept new contracts for the commercial reprocessing of spent nuclear fuel once it assumes control of Thorp; [159586]

(2) what long-term future she envisages for the commercial reprocessing of spent nuclear fuel in the UK. [159587]

**Mr. Timms:** I refer my hon. Friend to the answer I gave to the hon. Member for South Down (Mr. McGrady) on 11 September 2003, *Official Report*, column 385W.

### Post Office

**Mr. Jim Cunningham:** To ask the Secretary of State for Trade and Industry what proportion of proposals for post office closures have been halted as a result of public consultation in the *(a)* West Midlands and *(b)* UK. [159895]

**Mr. Timms:** Decisions on post office closure proposals following public consultation are an operational matter for Post Office and I have asked the Chief Executive to reply direct to my hon. Friend.

**Mrs. Calton:** To ask the Secretary of State for Trade and Industry what recent assessment she has made of the *(a)* consultation and *(b)* decision-making process involved in the Post Office Network Reinvention programme. [160592]

**Mr. Timms:** In the light of concerns expressed by Members of Parliament, and following discussions with Post Office Ltd. and Postwatch, I announced changes to the consultation arrangements for urban reinvention post office closure proposals in my written statement of 5 February. Following public consultation, decisions on post office closures are an operational matter for Post Office Ltd.

**Mr. Wyatt:** To ask the Secretary of State for Trade and Industry what measures she can introduce to stop Tesco closing post offices as a result of the takeover of one-stop convenience stores, with particular reference to the one-stop convenience store in Chalkwell Road, Sittingbourne. [159793]

**Mr. Timms** *[holding answer 8 March 2004]:* None. Any decision by Tesco to remove a post office from one of its T&S convenience stores is a commercial matter for the company. Tesco has however committed to giving six months notice of its intention to do so to Post Office Ltd., allowing it the opportunity to find alternative partners to continue to offer post office services in close proximity to the existing location, and to working with all parties to seek a smooth changeover process for customers in the area.

I understand that Tesco has recently given notice of its intention to discontinue post office services from its Chalkwell Road, Sittingbourne store and that Post Office Ltd. is now actively engaged in seeking an alternative location in the vicinity.

### Postwatch

**Mr. Bill O'Brien:** To ask the Secretary of State for Trade and Industry what the total amount of money allocated to Postwatch is in 2002–03. [159602]

**Mr. Timms:** The total amount of money allocated is £8.19 million.

**Mr. Bill O'Brien:** To ask the Secretary of State for Trade and Industry what the duties are of Postwatch; and to whom it is responsible. [159603]

**Mr. Timms:** The Consumer Council for Postal Services also known as Postwatch was established to represent the user interests in postal services. Its functions are laid down in the Postal Services Act 2000; and it is responsible to the Secretary of State.

### Product Safety

**Mr. Carmichael:** To ask the Secretary of State for Trade and Industry how many deaths were caused by products classified by her Department as unsafe in each of the last 10 years. [159978]

**Mr. Sutcliffe:** This information is not available.

**Mr. Carmichael:** To ask the Secretary of State for Trade and Industry (1) how many products were banned from sale on safety grounds in each of the last 10 years; [159979]

(2) how many of the products banned from sale on safety grounds were recalled by the manufacturer in each of the last 10 years. [159980]

**Mr. Sutcliffe:** In 1996 the Department made emergency regulations under section 11(5) of the Consumer Protection Act 1987 to ban the supply of certain fireworks to the general public. This ban was carried forward in permanent regulations—The Fireworks (Safety) Regulations 1997—which banned the sale of a range of fireworks.

In 2003 the Department issued prohibition Notices under the 1987 Act against six suppliers of Yo Balls because the posed a risk of strangulation to children.

In neither case were the affected products recalled by their manufacturers. However, the publicity surrounding the bans will have alerted consumers to the dangers presented by these products.

**Mr. Carmichael:** To ask the Secretary of State for Trade and Industry (1) what representations she has received from *(a)* consumers organisations and *(b)* industry on the EU Directive on General Product Safety; [159981]

(2) for what reason the Government has not yet implemented the EU Directive on General Product Safety; and if she will make a statement. [159982]

**Mr. Sutcliffe:** The Department invited views from consumer organisations, industry and the enforcement community on a number of policy issues concerning transposition of the revised General Product Safety Directive in an initial public consultation during the period from November 2001 to March 2002. A copy of the consultation document and a summary of the responses is available on the Department's website at www.dti.gov.uk/ccp/archive/pdf/gpsdcon.pdf and www.dti.gov.uk/ccp/archive/pdf/gpsdsumm.pdf respectively.

The consultation identified differing views on key issues in complex policy areas including how to handle mandatory product recall, on which we have held a number of stakeholder meetings. We want to ensure that the system we employ for recalling products will have the confidence of all parties and be effective in providing better protection for consumers from dangerous products.

### Rover Task Force

**Brian Cotter:** To ask the Secretary of State for Trade and Industry what the cost of the Rover Task Force Modernisation and Diversification programme has been to the Small Business Service in each of the last five years. [156682]

**Ms Hewitt:** The Rover Task Force was established early in 2000, led by the then Secretary of State for Trade and Industry, the right hon. Member for North Tyneside (Mr. Byers). The Task Force considered how both the region's automotive supply chain could be supported, and how the region's manufacturing base could be helped to modernise and diversify.

A package of funding for business support and regeneration of £129 million was agreed. £31 million of that figure was administered by the SBS as part of the Modernisation and diversification programme. The funding package of the Rover Task Group is invested in the automotive supply chain. No funding is provided direct to MG Rover itself.

To date a total of 1,600 businesses have been assisted by the Taskforce and 3,000 jobs have been safeguarded or created.

### Temporary Staff

**Matthew Taylor:** To ask the Secretary of State for Trade and Industry how many staff the Department employs on a temporary basis through employment agencies; what percentage this is of total staff employed; and how much the Department paid employment agencies to supply temporary staff in *(a)* 2001–02, *(b)* 2002–03 and *(c)* 2003–04 to the most recent date for which figures are available. [158248]

**Ms Hewitt:** The number of temporary staff engaged by DTI fluctuates through the year, but on average we have approximately 450 temporary staff per annum, which represents 9 per cent. of our current workforce. The cost of employing these agency staff over the last three financial years was 2001–02 £4,865K, 2002–03 £6,654K and 2003–04 £5,223K.

### Tesco

**Mr. Stinchcombe:** To ask the Secretary of State for Trade and Industry (1) if she will recommend to the Office of Fair Trading that it judges the Tesco Adminstore merger on the basis of Tesco's share of the overall grocery market; [160460]

(2) if she will direct the Office of Fair Trading to refer Tesco's proposed acquisition of Adminstore to the Competition Commission on the grounds of public interest considerations of the socio-economic consequences of further consolidation of the grocery market; [160461]

(3) if she will recommend that the Office of Fair Trading refer Tesco's proposed acquisition of Adminstore to the Competition Commission. [160462]

**Mr. Sutcliffe:** The independent competition authorities (the Office of Fair Trading and the Competition Commission) are responsible under the Enterprise Act 2002 for decision making in merger cases against a specific competition-focused test. The Office of Fair Trading announced on 5 March that it was not referring to the Competition Commission the anticipated acquisition by Tesco Plc of 45 grocery stores from Adminstore Ltd. It would not have been appropriate for Ministers to try to influence the Office of Fair Trading in carrying out its independent function by seeking to direct it in any aspect of its consideration of this case.

The Enterprise Act does not allow my right hon. Friend the Secretary of State to intervene on existing or new public interest grounds in cases where the OFT has already announced its decision on reference to the Competition Commission.

## HEALTH

### Acute Mental Illness Beds

**Mr. Hoyle:** To ask the Secretary of State for Health how many acute mental illness beds were available for *(a)* the elderly, *(b)* children and *(c)* other age groups in Lancashire Mental Health Trust in each of the last three years; and how many were in secure units. [157674]

**Miss Melanie Johnson:** The Lancashire Care National Health Service Trust was formed on 1 April 2002. Data are not available for this trust prior to that date. The available data, for the year 2002–03, are shown in the table.

| | *Number* |
|---|---|
| *Mental illness: children* | |
| Short stay | — |
| Long stay | — |
| *Mental illness: elderly* | |
| Short stay | 227 |
| Long stay | 170 |
| *Mental illness: other ages* | |
| Secure unit | 70 |
| Short stay | 393 |
| Long stay | — |

*Source:*
Department of Health returns.

### Ambulances

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 24 February 2004, *Official Report*, column 328W, on ambulances, whether the periodic refresher training refers to *(a)* specialist driving training and *(b)* other forms of training relevant to the job of ambulance technician. [158492]

**Ms Rosie Winterton:** Individual national health service trusts are responsible for ensuring that staff receive any training necessary to maintain driving proficiency standards. In addition, maintaining staffs proficiency in all other aspects of their work is also the responsibility of every trust.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 24 February 2004, *Official Report*, column 328W, on ambulances, if he will place in the Library copies of the proficiency standards and national syllabus. [158521]

**Ms Rosie Winterton:** A copy of the driver training manual has been placed in the Library.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 24 February 2004, *Official Report*, column 329W, on ambulances, whether there is a mandatory requirement for specialist driver training at an accredited driver training school. [158618]

**Ms Rosie Winterton:** The training of their staff is a matter for each individual national health service ambulance trust. We would expect them to take account of national recommendations and requirements. Driver instructors are trained and qualified to a United Kingdom standard approved by the Institute of Healthcare Development.

### Asthmatics (Aspirin)

**Mr. Jenkins:** To ask the Secretary of State for Health what action his Department is taking to highlight the risk to asthmatics from taking aspirin. [160072]

**Dr. Ladyman:** All licensed aspirin products available over the counter currently have label warnings and/or patient information leaflets advising patients with previous asthma (especially after taking aspirin) not to take the product or to consult their doctor before use.

Labels and patient information leaflets advise patients with known allergy to aspirin not to take aspirin containing products.

### Infant Formula

**Sandra Osborne:** To ask the Secretary of State for Health what measures are being taken to tighten the implementation of the World Health Organisation code in the United Kingdom to prohibit aggressive Infant Formula marketing strategies. [157999]

**Miss Melanie Johnson:** In line with the International Code of Marketing of Breastmilk Substitutes, advertising of infant formulas directly to the general public is already prohibited by the Infant Formula and Follow-on Formula Regulations. Enforcement of these regulations is carried out by local authorities.

### Community Care (Delayed Discharges etc.) Act

**Mr. Burns:** To ask the Secretary of State for Health how much money Essex Social Services Department had to pay in fines under the Community Care (Delayed Discharges etc.) Act 2003 from when it came into operation to 29 February. [160275]

**Dr. Ladyman:** Essex Social Services Department arranged local investment agreements with the national health service in line with levels of delay for September 2003 and will only pay charges once they exceed this level of investment.

### Dementia

**Lynne Jones:** To ask the Secretary of State for Health what estimate he has made of the cost of providing free domestic and residential nursing and personal care for people suffering from *(a)* Alzheimer's Disease and *(b)* other forms of dementia. [160111]

**Dr. Ladyman:** Since April 2003, anyone in a care home with Alzheimer's or another form of dementia who requires care from a registered nurse will have received either direct national health service nursing care from the community nursing service or NHS funded nursing care.

The estimated cost of providing free personal care for people with Alzheimer's (approximately 30 per cent., of care home residents) would be somewhere in the region of

£500 million. The estimated cost of providing free personal care for people with dementia, including Alzheimer's (around 60 per cent. of care home residents), would be somewhere in the region of £1 billion.

### Dentistry

**Mr. Burstow:** To ask the Secretary of State for Health what representations he has received regarding NHS dentists who only accept NHS registrations of children if their parents register privately; and if he will make a statement. [154435]

**Ms Rosie Winterton:** Information is not collected on the number of dentists accepting only certain categories of patients. However, very few dental practices have only children registered as national health service patients.

Dentists working in the general dental service are self-employed independent contractors providing dental services. Under current arrangements dentists can practice wherever they like, as there are no restrictions. They are free to accept as many or as few NHS patients as they wish and can alter their NHS commitment without reference to the primary care trust (PCT). They can quite legally accept only certain categories of patients (for example, children).

Under the provisions in the Health and Social Care (Community Health and Standards) Act 2003, PCTs will assume responsibility for dental services in this area. With these new responsibilities will go the financial resources currently held centrally, which by 2005–06 are expected to total nearly £1.5 billion. The new arrangements will give the NHS greater control locally enabling it to match services to local need. They will underpin a modernised, high-quality primary dental service provided through new contracts between PCTs and dental practices and properly integrated with the rest of the NHS.

**Mr. Amess:** To ask the Secretary of State for Health what steps his Department is taking to encourage more applicants for dentistry degrees. [157697]

**Ms Rosie Winterton:** Dentistry is already a popular choice for A-level students, with nearly two applications received for every place available in dental schools. In 2003 the NHS Careers service was extended to provide information to the public on careers in dentistry and, earlier this year, we published a new NHS Careers brochure, "Dental Care in the NHS", which has been distributed to schools, further education colleges, youth employment advisers and other agencies working with young people. Copies will be placed in the Library.

### Disability Discrimination Act

**Mr. Goodman:** To ask the Secretary of State for Health what measures his Department is taking to prepare health service providers for the implementation of the parts of the Disability Discrimination Act 1995 which come into effect later this year. [160693]

**Dr. Ladyman:** National health service organisations are responsible for their own compliance with the new (and existing) provisions of the Disability Discrimination Act. The Department of Health is, however, working in partnership with the Disability Rights Commission on a range of measures to support the NHS in assessing and improving progress on disability access. These measures include, for example, ensuring that core practical guidance is readily available to the NHS and contributing to the development of health sector-specific guidance being produced by the Disability Rights Commission.

### Food Supplements

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what *(a)* public and *(b)* professional consultation has been undertaken on which vitamins and supplements are used regularly in the UK in connection with preparing for the EU's Food Supplements Directive. [158569]

**Miss Melanie Johnson:** During negotiations on Directive 2002/46/EC on food supplements and when drafting the Food Supplements (England) Regulations 2003, the Food Standards Agency consulted publicly with a wide range of stakeholders. The results of those consultations are summarised in the Regulatory Impact Assessment accompanying the Regulations, which is available in the Library.

**Mr. Jim Cunningham:** To ask the Secretary of State for Health how his Department has contributed to the discussions at EU level on vitamins and supplements being placed on the EU's positive list. [158570]

**Miss Melanie Johnson:** Directive 2002/46/EC on food supplements includes in its Annexes 'positive lists' defining the vitamins and minerals that may be included in food supplements as well as the range of forms (chemical sources) of vitamins and minerals which may be used in such products. Substances on the positive lists have been assessed for safety and bio-availability by the former Scientific Committee for Food and more substances may be added to the lists following submission of dossiers of information supporting their use.

The Food Standards Agency (FSA) secured a valuable meeting between representatives of United Kingdom food supplements manufacturers and the European Food Safety Authority (EFSA) on 14 October 2003 to discuss dossier requirements, and has disseminated EFSA's advice to interested parties. Furthermore, the FSA has expressed its willingness to provide further advice to industry on dossier production if required.

### Illegal Drugs

**Mrs. Iris Robinson:** To ask the Secretary of State for Health what assessment he has made of the possible link between illegal drug use and the development of psychosis later in life; and if he will make a statement. [152364]

**Miss Melanie Johnson:** Recent research of note in this area has explored whether there is any causative link between early cannabis use and later development of psychosis, but such a link has not been conclusively proven. However, the recent epidemiological research on the issue of earlier use of cannabis and risk of later development of schizophrenia, 'schizophrenic symptoms' and 'schizophreniform disorder' has shown a stronger association than was previously evident from

published studies. The British Medical Journal editorial accompanying the publication of key research papers in November 2002 concluded that:

> "whether the use of cannabis triggers the onset of schizophrenia or depression in otherwise vulnerable people or whether it actually causes these conditions in non-predisposed people is not yet resolved."

While a number of illegal drugs, particularly amphetamines and cocaine (and to a lesser degree cannabis), are well-recognised in causing short-lived psychotic symptoms and signs there is no conclusive proof of causation of psychosis in later life. It is difficult to exclude confounding factors in carrying out such long-term research on, where such drug use would also be only one of a number of risk factors. It is also difficult to differentiate the role of such drugs in possibly precipitating psychosis in a pre-disposed individual from causation in someone not otherwise pre-disposed.

The Department has commissioned the National Addiction Centre to review the evidence regarding the harmful effects of drugs of abuse and this is published as a Department of Health document, Dangerousness of drugs (2003). This describes a wide range of harmful effects of illegal drugs. A copy is available in the Library.

It is widely recommended by clinicians that anyone at risk of psychosis should avoid any drugs that can cause acute psychotic symptoms.

The Department continues to monitor research in this area and has a range of expert advisors to continue to inform policy.

### Low Fat Diets

**Mr. Hancock:** To ask the Secretary of State for Health what research his Department has *(a)* commissioned and *(b)* evaluated on low fat diets free from animal products. [156810]

**Miss Melanie Johnson:** The Department has not commissioned or evaluated research on low fat diets free from animal products. The Oxford cohort of the European Prospective Investigation into Cancer and Nutrition (EPIC-Oxford) has been supported by Cancer Research UK, the Medical Research Council and the Europe Against Cancer Programme of the Commission of the European Community. Findings from EPIC-Oxford data have shown that diets free from animal products are associated with lower levels of obesity than diets which include meat. The Medical Research Council spent £17.1 million in 2001–02 on nutrition research.

### Mental Health

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his answer of 2 February 2004, *Official Report*, column 688W, on mental health, how many of the 700 carer support workers are *(a)* new staff and *(b)* existing staff with expanded or adapted roles; and if he will make a statement. [154987]

**Ms Rosie Winterton:** The commitment to recruit 700 carer support workers by 2004 to increase the breaks available for carers, and to strengthen carer support networks is part of the Priorities and Planning Framework 2003–06 which identified the targets set for services in the three year period.

Recruitment is a local responsibility. We cannot say whether the 700 carer support workers will all be additional to existing national health service staff. Guidance on developing carer support services was published in 2002.

### Nebulisers

**Mr. Hurst:** To ask the Secretary of State for Health if he will make a statement on the availability of nebulisers for NHS patients on prescription. [159722]

**Ms Rosie Winterton:** Nebulisers are not available on national health service prescription. It is long-standing policy that such items should be loaned to patients from specialist NHS services.

### Nursing Homes

**Mr. Cousins:** To ask the Secretary of State for Health whether he plans to continue the use of lay assessors in the monitoring of quality of nursing and care homes. [160219]

**Dr. Ladyman:** This will be a matter for the Commission for Social Care Inspection (CSCI), a new non-departmental public body, which will be operational from 1 April 2004. The CSCI will be reviewing how it works with lay assessors in due course.

### Parliamentary Questions

**Norman Baker:** To ask the Secretary of State for Health how many parliamentary questions have been tabled to his Department since 1 January 2003, broken down by *(a)* ordinary written and *(b)* named day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157747]

**Ms Rosie Winterton:** Between 1 January 2003 and 27 February 2004, 8,058 ordinary written and 1,458 named day parliamentary questions were tabled to the Department of Health.

Using the information readily available the average time taken to answer an ordinary written parliamentary question was 15.5 calendar days; and approximately 30 per cent. of named day parliamentary questions received an answer by the specified date.

The Department strives to answer right hon. and hon. Members' questions in a timely and helpful fashion and is currently seeking to improve performance.

### Patient Forums

**Mr. Burstow:** To ask the Secretary of State for Health what *(a)* assessment he has made and *(b)* representations he has received on the impact of benefits rules on the participation of disabled people in patient forums. [158508]

**Ms Rosie Winterton:** We have not received any representations about the impact of the benefit rules on the participation of disabled people in patients forums and no assessment of the impact has been made.

### Processed Meals

**Mr. Burstow:** To ask the Secretary of State for Health what research his Department has commissioned into the level of consumption of processed meals; and if he will make a statement. [157594]

**Miss Melanie Johnson:** The Department has not commissioned research into the level of consumption of processed meals. The National Diet and Nutrition Survey programme is a joint initiative between the Department and the Food Standards Agency. The survey covers consumption of different food types by individuals, including processed products such as breakfast cereals and baked beans.

The Expenditure and Food Survey (EFS) is commissioned jointly by the Office for National Statistics and the Department for Environment, Food and Rural Affairs (Defra). Results from EFS presented in the report, Family Food in 2001–02, show that consumption of meat-based ready meals, including takeaways consumed in the household, increased by 15 per cent. in comparison to 2000–01, which represents a 70 per cent. increase compared to 1996–97. The report is available on the Defra website at http://statistics.defra.gov.uk/esg/.

### Psychiatric Wards (Delayed Discharges)

**Sue Doughty:** To ask the Secretary of State for Health what plans he has to extend arrangements for charging social services departments for delayed discharges from psychiatric wards. [160047]

**Dr. Ladyman:** We intend to extend the system of reimbursement for delayed discharges to all hospital patients in a phased way, based on a consideration of the benefits for each group of patients. However, further parliamentary debate would be required to extend the scope to include mental health patients.

### Restructuring and Change Programme

**Mr. Norman:** To ask the Secretary of State for Health pursuant to his answer of 12 February 2004, *Official Report*, column 1699W, on the Restructuring and Change programme, how many of the 1,400 staff will *(a)* be made redundant, *(b)* retire and *(c)* be lost due to natural wastage. [158129]

**Ms Rosie Winterton** *[holding answer 2 March 2004]:* The number of staff who will be made redundant is not yet known. It will be determined by the levels of natural wastage, the take-up of any voluntary early severance/retirement scheme and the extent to which it is possible to re-deploy staff in the civil service.

**Mr. Norman:** To ask the Secretary of State for Health pursuant to the answers of 12 February 2004, *Official Report*, column 1699W, and 23 February 2004, *Official Report*, column 297W, on the restructuring and change programme, how many of the 1,400 staff will be redeployed or transferred to departmental arm's length bodies or agencies. [158205]

**Ms Rosie Winterton:** We estimate that 415 posts will transfer to the departmental arm's length bodies.

### Social Workers

**Mr. Burstow:** To ask the Secretary of State for Health what targets his Department has set for recruitment of social workers. [159741]

**Dr. Ladyman:** The Department's national planning guideline is to recruit an additional 50,000 whole time equivalent people into the social care workforce, which includes 5,000 social workers by 2005–06.

As an incentive to train as a social worker, a bursary is available to all students who are not supported by their employer. The introduction of a degree in social work will also help to make this a more attractive career choice.

### Step Change

**Mr. Gardiner:** To ask the Secretary of State for Health (1) when the review of Step Change will occur; and how long the review will take; [155393]

(2) whether the review of Step Change will be made public; and who will consider its findings. [155395]

**Miss Melanie Johnson:** A ministerial committee has been set up to co-ordinate policy on imports of animals, plants, fish and their products, which will include a review of the Step Change. The timing of the review, and how it is publicised, are matters for the committee to decide.

### Subutex

**John Mann:** To ask the Secretary of State for Health what assessment he has made of the use of Subutex in drugs treatment. [153982]

**Miss Melanie Johnson** *[holding answer 9 February 2004]:* Subutex is licensed for use in the treatment of opiate dependency, which is included in the clinical guidelines on the management of drug misuse and dependence issued by the Department in 1999. The Department has also made it possible for doctors to prescribe Subutex for instalment dispensing, to ensure there is no disincentive for its use as compared to methadone. While there are recognised advantages, there are also disadvantages to its use. There is a clear risk of Subutex being abused by injection. Methadone liquid appears more suitable for severely dependent opiate addicts. It is for clinicians to determine the appropriate use of Subutex for patients.

### Westminster Hall

**Bob Spink:** To ask the Secretary of State for Health if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [159617]

**Ms Rosie Winterton:** I refer the hon. Member to the answer given by my right hon. Friend the Leader of the House of Commons on Monday 8 March 2004, *Official Report*, column 1234W.

## CONSTITUTIONAL AFFAIRS

### Council of the Isles

**Mr. Paul Marsden:** To ask the Parliamentary Secretary, Department for Constitutional Affairs when the Council of the Isles last met; and when it will next meet. [159478]

**Mr. Leslie**: The Council of the Isles is known as the British-Irish Council. The Council last met on 28 November 2003 at a Summit at St. Fagans in Cardiff. The Council next meet in July for ministerial level meetings to discuss the Environment and Social Inclusion sectoral work strands. The next Summit is planned for autumn 2004 in Guernsey.

### Departmental Communications

**Matthew Taylor:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what the total expenditure on communications for his Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158207]

**Mr. Lammy**: The Department for Constitutional Affairs (DCA), which includes its agencies—the Court Service and the Public Guardianship Office (PGO)—employs 60 staff in communications work. This figure comprises 24 staff of the Government Information and Communication Service (GICS) and 36 others.

| | *Amount (£)* |
|---|---|
| *Department for constitutional affairs HQ* | |
| *(a)* GICS | 918,187 |
| *(b) Other staff* | |
| (i) Press officers[1] | 35,232 |
| (ii) Special advisers | [2]— |
| (iii) Others | 351,979 |
| *Court service* | |
| *(a)* GICS | 0 |
| *(b) Other staff* | |
| (i) Press officers | 0 |
| (ii) Special advisers | 0 |
| (iii) Others | 603,185 |
| *Public Guardianship Office* | |
| *(a)* GICS | 0 |
| *(b) Other staff* | |
| (i) Press officers[1] | 63,150 |
| (ii) Special advisers | 0 |
| (iii) Others | 80,525 |

[1] Non GICS.

[2] The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of Special Advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

*Notes:*

1. All figures include forecast expenditure for February and March 2003–04.

2. 'Others' includes staff working on publications, publicity, internal communications, websites and administration.

### Election Turnouts

**Mark Tami:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what the *(a)* lowest and *(b)* highest turnout in a local authority election was in the last five years. [156445]

**Phil Hope:** I have been asked to reply.

Turnout at local authority elections is not recorded centrally and the specific figures requested could be provided only at disproportionate cost. However a source of information that may be useful to the hon. Member is the Local Elections Handbook which is published annually by the Local Government Chronicle Elections Centre at the University of Plymouth which contains turnout figures for local authority elections.

## FOREIGN AND COMMONWEALTH AFFAIRS

### Afghanistan

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is regarding the role that former Taliban members should play in the future government of Afghanistan; and what his policy is regarding proposals for an amnesty for those Taliban members deemed no longer to constitute a terrorist threat. [159505]

**Mr. Straw** *[holding answer 10 March 2004]:* The UK believes that national reconciliation is an important element in the process of rebuilding Afghanistan. It must be an Afghan-led process and one which is transparent. We would oppose the rehabilitation of the Taliban's senior leadership. Taliban who were involved in war crimes, terrorism, or engaged in violent opposition to the Coalition or the Bonn Process, should be brought to justice. The treatment of other former Taliban who no longer constitute a threat is a matter for the Afghan authorities.

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Government have made of the progress needed on security for elections to proceed in Afghanistan on 30 June; and if he will make a statement. [159888]

**Mr. Straw:** Security will be one of the key ingredients in facilitating successful and credible elections, including the electoral registration process currently underway. It is for the Afghan Government to lead on ensuring the elections are held in a secure environment. But they will require international support and assistance. Security is already being provided for the voter registration process. The Afghan Transitional Administration are also working with the United Nations, the International Security Assistance Force (led by NATO), and the US-led Coalition to put the necessary security structures in place for the elections themselves. No date has yet been announced for elections to be held.

**Mr. Jenkins:** To ask the Secretary of State for Foreign and Commonwealth Affairs what action the Department is taking to support the UN plan to hold elections in Afghanistan this summer. [160221]

**Mr. Mike O'Brien:** The UK has committed £9 million to supporting the UN preparations for elections. Of this £9 million, £3 million has already been dispersed. The UK is also encouraging other donors to contribute to supporting preparations for the elections through funding, and through providing resources to the International Security Assistance Force to enable it to support the Afghan government in providing security for the elections.

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance the UK is giving to British businesses considering investing in Afghanistan; and what discussions he has had regarding the underwriting of risk for such businesses. [160229]

**Mr. Straw:** The Government, through UK Trade and Investment and the British embassy in Kabul provides direct assistance and advice on local business conditions including security advice to businesses wishing to invest in Afghanistan.

Export Credits Guarantee Department (ECGD) is currently unable to offer political risk insurance to UK companies investing in Afghanistan under its Overseas Investment Insurance scheme. ECGD judge that the political and economic situation in Afghanistan is too unstable to allow them to provide such cover. ECGD is however monitoring developments in Afghanistan and expects to conduct a market review in the latter part of 2004, following the proposed elections late this year.

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many additional *(a)* soldiers and *(b)* officials the Government are planning to send to Afghanistan to ensure stability in the build up to and during the proposed elections in that country. [160236]

**Mr. Straw:** It is the responsibility of the Afghan Transitional Administration to provide security for the forthcoming elections. The UK is supporting the election preparations through funding of £10.4 million for the UN electoral preparations plan and through the role of the UK-led Provincial Reconstruction Team (PRT) in Mazar-e Sharif. The Mazar-e Sharif PRT has 90 British soldiers.

My right hon. Friend the Secretary of State for Defence announced on 7 February 2004 that the UK would support NATO efforts to play a wider role in Afghanistan by increasing support to PRTs (a copy of which is available at www.securityconference.de > conferences > 2004 > speeches > Hoon,Geoffrey). The number of British soldiers likely to be involved has not yet been finalised. The International Security Assistance Force (ISAF) is also considering a role in support of the elections. The UK currently contributes 350 soldiers to ISAF but no decision has been made on possible future contributions.

The UK is also supporting the EU Commission's intention to send a team of election observers to Afghanistan, and is currently funding an expert to participate in the ongoing EU exploratory mission on election observation, with a particular focus on women's participation in the elections.

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the 15 May Bishkek Conference on stability in Afghanistan; and what discussions he has had with other governments regarding the conference. [159887]

**Mr. Straw:** We welcome the proposal to hold a conference in Bishkek, involving Afghanistan and other countries in the region. Closer co-operation on trade, development and efforts to tackle illegal activities such as narcotics production and trafficking will enhance stability in the region. The conference will complement the regional commitment to the Good Neighbourly Relations Declaration signed in December 2002, and the related Declaration on Trade, Transit and Investment and Counter-Narcotics signed in September 2003.

We regularly discuss a wide range of issues concerning Afghanistan, including regional co-operation, with other governments and international organisations.

### Burundi

**Mr. Jenkins:** To ask the Secretary of State for Foreign and Commonwealth Affairs what action his Department is taking to support the Arusha Accord, with particular reference to the stipulation within the Accord for elections to take place before the end of October. [160081]

**Mr. Mullin:** The UK strongly supports the Arusha accord and has provided political and financial support to Burundi since the Accord was signed in 2000. In financial year 2003–04, the UK has made £11.6 million available for Burundi. We provided £3.7 million to supply equipment to the Mozambican contingent of the African Mission in Burundi.

We recognise that there are many issues which need addressing before elections can be held satisfactorily and continue to encourage the government of Burundi to work to resolve them.

### Butler Committee

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many individuals have expressed an interest in submitting evidence to the Butler Committee on intelligence; and how many independent submissions have been received to date. [159942]

**Mr. Rammell:** This is a matter for the Butler Review Committee.

### Chad

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Chad over the level of forced migration into Chad from the Sudan. [160185]

**Mr. Mullin:** Our embassy in Khartoum has discussed the conflict in Darfur with the Chadian embassy in Khartoum. We are also in close contact with the United Nations High Commission for Refugees (UNHCR) in Geneva and their field teams in eastern Chad. The Department for International Development is one of the largest donors to UNHCR operations in Chad for

Sudanese refugees, having provided £1 million in October 2003 in response to the initial US$16 million appeal.

### Colombia

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the EU Commissioner for external relations regarding the Colombian Government's democratic security policies and Colombia's compliance with UN human rights recommendations; and if he will make a statement on areas of disagreement between the UK Government and the Commissioner. [159606]

**Mr. Rammell:** We followed closely the recent visit to Colombia of the EU Commissioner for External Relations which took place in January. We have no differences in view with the Commissioner about Colombia. The EU's latest position on Colombia—with which the UK is fully aligned—was set out in Conclusions of the General Affairs and External Relations Council of 26 January, following the Commissioner's visit.

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the Government will take in response to non-compliance of the Colombian Government with UN human rights recommendations. [159646]

**Mr. Rammell:** The British Government keep in close touch with the Office of the UN High Commissioner for Human Rights on Colombia and we take careful note of the matters raised in relevant UN reports on the situation in Colombia. The recommendations of the UN High Commissioner for Human Rights remain a key issue for follow up to the London Declaration of July 2003. The UK and its EU partners have made clear to the Colombian Government the importance of progress on these areas. We await the next Report of the UN High Commissioner for Human Rights on Colombia which is due to be published shortly. Its conclusions will assist the UK, the EU and the rest of the international community to focus on priority areas where further progress is needed.

### Correspondence

**Mr. Kaufman:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he intends to reply to the letter to him dated 10 November 2003 from the right hon. Member for Manchester, Gorton with regard to M. Sam. [159983]

**Mr. Mullin:** I refer my right hon. Friend to my answers of 18 December 2003, *Official Report*, column 1107W, and 6 January 2004, *Official Report*, columns 240–41W. My right hon. Friend the Foreign Secretary replied to my right hon. Friend's letter on 16 December 2003.

### Environmentally Sustainable Procurement

**Mr. Sheerman:** To ask the Secretary of State for Foreign and Commonwealth Affairs in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159103]

**Mr. Rammell:** The Foreign and Commonwealth Office (FCO) has a Sustainable Procurement policy which promotes the purchase of recycled products (such as paper and toner cartridges); sustainably grown timber for construction and office furniture; and fair trade goods (such as coffee, tea and chocolate) for sale in the FCO restaurants and shop. We ensure that FCO contracts include environmental requirements. We are for example currently considering with potential suppliers if our existing computer printers, photocopiers and fax equipment can be replaced with more energy-efficient multifunctional devices. We also buy "green electricity" which supports the development of renewable energy sources.

### European Union

**Mr. Roy:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had on reform of the EU's institutions to make enlargement work. [160254]

**Mr. MacShane:** My right hon. Friends the Prime Minister, the Foreign Secretary and I have regular discussions with our European Colleagues on developments in the European Union, including on institutional issues. The Irish Presidency will report back to the European Council on 25–26 March 2004 on its assessment of the prospects for progress in the Intergovernmental Conference, on the basis of its consultations with member states.

**Mr. Roy:** To ask the Secretary of State for Foreign and Commonwealth Affairs what measures are being considered in the context of the Intergovernmental Conference to reform the working of the EU to make it more *(a)* effective and *(b)* accountable. [160265]

**Mr. MacShane:** I refer my hon. Friend to Cm5934, the Government's White Paper on their approach to the Intergovernmental Conference (IGC). Chapter IV ("The Convention Outcome and Detailed Issues of the IGC", especially paragraph 42) sets out details of a number of measures under consideration in the IGC designed to make the EU more effective and accountable. Copies of the paper are available in the Library of the House.

### Falkland Islands

**Mr. Ben Chapman:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the sustainability of the economy of the Falkland Islands. [159873]

**Mr. Rammell:** Through careful management of its fishery industry, the Falkland Island Government generates over £20 million per annum in licence fees. Other sectors such as agricultural production also remain important. The Falklands economy has grown rapidly since 1982 and the Falkland Island Government continues to work to ensure that it remains diverse and sustainable for the future. This includes the continued development of sectors such as tourism and mineral resources. With the exception of defence costs, the Falkland Islands receive no grant in aid from Her Majesty's Government.

### Gibraltar

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much money his Department has spent on the tercentenary celebrations in Gibraltar. [160694]

**Mr. MacShane:** At this early stage in Gibraltar's tercentenary year, Foreign and Commonwealth Office expenditure on tercentenary events has been limited to the cost of Foreign and Commonwealth Office staff time devoted to the issue.

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs what role he has agreed with the Chief Minister of Gibraltar the Foreign and Commonwealth Office will play in the tercentenary celebrations. [160695]

**Mr. MacShane:** This is a matter for the Gibraltar Government.

### International Criminal Court

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the operation to date of the International Criminal Court. [159936]

**Mr. Rammell:** The International Criminal Court (ICC) was established by the Rome Statute, which entered into force on 1 July 2002. Work began shortly afterwards to prepare for the appointment of officials to the court's three main organs; the chambers (comprising 18 judges), the Office of the Prosecutor and the Registry.

The judges were subsequently elected in February 2003, the Prosecutor (Luis Moreno Ocampo, Argentina) was elected in April 2003 and the Registrar (Bruno Cathala, France) was elected in June 2003. The court opened for business with the swearing in of the prosecutor on 16 June 2003 followed by the swearing in of a Deputy Prosecutor (Serge Brammertz, Belgium) on 3 November 2003.

The prosecutor has yet to start his first formal investigation. He has been conducting preliminary examinations into the situations in Ituri (Eastern Democratic Republic of Congo) and northern Uganda. In December 2003, the Ugandan Government referred the situation in northern Uganda to the ICC. The prosecutor then announced in January 2004 that he would consider that situation further in order to determine whether to proceed with a formal investigation.

The UK is fully committed to supporting the ICC and is engaged in dialogue with the court at official level to consider ways of providing effective practical support.

### Iran

**Mr. Jenkins:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the Iranian Government regarding the closure of the Yas-e-no and Sharq newspapers. [160080]

**Mr. Rammell:** We have not discussed the closure of these two newspapers in particular. But we have on many occasions made clear our concern at restrictions on free expression in Iran. The Iranian Government's failure over recent months to agree dates in early March for the regular meeting of the EU/Iran human rights dialogue has deprived the EU of a channel through which concerns on matters such as this would normally be raised. We regret that Yas-e no remains closed; Sharq reopened on 28 February.

### Israel

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the United Kingdom regards Israel as being in the possession of a deployable nuclear arsenal. [159975]

**Mr. MacShane:** We have regularly made clear that Israel should resolve international speculation about its nuclear programme by acceding to the Nuclear Non-Proliferation Treaty as a non-nuclear weapons state and by signing a nuclear safeguards agreement with the International Atomic Energy Agency, thus opening up its facilities to international inspection.

### Kenny Richey

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the United States Administration about the case of Kenny Richey. [160165]

**Mr. Mullin:** We are in touch with Mr. Richey's lawyers both in the USA and the UK, as well as with Ohio State officials. We continue to monitor his case closely to determine what representations might be made on his behalf, and the appropriate time to make them, and will do all we properly can to try to prevent Mr. Richey's execution.

### Maldives

**Mr. Laxton:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the arrests of members of the Maldivian Democratic Party on 13 February by the Maldivian authorities; and on the extent to which human rights are protected in the Maldives. [159859]

**Mr. Mike O'Brien:** We are aware that the Maldivian authorities arrested an unconfirmed number of people in the capital Malé on 13 February in advance of a demonstration planned for 14 February by those sympathetic to the Maldivian Democratic Party. We look to the Government of the Maldives to charge those arrested promptly, in accordance with local law, or to release them. We have concerns about the protection of human rights in the Maldives, including the right of freedom of expression. We will continue to raise these concerns with the Government of the Maldives.

### Middle East

**Mr. Clappison:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the Palestinian Authority's policy towards security and terrorism. [159669]

**Mr. Rammell:** The Palestinian Authority can do more to control Palestinian terrorist groups and improve security for both Israelis and Palestinians. We are in close touch with them about how to achieve this.

**Mr. Clappison:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made regarding the Al-Aqsa Brigade and Fatah and responsibility for terrorist attacks. [159945]

**Mr. Rammell:** We have no reason to doubt the Al-Aqsa Brigades' claims of responsibility for a number of terror attacks. While they proclaim their loyalty to Fatah, we do not judge that these attacks are sanctioned or approved by the Fatah leadership.

### Morocco

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make representations to the Government of Morocco concerning Ali Salem Tamek. [160187]

**Mr. Rammell:** Officials and Ministers regularly call upon the parties to the Western Sahara dispute to take action on human rights issues.

We have in the past brought our concerns about the case of Ali Salem Tamek to the attention of the Moroccan authorities. Ali Salem Tamek was released from custody in January 2004. We continue to monitor the situation closely, and will take action with the appropriate authorities where necessary.

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the *(a)* security situation in Western Sahara and *(b)* impact of Moroccan migration into the territory. [160188]

**Mr. Rammell:** The UN-monitored ceasefire in Western Sahara has held for over a decade and the security situation remains stable.

Demographic changes in Western Sahara have been a factor in all the proposals on the future of the territory. We continue to urge all parties to engage flexibly with the UN Secretary-General and his personal representative, James Baker III.

### Nuclear Materials

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs what funding the United Kingdom has provided to the International Atomic Energy Agency's nuclear materials tracking programme in each year since 2001. [159947]

**Mr. MacShane:** The UK has contributed a total of £750,000 to the International Atomic Energy Agency's Nuclear Security Fund. This has been contributed at a flat rate of £250,000 per annum in 2002, 2003 and 2004.

### Polisario Front

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent release of Moroccan prisoners of war by the Polisario Front; and if he will make a statement on the Sahrawis that have yet to be accounted for. [160186]

**Mr. Rammell:** We welcome the recent release of 100 Moroccan prisoners of war by the Polisario front and urge the Polisario to release the 513 remaining prisoners in their custody without delay.

We have encouraged all parties to co-operate with the International Committee of the Red Cross to account for those missing in the conflict.

### Russia

**Mr. Simon Thomas:** To ask the Secretary of State for Foreign and Commonwealth Affairs what formal consultation has been undertaken by his Department on the Sakhalin II phase 2 oil and gas project. [158272]

**Mr. Rammell:** The Export Credits Guarantee Department (ECGD), under the supervision of my hon. Friend the Minister for Trade and Investment leads on the formal aspects of the consultation process, including on environmental issues. However, due to the role that the Foreign and Commonwealth Office fulfils in supporting export promotion, we have also been closely involved in discussion of this project with the ECGD, DEFRA, UK Trade and Investment and the DTI, as well as Shell.

### Tibet

**David Taylor:** To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to meet the Dalai Lama during his forthcoming visit to the UK. [160261]

**Mr. Rammell:** My right hon. Friend the Foreign Secretary intends to meet the Dalai Lama during the latter's visit to the UK.

### United Nations

**Harry Cohen:** To ask the Secretary of State for Foreign and Commonwealth Affairs what information has been provided by Her Majesty's Government to the Secretary-General of the United Nations pursuant to paragraph 2 of the General Assembly resolution 58/48; and if he will make a statement. [159418]

**Mr. MacShane:** The Government have not so far written to inform the UN Secretary-General of the extensive measures which the UK has put in place to prevent terrorists from acquiring weapons of mass destruction and related technologies. The Government have, however, included much relevant information in their reports to the UN Counter-Terrorism Committee, available on the UN website at www.un.org.

**Mr. Roy:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had on reform of the UN. [160269]

**Mr. Rammell:** I refer my hon. Friend to my statement on UN reform on 11 September 2003, *Official Report*, columns 139–47WH, and the "United Kingdom in the United Nations" Command Paper (Cmnd 5898) published in September 2003, a copy of which has been placed in the Library of the House.

The Government are firmly committed to reform of the United Nations. As an active UN member, the UK conducts regular exchanges with the UN and other member states on reform. We are working to create a more efficient United Nations better equipped to meet the challenges of the modern world and deliver the objectives established in the Millennium Declaration.

We support the work of the Secretary-General's High Level Panel which is looking into threats to peace and security and the UN response to them.

### Visa Applications

**Mr. Flook:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many visa applications to British consulates in *(a)* Slovakia, *(b)* Turkey and *(c)* Croatia were (i) received and (ii) processed in each year since 1990. [159742]

**Mr. Mullin:** The following table shows figures for the number of entry clearance applications received and resolved in Slovakia, Turkey and Croatia since 1997. Figures for the years before 1997 are not readily available.

| | *Slovakia* | | *Turkey* | | *Croatia* | |
|---|---|---|---|---|---|---|
| | *Received* | *Resolved* | *Received* | *Resolved* | *Received* | *Resolved* |
| 1997 | 401 | 369 | 65,056 | 60,528 | 841 | 851 |
| 1998 | 6,082 | 5,548 | 67,868 | 64,865 | 342 | 336 |
| 1999 | 22,838 | 19,700 | 63,565 | 46,596 | 2,435 | 2,354 |
| 2000 | 22,270 | 21,436 | 68,638 | 64,516 | 13,490 | 13,489 |
| 2001–02 | 20,051 | 18,226 | 54,086 | 50,524 | 13,988 | 13,892 |
| 2002–03 | 22,419 | 21,742 | 63,493 | 62,326 | 15,304 | 15,317 |

Since 2001, statistics have been collated by financial year (1 April to 31 March) rather than calendar year.

The numbers of applications received and resolved do not always tally. Applications that are recorded as being received in one accounting period may be carried forward for resolution in the next. It is therefore possible to resolve more applications during a period than were received for the same period. Figures show that fewer applications tend to be resolved than received. The method of recording the statistics accounts for this: a mother and three children on one passport may count as four applications received, but only one entry clearance resolved. Also, some applications will be counted as received that are subsequently withdrawn and therefore not counted as resolved.

Visa regimes were imposed on Slovakia on 8 October 1998, on Turkey on 23 June 1989 and on Croatia on 19 November 1999. The visa regime on Slovakia was lifted on 18 December 2003.

### Zimbabwe

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs what action can be taken against UK national companies involved in business with Zimbabwean companies classed as SDNs under United States Executive Order 13288; if he will make a statement on the extension of EU sanctions to include such measures; and when he expects EU sanctions to match those of the US. [159889]

**Mr. Straw:** On 21 February 2004 the EU's restrictive measures were renewed and extended to a larger number of Zimbabwean individuals who are responsible for policies that lead to the suppression of human rights, of the freedom of expression and of good governance. One of the measures is an assets freeze against a new list of 95 individuals. The US has similar measures against only 77 individuals. It would therefore be a backward step for the EU's measures to "match" those of the US in this regard.

On 3 March, the US announced that it was also freezing the assets of seven companies, controlled by three of Mugabe's closest confidantes—Information Minister Moyo, Speaker Mnangagwa and ex-Army Chief Zvinavashe. The UK and EU have already frozen the identifiable assets of those individuals. The EU measures target individuals, not companies. The UK and other member states have taken the view that targeting companies risks harming ordinary Zimbabweans who are already suffering under the present regime.

## DEPUTY PRIME MINISTER

### Adjudication Panel

**Mr. Nigel Jones:** To ask the Deputy Prime Minister how many cases have been referred to the Adjudication Panel by the Standards Board for England in each month since its establishment; how many have been determined; how many have yet to be determined; how many of the cases relate wholly to a failure of a member of a parish council to complete the council's Register of Member Interests; if he will list the complaints made in the remaining cases; and what the decision of the Adjudication Panel was in the determined cases. [160044]

**Mr. Raynsford:** A total of 195 cases have been referred to the Adjudication Panel for England between October 2002 and February this year. Of those 173 have been determined. The remaining 22 cases have yet to be determined. The following table shows the breakdown by month:

| | *Number of cases* |
|---|---|
| *2002* | |
| October | 1 |
| November | 19 |
| December | 25 |
| Total | 45 |
| *2003* | |
| January | 15 |
| February | 38 |
| March | 13 |
| April | 9 |
| May | 26 |
| June | 10 |
| July | 4 |
| August | 2 |
| September | 11 |
| October | 7 |

| | Number of cases |
|---|---|
| November | 0 |
| December | 7 |
| Total | 142 |
| *2004* | |
| January | 0 |
| February | 8 |
| Total | 8 |

128 cases related to breaches of the requirement to complete the Register of Interests by Parish Councillors. The following table shows the type of complaint made in the remaining cases and the outcome (in some cases more than one type of complaint is raised).

| Nature of complaint | Number |
|---|---|
| Failure to promote equality—unlawful discrimination | 3 |
| Failure to treat others with respect | 21 |
| Compromise impartiality of authority employees | 7 |
| Disclosure of confidential information | 6 |
| Bringing office or authority into disrepute | 37 |
| Using position to confer or secure advantage or disadvantage | 14 |
| Failure to use resources in accordance with requirements | 7 |
| Failure to report another member | 1 |
| Failure to disclose a personal interest | 19 |
| Prejudicial interest—failure to withdraw | 23 |
| Total | 138 |

In the 173 cases heard to date, the Adjudication Panel found that there had been no breach of the code in six cases, and declined to impose sanctions in a further six. In the other cases Members were disqualified, or suspended as tabled:

| Period of disqualification or suspension | Number of members |
|---|---|
| Member disqualified up to 1 month | 2 |
| Member disqualified for 1 to 6 months | 4 |
| Member disqualified for 1 year | 100 |
| Member disqualified for 18 months | 4 |
| Member disqualified for 2 years | 13 |
| Member disqualified for 3 years | 10 |
| Member disqualified for 5 years | 3 |
| Member suspended up to 1 month | 12 |
| Member suspended 1 to 6 months | 10 |
| Member suspended for 1 year | 3 |

### Community Plan Areas

**Mr. Clifton-Brown:** To ask the Deputy Prime Minister what plans he has to extend further community plan areas. [159960]

**Keith Hill:** The London-Stansted-Cambridge Growth Area was extended to include Peterborough on 2 February 2004. The Office of the Deputy Prime Minister has no current plans to extend further any of the Sustainable Communities Plan Growth areas.

On 2 February, my right hon. Friend the Deputy Prime Minister announced that the Government would be working with the Regional Development Agencies, and other public and private sector partners, on a new long-term growth strategy for the north. This new vision for the north, 'The Northern Way', seeks to develop a real ambition in the north about the long term potential for growth by fully exploring the opportunities for growth along the economic and transport corridors that connect the three northern regions. The focus is therefore different from the existing housing growth areas or market renewal pathfinders.

### Homelessness

**Ms Oona King:** To ask the Deputy Prime Minister if he will list the funding each local authority in London *(a)* has received and *(b)* will receive from the Homelessness Directorate in (i) 2002–03, (ii) 2003–04 and (iii) 2004–05 to support their local homelessness strategies; and how that funding has been or is to be used in each case. [158549]

**Yvette Cooper:** The allocations to London boroughs over the three years 2002–03 to 2004–05 are tabled as follows.

Homelessness grants from the Office of the Deputy Prime Minister are intended to supplement main sources of expenditure on homelessness (for example, local authority general fund expenditure and housing investment) to fund innovative services that tackle and prevent homelessness more effectively. The approaches underpinning this funding were set out in our March 2002 report, "More than a roof".

Allocations were boosted in 2002–03 and 2003–04 in acknowledgement of the need to pump-prime a number of new schemes to help deliver the Government's target to end the use of bed and breakfast hotels for homeless families with children, except in short-term emergencies, while improvements to Housing Benefit subsidy for other forms of temporary accommodation were put in place.

All housing authorities are offered a set allocation based on historic levels of homelessness in the borough. An additional grant may also be awarded based on performance in tackling homelessness and an assessment by the Office of the Deputy Prime Minister and the Government Offices in the Regions of bids submitted by authorities for funds to help them:

eradicate the use of bed and breakfast hotels as accommodation for homeless families with children, except in short-term emergencies;

sustain reductions in the number of people sleeping rough to a level as near to zero as possible and at least two-thirds below the level in 1998; and

tackle and prevent homelessness more effectively.

Over the three-year period there has been a reduction in direct commissioning by the Office of the Deputy Prime Minister of services to tackle rough sleeping. Resources have been transferred to local authorities to commission services themselves as part of the development and implementation of local homelessness strategies. This is most apparent in the increasing allocation to Westminster.

Authorities have considerable discretion over how they use the grant, provided that they deliver the required outcomes. While particular schemes are set out in individual financial agreements and monitoring returns for each authority, we do not maintain a detailed, central schedule of all the services funded in each year. Typical of the range of schemes that may be funded are: mediation; rent deposit/bond schemes; private sector and RSL lettings; advice services; services

for particularly vulnerable groups; tenancy sustainment and outreach services. Services provided in each local authority area, including those receiving Office of the Deputy Prime Minister funding, are likely to feature in most authorities' homelessness strategies if they existed or were planned when the strategies were being written.

An independent evaluation of the homelessness strategies developed during 2003 in response to the requirements of the Homelessness Act 2002 has been commissioned by the Office of the Deputy Prime Minister and will provide more detailed information on the approaches taken by authorities. A further project will be commissioned shortly to evaluate homelessness prevention schemes, including those funded by the Office of the Deputy Prime Minister's homelessness grants.

£

| | *Grant paid 2002–03* | *Offer amounts 2003–04*[1] | *Provisional offer 2004–05*[2] |
|---|---|---|---|
| Barking and Dagenham | 38,000 | 68,000 | 28,000 |

| Westminster | 2,902,000 | 4,434,374 | 7,366,000 |

[1] We will not know actual spend for 2003–04 until fourth quarter expenditure returns are completed and returned by London authorities.

[2] Some 2004–05 offers are still to be agreed with London authorities.

In addition to the above grants, cross boundary funding provided mainly to voluntary and community sector agencies to tackle and prevent homelessness totalled:

| | £ |
|---|---|
| 2002–03 | 24,371,000 |
| 2003–04 | 18,735,000 |
| 2004–05 | [1]9,063,000 |

[1] Not all allocations for 2004–05 have been confirmed.

934 CW0054-PAG1/46

### House Building (Hampshire)

**Mr. Hoban:** To ask the Deputy Prime Minister pursuant to his answer of 23 February 2004, *Official Report*, column 25W, on development sites, if he will make a statement on the conclusions reached by the Joint Advisory Panel at the meeting on 10 March regarding the review of progress made on Hampshire's house building targets. [159998]

**Keith Hill:** The Office of the Deputy Prime Minister welcomes the decision of the Joint Advisory Panel to recognise the uncertainty surrounding future housing provision in Hampshire, and to recommend a number of measures to reduce that uncertainty. The Panel has agreed to prepare a draft action plan, which we would like to agree in a month's time. The measures will need to be implemented by local authorities in Hampshire speedily, in order to obviate the need to release the reserve.

### Local Authority Debt

**Mr. Goodman:** To ask the Deputy Prime Minister what *(a)* instructions and *(b)* guidelines are issued by his Department to local authorities on the writing off of (i) Council Tax and (ii) Housing Benefit debt when the debt recovery costs are greater than the debt itself; and if he will make a statement. [160689]

**Mr. Raynsford:** Local authorities are under a duty to collect all council tax revenues owing to them. "Council Tax Practice Note 9: Recovery and Enforcement", issued jointly by the former Department of the Environment and the Welsh Office in 1993, states that authorities should have provisions in their Standing Orders or Financial Regulations to enable amounts to be written off if they are irrecoverable or not economical to pursue.

The recovery of housing benefit debt is a matter for the Department for Works and Pensions.

### Local Government Finance (Isle of Wight)

**Mr. Andrew Turner:** To ask the Deputy Prime Minister what additional grant is to be paid to the Isle of Wight Council in 2004–05 following his decision to add £1 million to the grant for 2003–04. [160646]

**Mr. Raynsford:** In 2003–04, during the final consultation on our proposed formulae changes, the Office of the Deputy Prime Minister accepted the Isle of Wight's argument that their New Earnings Survey sample size was too small for the Office of the Deputy Prime Minister to reliably calculate a separate area cost adjustment (ACA) for the island. As a result the Isle of Wight received the same ACA as Hampshire in the 2003–04 settlement. The Office of the Deputy Prime Minister used the same methodology to calculate the ACA for the 2004–05 settlement when the Isle of Wight once again received the same ACA as Hampshire.

The Local Government Finance Settlement was approved by the House of Commons on 5 February 2004.

### Pre-Budget Report Leaflet

**Mr. Fallon:** To ask the Deputy Prime Minister if he will make a statement on the timetable for *(a)* publication

and (*b*) circulation to hon. Members by the Government Office for the South East of copies of the pre-Budget report leaflet for the south east; and what the (i) cost and (ii) purpose of the exercise were. [160634]

**Mr. Raynsford:** The information is as follows.

(a) This document is distributed after the pre-Budget statement via Government Offices for the Regions.

(b) The objective of the document is to explain the impact of the pre-Budget report on each region.

(i) The total cost of the publication and distribution of the document was £286.00 for the south-east.

(ii) Distribution of the document is in line with Government's commitment to promote dialogue with the regions, to strengthen their input into future policy making.

### Regional Assemblies/Government

**Mr. Jenkin:** To ask the Deputy Prime Minister on what basis he decided that the referendums for elected regional assemblies should be conducted by all-postal ballot. [159824]

**Phil Hope:** Following a series of pilots in local authority elections and thorough evaluation by the Electoral Commission, it is clear that all-postal ballots can significantly increase the levels of participation in elections. The Office of the Deputy Prime Minister considered this evidence carefully, before announcing our intention to hold the referendums by all-postal ballot in response to a question from the hon. Member for South Ribble (Mr. Borrow) on 22 October 2003.

**Ann Winterton:** To ask the Deputy Prime Minister to whom Government Offices of the Regions would be accountable if regional assemblies are introduced. [160740]

**Mr. Raynsford:** Government Offices for the Regions will remain as part of central Government and will continue to be responsible to Government Ministers.

However the Government intend to devolve to elected assemblies some of the functions currently discharged through Government Offices. The assembly would be accountable to its electorate for those devolved functions.

**Ann Winterton:** To ask the Deputy Prime Minister from which funding source the difference between the 2002–03 Government grant of £780 million for the North West Region, £350 million for the North East Region and £570 million for the Yorkshire and the Humber Region and the EU funding of £254 million for the North West, £88 million for the North East and £185 million for Yorkshire and the Humber was provided. [160742]

**Mr. Raynsford:** The difference between the 2002–03 likely total budgets for elected regional assemblies and the European programme funding is the block grant which assemblies will receive from central Government. The budgets for which a future elected regional assembly would be responsible (in the form of the block grant) are currently allocated to the Government Offices and non-departmental public bodies from central Government Departments.

### Regional Spatial Strategies

**Mr. Clifton-Brown:** To ask the Deputy Prime Minister if he will set out the current progress of the regional spatial strategies in each region. [159961]

**Keith Hill:** As the Planning and Compulsory Purchase Bill now stands as amended in the other place, there will be no regional spatial strategies until elected regional assemblies are established. As the Bill was introduced the intention was that regional planning guidance in each region would become the regional spatial strategy following commencement of Part 1 of the Bill. Current progress on the relevant regional planning guidance is tabled as follows.

*Existing RPGs and proposed revisions*

| | *Existing RPG* | | | *Revision timetable* | | |

## EDUCATION AND SKILLS

### Adoption

**Tim Loughton:** To ask the Secretary of State for Education and Skills what funding has been made available to each local authority for the establishment of adoption support services under the Adoption and Children Act 2002 in the last 12 months. [156528]

**Margaret Hodge** *[holding answer 26 February 2004]:* Funding for local authority adoption support services (including adoption support services) derived from the following sources in the financial year 2003–04:

The children's social services Formula Spending Share (Children's FSS) of £3038.350 million, which is intended to fund all local authority children's social services, including adoption services. The Quality Protects (QP) main grant, which included approximately £60 million funding over the three years 2001–02 to 2003–4 to secure sustained improvements in adoption services. This funding will be mainstreamed from 2004–05 into the CSS baseline. An extra £70 million of ring-fenced money for Adoption and Special Guardianship Support Services from 2003–04 to 2005–06. £12 million of this was allocated to local authorities in the year 2003–04.

A breakdown of the allocations by local authority for the Children's FSS, overall QP main grant and Adoption and Special Guardianship Support Services grant is available in Local Authority Social Services Letter (LASSL) (2003)1, copies of which have been placed in the Library.

### Adult and Community Learning Programmes (Greater London)

**Simon Hughes:** To ask the Secretary of State for Education and Skills how many people were enrolled on adult and community learning programmes in Greater London in each year since 1995; and how many are enrolled on adult and community learning programmes now. [158409]

**Mr. Ivan Lewis:** The numbers of enrolments in Greater London on (i) adult and community learning and adult education courses run through local education authorities; (ii) LearnDirect; and (iii) adult basic skills, are set out separately as follows.

The number of enrolments on adult education courses run through local education authorities (LEAs) in England at 1 November each year is published annually in the Statistical First Release, "Adult Education Enrolments in England". The publication includes a breakdown of enrolments by region. The following table shows the number of enrolments on courses offered by LEAs in Greater London at 1 November for each year from 1995 to 2002, the latest year for which figures are available. These figures include enrolments on both courses that do and do not lead to a recognised qualification.

*Adult education enrolments on courses run by local education authorities in Greater London at 1 November: 1995 to 2002*[1]

| *November* | *Enrolments (thousand)* |
|---|---|
| 1995 | 222.8 |
| 1996 | 226.7 |
| 1997 | 209.0 |
| 1998 | 218.8 |
| 1999 | 179.5 |
| 2000 | 201.4 |
| 2001 | 217.3 |
| 2002 | 221.0 |

[1] Includes enrolments by 16 to 18-year-olds

*Source:*
Local education authorities

The figures in the following table show the numbers of learners on LearnDirect provision in Greater London in each year since 2000/01, the earliest year for which figures are available. Learners who withdrew from their course are excluded.

*Learners on LearnDirect provision in Greater London—2000/01 to date*

| *Academic year* | *Learners* |
|---|---|
| 2000/01 | 15,000 |
| 2001/02 | 50,000 |
| 2002/03 | 57,000 |
| 2003/04 (to date) | 30,000 |

*Source:*
LearnDirect

The final table shows the number of enrolments on adult basic skills courses in Greater London since the launch of the Skills for Life strategy.

*Enrolments (in thousands) on Adult Basic Skills in Greater London—2000/01 to 2002/03*[1,2]

| *Academic year* | *Enrolments (thousand)* |
|---|---|
| 2000/01[3] | 167 |
| 2001/02 | 272 |
| 2002/03 | 311 |

[1] Includes enrolments by 16 to 18-year-olds.

[2] Figures do not include estimates from the Offenders' Learning and Skills Unit and the Department for Work and Pensions.

[3] Part year figure covering April to July 2001.

*Source:*
Learning and Skills Council

### Adult Residential Colleges

**Mr. Boswell:** To ask the Secretary of State for Education and Skills what plans he has to examine the contribution of residential colleges for adult education to the Government's lifelong learning policies; and if he will make a statement. [159525]

**Mr. Ivan Lewis:** There are 32 adult residential colleges based in rural locations in England, Wales and Northern Ireland. These colleges are mainly owned and run by Local Education Authorities (LEAs) and provide, in the main, short courses. They do not receive funding direct from the DfES or the Learning and Skills Council. It is for local Learning and Skills Councils, in discussion with LEAs, to consider whether, and if so how, residential colleges can contribute to meeting local needs in lifelong learning in the light of our commitments in 21st Century Skills to safeguard budgets for such learning.

### Asbestos

**Malcolm Bruce:** To ask the Secretary of State for Education and Skills if he will list the *(a)* schools and *(b)* other education facilities which have been identified as containing asbestos; what proportion of (i) schools and (ii) other education facilities have been surveyed for the purpose of identifying the presence of asbestos; which (A) schools and (B) other education facilities require (1) remedial work and (2) removal of asbestos; what this work will cost; what budgets are available for this work for 2004 and 2005; and what budget is available for future asbestos surveys. [159656]

**Mr. Miliband:** The Department does not hold information on which schools and other education facilities contain asbestos, nor on the proportion that has been surveyed for asbestos. As part of the data collected through the appraisal of Asset Management Plans, the Department has information on maintenance requirements at maintained schools, but asbestos work is not separately identified. By May this year, in accordance with the Control of Asbestos at Work Regulations 2002, schools should have identified and recorded the position of any asbestos. We do not provide funding specifically for the survey, treatment or removal of asbestos. Schools and authorities can use the large amounts of formulaic capital which is now allocated to them for investment in their buildings, including health and safety needs such as asbestos treatment. We would expect these needs to be prioritised highly in the local asset management planning process. The total amount of capital available for investment in school buildings in 2004–05 is £4.5 billion and in 2005–06 it rises to £5.1 billion.

### CAFCASS

**John Mann:** To ask the Secretary of State for Education and Skills how many complaints have been *(a)* made and *(b)* upheld against reports produced by the Children and Family Court Advisory and Support Service since the inception of the Service. [152348]

**Margaret Hodge** *[holding answer 30 January 2004]*: As at 31 March 2003, CAFCASS had received 916 complaints since its inception in April 2001, representing less than 1 per cent. of the total number of cases handled. Of the complaints, 47 per cent. were not upheld and 31 per cent. were resolved or withdrawn. Five per cent. of complaints were upheld, with 9 per cent. partly upheld and 8 per cent. remaining under investigation as at 31 March 2003.

Figures for the period April 2003-March 2004 are currently being collected from CAFCASS' regions and will be published in their 2003–04 Annual Report; which is expected to be laid before Parliament before the summer recess.

If complainants complete CAFCASS's complaints process and still remain dissatisfied, they are able to raise the matter, through a sponsoring MP, with the Parliamentary Ombudsman. In 2002–03, four complaints were referred to the Ombudsman: in three, no evidence was found to support them. The Ombudsman made enquiries about the fourth complaint, but decided not to progress it any further. CAFCASS only has figures on complaints received by the Parliamentary Ombudsman in 2002–03.

### Child Care Review Officers

**Tim Loughton:** To ask the Secretary of State for Education and Skills how many independent review officers responsible for child care cases are employed in each local authority; and how many vacant posts there are in each local authority. [156525]

**Margaret Hodge** *[holding answer 26 February 2004]*: The information requested is not available centrally.

The Children Act 1989 Guidance requires that reviews are chaired by someone at a more senior level than the case social worker to bring a degree of oversight and objectivity to the review and care plan. Regulations also require local authorities to appoint an officer to assist in the co-ordination of all aspects of the review.

To further strengthen this, provision was made in the Adoption and Children Act 2002 for legislation to require local authorities to appoint Independent Reviewing Officers. These officers are to be independent of the management of the child's case and independent of the resources allocated to that case. Regulations commencing this provision will come into force in September 2004 following a consultation exercise last year. A large number of local authorities already employ individuals fulfilling a similar function.

### Children in Care

**Tim Loughton:** To ask the Secretary of State for Education and Skills how many *(a)* new born babies, *(b)* infants aged between one and four years and *(c)* children aged over five years have been taken into care by social services in each of the last 10 years. [152115]

**Margaret Hodge** *[holding answer 30 January 2004]*: The number of *(a)* new born babies, *(b)* infants aged between one and four years and *(c)* children aged over five years who were taken into care by local authorities in each of the last 10 years is shown in the table.

*Children who were taken into care during the years ending 31 March 1993 to 2003, by age group—England*

*Numbers*

| | | *Age on entering care* | | |
|---|---|---|---|---|
| *Year* | [1,2]*All Children* | *Under 1* | *1 to 4* | *5 and over* |
| 1993 | 29,100 | 3,000 | 6,000 | 20,200 |
| 1994 | 31,300 | 3,200 | 6,500 | 21,700 |
| 1995 | 32,500 | 3,400 | 6,300 | 22,800 |
| 1996 | 32,100 | 3,300 | 6,200 | 22,600 |
| 1997 | 29,900 | 3,300 | 5,800 | 20,800 |
| 1998 | 29,700 | 3,200 | 5,700 | 20,800 |
| 1999 | 28,400 | 3,500 | 5,500 | 19,500 |
| 2000 | 28,600 | 3,700 | 5,200 | 19,600 |
| 2001 | 25,100 | 3,700 | 4,600 | 16,900 |
| 2002 | 24,600 | 3,900 | 4,500 | 16,200 |

[1] Only the first occasion on which a child entered care in the year has been counted.
[2] Figures for children in care in this table exclude agreed series of short term placements.

Of the 24,600 children who entered care during the year ending 31 March 2002, 68 per cent. were looked after under voluntary agreements (Section 20 of the

Children Act 1989), 17 per cent. were under a care order, and 15 per cent. were looked after under other legal statuses.

For both the Under 1 and 1–4 age groups, over half the children who entered care during the year ending 31 March 2002 were under voluntary agreements, 25–30 per cent. were under care orders and just under 20 per cent. were under other legal statuses. The pattern is slightly different for the 5 and over age group, with three quarters of the children entering under voluntary agreements, 11 per cent. under care orders, and 14 per cent. under other legal statuses.

**Simon Hughes:** To ask the Secretary of State for Education and Skills how many children aged *(a)* three to six months and *(b)* six months to one year entered local authority care in (i) Greater London and (ii) each London borough in the last 12 months for which figures are available. [158762]

**Margaret Hodge** *[holding answer 4 March 2004]:* The information requested is shown in the following table.

*31 March 2002, aged 3–6 months and 6 months to 1 year, London*

*Number*

| | *Age on entering care* | |
|---|---|---|
| | *3–6 months* | *6 months-1 year* |
| Inner London | 40 | 55 |
| Camden | 0 | 0 |
| City of London | 0 | 0 |
| Greenwich | — | 5 |
| Hackney | 10 | 10 |
| Hammersmith and Fulham | — | 0 |
| Islington | 10 | — |
| Kensington and Chelsea | 0 | — |
| Lambeth | — | 5 |
| Lewisham | — | 0 |
| Southwark | — | — |
| Tower Hamlets | 0 | 0 |
| Wandsworth | 0 | 10 |
| Westminster | — | 15 |
| Outer London | 35 | 70 |
| Barking and Dagenham | 0 | 5 |
| Barnet | 0 | 0 |
| Bexley | — | 0 |
| Brent | — | 5 |
| Bromley | — | 0 |
| Croydon | 0 | 10 |
| Ealing | — | 0 |
| Enfield | 0 | — |
| Haringey | 0 | 0 |
| Harrow | 0 | — |
| Havering | — | 5 |
| Hillingdon | — | — |
| Hounslow | 5 | 5 |
| Kingston Upon Thames | 0 | 0 |
| Merton | — | — |
| Newham | 5 | 15 |
| Redbridge | 0 | 0 |
| Richmond Upon Thames | 0 | 0 |
| Sutton | 0 | 0 |
| Waltham Forest | 0 | — |

*Notes:*

1. Figures for children looked after in this table exclude agreed series of short term placement.
2. Numbers are rounded to the nearest 5. Numbers between 1 and 5 are suppressed (—).
3. The figures are based on a one-third sample of children. A zero in the table means there were no children in the sample.

### Children's Departments

**Mr. Amess:** To ask the Secretary of State for Education and Skills what representations he has received concerning the proposed formation of a children's department within local authorities; and if he will make a statement. [157358]

**Margaret Hodge:** We have received 4,604 responses to the Green Paper 'Every Child Matters' and have considered them very carefully. Last week we published 'Every Child Matters: Next Steps', which reports on the outcomes of the consultation and sets out the Government's proposals for taking this work forward.

### Children's Fund

**Tim Loughton:** To ask the Secretary of State for Education and Skills pursuant to the Answer of 9 February 2004, *Official Report*, column 1186W, on the Children's Fund, if he will list each project funded by the Children's Fund to date. [155076]

**Margaret Hodge:** The information requested on individual projects funded is not collected centrally; this is held only by partnerships. The latest available data shows that a total of 4,665 Children's Fund services were being delivered across England to 321,033 children, young people and carers.

A list of the 149 Children's Fund partnerships in England follows. Wave 1 partnerships were approved to begin from July 2001, Wave 2 partnerships from April 2002 and Wave 3 partnerships from April 2003. Under the 2002 Spending Review the programme has £150 million per annum, although we have been able to commit an additional £20 million to all partnerships from our 2004/05 budget.

**Computer Access**

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what programmes are in place to enable mature students on low incomes to acquire computers. [158150]

**Mr. Ivan Lewis** *[holding answer 2 March 2004]:* At present no centrally funded programmes are in place that enable mature students on low incomes to acquire free or low price computers. The Government have however, established a network of UK online centres. These centres provide open access to ICT and the internet for people in all communities. All mature students in England should be able to find a UK online centre near to their home.

Many higher education institutions run local schemes to provide financial support or computer loans to their students on a case-by-case basis.

There are several programmes that provide general financial support to mature students on a basis of need, such as Access Funds. These are explained in the booklet, "Money to Learn", published by the Department for Education and Skills.

**Departmental Policies (Regent's Park and Kensington, North)**

**Ms Buck:** To ask the Secretary of State for Education and Skills if he will make a statement on the impact of his Department's policies on the constituency of Regent's Park and Kensington North since 1997. [145418]

**Mr. Charles Clarke:** The constituency Regent's Park and Kensington, North covers part of both Westminster and Kensington and Chelsea local education authorities. Where the Department for Education and Skills (DfES) can or does collect information by constituency, it has been provided.

Additional information could be provided only at disproportionate cost. However, my Department is investigating ways in which we disseminate information about the effects of our policies at a local level. We hope to have systems to facilitate this in place later this year.

*Children, young people and families*

The Government have sought to increase the range, number, quality and effectiveness of services for children, young people and families since 1997. Although data are not collected on a constituency basis, information is available on the impact of programmes delivered in the London boroughs of Kensington and Chelsea, and Westminster.

*Children's Social Services*

Children's social services in the constituency are delivered by both Kensington and Chelsea and Westminster, both of which are three star social services authorities (as published in the Annual Review of Performance Reports, issued by the Chief Inspector of the Social Services Inspectorate).

*Early education*

The Government have guaranteed a free, part time, early education available place to all our four-year-olds since 1998 and an increasing number of three-year-olds, if their parents want it. All three-year-olds will be guaranteed a free place by April 2004.

Both Kensington and Westminster authorities have confirmed that they will be able to meet their statutory obligation to three-year-olds by April 2004. Currently, we understand that around 50 per cent. of Kensington's three and four-year-olds take up an early education place, while in Westminster the participation rates are: 86 per cent. for four-year-olds and 92 per cent. for three-year-olds.

*Child care*

Since 1999, a total of 1,583 new pre-school and out of school child care places have been created within the constituency benefiting 2,689 children.

*Disadvantaged area programmes*

There are four Sure Start local programmes in the constituency providing a range of early learning, health and family services and with 3,230 children in their catchment areas, and one early excellence centre has been established in the constituency offering early education, childcare, health and family support to local children and families. Neighbourhood nurseries are being built in disadvantaged communities throughout the country following an initiative that began in 2001. There are five proposed flagship children centres in both Kensington and Chelsea LEA and Westminster LEA, some of which would be developed from acclaimed local nursery schools.

*Connexions*

Connexions, the Government's front line support service for all young people aged 13–19, is providing advice, guidance and support to young people in Regent's Park and Kensington, North constituency through Central London Connexions partnership. Since its launch in June 2002, following a 12 month pilot, young people aged 13–19 have had access to support and advice on a range of issues to help them participate and achieve in education, employment and training and to reach their full potential as adults.

*Youth Services*

There are two local authority youth services in Regent's Park and Kensington, North—in Westminster and in Kensington and Chelsea. There is evidence that the Department's policies have made a positive impact on the standards of youth service provision in both areas, in both of which Ofsted inspections identified weaknesses but which, when re-inspected in October 2003, were found to have made good progress.

*Extended schools*

The Department is supporting the rollout of up to 240 full service extended schools by 2006, so that there will be at least one in each LEA area. Quintin Kynaston School in Westminster LEA and Sion Manning RC

School for Girls in Kensington and Chelsea LEA are being developed as full service extended schools from this year.

*Schools*

*Recurrent funding*

The estimated[1] increase in per pupil funding in Westminster in real terms from 1997–98 to 2004–05 is £1,160, compared with the national average of £880.

*School performance tables*

Key stage (KS) figures can be found on the DfES website at: www.dfes.gov.uk/performancetables.

*Specialist schools*

There are two specialist schools in Kensington and Chelsea LEA and four specialist schools in Westminster LEA:

*Education Action Zones*

There is an Education Action Zone in Westminster, which includes three secondary schools, 22 nursery and primary schools and two special schools.

*Beacon schools*

Within Regent's Park and North Kensington constituency there are a total of seven Beacon schools.

*Primary Strategy Leadership*

Six primary schools are part of the Primary Strategy Leadership programme in Kensington and Chelsea. Westminster LEA has not identified particular schools to participate in the programme but is using consultant leaders to give leadership support to all schools across the LEA.

*Leadership Incentive Grant*

There are eight secondary schools in Westminster in receipt of LIG and four schools in Kensington and Chelsea in receipt of LIG.

*Behaviour improvement projects*

In Westminster four secondary schools and 17 primary schools are involved in the BIP. In Kensington and Chelsea there are three secondary schools and 12 primary schools.

*Healthy schools*

There are different levels of involvement within the NHSS, level three being the highest—37.5 per cent. of schools in Kensington and Chelsea and 53 per cent. of schools in Westminster are working at this level and are recognised as healthy schools.

*14–19 Education*

The Government's strategy for 14–19 education and training, set out in "14–19: opportunity and excellence", will provide all young people with the opportunity to continue their education in different settings, including schools, colleges, and the workplace.

The impact of the 14–19 agenda on Regent's Park and Kensington, North includes:

*16–19 area inspection (14–19 from March 2003)*

16–19 area inspections were introduced in 1999 as a key means of securing improvements in education and training for young people. The royal borough of Kensington and Chelsea underwent a 16–19 area inspection in summer 2002. A copy of the Ofsted report can be found on their website www.ofsted.gov.uk.

With London Central LSC in the lead, local partners developed an action plan that was accepted by Stephen Twigg, the Parliamentary under Secretary of State for Schools, on 12 January 2003. London Central LSC is responsible for the successful implementation of the plan, which is on-going.

*Vocational Provision*

London Central LSC currently has four work-based learning providers delivering vocational programmes in the constituency of Regents Park and Kensington, North.

Learners in the borough have access to all of the remaining 31 work-based learning providers in the London Central portfolio. Within easy travelling distance they can gain entry to over 35 additional occupational areas ranging from accountancy, engineering and sport and recreation to construction, hospitality and retail.

*Educational maintenance allowances*

Neither Kensington and Chelsea nor Westminster is covered by Educational Maintenance Allowances (EMA) pilots although some students attending FE institutions in these LEAs may be in receipt of EMA because most of inner London is covered by pilots.

*Higher education*

*Participation*

The number of 18 to 20-year-olds entering full-time higher education courses, are as follows:

*Number*

| | *Kensington and Chelsea* | *Westminster* |
|---|---|---|
| 1997 | 655 | 613 |
| 1998 | 584 | 650 |
| 1999 | 614 | 647 |
| 2000 | 654 | 672 |
| 2001 | 658 | 688 |
| 2002 | 655 | 717 |

*Adult education*

The Local Labour Force Survey shows that in Regents Park and Kensington, North:

The proportion of working age people qualified to at least level 4 has risen from 30.5 per cent. in 1999 to 37.1 per cent. in 2001.

The proportion of working age people qualified to at least level 2 has risen from 62.6 per cent. in 1999 to 69.8 per cent. in 2001.

The proportion of working people without any qualification has fallen from 18.2 per cent. in 1999 to 13.6 per cent. in 2001.

The proportion of working age people who received job related training in the last four weeks rose from 10.4 per cent. in 1999 to 13.1 per cent. in 2001.

[1] Includes provisional estimates of grants and allocations still to be confirmed. Real terms at 2002–03 prices.

## Domestic Violence

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Education and Skills what research Government departments have conducted within the past five years into the effects of domestic violence on children; and what the main conclusions were. [159802]

**Margaret Hodge:** There is considerable research already available conducted by experts in this field of social policy that highlights the effects of domestic violence on children. The main conclusions are that

children who have been exposed to domestic violence demonstrate more aggression, antisocial behaviour and anger, as well as withdrawal, depression, suicidal behaviour, anxiety, fears, phobias, insomnia and low self-esteem, compared to children who have not suffered these experiences.

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Education and Skills what measures are *(a)* in place and *(b)* planned to increase the consistency among geographical areas of standards of domestic violence services aimed at children. [159803]

**Margaret Hodge:** Local authorities, in partnership with other agencies, both statutory and voluntary, are expected to assess the needs of children in their areas, in accordance with the duties imposed on them by Part III of the Children Act 1989 and then to determine the range of services that will need to be available in order to respond to those needs. This process, inevitably and properly, leads to diversity in the provision of services at local level.

### Dyslexia Conference

**Llew Smith:** To ask the Secretary of State for Education and Skills what representation his Department plans to have at the Sixth British Dyslexia Association Conference; and if he will make a statement on programmes available to assist dyslexia sufferers. [159944]

**Margaret Hodge:** A DfES representative has served on the steering group for this event and we hope to send an observer on one of the conference days.

In addition to assisting with planning, the Department has provided grant support to enable a number of promising students to attend the event and a grant for a new conference publication aimed at classroom practitioners. My right hon. Friend the Secretary of State for Education and Skills has also provided a goodwill message for this international event, which will be reproduced in conference literature.

A number of commercially available programmes support children with specific learning difficulties. It is for parents, individual schools and local education authorities to decide whether a given technique has something to offer an individual child in the light of his or her needs.

### Education Maintenance Allowance

**Mr. Willis:** To ask the Secretary of State for Education and Skills what research his Department has carried out, in addition to the three-year assessments, to assess the impact of education maintenance allowances on participating in the Government-supported training; and if he will make a statement. [155439]

**Mr. Ivan Lewis** *[holding answer 23 February 2004]:* Evaluation findings show that the national EMA scheme is expected to increase participation in education at Year 12 by 3.8 per cent. and at Year 13 by 4.1 per cent. Evidence from the pilot EMA areas shows that little of the increase in participation through EMA is from Government Supported Training. Over half of the increase in participation through EMA is from young people who would otherwise not be in any education, employment or training, and most others are from work without training. There is some evidence from the pilot areas that suggests an increased flow into Government Supported Training at 18.

Overall EMA supports a range of learning up to level 3. This includes young people doing quality assured NVQs and vocational courses in FE colleges that often incorporate work placements.

**Helen Jones:** To ask the Secretary of State for Education and Skills what assessment he has made of the impact of educational maintenance allowances in improving participation rates in post-16 education. [156634]

**Mr. Ivan Lewis:** In the pilots, EMA increased participation by 16-year-olds in education by 5.9 per cent. points. Judged against historic trends, this represents a major increase. Our evaluators predict that in the first year of the national scheme, some 35,000 additional young people will participate in further education, and this will rise to over 70,000 per year when EMA is fully in place.

### Emotional Intelligence Initiatives

**Mr. Stephen O'Brien:** To ask the Secretary of State for Education and Skills (1) what departmental initiatives there are in relation to emotional intelligence; what difficulties have been reported in implementing such initiatives; and how the success of these initiatives is evaluated; [155290]

(2) what funding his Department provides to *(a)* schools and *(b)* local education authorities to develop (i) emotional intelligence and (ii) literacy initiatives; [155292]

(3) which *(a)* schools, *(b)* academics and *(c)* university education departments his Department has assessed as the best practitioners in the field of emotional intelligence; and what his Department regards as best practice in this field. [155293]

**Mr. Ivan Lewis:** The Department is concerned to promote children's social and emotional development and their social, emotional and behavioural skills (SEBS), which themselves contribute to children's emotional intelligence and emotional literacy.

Promoting positive emotional and social development is a crucial part of educating children. The Department is therefore committed to providing guidance and materials for every stage. Curriculum guidance for the Foundation Stage covers the emotional and social development of very young children and we are developing associated training materials. The Personal, Social and Health Education framework supports the emotional and social development of children at Key Stages 1 to 4. To supplement that, the Department is piloting specific Social, Emotional and Behavioural Skills (SEBS) materials for primary schools in 25 local education authorities (LEAs) and developing similar materials for secondary schools.

The Department is investing £600,000 in SEBS materials for primary schools over two years. The pilot is in the early stages of implementation but initial feedback from schools is very positive. It will be evaluated by the University of London's Institute of Education. The Foundation and secondary materials are still at the initial development stage.

The development of SEBS materials is informed by existing good practice in a number of LEAs including Southampton, Bristol, Portsmouth, Cumbria, Merton, East Riding of Yorkshire, Brighton and Hove and Nottingham City. The Department is also advised by an expert SEBS practitioners group including academics from the universities of Southampton, Oxford and Middlesex, a range of voluntary bodies including the National Children's Bureau, the NSPCC and Antidote, senior school staff and LEA officers.

### EU Accession Citizens

**Mr. Evans:** To ask the Secretary of State for Education and Skills what estimate the Government have made of how many EU accession country citizens will make use of the education system in the UK at each level. [157348]

**Alan Johnson:** From 1 May children living within the UK who come from the accession countries will have access to education here. In addition, students who attend Further and Higher Education Institutions will have home fee status as long as they have been resident within an acceding country for three years.

The Government commissioned work from independent academic experts on likely numbers of migrants arriving which is published and available on the Home Office website. We will monitor the situation post enlargement to ensure that the impact on schools, FE and HE is understood. Government departments are working together to ensure that all the available data are brought together to offer a rounded picture of the impact of accession and as well as feeding into this we will be looking to use the results to inform the picture for education.

For Higher Education we have been collecting data on the nationality of students, including those from accession countries for some years. We estimate a one-off increase in the number of EU students in the UK of perhaps about 8 per cent. as a result of EU enlargement. Our January HEFCE Grant letter took account of the expansion of the EU due to take place in 2004, and so did the Additional Student Numbers (ASN) exercise that HEFCE are currently running for foundation degrees. We have already forecasted for growth in new EU students and will continue to do so in the next Spending Review. It is important to remember that since we do not give maintenance to students from the EU, coming to study in the UK is not a 'cheap option' for them; they still have to find ways to support their living costs themselves.

### EU Enlargement

**Mr. Nigel Jones:** To ask the Secretary of State for the Home Department which UK agencies are best able to *(a)* assist with recognising educational backgrounds and skills of migrant workers and *(b)* help the UK employment sector to take advantage of the enlargement of the EU. [157363]

**Mr. Ivan Lewis:** The Government welcome EU enlargement and expect that it will have a positive impact on the UK, allowing us to benefit from a wider skills market to fill key labour and skills gaps and boost productivity.

The UK National Reference Point (NRP) for Vocational Qualifications has been set up by UK Government to explain vocational qualifications (VQs) and particularly how UK VQs relate to ones elsewhere in Europe. The UK National Academic Recognition Information Centre (NARIC) advises on the comparability of overseas educational qualifications with those from the UK.

Jobcentre Plus is able to assist employers in the UK and migrant workers from the new member states to fill vacancies and find appropriate work. Jobcentre Plus, through its EURES adviser network is also able to advise employers and jobseekers about comparability of qualifications through the NARIC Global Qualifications database.

**Mr. Nigel Jones:** To ask the Secretary of State for Education and Skills what assessment he has made of how enlargement of the EU will affect the skills shortage in the United Kingdom. [157362]

**Mr. Ivan Lewis:** The Government welcome EU enlargement and expect that it will have a positive impact on the UK, allowing us to benefit from a wider skills market to fill key labour and skills gaps and boost productivity. The UK has the strongest labour market for a generation and this puts us in a good position to absorb any additional migrant flows. Free movement of workers within a larger EU will complement the work we are doing to address the skills gaps that exist currently within our own workforce, which are predominantly in the Business Services and construction sectors.

As announced by my right hon. Friend the Home Secretary, A8-nationals who want to work in the UK will be required to apply to register as a worker once they have found a job. The benefit of this new light-touch worker registration scheme is that it will expand the range of skills and supply of workers available across the UK and allow us to monitor the types of work that accession country nationals are entering in the UK. Through our labour market data we will also be able to tell the impact on the UK labour market as a whole.

### European School, Culham

**Mr. Boris Johnson:** To ask the Secretary of State for Education and Skills if he will make a statement on the European Parliament resolution on the future financing of the European Schools (2002–2083 (INI)), with regard to the European School at Culham. [160266]

**Alan Johnson:** The future financing of the European School at Culham is the subject of an independent review as a direct result of the European Commission's intention to withdraw support from smaller European Schools. Decisions on the future of Culham will be taken by the European Schools Governing Body on the basis of this review.

### Further Education

**Mr. Mahmood:** To ask the Secretary of State for Education and Skills what proportion of *(a)* applicants and *(b)* entrants to each university in England were from (i) further education colleges, (ii) sixth-form colleges, (iii) school sixth-forms and (iv) independent schools in (A) 2001 and (B) 2002. [143642]

**Alan Johnson:** The information is not held centrally. The Universities and Colleges Admissions Service (UCAS) collects data on the previous school type of applicants and acceptances to full-time undergraduate courses but does not release this data at institutional level without the prior permission of the institutions.

However, the Higher Education Funding Council for England (HEFCE) publishes data annually showing the proportion of entrants to each university and HE college who come from state schools or colleges. This is contained in "Performance Indicators in Higher Education", the latest edition of which is available from the House Library.

### Gap Year Students

**Mr. Flook:** To ask the Secretary of State for Education and Skills what estimate he has made of the number of A-level students who took a year off study before beginning a university course in each year since 1990. [152003]

**Alan Johnson:** The available information comes from the Universities and Colleges Admissions Service (UCAS) and covers deferred entry for 18-year-old, full-time, accepted applicants to first degree and HND study in the UK. Figures are in the table. Students who defer their application to UCAS because they are taking a gap year are therefore excluded.

*UK domiciled 18-year-old applicants, accepted through UCAS with deferred entry*

| *Year of application* | *Total accepted applicants* | *Total accepted on deferred basis* | *Percentage deferred* |
|---|---|---|---|
| 1994/95 | 118,890 | 9,120 | 7.7 |
| 1995/96 | 124,908 | 10,495 | 8.4 |
| 1996/97 | 130,768 | 11,879 | 9.1 |
| 1997/98 | 146,756 | 13,345 | 9.1 |
| 1998/99 | 148,301 | 14,261 | 9.6 |
| 1999/2000 | 146,670 | 14,975 | 10.2 |

*UK domiciled 18-year-old applicants, accepted through UCAS with deferred entry*

| *Year of application* | *Total accepted applicants* | *Total accepted on deferred basis* | *Percentage deferred* |
|---|---|---|---|
| 2000/01 | 147,986 | 16,007 | 10.8 |
| 2001/02 | 156,790 | 18,840 | 12.0 |
| 2002/03 | 161,032 | 19,600 | 12.2 |

*Source:*
UCAS

### Higher Education

**Chris Grayling:** To ask the Secretary of State for Education and Skills what proportion of students in higher education institutions are not studying for degree courses. [152685]

**Alan Johnson:** In 2002–03, 47 per cent. of all HE enrolments to UK HE institutions were for courses other than first degrees. Figures are given in the table.

*Enrolments to UK HE Institutions, 2002–03*

| *Level* | *Number* | *Percentage* |
|---|---|---|
| Postgraduate | 414,250 | 21 |
| First Degree | 1,075,070 | 53 |
| Other Undergraduate | 530,860 | 26 |
| All | 2,020,180 | 100 |

*Source:*
Higher Education Statistics Agency (HESA)

**Shona McIsaac:** To ask the Secretary of State for Education and Skills what percentage of 18-year-olds entered full-time higher education in *(a)* North East Lincolnshire and *(b)* North Lincolnshire in each year since 1990. [153598]

**Alan Johnson:** The available information is taken from the Universities and Colleges Admissions Service (UCAS) applicants accepted to full time first degree and HND courses. Information prior to 1994 entry is not available at local education authority level. Figures are given in the table.

*Percentage of accepted applicants, aged 18, through UCAS*

| | *Year of Entry* | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| *LEA* | *[1]1994* | *[1]1995* | *[1]1996* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* |
| North East Lincolnshire | - | - | - | 15.3 | 14.7 | 15.3 | 15.2 | 16.0 | 14.5 |
| North Lincolnshire | - | - | - | 20.2 | 18.8 | 17.9 | 21.3 | 18.2 | 18.6 |
| Humberside | 15.1 | 16.5 | 16.8 | — | — | — | — | — | — |

[1] Prior to 1997, North East Lincolnshire and North Lincolnshire were contained within Humberside LEA along with the City of Kingston upon Hull and East Riding of Yorkshire.

### Isle of Wight College

**Mr. Andrew Turner:** To ask the Secretary of State for Education and Skills what assessment he has made of the quality of provision by the Isle of Wight college since publication of the statement by the Baroness Blackstone contained in the Department of Education and Skills press notices 1999/0212. [160272]

**Mr. Ivan Lewis** *[holding answer 10 March 2004]:* The Isle of Wight College recovery plan has been effectively implemented and the college now offers good quality courses across a wide provision to serve the needs of the local community. The college was inspected under the Common Inspection Framework in October 2003 and the inspectors judged that of the nine areas of learning delivered by the college, three were satisfactory, five were good and one outstanding. Leadership and management of the college was also judged to be good. The college has also recently been recognised as a Centre of Vocational Excellence for hospitality and catering.

### Language Teaching

**Helen Jones:** To ask the Secretary of State for Education and Skills (1) how many staff teaching English in secondary schools *(a)* for part of their time and *(b)* full-time do not have a first degree in English; [159820]

(2) how many staff teaching modern foreign languages in secondary schools *(a)* full-time and *(b)* for part of their time do not have a first degree in a foreign language; [159821]

(3) what the vacancy level for teachers of modern foreign languages is. [159822]

**Mr. Miliband:** Information on subject teaching is not available in the form requested. Similar information is available in 'Statistics of Education: School Workforce in England, 2003 Edition'. This can be found in the Library or at the following link: http://www.dfes.gov.uk/rsqatewav/DBA/OL/v000443/index.shtml. The level of qualifications teachers hold in the subjects they teach is shown in Table 24. The percentage of periods they provide in those subjects is shown in Table 25.

In January 2003, the vacancy rate for all languages in secondary schools in England was 1.1 per cent. Modern foreign languages cannot be separately identified.

### Learning Difficulties

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how many people in the United Kingdom had learning difficulties in each year since 1995. [158325]

**Mr. Ivan Lewis:** The Labour Force Survey (LFS) collects information on the long-term health conditions and impairments of working age adults. LFS estimates of those who have a current long-term impairment and whose main condition is a severe or specific learning difficulty are shown in the table below for each autumn since 1998. Comparable estimates are not available prior to 1998.

*People of working age[1] with a current long-term health condition or impairment[2] whose main condition is a learning difficulty[3]*

| *Autumn of each year* | *Thousand* | *Percentage of working age population* |
|---|---|---|
| 1998 | 128 | 0.35 |
| 1999 | 150 | 0.41 |
| 2000 | 153 | 0.42 |
| 2001 | 149 | 0.40 |
| 2002 | 187 | 0.50 |
| 2003 | 159 | 0.43 |

[1] Working age is defined as men aged 16–64 and women aged 16–59.

[2] People are defined as disabled if they have a long-standing illness significantly limiting their day-to-day activities and/or they have work-limiting disability.

[3] Main health condition is a severe or specific learning difficulty.

*Source:*

UK, Labour Force Survey

**Bob Spink:** To ask the Secretary of State for Education and Skills what proportion of the school population is categorised as having *(a)* severe and *(b)* moderate learning difficulties; and what proportion is in special schools in each case. [159389]

**Margaret Hodge:** The Department of Education and Skills began collecting data on pupils' type of special educational need from January 2004. It is not possible to provide information on the proportion of the school population with severe or moderate learning difficulties until the data have been collated. We expect it to become available in the summer.

Information about the provision being made for pupils with statements of special educational need is collected from local authorities each year. In January 2003, 37.5 per cent. of pupils with a statement of special educational need were being educated in maintained, non-maintained or independent special schools.

**Charles Hendry:** To ask the Secretary of State for Education and Skills what funding his Department provides for projects to train people with learning difficulties. [156021]

**Mr. Ivan Lewis:** There is no specific funding for such projects. Rather, training and education for people with learning difficulties is funded from the overall budget (£8.1 billion in 2003–04) which my Department allocates to the Learning and Skills Council (LSC) in order to carry out its education and training remit for young people and adults. Within this overall budget the LSC will spend £105 million this year on specialist residential college placements and considerably more supporting learners with learning difficulties in mainstream provision.

The Government have strengthened the rights of people with learning difficulties to appropriate post-16 provision through a combination of legislative change and collaborative work with key organisations representing disabled learners. Under Section 13 of the Learning and Skills Act 2000, the LSC has a specific responsibility to help young people and adults with learning difficulties. Although the LSC does not develop policies relating to specific groups of learners, its broad remit means that it can fund a wide range of provision to ensure these learners have access to suitable provision which meets their needs and, where appropriate, the additional support they require to undertake it.

The LSC has established a Forum on Learners with Learning Difficulties and/or Disabilities to ensure that inclusive learning is at the heart of its policies and processes. Membership includes representatives from Government, external representative bodies and learners with learning difficulties. The LSC also participates in local Learning Disability Partnership Boards, with the Department of Health and other partner agencies, to improve local inter-agency working.

### Local Education Authorities

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what framework is in place to assess the quality of local education authorities in areas other than those covered by Ofsted. [157069]

**Mr. Miliband** *[holding answer 27 February 2004]:* Ofsted is responsible, under section 38 of the Education Act 1997, for inspecting the main functions of local education authorities (LEAs) as they relate to schools. Provisions in the Children Bill would widen the scope of section 38 to cover any function of an LEA other than those falling within the remit of the Adult Learning Inspectorate (ALI).

Local authority social care functions are inspected by the Social Services Inspectorate (SSI), whose functions are shortly to transfer to the newly established Commission for Social Care Inspection (CSCI). The Children Bill provides for the integrated inspection of children's services in local authority areas, with all relevant inspectorates working under a framework which will cover all local authority services for children, as well as other non-Council services such as health and probation.

### Numeracy/Literacy

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how many people in the United Kingdom were classified as *(a)* innumerate and *(b)* illiterate in each year since 1995. [158326]

**Mr. Ivan Lewis:** Until last year, information on literacy and numeracy skills had not been collected on a regular basis, so annual data are not available. However, the "Skills for Life Survey: A national needs and impact survey of literacy, numeracy and ICT skills", which was published by the Department for Education and Skills in October last year, tested the literacy, language and numeracy skills of 8,040 people in England. The findings are shown in the following table. Attainment is split into levels that are broadly mapped to the National Curriculum Key Stages in schools: Entry Levels 1, 2 and 3 correspond to Foundation, Key Stage 1 and Key Stage 2, Level 1 corresponds to Key Stage 3, and Level 2 to Key Stage 4. We consider those who are at Entry Level 3 or below to have a severe basic skills need.

As education is a devolved matter, the Department does not have data covering the rest of the United Kingdom.

| | *Percentage of 16 to 65-year-olds* | *Number of 16 to 65-year-olds (million)* |
|---|---|---|
| *Overall literacy*[1] | | |
| Entry level 1 or below | 3 | 1.1 |
| Entry level 2 | 2 | 0.6 |
| Entry level 3 | 11 | 3.5 |
| (All Entry level or below) | (16) | (5.2) |
| Level 1 | 40 | 12.6 |
| Level 2 or above | 44 | 14.1 |
| | 100 | 31.9 |
| *Overall numeracy*[2] | | |
| Entry level 1 or below | 5 | 1.7 |
| Entry level 2 | 16 | 5.1 |
| Entry level 3 | 25 | 8.1 |
| (All Entry level or below) | (47) | (15.0) |
| Level 1 | 28 | 8.8 |
| Level 2 or above | 25 | 8.1 |
| | 100 | 31.9 |

[2] Base: all respondents with numeracy level (8,040)

*Source for population figures:*

Census 01

**Mr. Simmonds:** To ask the Secretary of State for Education and Skills how many people in the United Kingdom had *(a)* literacy and *(b)* numeracy skills below Level 1, broken down by (i) gender, (ii) race and (iii) socio-economic group in each year since 1995. [158328]

**Mr. Ivan Lewis:** Until last year, there was no large-scale collection of information on literacy and numeracy skills, so annual data are not available. However, the "Skills for Life Survey: A national needs and impact survey of literacy, numeracy and ICT skills", which was published by the Department for Education and Skills in October last year, tested the literacy, language and numeracy skills of 8,040 people in England.

Attainment in literacy and numeracy, recorded by gender, social class and ethnic background, is summarised in the tables.

As education is a devolved matter, the Department does not have access to data for the rest of the United Kingdom.

*Literacy and Numeracy skills below Level 1 by Gender*

*Literacy by Gender*
*Base: all respondents with literacy level (7874)*

| | *Men aged 16–65 (%)* | *Women aged 16–65 (%)* |

## Post-16 Education

**Mr. Sheerman:** To ask the Secretary of State for Education and Skills what local education authority programmes encourage pupils to remain in education beyond the age of 16; and what steps his Department is taking to support these programmes. [154945]

**Mr. Ivan Lewis:** We work with local education authorities (LEAs), the Learning and Skills Council (LSC), Connexions, and schools and colleges to encourage young people to remain in education or training after the age of 16. We are tackling the causes of low participation by providing a more flexible, coherent and better quality 14–19 curriculum; advice and guidance; and financial support.

We are working with 56 LEAs to pilot the Education Maintenance Allowance scheme. Evidence from the evaluation has led to our decision to extend the scheme across England from September 2004.

We have put in place a national Connexions service to provide advice, guidance and support to help young people make an effective transition to post-16 learning and to adult life. This is supported by Connexions Direct—an internet and telephone based confidential advice service available 18 hours a day and 365 days a year. The Connexions service has a specific target to reduce the numbers of young people not in education, employment or training by 10 per cent. by November 2004.

We are investing, jointly with the LSC, £46 million over the period 2002–03 to 2004–05 in a programme of 39 14–19 pathfinders. Pathfinder partnerships, which include LEAs, are testing local delivery of 14–19 education and training in a range of settings, introducing more curriculum flexibility and choice so that students' programmes can be better tailored to their needs and aptitudes.

We recognise that a key factor in the decision by young people to remain in education after 16 is the quality of their experience at school and the standards they achieve. That is why our strategy for transforming education in secondary schools, particularly the national Key Stage 3 Strategy, supports teachers in tailoring teaching and learning to meet the needs of pupils and to personalise their learning experience. The results of national curriculum tests at KS3 last year showed standards at their highest ever in each subject and at every level. Standards at KS4 again improved on previous record levels with greatest improvements in schools in the most challenging circumstances. The 'Increased Flexibility for 14–16 Year Olds' programme aims to increase attainment and encourage young people to progress into education or training. Over 90,000 pupils are currently involved and we are providing over £50 million of support in the current year to almost 300 partnerships between schools and colleges.

We are also working, through the Sure Start initiative, with LEAs and providers to continue to expand child care, early learning and health and family support from which teenage and older parents can benefit.

And we recognise that educational participation is supported and enhanced by modern, accessible youth work providing personal and social development. In "Resourcing Excellent Youth Services", we set youth services a clear vision of what we expect them to provide for the young people in their area. To help youth services achieve this vision, we gave local authorities a 5.9 per cent. investment increase in the EPS youth and community sub-block; and have also provided grant funding worth around £80 million over the period 2002–06 explicitly to support modernisation.

## Pre-schools

**Mr. Laws:** To ask the Secretary of State for Education and Skills what his latest estimate is of the number of pre-schools in England; and if he will make a statement. [156698]

**Margaret Hodge:** My Department estimates that there were 10,100 pre-school or playgroups in England in January 2003. Provisional data for January 2004 will be published in May 2004.

## Pupils Attainments

**Helen Jones:** To ask the Secretary of State for Education and Skills what assessment he has made of the changes in pupils' attainment in the early years of secondary schools over the past two years. [159819]

**Mr. Miliband:** The Key Stage 3 (KS3) National Tests are the main measure of pupils' attainment in the early years of secondary education. The 2003 tests, recorded the best ever pupil attainment at KS3, with improvements in every subject and at every level. Over the past two years the percentage of pupils achieving Level 5 or above has increased by four percentage points to currently stand at 69 per cent. in English; increased by five percentage points to reach 71 per cent. in mathematics and increased by two percentage points to stand at 68 per cent. in science. The percentage of pupils achieving Level 6 or above over the same period has increased by three percentage points in English to reach 35 per cent., six percentage points in mathematics to reach 49 per cent., and six percentage points in science to reach 40 per cent..

These achievements endorse the positive impact on pupils' attainment of the Key Stage 3 National Strategy which we introduced to raise the attainment of all 11 to 14-year-olds. Our priority now is to build on these gains to achieve even higher standards this year by further embedding the strategy, maintaining a focus on tackling under performance, and supporting teachers to personalise teaching and learning to meet the needs of individual pupils.

## Recreational Adult Education

**Ms Walley:** To ask the Secretary of State for Education and Skills what assessment he has made of the implications of the decision to prioritise some groups of adult learners in recreational adult education. [146316]

**Mr. Ivan Lewis:** There has been no decision to prioritise some groups of learners in recreational adult education. We gave a commitment in the Skills Strategy White Paper to safeguard the availability of lifelong learning courses by agreeing with the Learning and Skills Council (LSC) an overall indicative budget for non qualification provision provided through local education authorities (LEAs), family and neighbourhood learning. This we have done. The figure for 2004–05 is £207.4 million compared with £206 million in 2003–04. This follows a period when the Government significantly increased the budget for this type of learning from £145 million in 2000–01, and £183 million in 2002–03. In November 2002, 662,000 adults were on predominantly non vocational and non qualification courses run through LEAs.

## School Absenteeism (Greater London)

**Simon Hughes:** To ask the Secretary of State for Education and Skills how many half-days have been lost owing to unauthorised absence of pupils in *(a)* Greater London and *(b)* each London borough in each year since 1997 (i) in absolute terms and (ii) as a proportion of the total number of half-days. [158454]

**Mr. Ivan Lewis:** The information requested is shown in the tables.

*Unauthorised absence in maintained Primary and Secondary schools in Greater London 1997/98 to 2002/03*

*Notes:*

City of London reported no unauthorised absences in 2002/03.

Figures relate to maintained primary and secondary schools but exclude maintained special schools and CTCs.

Figures cover pupils that were absent between September and May for each year

### Schools (Accidents)

**Mr. Jenkins:** To ask the Secretary of State for Education and Skills how much was spent in legal costs by *(a)* schools and *(b)* local education authorities in relation to (i) school trip accidents and (ii) accidents within schools in 2003. [160070]

**Mr. Ivan Lewis:** My Department does not collect this information from local education authorities or schools.

### Sector Skills Development Agency/ University for Industry

**Michael Fabricant:** To ask the Secretary of State for Education and Skills whether the *(a)* Sector Skills Development Agency and *(b)* the University for Industry is registered to (i) the ISO 9000:2000 standard requirement and (ii) Investors In People standards. [159748]

**Mr. Ivan Lewis:** The Sector Skills Development Agency is not registered to the ISO 9000:2000 standard requirement As a relatively new organisation the Sector Skills Development agency is working towards and is totally committed to achieving Investors in People recognition during the operating year 2004–05.

The University for Industry is not registered to the ISO 9000:2000 standard requirement but is currently considering its value and expect shortly to make a decision about its adoption. The University for Industry was recognised as an Investor in People on 29 October 2003.

### Special Educational Needs

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what assessment he has made of the change in the rate of incidence of emotional and behavioural difficulties as a special educational need among primary school children over the last 10 years. [157176]

**Margaret Hodge:** In the past no figures have been collected for special educational need by type of difficulty. However, from January this year we have started to collect information about type of need for pupils with statements of SEN and for those at School Action Plus as part of the Pupil Level Annual Schools Census (PLASC). One of the categories used is 'Behaviour, Emotional and Social Difficulty' (BESD).

From this summer, information will be available on the number of children in primary schools with BESD. These figures will act as the baseline against which we will be able to compare future trends.

**Mr. Hoban:** To ask the Secretary of State for Education and Skills what procedures are in place to assess progress made in improving the attainment of children with a statement of special educational needs. [157823]

**Margaret Hodge:** Each child with a statement of special educational needs (SEN) is expected to have short-term educational and development targets set for them during the course of the year. In addition to routine monitoring of the child's progress by their teacher, these targets form part of their individual education plan which should be reviewed by the school at least twice a year and fully considered by the Local Education Authority at the annual review of the child's statement before new targets are set.

"Removing Barriers to Achievement: the Government's Strategy for SEN", launched on 11 February, will strengthen the focus on pupil progress and achievement. Key measures include:

trialling and guidance on how schools can make effective use of routine tests, tasks and other forms of assessment to inform target-setting and reporting on pupil progress;

helping schools to make effective use of information contained within the Pupil Achievement Tracker and Ofsted Performance and Assessment Reports so that they can compare their performance for different groups of pupils, including those with SEN, with other schools;

extending the Pupil Level Annual School Census to include pupil details by type of SEN, allowing comparison with others and better identification of pupils who may need targeted support;

promoting the use of P-Scales by all schools with pupils working at the very lowest level of the National Curriculum, by providing guidance on moderation to support consistent assessment and collecting P Scale results as part of the national data collection exercise from 2005;

looking further at how the achievements of all children, including those working below the level of the national tests can best be reflected in national performance tables.

The SEN Strategy includes a number of measures which underpin this work including: equipping teachers and other professionals with the skills and confidence they need to enable children with SEN to reach their potential; encouraging children and young people to be actively involved in decisions about their learning; and promoting and supporting the commitment of inclusive schools.

**Bob Spink:** To ask the Secretary of State for Education and Skills what the future role of moderate learning difficulty special schools will be; and if he will make a statement. [159383]

**Margaret Hodge:** The Government's special educational needs strategy Removing Barriers to Achievement makes it clear that we believe that special schools have an important role to play within the overall spectrum of provision for children with special educational needs—educating some children directly and sharing their expertise with mainstream schools to support greater inclusion.

There will always be changes to local provision to reflect local needs and circumstances. This is a matter for local decision. Local education authorities are required to review their provision and future needs for children with special educational needs when drafting their School Organisation Plan.

**Mr. Jenkins:** To ask the Secretary of State for Education and Skills what percentage of pupils at special schools was successfully reintegrated within the mainstream school system in 2003. [160071]

**Margaret Hodge:** In January 2003, local authorities reported that 1020 pupils had transferred from special schools to mainstream schools. That is 1.1 per cent. of the special school population. In addition, about 2000 pupils are dual registered and spend part of their time in a mainstream school. Others are on the roll of a special school but have regular mainstream experience.

The Government's SEN Strategy, "Removing Barriers to Achievement", encourages greater collaboration between special and mainstream schools in order to promote inclusion. This will include greater movement between special schools and mainstream schools by both pupils and staff. We will also encourage more special schools to participate in federation, cluster and twinning arrangements and, through the Building Schools for the Future programme, hope to bring more schools closer physically, including through co-location.

### Student Drop-out Rates

**Chris Ruane:** To ask the Secretary of State for Education and Skills what the estimated cost to public funds was of students dropping out of higher and further education courses in the latest year for which figures are available. [156309]

**Alan Johnson:** The Higher Education Funding Council for England's (HEFCE) teaching funding method provides funding for students who complete their course of study. Students who do not complete their course are not fundable. Figures for the public costs of student support for higher education students who do not complete their courses are not available.

Further education funding for institutions is based on learners' attendance on termly census dates. If students finish their studies before the planned end of their course no further funding is provided. Thus if a student attends for one term of a one year course, the college gets 30 per cent. of the funding for the whole course. The Learning and Skills Council estimates that around £319 million is spent on teaching students who attend only part of their course. This does not include any Learner Support Funds received by these learners as this information is not available centrally.

**Chris Ruane:** To ask the Secretary of State for Education and Skills what the percentage drop-out rate for students from higher education institutions whose home residence is in the *(a)* 100 poorest wards in England and Wales and *(b)* 100 richest wards in England and Wales was in the last academic year. [156311]

**Alan Johnson:** Non-completion rates are not calculated at ward level.

The figures produced by the Higher Education Funding Council for England (HEFCE) in the publication 'Performance Indicators in Higher Education in the UK' give non-completion rates for UK domiciles as a whole at each UK HE institution. A copy of the publication is held in the House Library.

### Student Finance

**Mr. Jenkins:** To ask the Secretary of State for Education and Skills when the www.dfes.gov.uk/studentsupport website will carry information on how the Higher Education Bill will change student finance arrangements. [160068]

**Alan Johnson:** The DfES Student Support website will contain information on any changes to the Higher Education funding regime only after the passage of the Bill and when the detail of the future arrangements have been decided. Until then, information on the possible impact of the Higher Education Bill on student finance arrangements is available on the Department's www.dfes.gov.uk/hegateway website which is dedicated to keeping the public informed on developments around Higher Education reform. A link between the two sites ensures that people can access both information on the current funding regime and proposals for the future.

**Chris Grayling:** To ask the Secretary of State for Education and Skills how many graduates have begun to repay income contingent loans in each of the past three financial years. [159850]

**Alan Johnson:** Repayments of income-contingent loans are collected through the tax system, apart from a few exceptions. Repayments are notified to the Student Loans Company (SLC) after the end of the tax year, after which time has to be allowed for reconciliation with SLC records. Therefore complete data on the number of borrowers with income-contingent loans where repayments have begun to have been made are not yet available.

Borrowers enter repayment status, i.e. are due to make repayments on their loans, in the April after graduating or otherwise leaving their course. No repayments are

deducted from income-contingent borrowers whose income falls below £10,000 per year. Borrowers with income contingent loans can also make voluntary repayments, either in the form of pre-payments before they enter repayment status, or ad-hoc repayments to accelerate their repayments after entering repayment status. These repayments are made directly by the borrower to the SLC. The table shows the number of UK income-contingent loan borrowers who have entered repayment status by tax year. It also shows the number who have made voluntary repayments by tax year, and of those the number who have entered repayment status in that year.

| | *2000–01* | *2001–02* | *2002–03* |
|---|---|---|---|
| Entered repayment status | 36,000 | 66,000 | 202,000 |
| Borrowers who made voluntary repayments | 5,000 | 12,000 | 24,000 |
| of which, borrowers in the first year of entering repayment status | 1,000 | 1,000 | 8,000 |

*Source:*

Student Loans Company

**Students (South Derbyshire)**

**Mr. Todd:** To ask the Secretary of State for Education and Skills (1) how many students there were in the most recent academic year for which statistics are available whose home prior to commencing their higher education course was in the South Derbyshire constituency; [157399]

(2) what proportion of students leaving school or college at 18 whose home was in the South Derbyshire constituency commenced a higher education course in the most recent academic year for which statistics are available. [157400]

**Alan Johnson:** Figures at constituency level are not held centrally.

The available information covers students accepted for entry to full time undergraduate courses via the Universities and Colleges Admissions Service (UCAS) by local education authority (LEA). The figures show that in autumn 2002, 3,508 students of all ages from South Derbyshire LEA obtained a place in HE. In the same year, 22.5 per cent. of all 18-year-olds from South Derbyshire LEA obtained a place.

**Unruly Behaviour**

**Mr. Evans:** To ask the Secretary of State for Education and Skills (1) what steps he is taking to address the problem of unruly behaviour by pupils in *(a)* primary schools and *(b)* high schools; [156492]

(2) what plans he has to change guidance to teachers with respect to restraining unruly and violent pupils. [156496]

**Mr. Ivan Lewis:** We are investing nearly £470 million over this and the next two years in measures to improve behaviour and attendance in schools. These include training for school staff in managing pupil behaviour and reducing and preventing violence. We have also made it clear that head teachers can permanently exclude pupils responsible for violence, and that we would support such action. In January 2003 new Regulations governing exclusions came into force and the DfES issued new Guidance on Exclusion from Schools and Pupil Referral Units, which introduced several changes. Independent Appeal Panels are not able to reinstate a pupil solely on the basis of technical defects in prior procedure. They are also now required to balance the interests of the excluded pupil against the interests of all the other members of the school community.

New legislation in the Anti-social Behaviour Act 2003 will enable local education authorities and schools to enter into parenting contracts with parents whose children are excluded from school, helping parents who are willing to engage to improve their children's behaviour. Where children are excluded for serious misbehaviour and parents are unwilling to engage, local education authorities may apply for court-imposed Parenting Orders, compelling the parents to attend parenting classes. We have issued "A legal toolkit for schools", which identifies legal remedies available when school staff experience problems with violent parents. Some of these are also available when dealing with violent pupils.

It is not possible to provide details of separate primary and secondary funding as a major element. The Behaviour Improvement Programme, funds partnerships of schools that include primary and secondary schools, and funding decisions are made locally.

We have no plans to change current guidance on restraining unruly or violent pupils. Our current guidance is contained in Section 550A, Circular 10/98, which came into force on 1 September 1998.

We also have guidance in this area for special schools. These are contained in LEA /0264/2003 September 2003 (guidance for LEAs and special schools on drawing up physical intervention policies and risk assessment).

# Written Answers to Questions

*Friday 12 March 2004*

## TREASURY

### Customs and Excise Staffing

**Annabelle Ewing:** To ask the Chancellor of the Exchequer (1) how many Customs and Excise staff were employed in Scotland in each year since 2002; [157866]

(2) when the last review of staffing numbers and locations was carried out by HM Customs and Excise; [157867]

(3) what plans he has to increase the number of Customs and Excise staff employed in Scotland. [157868]

**John Healey** *[holding answers 2 March 2004]*: The regional distribution of permanent staff (including fixed term) staff in all Government Departments is published annually by the Cabinet Office in Table D of 'Civil Service Statistics', a copy of which is available in the Library of the House.

In April 2002 there were 1170 full time equivalent Customs and Excise staff based in Scotland, along with a further 21.5 casual staff.

The April 2003 figures are due for publication in the summer.

In addition, staff from the national and mobile strike teams of the Law Enforcement business are available to be deployed in Scotland according to the assessed risks and operational needs. Along with detector dog teams and crews of the customs cutter fleet.

The national deployment of Customs and Excise staff is reviewed annually, and at other times as necessary. The number of staff deployed in Scotland are determined by current risk and intelligence factors. Resourcing for the next year will be decided by the Department's business managers in accordance with their assessment of operational needs.

### Film Industry

**Glenda Jackson:** To ask the Chancellor of the Exchequer what decision has been reached on the moratorium proposed to him for affording films in pre-production relief from the newly introduced tax liabilities. [160260]

**Dawn Primarolo:** No new tax liabilities have been introduced on film production. A number of tax reliefs exist specifically for film production and remain available for film-makers. These include Section 42 of the Finance (No.2) Act 1992 and Section 48 of the Finance (No.2) Act 1997. Measures to be included in Finance Bill 2004 prevent tax avoidance through the manipulation of partnership losses. A number of such avoidance schemes were targeted at the film industry.

### Gift Aid

**Mr. Don Foster:** To ask the Chancellor of the Exchequer (1) what representations his Department has received from *(a)* the museum and *(b)* the heritage sector in relation to introducing gift aid tax relief in (i) writing, (ii) meetings and (iii) other forms since 1997; and if he will make a statement; [155988]

(2) what estimate he has made of the cost to museums of *(a)* computer equipment, *(b)* staff, *(c)* administration and *(d)* other costs in relation to claiming gift aid; and if he will make a statement; [155989]

(3) pursuant to the answer of 15 January 2004 to the hon. Member for Leominster (Mr. Wiggin), *Official Report*, columns 865–6W, on gift aid, what research his Department has conducted into the impact of lost gift aid revenue on *(a)* national museums, *(b)* independent museums, *(c)* country houses and *(d)* royal buildings; and if he will make a statement. [155990]

**John Healey:** Ministers and officials from the Treasury and Chancellor's Departments regularly receive a wide range of representations from museums and the heritage sector, including many on the benefits they receive from Gift Aid.

In April 2000 the Government made improvements to the Gift Aid scheme, as part of a wider package to make the tax system simpler for charities and their donors and to encourage greater charitable giving. In 2002–03 charities received donations under Gift Aid of £2.3 billion, including tax relief from the Government of £506 million.

Under a special exemption introduced in 1989 and imported into Gift Aid as part of a wider reform in 2000, certain heritage and conservation charities are able to claim Gift Aid on membership subscriptions in the same way as they were previously able to claim tax refunds under Deeds of Covenant. Deeds of Covenant lasted for at least three years, meaning that a donor was required to have an ongoing commitment to a charity, but Gift Aid can apply to one-off donations as well.

A number of charities eligible for the special exemption are claiming Gift Aid tax refunds under so-called 'day membership' schemes. These schemes do not generate additional giving, but simply reclassify admission fees as donations on which Gift Aid is being claimed.

The Chancellor of the Exchequer announced in the pre-Budget report (Cm 6042) that the Government will amend the Gift Aid legislation to ensure that the special exemption applies as it was originally intended and not to these 'day memberships'.

This will mean that heritage and conservation charities will continue to benefit from the special exemption where a donor has an ongoing commitment to the charity, such as an annual membership, and these charities—like other fundraising charities—will continue to benefit from Gift Aid on other donations of money.

The Government is consulting closely with charities that might be affected, directly and through their associations and representative bodies, on the detail of how the change may best be achieved.

As I made clear in my earlier answer, no estimate is available of the amount of money being claimed by charities which are taking advantage of this. Charities are not required to differentiate on their Gift Aid claims the amounts they are claiming for 'day membership' income from other amounts they are claiming. No estimate has been made of the cost to museums of claiming the Gift Aid benefits they enjoy.

### Housing Stock Transfers

**Mr. Drew:** To ask the Chancellor of the Exchequer if he will make a statement on the situation of local authorities who have transferred their housing stock and who have to pay VAT on the service arrangements involved in that transfer. [161043]

**John Healey:** A local authority is entitled to recover any VAT incurred on professional services supplied to it in connection with arranging the transfer of housing stock to the private sector. VAT can also be recovered on certain improvement works the purchaser may require the local authority to carry out as a contractual condition of purchase.

### Large Business Office

**Mr. Gray:** To ask the Chancellor of the Exchequer pursuant to his answer of 12 February, *Official Report*, column 1556W, on the Large Business Office, when the Director of Inland Revenue's Large Business Office first asked Inland Revenue's internal auditors to review the accuracy of the Large Business Office's compliance data for 2002–03; when the internal auditors reported their findings; when the relevant commissioner first made known to fellow board members the existence of potentially unreliable reports of the Large Business Office's compliance performance; when the Board received the report on the issues of the 2003 review; when Inland Revenue first alerted the National Audit Office to the existence of previously overstated compliance performance for the Large Business Office in Inland Revenue's annual reports; how many of the Large Business Office's geographic offices were revealed by the 2003 follow-up review to have had at least one Large Business Office caseworker who was not reporting yield in line with departmental guidance; and what proportion of Large Business Office caseworkers were revealed not to be reporting yield in line with departmental guidance. [160095]

**Dawn Primarolo:** The Director of the LBO asked the Internal Audit Office to carry out a review of the 2002–03 figures in April 2003 (after the year end). The IAO made their report in August 2003.

A design fault in the LBO computer system incorrectly invited Inspectors to enter a tax outcome for taxpayer favour adjustments. All taxpayer favour adjustments were recorded in this way. The Board was advised in October 2003 of the overall adjustments required to LBO yield figures. The issue was discussed with NAO at a working level in February 2004 as part of their general audit coverage of the Inland Revenue.

### Project ASPIRE

**Mr. Gray:** To ask the Chancellor of the Exchequer pursuant to his Answers of 8 September, 2003, *Official Report*, column 95–96W, on the ASPIRE Programme and 11 December 2003, *Official Report*, column 604W, on the Inland Revenue, on what date it became Inland Revenue policy to include in its invitations to tender provision allowing it to undertake a review of the tax affairs of those companies responding; and on what date it was decided to include a provision in the ASPIRE invitation to tender allowing the Inland Revenue to undertake a review of the tax affairs of those companies responding. [160189]

**Dawn Primarolo:** As a Government Department, the Inland Revenue must comply with EU Council Directive 50/92, which came into force in the UK in January 1994 as a Statutory Instrument (Public Services Contract Regulations 1993 (1993: No 3228)). This Statutory Instrument allows a contracting authority to reject a service provider if the latter has not fulfilled obligations relating to payment of taxes under the law of any part of the United Kingdom.

Work on drafting the ASPIRE ITT commenced in January 2002 and notification that a review of the tax affairs of bidders would form part of the evaluation was included in a draft version of the ITT issued to the three shortlisted bidders on 31 July 2002.

### Tax Compliance

**Mr. Gray:** To ask the Chancellor of the Exchequer pursuant to the answer of 16 December 2003, *Official Report*, column 811W, on tax compliance, what the very exceptional circumstances are in which Inland Revenue will inform other Government Departments that a potential supplier has poor compliance in its tax affairs; on how many occasions in each year since 1996–97 the Inland Revenue has informed other Government Departments of a potential supplier's poor compliance standing; and which office of the Inland Revenue is responsible for making such reports to other Government Departments. [160013]

**Dawn Primarolo:** Where the Inland Revenue is working on a procurement exercise or is engaged in a contract jointly with another Government Department, the Revenue may withdraw from that joint exercise or contract in the light of tax non-compliance by a supplier. In those exceptional circumstances an explanation to joint procurement partners for the withdrawal would be appropriate but would be limited to a brief general statement and will not include details of non-compliance of the potential supplier. Where necessary, this would be done by the most appropriate Revenue office in the specific instance.

### Tax Exemption (Computers and Internet)

**Mrs. Curtis-Thomas:** To ask the Chancellor of the Exchequer how many businesses in Crosby have benefited from the 100 per cent. tax exemption for the purchase of computer and internet equipment. [160443]

**Dawn Primarolo:** We regret that the information is not available to estimate the number of businesses in Crosby which have benefited from the 100 per cent. first year capital allowances for the purchase of information and communication equipment.

### Tax Thresholds

**Mr. Byers:** To ask the Chancellor of the Exchequer what the threshold for higher rate tax liability would be if it were to cover 6 per cent. of the working age population; and what estimate he has made of tax lost by restricting the higher rate to 6 per cent. of the working age population. [160696]

**Dawn Primarolo** *[holding answer 11 March 2004]:* I regret that it would be possible to provide a reliable answer only at disproportionate cost.

## PRIME MINISTER

### Prisoners (Egypt)

**Mr. Amess:** To ask the Prime Minister pursuant to the answer of 26 January 2004, *Official Report*, column 49W, if he will *(a)* meet the families of the detainees and *(b)* invite hon. Members representing constituencies in which the detainees families reside to the meeting before the detainees are brought back to court on 25 March. [160794]

**The Prime Minister:** As the Department which leads on consular cases overseas, the Foreign and Commonwealth Office Ministers continue to make representations to the Egyptian Government where appropriate and are maintaining contact with the men's families.

## CONSTITUTIONAL AFFAIRS

### Bail (Northern Ireland)

**Mr. Dodds:** To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment he has made of the current arrangements for access to bail for defendants awaiting trial in Northern Ireland. [159554]

**Mr. Leslie:** Applicants for bail have prompt access to the Magistrates' Courts and to the High Court for bail applications. First applications to the High Court are frequently heard within 24 hours of receipt. Second and subsequent applications are normally listed for hearing within 48 hours. Saturday hearings for first bail applications in scheduled offence cases were introduced in January 2004.

### Privy Council

**Mr. Heald:** To ask the Parliamentary Secretary, Department for Constitutional Affairs how many times the Privy Council met in 2003; and how many Privy Counsellors were present on each occasion. [159582]

**Mr. Leslie:** The Privy Council met 14 times in 2003. The date of each Meeting and the number of Privy Counsellors that were present at each one are set out as follows.

| *Date* | *Number of Privy Counsellors* |
|---|---|
| *2003* | |
| 27 February | 4 |
| 20 March | 5 |
| 8 May | 4 |
| 13 May | 3 |
| 21 May | 3 |
| 12 June | 4 |
| 13 June | 3 |
| 26 June | 3 |
| 17 July | 4 |
| 8 October | 4 |
| 14 October | 3 |
| 13 November | 4 |
| 20 November | 3 |
| 10 December | 6 |

## NORTHERN IRELAND

### British Airways (Call Centre)

**Mr. Cousins:** To ask the Secretary of State for Northern Ireland what payments have been made to British Airways for the setting up of a call centre in Belfast; and whether such payments are still being made. [160220]

**Mr. Pearson:** British Airways operates a contact BA call centre in central Belfast which was expanded in 1998 with an offer of selective financial assistance from the then NI Industrial Development Board (IDB) totalling £512,000 for the creation of 65 new jobs.

On 18 February 2004, British Airways announced that the Belfast call centre would create a further 48 new jobs. This latest expansion has not attracted selective financial assistance from Invest NI (the successor body to IDB).

Owing to a policy of commercial confidentiality on information relating to specific companies, it would be inappropriate to disclose information about the amounts actually paid to British Airways.

### Charity Commission

**Lembit Öpik:** To ask the Secretary of State for Northern Ireland what plans the Government has to introduce a Charity Commission in Northern Ireland; and if he will make a statement. [159854]

**Mr. Spellar:** I refer the hon. Member to the reply I gave to the hon. Member for North Down (Lady Hermon), on 11 March 2004, *Official Report*, column 1657W.

### Derating

**Mr. Clifton-Brown:** To ask the Secretary of State for Northern Ireland how many properties, broken down by categories of use, will be affected by the proposal to derate businesses in the province; and how much money will be raised by each of the proposed steps until full derating is reached in 2011. [159957]

**Mr. Pearson:** The potential yield from the phasing out of industrial derating is included in table 1 below and the number of properties, broken down by categories of use,

that will be affected by the proposal to phase out industrial derating for manufacturing business in Northern Ireland is included in table 2.

*The Potential Yield From the Phasing Out of Industrial Derating*

| | *Rate liability (percentage)* | *Estimated total yield £ million* |
|---|---|---|
| 2005–06 | 15 | 8 |
| 2006–07 | 25 | 14 |
| 2007–08 | 35 | 19 |
| 2008–09 | 50 | 27 |
| 2009–10 | 75 | 41 |
| 2010–11 | 75 | 41 |
| 2011–12 | 100 | 55 |

*Non Domestic Properties defined as Industrial1 for Industrial Derating*

| *Property description* | *Number of properties* |
|---|---|
| Factories | 4,458 |
| Workshops and stores | 552 |
| Quarries, Sandpits, & Mines | 150 |
| Other | 13 |
| Total | 5,173 |

*Source:*
VLA Non Domestic Property List

### Extradition

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many requests for extradition of terrorist suspects from the Irish Republic have been *(a)* made and *(b)* granted in each year since 1997. [159556]

**Mr. Paul Murphy:** There have been no requests for the extradition of terrorist suspects from the Republic of Ireland to Northern Ireland since 1997, and therefore none granted.

## TRANSPORT

### Bus Lanes

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Transport how many miles of priority bus lanes have been created in Crosby since 1997. [160547]

**Mr. McNulty:** Crosby is included in the Merseyside Local Transport Plan (LTP) area. The Merseyside Passenger Transport Executive (PTE) is the local transport authority responsible for improving public transport in Merseyside including, for example, implementing bus priority measures. The PTE has recorded that it has delivered or is planning to deliver 37km of bus lanes in Merseyside between 1998–99 and 2005–06—including 5.9km of bus lanes in Sefton. These figures do not take into account other bus priority measures such as Quality Bus Corridors/showcase routes or other schemes, which may incorporate bus priority measures.

It is not possible to provide data from before 1998–99 nor is it possible to identify separately how many km of bus lanes the PTE has delivered or is planning to deliver in Crosby. It is ultimately a matter for local transport authorities to decide how to distribute the annual capital allocation received from the Government for spending on local transport in their areas, in line with local priorities and in order to achieve the objectives set out in their LTPs.

### Correspondence

**Mr. Kaufman:** To ask the Secretary of State for Transport when he intends to reply to the letter to him dated 4 February from the right hon. Member for Manchester, Gorton with regard to Mr. D. McDowell. [159988]

**Mr. Darling:** I replied to my right hon. Friend yesterday.

### Procurement Policy

**Mr. Sheerman:** To ask the Secretary of State for Transport in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159147]

**Mr. McNulty:** Environmentally sustainable procurement strategies have driven innovation in this Department in the following areas:

It is Government policy to use recycled paper and this Department has developed a Recycled Printing Papers Framework to meet the requirements of the Waste Strategy Initiative. Since the Framework started in August 2000, the success can be measured in terms of awareness, quality, availability and price advantage, demonstrated in savings to Government of £1.8 million, growth in the market place and improvements in supply and quality. There are now more than 25 Government Departments and agencies using the Framework.

It is now a contractual provision within the Department to use legal and sustainable timber for all central furniture and property management contracts. Certification to this effect is required for all furniture supplied. A decision has also been taken to discontinue use of natural wood veneers on ranges of furniture where alternative finishes are available.

The Department's catalogue of core stationery items clearly identifies "green" products. All toner cartridges are recycled.

The Department's IT disposal contract offers surplus equipment to schools under a Home Office scheme. Any equipment where this is not appropriate is disposed of in an environmentally friendly way.

All the Department's personal and laptop computers have power saving software which puts the hardware into power saving mode after approximately 20 minutes of inactivity. In addition, a rolling program is in place to refresh hardware: this has recently included the replacement of monitors with flat screen technology which has a much lower power consumption and heat output. All PC, laptop and network printer hardware also complies with EU energy saving and electrical regulation.

The Department has encouraged its main suppliers of furniture, stationery and office machinery to aim for ISO 14001 certification. Most have now received accreditation with the remainder expected to achieve it in 2004.

The Department carries out an annual environmental audit of suppliers of goods, irrespective of whether they have an ISO 14001 accreditation. The audits are carried out internally by trained staff. Examples of good practice are shared with other suppliers where possible.

The Department (in collaboration with ODPM) has awarded a contract for an electronic environmental management system (EMS) which is now being rolled out to other Government Departments.

### Railway Investment

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Transport if he will make a statement on the effect of investment in railway improvements over the next 10 years upon residents of Crosby. [160548]

**Mr. McNulty:** Merseytravel Passenger Transport Executive (PTE) is responsible for improving services and facilities for passengers on the Merseyrail network. Network Rail is responsible for maintaining and renewing the infrastructure and will be renewing one mile of track at Blundellsands and Crosby in 2005–06.

The PTE has plans for a number of improvements over the next 10 years. These include upgrading the car park at Blundellsands and Crosby and making the station fully compliant with the Disability Discrimination Act 1995; investigating the provision of a dedicated car park at Hall Road station; providing a lift at Waterloo station to improve accessibility; and upgrading the car park, improving access to the ticket office and improving bus turnaround at Formby station. The waiting room at Formby is being refurbished through the Strategic Rail Authority's Modern Facilities at Stations Programme. In addition, Merseyrail rolling stock will be fully refurbished by the end of 2004. The refurbishment includes the provision of CCTV, dedicated wheelchair spaces and cycle racks.

### Rural Bus Services

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Transport how many rural bus services in Crosby are supported by rural bus grants. [160546]

**Mr. McNulty:** Rural bus subsidy grant (RBSG) is paid to local transport authorities; in the case of Crosby this is the Merseyside Passenger Transport Executive (PTE). It is for the authority to decide which services should be supported with the grant. We understand from the PTE that no rural bus services in Crosby are provided by RBSG. The Merseyside PTE provide support for certain rural bus services in Crosby through their main revenue support funding.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Environmental Sustainability

**Mr. Sheerman:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with local authorities regarding local authority charging for waste collection and disposal. [159037]

**Mr. Morley:** In its response to the Strategy Unit report, the Government undertook to carry out further work before making a decision on whether to enable local authorities to implement direct or variable charging for waste collection and disposal. Officials have met representatives of local authorities and the Local Government Association as part of this work.

**Mr. Sheerman:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department is taking to demonstrate to local authorities the potential benefits of *(a)* increasing recycling and *(b)* reducing waste. [159004]

**Mr. Morley:** The Government's Waste Strategy 2000 set out a vision of sustainable waste management incorporating a shift away from reliance on landfill and towards waste reduction, re-use and recycling. In doing so, it explored the environmental, economic and social benefits arising from such a shift. The Strategy Unit's 2001 report, Waste not, want not, reiterated these arguments.

Part of the role of Defra's Waste Implementation Programme is to ensure that local authorities understand the benefits of more sustainable waste management. This is being pursued on an individual basis with local authorities, through regional conferences, and via the programme's national messages.

**Mr. Sheerman:** To ask the Secretary of State for Environment, Food and Rural Affairs how her Department disseminates best practice in sustainable waste management to local authorities. [159005]

**Mr. Morley:** The Defra Waste Implementation Programme's Local Authority Support Unit has been established to provide advice and a range of tools to enable local authorities to meet and, where possible, exceed their statutory targets.

The Unit has already identified a number of areas where local authorities need additional support. In response the Unit is producing a range of tools, case studies and best practice.

These will cover such areas as contract development and service procurement, strategy development, collection of bulky goods, estates recycling, kerbside capture rates and best recycling and re-use practice at civic amenity sites.

These and other tools and services developed in response to local authority needs will be disseminated through a dedicated local authority support website for waste recycling activities, to be launched in May 2004.

Tools and support will also be targeted specifically to individual local authorities which will most benefit from assistance.

### Action Energy Programme

**Llew Smith:** To ask the Secretary of State for Environment, Food and Rural Affairs what fees were paid in the last year to WS Atkins for the management of the Action Energy programme; and whether the fees paid covered work done to improve the energy efficiency of *(a)* UK buildings and *(b)* industrial processes. [155047]

**Mr. Morley:** In July 2002 Defra transferred the Energy Efficiency Best Practice programme to the Carbon Trust who relaunched it as their own Action Energy programme. Action Energy is the UK's main energy efficiency information, advice and research programme for organisations in the business and public sectors.

The Carbon Trust is a private company grant funded by Defra to lead on energy efficiency for the business and public sector and support the development of a low carbon economy in the UK. Contracts held by the Carbon Trust are a matter for the Carbon Trust Board.

### Batteries (Disposal)

**Mrs. Spelman:** To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the forthcoming EU legislation on the disposal and recycling of batteries to be introduced in the United Kingdom. [157526]

**Mr. Morley:** The timetable for implementation of the draft Directive for Member States is unclear. The Directive will be negotiated through the co-decision process. As such, much will depend on whether agreement is reached after First or Second Reading, or following conciliation. The draft Directive is expected to receive its First Reading in the European Parliament on 19 April 2004. The negotiation process may however be delayed by European Enlargement in May 2004 and European Parliament elections in June 2004.

Once the Directive is in place the UK Government will have 18 months to transpose it into domestic law.

### Cattle Tagging

**Mr. Todd:** To ask the Secretary of State for Environment, Food and Rural Affairs what research she has collated on the use of electronic tags in cattle; and what progress she has made towards implementing such a system. [159484]

**Alun Michael:** The Department has considered research results on the use of electronic identification both at a European level and small scale trials within the United Kingdom. We have also recently launched a pilot project on a minimum of 50 commercial sheep farms to assess how industry can make best use of electronic identification and to identify any issues that may arise. All these findings will be taken into account in the development of electronic identification for livestock. However, until the European Union agrees harmonised technical standards and implementation guidelines, the Government is unable to promote the widespread use of this technology given the current lack of standardisation.

### Combined Heat and Power

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what financial incentives she has considered in the development of the Government's Combined Heat and Power Strategy Paper; and if she will make a statement. [159211]

**Mr. Morley:** The measures to support CHP announced in the Energy White Paper, taken together with the measures we have previously introduced and detailed in the draft CHP Strategy, will significantly help CHP. These include:

exemption from the climate change levy for fuel inputs and electricity outputs from Good Quality CHP;

the £50 million Community Energy programme promoting community heating;

eligibility for Enhanced Capital Allowances; and

a reduction in VAT to 5 per cent. for certain grant funded domestic micro-CHP installations.

We will set out the full range of support measures in the Government's Strategy for CHP to 2010, which we intend to publish after the Easter Recess.

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs when she last visited a combined heat and power plant; and if she will make a statement. [159212]

**Mr. Morley:** Ministers and officials meet regularly with the Combined Heat and Power Association and members of the industry and have visited a number of CHP schemes.

### Dairy Farming

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs what forecast she has made of the price of milk per litre in the first three years after the Common Agricultural Policy mid-term review takes effect. [156441]

**Alun Michael:** If milk prices fully reflected the reductions in intervention prices for butter and skimmed milk powder in the period 2004–07, there would be a decrease of 4.5 pence per litre, assuming current exchange rates. The Commission in its economic assessment of the reform proposals concluded that prices would not fall to the full extent of any support price cuts. Colman and Harvey in their recent study for the Dairy Supply Chain Forum concluded that the average farm gate price in the UK could fall to just above 15 pence per litre. However, the effects of these lower prices on farm incomes will be, at least in part, offset by the introduction of direct payments. Furthermore, decoupling should lead to some improvement in prices and incomes as farmers produce for the market, rather than subsidy.

### Departmental Communications

**Matthew Taylor:** To ask the Secretary of State for Environment, Food and Rural Affairs how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158169]

**Alun Michael:** There are 60 staff employed in the Communications Directorate of the Department as professional communicators, 41 of which are members of the Government Information and Communications Service.

The Directorate has 21 Press Officers. The remainder of the staff are employed in marketing, internal communications, new media, strategic planning publications and print.

The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity.

The number of staff who work in the communications field across the Department could only be obtained at disproportionate cost.

**Matthew Taylor:** To ask the Secretary of State for Environment, Food and Rural Affairs what the total expenditure on communications for the Department has been in 2003–04, broken down by expenditure on

*(a)* Government Information and Communications Service staff and *(b)* other staff, broken down by (i) press officers,(ii) special advisers and (iii) others. [158201]

**Alun Michael:** Information on expenditure is not kept in the categories requested in the question and could only be assembled at disproportionate cost.

The total cost of staff and related expenditure for Defra Communications Directorate for 2003–04 is estimated to be £5.2 million. This includes the cost of staff in both communications professional grades and other categories. Within this figure the cost for operating the Press Office is estimated to be £1.5 million for the year.

The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of Special Advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

### Departmental Furniture

**Ms Walley:** To ask the Secretary of State for Environment, Food and Rural Affairs which companies have contracts for furniture provision for her Department; and what measures have been implemented to ensure that when a product contains wood, it can be shown to come from legal and sustainable sources. [158103]

**Mr. Morley:** The following companies have furniture supply contracts with the Department for the Environment, Food and Rural Affairs (Defra) and its executive agencies:

Carleton
Walls 2 Workstations
Viking
Project Office Furniture
Hallways
Matthews Office Furniture

Purchasing centres in Defra and its executive agencies have been issued with guidance, including a model specification clause and contract condition, that explains how to seek to acquire timber and wood products from legal and sustainable sources.

Defra's main furniture supplier, Carleton, is certified as operating a chain of custody system that meets the standards set by the Forest Stewardship Council (FSC). Certified products provide assurance that the timber used is from legal and sustainable sources. The Department monitors the value of certified wooden furniture purchased as part of its duty to report its timber purchases.

Defra is organising the creation of a central point of expertise on timber that will review the guidance given to all central departments and assess the extent to which certification schemes provide assurance that the Government contract requirements for legal and sustainable timber are met.

### Diesel Trains

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of *(a)* the levels and *(b)* the environmental implications of emissions from diesel trains. [155414]

**Mr. Morley:** Emissions from diesel trains are calculated and reported in the UK's National Atmospheric Emission Inventory produced in the Defra research programme. All UK emissions data are available on the internet: http://www.naei.org.uk.

The main pollutants emitted from the combustion of diesel fuels are carbon dioxide ($CO_2$—a greenhouse gas), oxides of nitrogen ($NO_x$), particulates ($PM_{10}$) and Sulphur Dioxide ($SO_2$). The following table shows emissions of these four pollutants for 1990, 1995 and 2001 from diesel trains, from the railway system as a whole (including emissions from electricity generation for electric trains), and from all UK sources.

| *Pollutant/Source* | *1990* | *1995* | *2001* |
|---|---|---|---|
| *Carbon as $CO_2$* | | | |
| Diesel Trains | 1,889 | 1,854 | 1,273 |
| Railway System | 6,182 | 6,521 | 5,784 |
| UK all sources | 585,047 | 548,616 | 556,352 |
| *$NO_x$* | | | |
| Diesel Trains | 21 | 15 | 10 |
| Railway System | 36 | 28 | 20 |
| UK all sources | 2,759 | 2,174 | 1,680 |
| *$PM_{10}$* | | | |
| Diesel Trains | 2 | 1 | 1 |
| Railway System | 3 | 2 | 1 |
| UK all sources | 309 | 239 | 178 |
| *$SO_2$* | | | |
| Diesel Trains | 3 | 2 | 1 |
| Railway System | 52 | 40 | 19 |
| UK all sources | 3,719 | 2,365 | 1,125 |

Emissions from diesel trains have fallen substantially in the last decade. In 2001, emissions from diesel trains accounted for approximately 0.2 per cent. of UK $CO_2$ emissions, compared to 0.3 per cent. in 1990. For $NO_x$ the proportion of UK emissions originating from diesel trains fell from 0.8 per cent. in 1990 to 0.6 per cent. in 2001. $PM_{10}$ emissions from diesel trains accounted for 0.6 per cent. of total UK emissions in 1990, reducing to 0.5 per cent. in 2001. Finally, $SO_2$ contributions have remained about the same over the same time period at about 0.08 per cent. of total UK emissions.

Defra has not assessed specifically the environmental implications of emissions from diesel locomotives because they are a low proportion of total national pollutant emissions. It is however possible that these emissions might have an impact on local air quality. Local authorities have a duty to review and assess air quality outside of buildings to identify areas where it is considered likely that Air Quality Objectives will be exceeded. Some local authorities are now beginning to perform monitoring in the vicinity of rail stations.

Under the new Non-Road Mobile Machinery Directive (97/68/EC) new railcar and locomotive engines are being addressed in two stages, from 2005 to 2007 and then again from 2011. Under the new Directive, emission standards have been set in addition to a requirement for replacement engines to meet the very latest emission limits.

### Environment Council

**Mr. Hood:** To ask the Secretary of State for Environment, Food and Rural Affairs what the outcome was of the Environment Council on 2 March; what the Government's stance was on the issues discussed, including its voting record; and if she will make a statement. [159173]

**Mr. Morley:** I attended the Environment Council on 2 March 2004, together with my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs.

The Council agreed by consensus a set of Conclusions as the contribution by Environment ministers to the Spring European Council. We were pleased with the priorities reflected in the Conclusions. They included rapid implementation of the Environmental Technologies Action Plan, a proposal that the Commission should report annually to Spring council on the implementation of the Kyoto Protocol, and called on the Community and member states to consider mid and long-term emissions reduction strategies, including targets, in preparation for the 11th Conference of the Parties to the UN Convention on Climate Change in November 2005. We called on the Commission, in preparing its review of the EU Sustainable Development Strategy by the end of 2004, to incorporate the external dimension of sustainable development so as to contribute to the achievement of the Millennium Development Goals and other international commitments.

We held a short policy debate on the proposal for a Regulation on shipments of waste. Replying to a series of questions from the Irish Presidency to all the delegations, I indicated that any measures aimed to prevent 'eco-dumping' should work through establishing community-wide standards and preserve the internal market; that in handling mixed 'green waste', the UK would support a proportionate, risk-based approach, aligned to the OECD Decision on the Control of Transboundary Movements of Wastes Destined for Recovery Operations; and that the 'take-back' requirements of the Regulation should not be applied to 'green waste'.

The Commission gave a progress report on the proposal for a Regulation on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH). We were informed that further work is being done on assessing the impact of the proposals. There are to be policy debates in both the Competitiveness and Environment Councils, in May and June respectively. We were also updated on the progress of negotiations on the proposal for a Directive to amend the EU emissions trading scheme in respect of the Kyoto Protocol's project mechanisms. Although work remains to be done, the Presidency remained hopeful that an agreement could be reached which would also receive the early support of the European Parliament.

There was a brief report back from the 7th Conference of the Parties to the Convention on Biological Diversity/ 1st Meeting of the Parties to the Cartagena Protocol on Biosafety, noting the good progress made there on protected areas and the conservation of high seas biodiversity, and also the very good EU co-ordination.

Other items were considered under Any Other Business and included a statement by the French delegation on the need to continue to press forward on maritime safety issues; a statement by the Belgian delegation on the protection of the marine environment, and in particular the problems of species spreading through ballast water and of by-catches of small mammals; written briefing from the Commission concerning its action plan on establishing a Global Monitoring for Environment and Security system; briefing from the Presidency on its plans to progress the proposal for a Regulation extending the Financial Instrument for the Environment (LIFE); and briefing from the Commission on its action plan on environment and health.

Over lunch we discussed the preparations for the 8th special session of the Governing Council/Global Ministerial Environment Forum (UNEP) to be held in Jeju at the end of March, and the 12th session of the Commission on Sustainable Development to be held in New York in April.

### Environmental Crime

**Mr. Peter Ainsworth:** To ask the Secretary of State for Environment, Food and Rural Affairs what plans the Government have to establish specialist environmental prosecutors to deal with environmental crime; and if she will make a statement. [154966]

**Mr. Morley** *[holding answer 23 February 2004]:* The Government have no plans to establish specialist environmental prosecutors to deal with environmental crime. Responsibility for prosecutions for environmental crime rests with the Crown Prosecution service, the courts, the police, local authorities, HM Customs and Excise and with agencies of Government including the Environment Agency, Countryside Agency and English Nature.

### EU Producer Responsibility Legislation

**Mr. Bill O'Brien:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the research which *(a)* has been and *(b)* will be undertaken to measure the effect of EU producer responsibility legislation on design of environmental targets in the UK. [157983]

**Mr. Morley:** Producer responsibility Directives include the Packaging, End of Life Vehicles (ELV), and Waste Electrical and Electronic Equipment (WEEE) Directives. The WEEE and ELV Directives contain provisions on product design that are expected to increase the recyclability of vehicles and electrical and electronic equipment when they are transposed later this year.

The Packaging Directive is implemented in England and Wales by (i) the Producer Responsibility Obligations (Packaging Waste) Regulations 1997 (as amended) ("the packaging Regulations") and the parallel instruments in the devolved administrations; and (ii) the Packaging (Essential Requirements) Regulations 2003. The Producer Responsibility Obligations provide incentives to minimise packaging as the amount of packaging waste producers have to recover and recycle is determined, in part, by the

amount of packaging they handle. Therefore businesses can save money if they reduce the amount of packaging they handle.

The Government recently commissioned a study on the impact of the Essential Requirements Regulations, which can be viewed at: www.dti.gov.uk/sustainability/packagingfinalreport.pdf. The report highlights a number of instances where packaging has been minimised as a result of the Essential Requirements Regulations. For example one large retailer has reduced the weight of plastic packaging on a range of cosmetic products saving around 30 tonnes of plastic per year.

### Farm Payments

**Mr. Nicholas Brown:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the names and addresses of *(a)* individuals and *(b)* limited companies who receive more than £10,000 in direct payments under the Common Agricultural Policy; and if she will make a statement. [160169]

**Alun Michael:** The Rural Payments Agency (RPA) is bound by commercial confidentiality in its dealings with its customers, whether sole traders or farmers or corporations, breach of which by disclosing information relating to the affairs of individual traders or farmers or corporations would expose the RPA to the liability of legal proceedings in court.

In relation to individual farmers or traders, information which is of a personal nature, such as individual payments to such persons, is personal data which is protected from voluntary disclosure under the Data Protection Act 1998. While the RPA can release global figures relating to payments, which do not identify individual persons, including corporations, it is unable to release individual figures without incurring the liabilities under the two principles referred to.

### Flood Defences

**Mr. Michael Foster:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the effectiveness of flood defence barriers along the River Severn. [155088]

**Mr. Morley:** The Environment Agency's initial assessment is that the use of demountable and portable defences along the River Severn in early February was a success. The Agency estimates that around 200 properties were protected from serious flooding. A full assessment will be available in May.

### Fuel Poverty

**Mr. Kidney:** To ask the Secretary of State for Environment, Food and Rural Affairs what progress her Department has made pursuant to its fuel poverty strategy to secure an increase in the number of training places for *(a)* gas fitters and *(b)* installers of (i) central heating systems and (ii) energy efficiency measures. [157162]

**Mr. Morley:** Defra has worked together with the Department for Education and Skills, Transco and the Gas and Water Industry National Training Organisation to fund training for 485 gas engineers to work on the Warm Front scheme.

In October 2003 we announced an Energy Efficiency Installer Training Programme, in partnership with the heating industry, Energy Saving Trust, and the Learning and Skills Council. The programme aims to provide 70,000 engineers with the necessary skills to specify, install and maintain high-efficiency heating systems.

### Marine Consents

**Mr. Chope:** To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to publish the conclusions of the Review of Marine Consents. [157185]

**Mr. Morley** *[holding answer 27 February 2004]:* The Review is being led by my right hon. Friend the Lord Rooker, Minister of State at the Office of the Deputy Prime Minister. The Government are considering a range of options for reform of the current consenting regime. An announcement will be made in due course.

### Over-30-months Scheme

**Mr. Todd:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the legal advice her Department uses to determine eligibility for payment under the over-30-months scheme when cattle are presented for slaughter without an official tag but with other supporting documents; and how many claims previously regarded as ineligible for want of tags have been accepted since this advice. [159486]

**Alun Michael:** When cattle are presented for slaughter at a designated abattoir the Rural Payments Agency must be satisfied of the origin of the animal. There is a risk that without an ear tag an animal might have been substituted. However, provided that there is some clear and unequivocal identification on the animal itself which directly links with the animal's official documentation it may be concluded that an animal can be satisfactorily identified.

Sixty six animals initially regarded as ineligible because of a missing official tag have since been accepted onto the scheme.

### Refrigerators

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the Environment Agency has not implemented a minimum standard for the amount of ozone-depleting substances recovered from each refrigerator. [154777]

**Mr. Morley:** Two of the principal aims of the Ozone Depleting Substance (ODS) Regulation (EC 2037/2000) are to prevent the release of existing ODS and ensure their recovery.

When setting performance standards the Environment Agency must have regard to the ODS Regulations and the criteria set out in Waste Management Paper No4 (WMP4). Licence conditions must be necessary, enforceable, unambiguous and comprehensive. The standard set by the Agency is based on the emission loss to the atmosphere from the process based on throughput, and the percentage loss through attachment to residual metal, plastic, foam and oil. The ODS Regulations do not require minimum

recovery; only that releases are prevented and ODS recovered. The Environment Agency considers that the performance standards set meet these requirements.

Setting a minimum standard of ODS recovered would be problematic when assessed against the aforementioned criteria and the fact that fridges accepted at the facilities do not contain an average or an assumed amount of ODS, as carried out by certain other standards.

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs what percentage of chlorofluorocarbons is extracted from recovered refrigerators in *(a)* the United Kingdom and *(b)* other EU member states. [154778]

**Mr. Morley:** To calculate the percentage of chlorofluorocarbons (CFC) from recovered refrigerators the average recovered CFCs per fridge for R11 and R12 needs to be used, which for 2003 in England and Wales are 186.13g and 50.5g respectively, and the average amount of CFCs contained in a refrigerator.

However, there is currently no agreed figure for an average amount of CFCs in a refrigerator across member states, primarily because of the variation in size and volume of units. Therefore it is not possible to assess and compare the percentage of CFCs with any confidence. It is for this reason that the performance standards set in the UK work on the basis of emissions lost in the process and those lost through attachment to residual metal, plastic, foam and oil.

### Sellafield

**Llew Smith:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent information she has received from the Environment Agency on the management of Technetium-99 radioactive wastes at Sellafield. [156639]

**Mr. Morley:** In September 2001 the Environment Agency published its proposed decision on the future regulation of technetium-99 (Tc-99) discharges from Sellafield into the Irish sea. In December 2002, the Secretaries of State for Environment, Food and Rural Affairs, and for Health published their decision not to exercise their powers under the Radioactive Substances Act 1993 to direct the Agency in respect to its proposed decision. The Agency's decision was, therefore, implemented in full. It contained a number of elements including a requirement to work towards the abatement of Tc-99 discharges through "MAC Diversion". This technique came into operation in middle of last year. The Agency also required research to be carried out into the use of tetraphenylphosphonium bromide (TPP) to abate Tc-99 discharges still further. A plant-scale trial using TPP was carried out towards the end of last year. The results of the trial are currently being evaluated by the Agency and the Nuclear Installations Inspectorate. We look forward to hearing their conclusions, which are expected in April.

### Thames Estuary

**Bob Spink:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the possible rise in sea level in the Thames Estuary as a result of *(a)* climate change and *(b)* other factors in the next (i) 25, (ii) 50 and (iii) 75 year terms; and what research her Department has (A) carried out and (B) commissioned into the subject. [154230]

**Mr. Morley:** The Thames Barrier was originally constructed to accommodate an 8mm per year increase in sea level, which at the time of design was extrapolated from tidal records through the Estuary. This, in principle, provides protection against a one in a 1000 year tidal surge up to 2030. Current guidance from DEFRA suggests an increase in relative sea level of up to 6mm per year is built into plans for future flood defences.

The 6mm per year figure is intended to accommodate the impact of climate change on sea level; that is thermal expansion of the oceans and ice melt of coastal ice-sheets, as well as long-term regional land subsidence.

Currently the Environment Agency is undertaking work to consider flood risk management options for the estuary up until 2100 under the project, Thames Estuary 2100. This will also involve making a full assessment of the risks associated with climate induced sea level, including potential changes in North Sea surges.

Predictions for the next 100 years will be developed using UK Climate Impact Programme research combined with trends inferred from the project's investigation into absolute ground level changes. This research is currently scheduled to be completed by September 2006.

### Timber

**Ms Walley:** To ask the Secretary of State for Environment, Food and Rural Affairs what construction and refurbishment her Department is undertaking; at what locations; and what measures are being implemented to ensure that all timber used *(a)* on the construction sites and *(b)* in the final projects will come from legal and sustainable sources. [158102]

**Mr. Morley:** The Department for the Environment, Food and Rural Affairs and its executive agencies are undertaking the following construction and refurbishment projects valued at over £100,000:

New technical buildings for the Veterinary Laboratories Agency, Weybridge;

New farm buildings for the Veterinary Laboratories Agency, Weybridge;

New lifts for the Rural Payments Agency, Carlisle;

Office redevelopment in Whitehall, London;

Office refurbishment in Millbank, London.

Procurement centres in Defra and its executive agencies have been issued with guidance, including a model specification clause and contract condition, which explains how to seek to acquire timber and wood products from legal and sustainable sources. Contractors for the projects listed above are required to supply timber from legal and sustainable sources. Building site supervisors are instructed to monitor compliance with these contract requirements.

### Toxic Waste

**Mr. Cousins:** To ask the Secretary of State for Environment, Food and Rural Affairs which sites, broken down by region, are licensable for disposal of

toxic waste; what the most recent return of annual disposal of toxic waste is; and whether each site will be licensable after the EU directives on toxic waste disposal have been fully implemented. [155105]

**Mr. Morley** *[holding answer 23 February 2004]*: I have placed a list, compiled by the Environment Agency, in the Library. This list identifies all the facilities, in alphabetical order, that had hazardous waste consigned to them in the year 2002 in England and Wales. Disposal, recovery, treatment and transfer stations are included. Sites where wastes were disposed of on the site of production are not included. The location and total quantity of hazardous waste received in 2002 are given. Most, if not all, of the non-landfill sites on this list will continue to be licensed to take hazardous waste in the future.

In terms of the impact of the Landfill Directive, the Agency are considering applications for hazardous waste landfills from operators wishing to continue to accept hazardous waste after the ban on co-disposal (of hazardous and non-hazardous waste) comes into force in July this year in accordance with the EU Landfill Directive. In addition, other landfill sites, classified as non-hazardous, may opt to accept stable non-reactive waste in separately constructed cells. Both these issues are being kept under regular review. Not all hazardous wastes are toxic and the Landfill Directive specifically bans hazardous wastes that are explosive, corrosive, oxidising or flammable from being disposed of to landfill.

## US Vessels

**Norman Baker:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer to the right hon. Member for Suffolk, Coastal (Mr. Gummer) of 29 January 2004, *Official Report*, column 494W, on US vessels, what discussions took place with *(a)* the US authorities and *(b)* the US Marine Administration before the departure of the vessels; what requests were made; what replies to these requests were received; and if she will make a statement. [153328]

**Mr. Morley:** The Environment Agency had a number of discussions with the US Marine Administration (MARAD) and the US Environmental Protection Agency prior to the departure of the vessels regarding the export of the vessels to the UK.

The Agency encouraged contact between MARAD and Hartlepool borough council in late September regarding the matter of planning permission for the Graythorp facility. At about the same time, the Agency spoke to the United States' Environmental Protection Agency about this matter. In October and prior to the departure of the vessels the Environment Agency, on several occasions in telephone calls and emails, advised MARAD to keep the vessels in the US until they were satisfied that all necessary arrangements were in place. No formal response was received.

The UK Maritime and Coastguard Agency had discussions with both MARAD and the US Coastguard regarding the safety of the vessels, their planned route and their towing arrangements.

## Village/Community Halls

**Dr. Murrison:** To ask the Secretary of State for Environment, Food and Rural Affairs what work she has commissioned into *(a)* the value to communities of village and community halls and *(b)* the repair and renovation needs of village and community halls. [159675]

**Alun Michael:** I have discussed this issue with ACRE, The Village Halls Forum and other stakeholders, and Defra is about to commission research on the repair and renovation needs of village halls and on the value of the activities that take place in village halls to the communities they serve.

## Warm Front Scheme

**Mr. Chaytor:** To ask the Secretary of State for Environment, Food and Rural Affairs what instructions her Department issued to Warm Front scheme managers on the publication on their websites of monthly statistical data relating to works carried out under the scheme. [154679]

**Mr. Morley** *[holding answer 27 February 2004]*: Both Warm Front Scheme Managers have been asked to provide details on their websites of the number of measures installed in each quarter. That information is now available for the current financial year from 1 April to 31 December 2003.

Annual data from the start of the scheme in June 2000 will be available on their websites shortly.

## Waste

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps her Department has taken to alert producers of hazardous waste to their obligations under the Landfill Directive. [156410]

**Mr. Morley:** The Department has taken the following actions:

- conducted six rounds of public consultation on aspects of the Landfill Directive, three of which dealt specifically (although not exclusively) with hazardous waste issues;
- set up the Hazardous Waste Forum and the Landfill Directive Implementation Group—whose membership includes representatives of hazardous waste producers such as the -CBI and the Chemical Industries Association;
- published the Hazardous Waste Forum action plan on the reduction and environmentally sound management of hazardous waste;
- assisted in the issue of guidance material by the Environment Agency, including technical guidance on assessing and classifying hazardous waste;
- organised seminars and took part in those organised by others (e.g. the Environmental Services Association and the Chemical Industries Association);
- arranged bilateral meetings with a wide range of industry and other interests;
- commissioned research and other projects (either direct or though the Hazardous Waste Forum or the Environment Agency).

**Sue Doughty:** To ask the Secretary of State for Environment, Food and Rural Affairs what limitations on *(a)* volume and *(b)* duration apply to on-site storage by producers of hazardous materials before such materials are classified as waste. [156431]

**Mr. Morley:** The definition of waste in force in the United Kingdom is the definition in Article 1(a) of the Waste Framework Directive (as amended). It provides that waste means, "... any substance or object ... which the holder discards or intends or is required to discard."

It rests in the first place with the producer of a substance to decide whether it is being discarded as waste. The Environment Agency is designated as a competent authority for the purposes of the Directive and is responsible for the application of its controls to substances discarded as waste.

Whether or not substances, such as hazardous materials, are discarded as waste is a matter which must be determined on the facts of the case and the interpretation of the law is a matter for the Courts. The European Court of Justice (ECJ) has issued several judgments on the interpretation of the definition of waste and the meaning of "discard". ECJ judgments are binding on member states and their "competent authorities".

There are no specific limits on *(a)* volume and *(b)* duration of storage of hazardous materials to determine whether they have been discarded as waste. However, the long term storage of materials with little intention or certainty of future use, or that no use for the material other than disposal can be envisaged, may be an indication that the material has been discarded as waste.

Where hazardous materials have been discarded as waste, the Government have provided an exemption for the temporary storage of hazardous waste at the place of production in paragraph 41 of Schedule 3 of the Waste Management Licensing Regulations 1994. This allows for the temporary storage at the place of production, pending collection, for a period not exceeding 12 months of:

80 cubic metres of waste in a secure container; or

50 cubic metres of waste in a secure place; or

23,000 litres of liquid waste in a secure container.

**Mr. Lindsay Hoyle:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will introduce measures to compensate households who suffer noise and smells from landfill sites. [157260]

**Mr. Morley:** There are no plans to introduce a compensation scheme. Measures are already in place to control noise and smells from landfill sites.

The EU Waste Framework Directive requires member states to put in place necessary measures to ensure that controlled waste is recovered or disposed of without harm to human health and the environment. This is done in the UK by means of a Waste Management licence which is issued and regulated by the Environment Agency. The Environment Agency has a range of enforcement tools which it can use to ensure licence conditions are met.

Also, in order to obtain such a licence for a landfill site, planning permission would be needed which should address the issue of likely nuisance to local residents.

### Westminster Hall

**Bob Spink:** To ask the Secretary of State for Environment, Food and Rural Affairs if she will make it her policy to have senior Ministers reply to debates in Westminster Hall. [159619]

**Alun Michael:** I refer the hon. Member to the reply given to him by my right hon. Friend , the Leader of the House on 8 March, *Official Report*, column 1234W.

## CABINET OFFICE

### Asbestos

**Malcolm Bruce:** To ask the Minister for the Cabinet Office what proportion of buildings occupied by *(a)* staff of the Department and *(b)* staff of the Department's executive agencies have been surveyed for the purpose of identifying the presence of asbestos prior to implementation of the control of Asbestos at Work Regulations 2002. [159371]

**Mr. Alexander:** All of the buildings occupied by, and which are the direct responsibility of the Cabinet Office, the Government Car and Despatch Agency and the Central Office of Information have been surveyed for the purpose of identifying the presence of asbestos. The respective landlords for buildings occupied but not controlled by the Cabinet Office, are responsible for the control of any asbestos present.

### Civil Service Code

**Adam Price:** To ask the Minister for the Cabinet Office what procedures are followed when a breach of the Civil Service Code is suspected; and who is responsible for their oversight. [161044]

**Mr. Alexander:** Departmental Staff Handbooks, which incorporate the Civil Service Code, define the standards of conduct required of civil servants within individual departments, the penalties they may incur if they fall short of them, and the arrangements for raising breaches or concerns under the Civil Service Code.

### Emergency Planning College

**Patrick Mercer:** To ask the Minister for the Cabinet Office how much has been spent at the Emergency Planning College at Easingwold on new classrooms and accommodation over the past two years; and how much was spent on new training equipment in the same period. [158982]

**Mr. Alexander:** Work Started in August 2003 on a £7 million programme to replace the Emergency Planning College's student residential accommodation, training and seminar rooms, library, research facilities and integral IT and audio-visual training equipment. The programme will provide a modern learning environment for the new courses that the college will deliver from September 2004 onwards.

Owing to the planned demolition of the old classroom block to make way for the new building, the college has limited expenditure on new training equipment in the past two years to £10,000, the minimum necessary to sustain teaching in temporary accommodation.

The College has a range of other projects to enhance its training, including development of a distance and e-learning capability, which involves spending £180,000 over the next four years on systems, materials and products.

### EU-sourced Legislation

**Mr. Heald:** To ask the Minister for the Cabinet Office what proportion of statutory instruments introduced by his Department in *(a)* 1996–97 and *(b)* 2002–03 had the European Union as their legislative source. [160050]

**Mr. Alexander:** None of the statutory instruments introduced by the Cabinet Office in 1996–97 or 2002–03 had the European Union as their legislative source.

## DEFENCE

### Defence Fire Service

**Mr. Grogan:** To ask the Secretary of State for Defence whether the transfer of the Defence Fire Service to a public private partnership would require parliamentary approval. [159637]

**Mr. Ingram** *[holding answer 8 March 2004]*: The Airfield Support Services Project (ASSP) is seeking the most cost effective and viable solution for the provision of airfield support services, including wider fire services, without compromising operational capability and/or safety. No decision has yet been made about the outcome of this project and we will only do so following full and careful consideration of all the options. Although we are moving towards this point, I am not yet in a position to say exactly when this will be.

If a Public Private Partnership were to be chosen as the preferred way ahead for ASSP, the Secretary of State would retain his position as the Fire Authority and no change in legislation would be required.

### Defence Finance

**Mr. Soames:** To ask the Secretary of State for Defence what the final provision and outturn for Request for Resources 1 Provision of Defence Capability, were in cash terms, for financial years *(a)* 2001–02 and *(b)* 2002–03. [161037]

**Mr. Ingram:** I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

### Deployment

**Mr. Soames:** To ask the Secretary of State for Defence what percentage of the *(a)* Royal Navy and Royal Marines, *(b)* Army and *(c)* Royal Air Force trained strength were deployed on operations and other military tasks for each quarter for (i) each calendar year from 1997 to 2001 and (ii) 2003. [161036]

**Mr. Ingram:** Information has only been collected in the form requested since the beginning of financial year 2001–02. Figures for 2001–02 and 2002–03 were published in the Ministry of Defence Annual Report and Accounts 2002–03 (HC1125). Comparable figures for the first three quarters of 2003/04 are:

*Percentage*

| | *2003–04* | | |
|---|---|---|---|
| | *April to June* | *July to September* | *October to December* |
| Royal Navy (incl. Marines) | -18.7 | 12.8 | 14.0 |
| Army | 46.9 | 23.2 | 22.9 |
| Air Force | 16.5 | 13.0 | 12.9 |

These percentages do not include personnel preparing for operations or recovering from operations.

Similar information on the percentage of trained strength committed to operations in 2000–01 was published in the December 2001 answer given on 10 December 2001 to the hon. Member for Yeovil (*Official Report*, column 532W), but this was not on a directly comparable basis.

Summary information on commitment levels for 1998–99 and 1999–2000 was published in the respective Ministry of Defence Performance Reports (CM4520, Cm. 5000). Again, this information was not compiled on a comparable basis to that set out above. Quarterly information on these years, and further information for years predating the 1998 Strategic Defence Review, is not held centrally and could only be provided at disproportionate cost.

### Documents

**Mr. Paul Marsden:** To ask the Secretary of State for Defence which documents are held by his Department written by *(a)* P. H. Pearse, *(b)* Thomas J. Clarke, *(c)* Thomas Macdonagh, *(d)* Edward Daly, *(e)* William Pearse, *(f)* Michael O'Hanrahan, *(g)* Joseph Mary Plunkett, *(h)* John MacBride, *(i)* Sean Heuston, *(j)* Michael Mallin, *(k)* Eamonn Ceannt, *(l)* Con Colbert, *(m)* Thomas Kent, *(n)* Sean MacDiarmada, *(o)* James Connolly and *(p)* Sir Roger Casement. [156303]

**Mr. Ingram:** I am not aware of any documents held by the Ministry of Defence written by those listed. However, a full answer could be given only after detailed research covering a large number of documents, which would involve disproportionate cost. The National Archives at Kew holds records (primarily in class WO71) relating to these individuals which were formerly held by MOD.

### Falkland Islands

**Mr. Ben Chapman:** To ask the Secretary of State for Defence if he will make a statement on the role of the military base at Mount Pleasant on the Falkland Islands. [160245]

**Mr. Ingram:** Mount Pleasant Complex is the base for the majority of British military forces in support of the mission of Commander British Forces.

### Gibraltar

**Mr. Hoyle:** To ask the Secretary of State for Defence what role the Ministry of Defence is playing in the 300th anniversary of British rule in Gibraltar; and if he will make a statement. [158264]

**Mr. Ingram:** I refer my hon. Friend to the Statement made to the House on 27 November 2003 (columns 224–225) by my right hon. Friend the Secretary of State for Defence.

### Iraq

**Tom Cox:** To ask the Secretary of State for Defence how many Iraqi men have died while being held in British military custody in Iraq; what the cause of death was in each case; and if he will make a statement. [158033]

**Mr. Ingram:** I refer my hon. Friend to the answer I gave on 4 December 2003, (*Official Report*, column 127W) to my hon. Friend the Member for Leyton and Wanstead (Harry Cohen).

Cause of death is not something for investigating Royal Military Police personnel to determine.

**Mr. Hancock:** To ask the Secretary of State for Defence if he will make a statement on the investigation into the death, in British custody, of Baha Mousa, in Iraq; when the investigation is likely to be completed; and whether the findings will be made public. [146515]

**Mr. Ingram:** I refer the hon. Member to the answer I gave on 4 March 2004, *Official Report*, column 1050W. The result of the investigation will be made public in due course.

**Bob Russell:** To ask the Secretary of State for Defence if he will hold an independent public inquiry into the deaths of the six Royal Military police officers from the Colchester garrison who were killed in Iraq. [151785]

**Mr. Hoon:** The Royal Military Police's Special Investigations Branch is conducting a thorough investigation into the deaths of the soldiers. The conduct of such investigations is independent of the Army's chain of command. When the investigation has been completed a full report will be given to the families concerned. I will make public as many of its findings as possible, subject to operational and other security constraints.

### Operation Artemis

**Mr. Gray:** To ask the Secretary of State for Defence (1) what the cost is of the use of members of the armed forces for covert surveillance on upland estates as part of Operation Artemis; [154733]

(2) how many army units will take part in covert surveillance on upland estates as part of Operation Artemis; [154734]

(3) what impact the deployment of members of the armed forces for covert surveillance on upland estates will have on the British Army's military obligations overseas. [154735]

**Mr. Ingram:** None. No requests for assistance have been received from Civil Police for such assistance this year.

### Operaton Telic

**Lynne Jones:** To ask the Secretary of State for Defence what proportion of UK operations during the war in Iraq Operation Telic represents. [151576]

**Mr. Ingram:** Operation Telic is the on-going UK contribution to coalition military operations in Iraq, not a fraction of it.

### Unmanned Aerial Vehicles

**Mr. Hoyle:** To ask the Secretary of State for Defence how much *(a)* has been spent and *(b)* investment is planned on research and design of unmanned aerial vehicles. [158510]

**Mr. Ingram:** I refer the hon. Member to the answer I gave him on 11 November 2003, (*Official Report*, column 183W). The figures provided do not differentiate between "research" and "research and design" and the two terms are to be taken as synonymous in this context.

The Ministry of Defence considers that UAVs have the potential to make significant contributions to future operations and is in the process of assembling its future research programme in support of the development of UAV-based capabilities. The investment plans are still subject to refinement and confirmation.

**Mr. Hoyle:** To ask the Secretary of State for Defence whether unmanned aerial vehicles will operate with *(a)* air squadrons and *(b)* the fleet air arm. [158514]

**Mr. Ingram:** We expect Unmanned Aerial Vehicles (UAVs) to be a joint capability for the joint battlespace. By integrating them into the emerging military command and control digitised network they will support Network Enabled Capability (NEC). At this stage we envisage them operating primarily within the land environment but we are exploring the wider operational utility of UAV systems in the joint battlespace, including the maritime environment, through the Joint UAV Experimentation Programme (JUEP). And under the Future Offensive Air System programme we expect to look at a potential mix of platforms, including Unmanned Combat Aerial Vehicles (UCAVs), to meet our future strike capability from around the end of the next decade.

## TRADE AND INDUSTRY

### Broadband

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry who will be responsible for providing the European Commission with information on the UK's national strategy on growth in the broadband and third-generation mobile sectors prior to the next meeting of the Inter-Governmental Conference; and if she will make a statement. [156463]

**Mr. Timms:** The Department of Trade and Industry supplied the European Commission with information on the UK's national strategy on growth in the broadband and third-generation mobile sectors on 19 December 2003.

The UK was a late starter in relation to broadband, but with 3.2 million subscriptions to date and growing by some 40,000 per week the market is now exhibiting strong growth. Our target remains for the UK to have the most extensive and competitive broadband market

in the G7 by 2005. We are already ahead of our European G7 neighbours in both the competitiveness and extensiveness of our broadband market.

### Conferences and Seminars

**Michael Fabricant:** To ask the Secretary of State for Trade and Industry (1) how many conferences and seminars the Department has cancelled since June 2001; and what the cost of these cancellations was; [160557]

(2) how many *(a)* conferences and *(b)* seminars the Department has held since June 2001; and what the cost was in each case. [160558]

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry how many *(a)* conferences and *(b)* seminars were convened by her Department in each year since 1997; what the costs were of each event; and how many were cancelled. [161146]

**Ms Hewitt:** The Department does not maintain a central register of conferences and seminars held and is therefore unable to provide the numbers and costs requested.

### Disability Discrimination Act

**Mr. Goodman:** To ask the Secretary of State for Trade and Industry what measures her Department is taking to prepare *(a)* businesses and *(b)* service providers for the implementation of the parts of the Disability Discrimination Act 1995 which come into effect later this year. [160691]

**Ms Hewitt** *[holding answer 11 March 2004]:* My Department is working with colleagues in the Department for Work and Pensions to ensure that information is available from a variety of sources such as free information packs, videos, websites and conferences.

This will complement the Open4All campaign being undertaken by the Disability Rights Commission. The Small Business Service will update its No-Nonsense Guide available to small business through Business Link Operators.

### Electricity Prices

**Bob Spink:** To ask the Secretary of State for Trade and Industry what the current price levels for electricity supplied to domestic customers are, broken down by supplier; and what the average electricity bill was for each region in the last year for which figures are available. [157901]

**Mr. Timms:** Current price levels for domestic electricity supply by supplier are dependent on a number of factors, including the nature of the tariff which the customer has chosen; whether the customer is with their home supplier or has switched; how the customer chooses to make their payments (direct debit is usually cheaper than both standard credit and prepayment meter options); and on levels of consumption. Customers are able to make comparisons via the Energywatch website for tariffs in their own areas.

DTI conducts a survey of domestic electricity suppliers that collects data on their tariffs and customer numbers. This data is provided on the assurance that it will not be possible to identify individual companies from the results published. Therefore, average prices broken down by supplier cannot be provided, although regional averages can. These figures are used to produce average electricity comparisons for cities in the UK regions published in the Quarterly Energy Prices publication and on DTI's website at www.dti.gov.uk/energy/inform/energy_prices/index.shtml. The relevant table is reproduced as follows:

*Table 2.2.3 Average annual domestic electricity bills[1] in 2003 for selected towns and cities in the UK and average unit costs[2]*

| | Smallest | 6.15 | 203 | 5.85 | 193 | 6.64 | 219 |

[1] All bills are calculated assuming an annual consumption of 3,300 kWh. They are calculated as weighted (by average customer numbers) averages of individual tariff bills. Figures are inclusive of VAT. 2003 bills relate to the total bill received during the year, which covers consumption from Q4 2002 to Q3 2003.

[2] Unit costs are calculated by dividing the bills shown by the relevant consumption levels.

[3] The towns/cities specified indicate which electricity region these bills apply to (see Table A2 in Annex A).

[4] The largest and smallest annual all tariff average company electricity bills and unit costs.

[5] There is no competition in electricity in Belfast, therefore no smallest/largest tariffs available.

### EU Emissions Trading Scheme

**Ms Walley:** To ask the Secretary of State for Trade and Industry what consultations she has conducted with *(a)* trade associations and *(b)* the British Ceramic Confederation on the national allocation plan of the Emissions Trading Scheme; and if she will make a statement. [160233]

**Mr. Timms:** As part of the Government's consultation, DTI and Defra officials have held a series of meetings with trade associations and other interested stakeholders to discuss the UK's draft National Allocation Plan for the EU Emissions Trading Scheme. This included a meeting with the British Ceramic Confederation on 27 February 2004.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what representations she has received from industry on the EU Emissions Trading Scheme. [158848]

**Mr. Timms:** We have received numerous representations from companies, trade associations and other business organisations about the Government's proposals for implementing the EU Emissions Trading Scheme in the UK.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Trade and Industry what the principal guidelines were for the national allocation of emission allowances; and if she will make a statement on the overall transparency of the process. [158849]

**Mr. Timms:** I refer the hon. Member to the written ministerial statement by my hon. Friend the Minister for the Environment on 19 January 2004, *Official Report*,

columns 53–54WS, about the publication of a consultation paper on a draft National Allocation Plan for the EU Emissions Trading Scheme (EU ETS) which sets out the Government's proposals for allocating allowances under the scheme.

The Government have conducted two consultations on the UK's draft National Allocation Plan and has involved businesses that will be covered by the EU ETS and other interested stakeholders at every stage of the preparations. Business and interested stakeholders will have a further opportunity to comment before the final allocation decision is taken in October 2004. Information on the EU Emissions Trading Scheme can be found on the DTI and Defra websites:

www.dti.gov.uk/energy/sepn/euets.shtml and
www.defra.gov.uk/environment/climatechange/trading/eu/index.htm.

### EU Match Funding

**Annabelle Ewing:** To ask the Secretary of State for Trade and Industry how much matched EU funding was made available by her Department in each year since 1997, broken down by nation of the United Kingdom. [160109]

**Ms Hewitt** *[holding answer 9 March 2004]:* Details of funds distributed by DTI to match European Structural Funds are not recorded centrally, and could therefore be obtained only at disproportionate cost.

Since the devolution arrangements for Scotland and Wales were established in 1999, with responsibility for the financing of European Structural Funds transferred to the devolved Administrations, DTI match funding has been restricted to England.

### Internet (Child Pornography)

**Ms Shipley:** To ask the Secretary of State for Trade and Industry what measures she has taken to encourage internet service providers to take action to contact child pornography websites. [158998]

**Mr. Timms:** The Government support the work of the Internet Watch Foundation, which was established by the internet industry in consultation with Government. The Internet Watch Foundation works in partnership with internet service providers, telecommunications companies, mobile operators, software providers, police and Government, to minimise the availability of illegal internet content, particularly child abuse images. Their Internet Hotline deals with reports of potentially illegal internet content, such as websites, newsgroups and online groups that contain: images of child abuse anywhere in the world; adult material that potentially breaches the Obscene Publications Act in the UK; and criminally racist material in the UK.

One measure of the success of this self-regulatory approach is that less than 2 per cent. of the illegal content reported to the IWF relates to material hosted in the UK.

### Ofgem

**Mr. Carmichael:** To ask the Secretary of State for Trade and Industry when Ofgem will publish the outcome of its consultation on transmission investment and renewable generation. [156618]

**Mr. Timms:** I understand that Ofgem expects to publish the outcome of this consultation in April, together with a proposed timetable for taking work forward.

### Post Office Closures

**Mr. Bill O'Brien:** To ask the Secretary of State for Trade and Industry how many people in the Normanton constituency live within a mile of a post office following the Post Office closure programme by Post Office Ltd.; and if she will make a statement. [159604]

**Mr. Timms:** Post Office Ltd. is committed to ensuring that at the end of the urban reinvention programme nationally 95 per cent. of the urban population will still live within one mile of a post office and the majority within half a mile. This information is not collected, however, for each constituency.

In the case of Normanton constituency four offices are to close under Post Office Ltd.'s urban reinvention programme. All have alternative offices within 1 mile.

### Procurement Policy

**Mr. Sheerman:** To ask the Secretary of State for Trade and Industry in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159146]

**Ms Hewitt:** I refer to the answer given by my hon. Friend the Minister for the Environment on 10 March 2004, *Official Report*, columns 1542–543W.

Within the framework of this overall approach, DTI is contributing towards encouraging environmental innovation through public procurement in a number of ways, including:

Participating in the development of the procurement aspects of the Framework for Sustainable Development on the Government Estate. It is expected that the forthcoming procurement section will set Government-wide commitments for embedding sustainable development considerations in Departmental procurement strategies.

Taking forward the commitment in the Government's Innovation Report to ask its industry-led Innovation and Growth Teams (IGT) to identify where public procurement could better facilitate innovation and how this could be achieved, including setting up an Environmental Innovation Procurement Group (EIPG) to use procurement to drive innovation in the environmental industries.

Led by the Joint DTI/Defra Environmental Markets Unit (JEMU), the EIPG comprises business and other stakeholders and is working to tackle actual and perceived barriers, such as cost, risk, skills, information and inertia to the procurement of innovative environmental technologies, products and services by the public sector.

### Radioactive Waste

**Mr. Watson:** To ask the Secretary of State for Trade and Industry pursuant to the answer of 5 March 2004, *Official Report*, column 1180W, on radioactive waste, what her policy is on making Nirex independent of the industry. [160680]

**Mr. Timms:** The review of Nirex announced by my right hon. Friend the Secretary of State for Environment, Food and Rural Affairs on 16 July 2003 is not yet complete. Government decisions on Nirex will be informed by the outcome of the review.

### Renewable Energy

**Mr. Watson:** To ask the Secretary of State for Trade and Industry if she will make a statement on the reasons underlying the percentage target for energy from renewable sources. [161006]

**Mr. Timms:** The Government's energy policy sets out four main goals:

In line with the royal Commission on Environmental Pollution's (RCEP's) recommendation, to work towards cutting emissions of carbon dioxide by some 60 per cent. by around 2050,

To maintain the reliability of energy supplies,

To promote competitive energy markets in the UK and beyond,

To ensure that every home is adequately and affordably heated.

Renewable forms of energy will play a key role in helping us to meet these goals. In January 2000, the Government announced their intention to set a target of 10 per cent. of UK electricity from renewables by 2010, subject to the costs being acceptable to the consumer. The target was set at a level considered to be challenging and yet achievable.

### Underground Power Lines (Thames Gateway)

**Jon Cruddas:** To ask the Secretary of State for Trade and Industry what discussions she has had with *(a)* the utility companies, *(b)* ministerial colleagues and *(c)* local regeneration agencies on undergrounding power lines in the Thames Gateway. [160005]

**Mr. Timms:** The Department of Trade and Industry is fully committed to regeneration and growth in the Thames Gateway and are aware that it contains an unusual concentration of overhead power lines. My officials have been working closely with ODPM, other Government Departments and the local regeneration agencies to consider whether some of these might be undergrounded or re-routed. They have also had meetings with the utility company responsible for most of the lines involved and with developers working in the Gateway. Ministers have been kept regularly informed of progress and have had discussions with counterparts in other Departments.

**Jon Cruddas:** To ask the Secretary of State for Trade and Industry what estimate she has made of the cost of undergrounding power lines in the Thames Gateway; and what resources she has made available to help with the cost of undergrounding power lines in the major development sites in the Thames Gateway. [160006]

**Mr. Timms:** Discussions regarding estimates of the costs of undergrounding some sections of the power lines in the Thames Gateway have been taking place between developers working in the Gateway and the utility companies involved. These discussions are continuing. The Department of Trade and Industry has no provision for the cost of undergrounding lines.

**Jon Cruddas:** To ask the Secretary of State for Trade and Industry what her strategy is for undergrounding power cables on the major development sites in the Thames Gateway. [160007]

**Mr. Timms:** Undergrounding is one of the options being considered for power lines in the Thames Gateway. Others include re-routeing and keeping lines in situ. The developers working on the major sites in the Gateway are preparing an analysis of those sections of line where they consider undergrounding to be important. As soon as this is available it will be discussed with the various Government bodies involved and the relevant utility companies. This approach will enable a more strategic view to be taken across the Gateway than an approach based on ad hoc consideration of the position on individual sites.

### Wind Turbines

**Mr. Walter:** To ask the Secretary of State for Trade and Industry if she will investigate how far away wind turbines are required to be sited from houses in *(a)* Denmark, *(b)* Germany and *(c)* the United States to avoid the risk of ill effects on their inhabitants, and then report to Parliament the implications for the United Kingdom. [159896]

**Mr. Timms** *[holding answer 11 March 2004]:* We are investigating availability of the information requested with the International Energy Agency and will provide a response once received.

## EDUCATION AND SKILLS

### Disability Discrimination Act

**Mr. Goodman:** To ask the Secretary of State for Education and Skills what measures his Department is taking to prepare education institutions for the implementation of the parts of the Disability Discrimination Act 1995 which come into effect later this year. [160690]

**Mr. Charles Clarke** *[holding answer 11 March 2004]:* The Disability Discrimination Act 1995 (DDA) makes provision in Part 2 about discrimination in the employment field; in Part 3 about discrimination by providers of goods, facilities and services to the public or a section of the public; in Part 4 about discrimination in the education field (Chapter 1 deals with schools and Chapter 2 with Further and Higher Education); and Part 5 about public transport.

The DDA will shortly be amended by the Disability Discrimination Act 1995 (Amendment) Regulations 2003 ("the 2003 Regulations") coming into force on 1 October 2004. These Regulations largely implement the requirements of the disability strand of the Employment Directive (Directive 2000/78/EC). Substantial amendments are made to Part 2 of the DDA and also in one area of Part 3, namely that of employment services. The 2003 Regulations do not, however, implement the Directive's requirements in relation to qualifications, vocational guidance and vocational training insofar as those requirements impact on areas covered by Part 4 of the DDA. Separate Regulations implementing the Directive in relation to Part 4 will be made by the

Secretary of State for Education and Skills in due course. Therefore, with regard to the 2003 Regulations, educational institutions, as providers of education, will not be affected by the changes which come into force on 1 October 2004.

The DDA was amended by the Special Educational Needs and Disability Act 2001 (SENDA), which largely addresses the requirements of the Employment Directive in relation to vocational training in education institutions. The next amendment under SENDA, in relation to education, is not due for implementation until 2005 when a duty in further and higher education regarding 'premises' comes into force. At this point only the implementation of the DDA Part 3 affecting premises of service providers (but excluding education institutions) will remain. DfES will consult on any proposed changes needed to bring the Employment Directive fully into effect, but will not bring those amendments in before the final SENDA provisions are implemented in 2005.

The Department of Trade and Industry is responsible for taking measures to prepare employers for the changes under part 2 of the DDA.

## Foundation Degrees

**Mr. Wiggin:** To ask the Secretary of State for Education and Skills what the *(a)* participation rates in and *(b)* drop out rates from higher education were in the last period for which figures are available, broken down by (i) parliamentary constituency and (ii) local education authority. [150464]

**Alan Johnson:** Participation rates at constituency level are not held centrally. The available information on participation rates by Local Education Authority (LEA) is taken from the Universities and Colleges Admissions Service (UCAS) and covers 18-year-old applicants who were accepted to full time undergraduate courses in the UK. Figures for the latest year are in the table.

Non-completion rates by student domicile are not calculated by the Department. The available information on non-completion rates by institution of study is published annually by the Higher Education Funding Council for England (HEFCE) in the publication 'Performance Indicators in Higher Education in the UK', a copy of which is in the House Library.

*Proportion of English domiciled students aged 18 accepted through UCAS to full-time undergraduate courses in the UK, by LEA of domicile: autumn 2002 entry*

| *Local education authority (LEA)* | *17-year-old population in 2001* | *18-year-olds accepted to HE in 2002* | *Proportion entering Higher Education (%)* |

| Worcestershire | 6,586 | 1,640 | 24.9 |
| York | 2,037 | 572 | 28.1 |
| Total England | 613,573 | 134,785 | 22.0 |

*Notes:*

1. The effect of year on year fluctuations on a small population mean that this method of calculating participation rates is unreliable for the City of London.

Participation rates have been calculated using the 17-year-old population from the previous year to reduce the distortion caused to LEA populations by the migration of students to their place of study. However, any migration, for whatever reason, at age 17 will affect the rates shown here, particularly between authorities that are geographically close, for example in the London area.

Accepted applicants with unknown English domiciles are excluded from the figures.

Population figures relate to persons aged 17 as at 31 August in the year prior to entry, counts taken at the following 1 January; accepted applicants are aged 18 at 30 September in the year of entry.

## Further/Higher Education

**Chris Ruane:** To ask the Secretary of State for Education and Skills how many *(a)* 16, *(b)* 17, *(c)* 18, *(d)* 19, *(e)* 20 and *(f)* 21-year-olds were in further education in the last year for which figures are available. [160459]

**Alan Johnson:** The information is contained in table 3.8 of the Statistical Volume "Education and Training Statistics for the United Kingdom: 2003 edition", a copy of which is available in the Library. The publication is also available online at: http://www.dfes.gov.uk/rsgatewav/DB/VOL/v000431/index.shtml.

**Mr. Jenkins:** To ask the Secretary of State for Education and Skills (1) how many undergraduates domiciled in England under the age of 24 entered a UK university in each of the last five years; and how many pupils domiciled in England were in upper sixth form education in each of the last six years; [143217]

(2) how many undergraduates domiciled in England under the age of 24 his Department expects to enter a UK university in each of the next six years; and how many pupils domiciled in England his Department expects will attend upper sixth form education in each of the next five years. [143218]

**Alan Johnson:** Figures for undergraduates entering UK HE institutions for the last five years are in the table. Projections are not available at this level.

*English domiciled students under the age of 24 entering UK HEIs*

| | Number |
|---|---|
| 1997–98 | 238,703 |
| 1998–99 | 242,840 |
| 1999–2000 | 244,953 |
| 2000–01 | 247,689 |
| 2001–02 | 259,964 |
| 2002–03 | 268,976 |

*Source:*
Higher Education Statistics Agency (HESA).

Data on pupils in upper sixth form education are not available as we do not have data with the exact definitions for this group of young people. However, data with equivalent definitions—17-year-olds participating in full-time education by institution type—is readily available and published in the Statistical First Release (SFR) publication, SFR 31/2003, entitled 'Participation in Education, Training and Employment by 16 to 18-year-olds in England:2001 and 2002'.

The table shows the number of 17-year-olds participating in full-time education by institution type from end 1997 to end 2002.

*Table 1: Number of 17-year-olds in full-time education by institution type*

| | *1997* | *1998* | *1999* | *2000* | *2001(a)*[1] | *2001(b)*[1] | *2002*[2] |
|---|---|---|---|---|---|---|---|
| *Full-time education* | | | | | | | |
| Maintained schools | 129,600 | 131,400 | 132,200 | 136,800 | 136,100 | 136,100 | 140,200 |
| Independent schools | 36,600 | 36,200 | 35,300 | 35,500 | 35,400 | 35,400 | 37,000 |
| Sixth form colleges | 47,400 | 46,600 | 46,400 | 47,400 | 47,800 | 47,800 | 51,900 |
| General FE, tertiary and specialist colleges | 140,800 | 135,800 | 135,700 | 136,400 | 136,100 | 134,300 | 143,700 |
| Higher education institutions | 3,000 | 3,000 | 3,200 | 3,200 | 3,500 | 3,500 | 3,900 |
| Total | 357,300 | 353,000 | 352,900 | 359,300 | 358,900 | 357,000 | 376,800 |

[1] The break in the series is due to changes in the source of further education data. Students on solely government supported work based learning-funded courses (WBL) are no longer recorded in the further education data. Results for end 2001 have been produced using both methods and are given in the tables, the second set *(b)* being consistent with end 2002.
[2] Provisional.
Please see 'Notes for Editors' section in the SFR 31/2003 for more information.

Projections on a consistent basis are not available. A consistent set of projections will be published in the 2004 Departmental Report.

### Part-time Students

**Tony Cunningham:** To ask the Secretary of State for Education and Skills how many part-time students are in tertiary education, broken down by the age groups *(a)* 18 to 25, *(b)* 25 to 35, *(c)* 35 to 45, *(d)* 45 to 55, *(e)* 55 to 65 and *(f)* 65 plus. [159427]

**Alan Johnson** *[holding answer 10 March 2004]:* The available information is given in the table and shows part-time enrolments at English institutions.

*Part-time enrolments*[1,2] *to HE and FE courses at English institutions by age*

| *Age* | *HE study* | *FE study* |
|---|---|---|
| Under 18 | 1,585 | 132,616 |
| 18 to 24 | 129,269 | 273,916 |
| 25 to 34 | 228,740 | 396,623 |
| 35 to 44 | 213,194 | 416,516 |
| 45 to 54 | 112,599 | 296,169 |
| 55 to 64 | 37,002 | 176,773 |
| 65 years and over | 19,195 | 127,189 |
| Unknown | 10,860 | 16,489 |
| Total | 752,444 | 1,836,291 |

[1] Figures are on a snapshot basis. For study in HE institutions, figures are as at 1 December and refer to the academic year 2002/03. For study in FE institutions, University for Industry and external institutions, figures are as at the 1 November and refer to academic year 2001/02.
[2] As the figures are calculated on a snapshot basis they will therefore exclude any enrolments after these dates.

Higher Education Statistics Agency (HESA) and Learning Skills Council (LSC).

## FOREIGN AND COMMONWEALTH AFFAIRS

### Afghanistan

**Mr. Ancram:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what the Government's position is regarding the appointment of a Supreme Court in Afghanistan by the President of Afghanistan; [160234]

(2) what steps the Government is taking to ensure a free and fair judiciary in Afghanistan; [160235]

(3) what the Government's position is regarding the appointment of a state commission to appoint *(a)* members of the judiciary and *(b)* the Supreme Court in Afghanistan. [160243]

**Mr. Straw:** We are working closely with the Afghan Government and Italy (lead-nation on judicial and penal reform) on the reconstruction of the judiciary (including a new Supreme Court). We are also considering how best to support the Afghan Government as it arrests and prosecutes those involved in the production and trafficking of narcotics.

In October 2002 President Karzai appointed a Judicial Commission of distinguished Afghan legal professionals to oversee the reform to the judiciary. The UK supports Afghanistan in developing a justice system which is speedy, fair, transparent and accessible to all. The UK has contributed £0.5 million to a UNDP programme on the reform of the judiciary and has committed £232,000 to penal reform, through Penal Reform International.

The new Afghan Constitution establishes that the nine members of the Supreme Court should be appointed by the President, with the approval of the Wolesi Jirga (lower house of the new National Assembly). Until elections for the Wolesi Jirga take place, the current Supreme Court will continue to sit. After the elections, a new Supreme Court will be established within thirty days.

### Gibraltar

**Mr. Hoyle:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on plans for a new constitution for Gibraltar. [160892]

**Mr. MacShane:** I refer my hon. Friend to the statement made by my right hon. Friend the Foreign Secretary in this House on 6 February 2004, *Official Report*, columns 51–52WS.

### Global Conflict Prevention Pool

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs how much has been gifted under the Global Conflict Prevention Pool. [158533]

**Mr. Rammell:** The following table gives readily available details of items which have been 'gifted' under the strategies of the Global Conflict Prevention Pool (GCPP) since it was set up. To undertake further research would involve disproportionate costs. Gifting is taken as referring to items which have been donated by HMG to another Government.

The GCPP is intended to support the prevention, management and resolution of conflict, and post conflict reconstruction to help avoid the re-ignition of conflict at a later date. A range of activities are covered, for example: development of new governance and justice systems; disarmament, demobilisation and reintegration of fighters into society and development of alternative livelihoods for them; training for police, armed forces and other parts of the security sector in democratic and accountable systems which respect human rights. Most GCPP funding is spent on consultancy and other non-capital support to these objectives. Related technical and other equipment is however sometimes supplied under Ministerially approved guidelines, where this supports an agreed conflict prevention strategy.

| *GCPP strategy* | *Recipient* | *Financial year* | *Total cost* | *Description (end use)* |
|---|---|---|---|---|
| Afghanistan | Afghan Transitional Administration | 2002–03 (£63,092) and 2003–04 (£100,000) | £4.8 million total £163,092 | Kabul Entry Vehicle Check-points:<br>Buildings (nine): £50,000<br>Equipment: £100,000 comprising hand-held metal detectors, mirrors for vehicle checks, generators, heaters, basic drug identification kits, communications, cold-weather clothing, torches, spotlights, beds, water tanks.<br>Joint Security Co-ordination Centre Equipment: £13,000 comprising computers, software and licenses, printers, scanners, digital projector, fax machine, photocopier, communications, office furniture, stationery. |

| Nepal | Government of Nepal | 2002–03 and 2003–04 | £4.3 m total £350,000 | Explosive Ordnance Detail (bomb disposal). |
| | RNA | 2001–02, 2002–03 and 2003–04 | £125,600 | Tactical radios, night vision telescopes and binoculars. |
| | | 2001–02 and 2002–03 | £137,600 | Normal binoculars, mobile phones, laptops, compasses. |
| | | 2002–03 | £2,600,000 | Two transport helicopters. |
| | | 2001–02, 2002–03 and 2003–04 | £400,000 | Infrastructure work for UN Peacekeeping centre at Panchkal (Nepal). |
| | | 2001–02. | £182,300 | Reconditioned Land Rovers including spares.<br>*Note:* Some of these items (e.g. radios) have been gifted every year the Strategy has been running. |
| OSCE | | | | Nothing 'gifted'. |
| Small Arms, Light Weapons | | | | Nothing 'gifted'. |
| Sri Lanka | Sri Lankan Army | 2002–03 | £92,000 | EOD equipment. |
| Security Sector Reform | Uruguay Ministry of Interior | February 2004 | £7,239.83 | High visibility jackets. |
| United Nations | Government of Uruguay | 2001–02 | £27,014 | 3 NERA satellite telephones plus airtime. |
| | UN Department of peacekeeping operations | 2002–03 | £25,000 | English language training books. |
| | Uruguayan armed forces | 2003–04 | £30,000 | Firearms training simulator. |
| | Paraguayan Peacekeeping School | To be donated on 19–3–04 | £3,793 | Computer equipment to be used during a civilian/military planning exercise to develop UN peacekeeping capacity (2 PCs, 2 projectors, 4 screens). |
| Iraq | Iraqi Police, Fire and Ambulance Service | 2003–04 | £1 million | 3,200 hand-held and 300 vehicle radios to improve the responsiveness of the Iraq Emergency Services in MND(SE). |
| | Iraqi Civil Defence Corps | 2003–04 | £159,000 | To provide vehicles (13 GAZ trucks) to the 5th ICDC battalion in MND (SE) in order to improve local security and create the conditions for the transition to local, national and strategic stand off. |
| | IL-IRAQIYA (Iraqi media network) | 2003–04 | £484,937 | Supply of an outside broadcast/satellite news gathering vehicle. |

## India

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether he discussed inter-religious conflict on his recent trip to India; and whether he made representations to the Indian Government for an independent investigation to be carried out into the level of conflict; [160127]

(2) what representations he made to the Indian Government during his recent visit to India concerning the level of attacks on Christians by Hindu militants. [160190]

**Mr. Mike O'Brien:** My right hon. Friend the Foreign Secretary discussed many subjects with the Indian Government during his visit to India in February although the opportunity to raise this issue did not arise on this occasion. He has however raised it on many previous occasions and will continue to do so. But the Indians can be in no doubt of our commitment to human rights, including the right to freedom of religion. Most recently, on my visit to India in January this year I was able to raise human rights concerns with the Indian authorities.

## Israel

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs what matters in respect of Israel's nuclear weapons of mass destruction were discussed in his meeting with Israel's Foreign Minister Shalom on 2 March. [159940]

**Mr. MacShane:** A wide range of issues of mutual concern were discussed with Foreign Minister Shalom. Details of the discussions with members of the Israeli Government are withheld under exemption l(c) of Part 2 of the Code of Practice on Access to Government Information.

### North Korea

**Mr. Roy:** To ask the Secretary of State for Foreign and Commonwealth Affairs what UK involvement there has been in the negotiations with North Korea. [160264]

**Mr. Rammell:** The UK fully supports the six-party talks process which was established to find a peaceful resolution to the issue of the Democratic People's Republic of Korea's (DPRK) nuclear programmes. We have not participated directly in the talks. However, we maintain close contacts with all the participants, including DPRK. We will also continue to urge DPRK to engage constructively in the process and dismantle its nuclear programme completely, irreversibly and verifiably.

### Nuclear Materials

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs what information he has received in respect of the theft of highly enriched uranium and caesium-137 radioactive isotopes from a research institute in Sukhumi, in Abkhazia in 2002. [159946]

**Mr. MacShane:** Georgia has not reported any loss of highly enriched uranium or caesium-137 radioactive isotopes in 2002 for inclusion on the International Atomic Energy Agency's Illicit Trafficking Database.

### Pakistan

**Llew Smith:** To ask the Secretary of State for Foreign and Commonwealth Affairs what matters in respect of Abdul Qadeer Khan's involvement in proliferating nuclear weapons were discussed during his recent visit to Pakistan. [159941]

**Mr. MacShane:** A range of issues of mutual concern were discussed during the visit. Details of the discussions with the Pakistani Government are withheld under exemption 1*(c)* of Part 2 of the Code of Practice on Access to Government Information.

**Mr. Jenkins:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions his Department has had with the *(a)* Pakistani and *(b)* Indian Governments concerning the roadmap to peace between the two countries. [160079]

**Mr. Mike O'Brien:** We have been in regular contact with the governments of both India and Pakistan following the announcement at the start of January that the two countries will begin a dialogue. My right hon. Friend the Foreign Secretary visited Pakistan last week, and India at the start of February. During both visits relations between India and Pakistan were discussed with President Musharraf, Deputy Prime Minister Advani and Foreign Minister Kasuri. Both governments were congratulated on recent progress in their bilateral relations following the breakthrough agreement to commence dialogue, and were encouraged to build a sustainable pattern of talks that will, in time, lead to the resolution of all their outstanding differences, including over Kashmir.

### Palestinian Authority

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assurance he has received from the Palestinian Authority that it unequivocally condemns suicide bombing; [160144]

(2) what representations he has made to the Palestinian Authority about the need for municipal government elections; [160147]

(3) what recent representations he has made about the need for reform of the Palestinian Authority. [160156]

**Mr. Rammell:** Representatives of the Palestinian Authority at every level have made clear to us repeatedly their condemning of suicide bombings. My right hon. Friend the Foreign Secretary's 8 March talks with the Palestinian Prime Minister, Ahmed Qurei, focussed on his plans for further improving security as well as on the importance of continuing reform of the Palestinian Authority. Elections are part of that reform process. We have encouraged the Palestinian Authority to complete its work on the legal and administrative framework. The successful conduct of municipal elections will, however, also require a significant easing of the occupation and associated restrictions on Palestinian freedom of movement.

### Zimbabwe

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of the numbers of *(a)* children and *(b)* dependants of Zimbabwean (i) police, (ii) military personnel, (iii) civil servants, (iv) judges and (v) Government Ministers who are being educated in (A) schools, (B) colleges and (C) universities in the United Kingdom. [160728]

**Mr. Mullin:** We have made no such assessment.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with Amnesty International on prison conditions in Zimbabwe. [160734]

**Mr. Mullin:** We are in regular contact with a number of human rights organisations operating in Zimbabwe who are monitoring the situation on the ground. Our embassy in Harare and officials in London regularly receive reports from Amnesty International about the level of human rights abuses in Zimbabwe.

**Mr. Bercow:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether *(a)* Mr. Henry Doha, *(b)* Lieutenant General Solomon Mujuri and *(c)* Mr. Joseph Mwale are on the EU list of Zimbabweans who are banned from travelling to member states of the European Union. [160735]

**Mr. Mullin:** Retired General Solomon Mujuru is on the EU's list as he is a ZANU (PF) Politburo Senior Committee Member. Mr. Henry Doha, a Zimbabwean police officer, is not on the list although he was removed from the UN's mission to Kosovo following protests over his presence there by UN member states, including the UK. Mr. Joseph Mwale, a member of the War Veterans' Association, is not on the list. Mr. Jabulani Sibanda, the Chair of the Association, is on the list.

The EU renewed and extended its targeted measures on Zimbabwe on 19 February 2004. An additional 16 names were added to those caught by the travel ban and assets freeze. The list targets the top members of ZANU (PF) and the Zimbabwean Government.

## WORK AND PENSIONS

### Action Teams for Jobs

**Mr. George Osborne:** To ask the Secretary of State for Work and Pensions if he will make a statement on the *(a)* cost and *(b)* success rate of Action Teams for Jobs. [158426]

**Mr. Browne:** Action Teams are halving a positive impact on the lives of disadvantaged people in some of the most economically deprived areas of the country. Between June 2000 and the end of January 2004 Action Teams had engaged with almost 250,000 people helping nearly 100,000 of them into work. The annual budget for Action Teams for Jobs is currently £49 million.

### Asbestos

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions what advice he has made available to employers concerning the implementation of the Control of Asbestos at Work Regulations 2002. [159352]

**Mr. Browne:** The Health and Safety Executive has published three Approved Codes of Practice to support The Control of Asbestos at Work Regulations 2002: one aimed at licensed asbestos removal contractors, one dealing with asbestos work that does not require a licence and the third specifically addressing the new duty to manage asbestos in non-domestic premises. These documents provide comprehensive advice on how to comply with the regulations.

The Executive has also produced a number of guidance leaflets including a free leaflet produced jointly with the Federation of Small Businesses, Asbestos Testing and Consulting and the Royal Institution of Chartered Surveyors. Practical manuals have also been produced to help workers, employers and managers on the ground fulfil their responsibilities under the regulations.

In order to raise awareness of the duty to manage asbestos, the Health and Safety Executive has also developed workshop and seminar materials, which allow presentations to be delivered on the new regulations both by HSE staff and others.

Additional useful information on complying with the regulations can be also found on HSE's web pages on asbestos on the Internet.

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions if he will list the buildings occupied by his staff, including departmental agencies, which require *(a)* remedial work on and *(b)* the removal of asbestos; what that work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159361]

**Mr. Browne:** A list of buildings requiring remedial work on, or the removal of asbestos is not yet available as the surveys being carried out in connection with the Control of Asbestos at Work Regulations 2002 will not be completed until later this year.

A list of buildings occupied by DWP staff and already identified as containing asbestos is available in the Library. This department, and its predecessors, has been proactive in identifying these buildings and the asbestos has been either sealed or removed as necessary.

The costs of the surveys and any remedial works have not been estimated. However, under the terms of the PRIME (Private Resource Initiative for Management of the Estate) contract, the DWP's service partner, Land Securities Trillium, are responsible for arranging and funding these.

**Malcolm Bruce:** To ask the Secretary of State for Work and Pensions what proportion of buildings occupied by *(a)* staff of the Department and *(b)* staff of the Department's executive agencies have been surveyed for the purpose of identifying the presence of asbestos prior to implementation of the control of Asbestos at Work Regulations 2002. [159370]

**Mr. Browne:** To date approximately 13 per cent. of the buildings occupied by DWP staff have been surveyed for the purpose of identifying the presence of asbestos prior to implementation of the control of Asbestos at Work Regulations 2002. Surveys of the remaining buildings are expected to be completed during 2004. HSE are content with the actions DWP have taken so far and the proposals for future action.

### Benefit Fraud

**Mr. Webb:** To ask the Secretary of State for Work and Pensions what the recorded benefit fraud savings for *(a)* his Department and *(b)* local authorities were in each of the last six years. [151019]

**Mr. Pond:** The available information is in the tables.

*Monetary Value Adjustments (MVA) by DSS/DWP*

| | *MVA (£)* |
|---|---|
| 1999–2000 | 27,948,245 |
| 2000–01 | 22,109,627 |
| 2001–02 | 16,382,983 |
| 2002–03 | 16,057,813 |

*Notes:*

1. Figures are rounded to the nearest pound.

2. The Monetary Value Adjustment (MVA) scheme was introduced from 1 April 1999. MVA is the difference between the weekly amount of benefit which would have been paid, or would have continued to be paid, and the benefit paid following the decision-maker's decision on the information gathered. Comparable figures for periods prior to 1999–2000 are not available.

*Source:*

Fraud Information by Sector (FIBS).

*Estimated benefit savings from fraud detection by local authorities*

| | *Weekly benefit savings (£)* |
|---|---|
| 1997–98 | 306,400,000 |
| 1998–99 | 215,900,000 |
| 1999–2000 | 167,600,000 |
| 2000–01 | 133,900,000 |

*Notes:*
1. The Weekly Benefit Savings (WBS) scheme recorded estimated savings from fraud detection. It is not possible to measure actual savings from fraud detection because it is not possible to know how long the overpayment would have continued for had if not been detected at that point in time. Estimated savings from the WBS scheme are therefore based on the assumption that the overpayment would have continued for 32 weeks had it not been detected.
2. Amounts have been rounded to the nearest £100,000.
3. Local Authority WBS rules were tightened during this period, and the fall in recorded savings may not reflect a fall in actual amounts detected.
4. For local authorities, the WBS scheme was replaced by the Security against Fraud and Error (SAFE) scheme in April 2002, with some local authorities joining in April 2001; therefore figures for WBS savings are not available for 2001–02 onwards. Like WBS, the SAFE scheme provides rewards for detected overpayments. However, it provides rewards for the detection of both fraud and claimant error overpayments.

*Source:*
Local Authority returns.

### Company Pensions

**Mr. Sheerman:** To ask the Secretary of State for Work and Pensions (1) what safeguards are in place for those who have company pensions against loss of their pension through insolvency; [160039]

(2) what support is available to those who have lost their pensions when the company which employed them went bankrupt. [160040]

**Malcolm Wicks:** In the event of employer insolvency, assistance is available to pension scheme members under the Employment Rights Act 1996 and the Pension Schemes Act 1993. Under these Acts, insolvency payments are made from the National Insurance Fund (NIF) to qualifying former employees. Claims for unpaid employees' National Insurance contributions are limited to the actual amount deducted from wages during the twelve months prior to the date of insolvency. Unpaid employers' National Insurance contributions for the twelve-month period prior to the insolvency date are also payable, but are subject to monetary limits depending on the type of pension scheme.

Assistance is also available under 'deemed buyback' provisions, introduced as part of the Pensions Act 1995. Under these provisions members of contracted-out occupational pension schemes can, in certain circumstances, have some, or all of their state scheme rights restored for the period that they were contracted-out.

Other statutory measures are in place to help safeguard the pensions that people have built up. The employer debt provisions ensure that any shortfall is treated as a debt due from the employer to the trustees of the scheme. Changes to the statutory priority order on wind-up, announced on 24 February, will help ensure a fairer distribution of the pension scheme assets between non-pensioner and pensioner scheme members.

We are also taking additional steps to protect members of defined benefit schemes. We are introducing the Pension Protection Fund, which will protect scheme members by paying compensation if their employer becomes insolvent and the pension scheme is underfunded. The Pension Protection Fund will significantly improve both protection for pension scheme members and confidence in pensions more generally. For the first time ever, individuals with defined-benefit with rights pension schemes can be assured that they will receive a meaningful level of compensation if their employer becomes insolvent and there are insufficient assets in the pension scheme to pay out the pensions promised.

We are also introducing a new Pensions Regulator with the flexibility and powers to take a targeted and proportionate approach to protecting the funds held in pension schemes.

**Mr. Sheerman:** To ask the Secretary of State for Work and Pensions how many people in *(a)* Huddersfield and *(b)* the UK lost their pensions as a result of insolvency in each year since 1997. [160041]

**Malcolm Wicks:** This information is not available. The currently available source of information on pension schemes is the Pension Schemes Registry, which is administered by the Occupational Pensions Regulatory Authority (Opra). Their database does not allow us to identify the location of scheme members affected nor the solvency status of the sponsoring employer.

### Ethnic Minority Outreach Programme

**Keith Vaz:** To ask the Secretary of State for Work and Pensions which private sector companies or organisations in each of the regions of England have received funding for the Ethnic Minority Outreach Programme; what auditing has been done to ensure that the organisations are able to place people in work; and which 10 organisations or companies have placed the most individuals in employment. [156121]

**Mr. Browne:** Ethnic Minority Outreach (EMO) contracts have been awarded to public, private and voluntary and community sector organisations who have demonstrated effective links with local ethnic minority communities. Contracts with private sector organisations have been awarded to: 'Talent', delivering provision in Leeds, Bradford and North London; 'Reed in Partnership' in North London; and The Training Network Group' in North and Central London.

Jobcentre Plus collects monthly management information about a range of key performance measures, including job outcomes. However, it is important to recognize that the principal aim of the Outreach pilots is one of engagement with ethnic minority individuals and communities to encourage them to participate in the labour market. This means that a range of outcomes may be considered a success, from making contact with individuals or employers, linking individuals to the local Jobcentre and the benefits and services they provide; providing work focused training or other activity; as well as helping people into work.

All EMO contracts are monitored by the local Jobcentre Plus District against the targets agreed when the contract was awarded.

The EMO providers who have achieved the most job outcomes are:

1. Business to Business—Leicester
2. At Work (Talent)—Bradford
3. At Work (Talent)—North London
4. Pro-Diverse—North London
5. Oldham College—Oldham
6. Kirklees Metropolitan Council—Calderdale & Kirklees
7. Indian Muslim Welfare Society—Calderdale & Kirklees
8. Halifax Opportunities Trust—Calderdale & Kirklees
9. Family Housing Association—Manchester
10. SITU-Bolton

### Minority Ethnic Outreach

**Mr. George Osborne:** To ask the Secretary of State for Work and Pensions if he will make a statement on the success rate of the Minority Ethnic Outreach. [158424]

**Mr. Browne:** Ethnic Minority Outreach has been designed and implemented to test new ways of engaging with communities and individuals who have had little or no contact with Jobcentre Plus and disproportionately high levels of unemployment. It is delivered by organisations that have demonstrated their knowledge of, and ability to work effectively with, ethnic minority communities, and uses new, innovative and community-based ways to help ethnic minority people overcome the barriers they face in the labour market. To January 2004, 9,268 people had started on the Ethnic Minority Outreach programme, with 1,664 starting work. The majority of those who joined the programme but have not yet found work are still participating, with some having joined mainstream Jobcentre Plus provision.

### Long-term Unemployment

**Mrs. Curtis-Thomas:** To ask the Secretary of State for Work and Pensions if he will make a statement on the levels of long-term *(a)* adult and *(b)* youth unemployment in Crosby over the last seven years. [160529]

**Mr. Browne:** In the UK, claimant long term unemployment has been virtually eradicated for young people and has fallen by three-quarters for adults. In my hon. Friend's constituency, Crosby, long term unemployment for adults has fallen by 70 per cent. and for young people by 95 per cent. since 1997.

These successes exemplify the successful combination of economic stability and radical labour market reforms we have provided which, despite a period of global economic insecurity, have resulted in the UK having the best employment rate and ILO unemployment rate of the major industrialised (G7) countries.

### New Deal

**Mr. Martyn Jones:** To ask the Secretary of State for Work and Pensions how many people in Wales have benefited from the *(a)* New Deal for Young People, *(b)* New Deal for Long Term Unemployed and *(c)* New Deal for Lone Parents by (i) constituency and (ii) county. [157662]

**Mr. Browne:** The available information is in the tables.

*Number of people in Wales who have benefited from the New Deal for Young People, New Deal 25+ and New Deal for Lone Parents by constituency to the end of December 2003*

| | *New Deal for Young People* | | *New Deal 25+* | | *New Deal for Lone Parents* | |

[1] Data are for July to December.
[2] Data are for April to December and relate to starts to the ND50+ Employment Credit.
[3] Data are from July.
[4] Data are for January to March and relate to starts to the ND50+ Employment Credit.
[5] Data are to September.
[6] No annual breakdown is available for New Deal for Partners.

*Notes:*
1. All other data are for January to December each year.
2. Figures are rounded to the nearest 10.
3. All figures are starts rather than individuals and include people who may have started New Deal more than once.

*Source:*
DWP Information and Analysis Directorate.

**Sue Doughty:** To ask the Secretary of State for Work and Pensions (1) how many jobseekers on the New Deal programme have been placed on an environmental task force in each year since 1998; [158228]

(2) if he will make a statement on the projects that have been undertaken by New Deal environmental task forces. [158229]

**Mr. Browne:** The information is in the table.

*New Deal for Young People*

| | *Number of participants on the Environmental Task Force* |
|---|---|
| 1998 | 8,050 |
| 1999 | 23,870 |
| 2000 | 21,870 |
| 2001 | 17,570 |
| 2002 | 17,630 |
| 2003 | 15,000 |

*Notes:*

1. Figures are rounded to the nearest 10.

2. Includes people who may have started on the programme more than once.

*Source:*

Department for Work and Pensions New Deal database.

The Environmental Task Force (ETF) Option for New Deal for Young People (NDYP) aims to enhance the long term employment prospects of young unemployed people through high quality work placements and job search help.

A wide range of projects are delivered through the programme, which aim to deliver environmental benefits to local communities in line with the Government's sustainable development priorities. These include among other things: improving the local landscape and conserving its wildlife; improving the energy efficiency of buildings; and bringing derelict land and buildings back into use.

**Mr. George Osborne:** To ask the Secretary of State for Work and Pensions (1) what the Government's definition is of sustained employment; [158380]

(2) how many New Deal participants have found sustained unsubsidised employment. [158423]

**Mr. Browne:** Sustained employment is defined as moving into work and not reclaiming benefit for 13 weeks. We only record sustained jobs for NDYP and ND25 plus. The information requested is in the table.

| | *Number of New Deal Participants that have found Sustained Unsubsidised Employment (to December 2003)* |
|---|---|
| New Deal for Young People | 353,040 |
| New Deal 25 plus | 112,250 |
| Total | 465,290 |

*Source:*

New Deal Evaluation Database, Information and Analysis Directorate, DWP.

**Mr. George Osborne:** To ask the Secretary of State for Work and Pensions what the objectives are of *(a)* the New Deal and *(b)* each New Deal programme. [158382]

**Mr. Browne:** The objectives of all the New Deal programmes are the same: to improve individuals' employment prospects and reduce the incidence of long-term sustained unemployment. New Deal also aims to work closely with employers to ensure that they are engaged in the design and delivery of local programmes. More than a million people have been helped into work by the New Deal, with the job prospects of thousands more improved by being given the skills, experience and confidence needed to succeed in the labour market.

New Deal for Lone Parents and New Deal for Partners also feed into our targets of reducing child poverty and the number of workless households.

**Mr. George Osborne:** To ask the Secretary of State for Work and Pensions how many New Deal participants have received a nationally-recognised qualification; and what percentage that represents of total participants. [158420]

**Mr. Browne:** Information on qualifications held and subsequently achieved through New Deal is recorded and monitored by New Deal personal advisers on an individual basis at local level. However, information at national level could be provided only at disproportionate cost.

**Mr. George Osborne:** To ask the Secretary of State for Work and Pensions how many New Deal participants have ceased to claim Jobseeker's Allowance. [158422]

**Mr. Browne:** The following table gives the number of people who left New Deal for Young People and New Deal 25 plus whose immediate destination was not to claim JSA.

| | *Number of New Deal participants who have ceased to claim Jobseekers Allowance* |
|---|---|
| New Deal for Young People[1] | 878,840 |
| New Deal 25 plus[2] | 335,540 |
| Total | 1,214,380 |

[1] January 1998 to December 2003.

[2] April 1998 to December 2003.

*Source:*

New Deal Evaluation Database, Information and Analysis Directorate, DWP.

**Mr. George Osborne:** To ask the Secretary of State for Work and Pensions how many and what percentage of New Deal leavers have had their destination recorded as unknown in each year since the inception of the New Deal, broken down by New Deal programme. [158428]

**Mr. Browne:** The available information is in the table.

| | 1998 | 1999 | 2000 | 2001 | 2002 | 2003 |
|---|---|---|---|---|---|---|
| *Numbers of New Deal leavers whose destination has been recorded as unknown* | | | | | | |
| New Deal for Young People | 19,540 | 54,410 | 54,080 | 51,080 | 53,120 | 61,720 |
| New Deal 25 plus | 2,460 | 12,870 | 12,110 | 13,200 | 19,270 | 23,390 |
| New Deal for Lone Parents | 360 | 7,380 | 9,790 | 21,190 | 9,480 | 15,150 |
| *Percentage of New Deal leavers whose destination has been recorded as unknown* | | | | | | |
| New Deal for Young People | 25 | 28 | 27 | 29 | 32 | 34 |
| New Deal 25 plus | 18 | 10 | 9 | 11 | 18 | 20 |
| New Deal for Lone Parents | 24 | 12 | 11 | [1]20 | 9 | 13 |

[1] Proportion leaving to an unknown destination for NDLP is higher in 2001 following an exercise which identified people who had been recorded as participating on NDLP but had no contact for at least six months.

New Deal Evaluation Database, Information and Analysis Directorate, DWP.

### Pension Credit

**Mr. Dhanda:** To ask the Secretary of State for Work and Pensions what steps his Department is taking to simplify the procedure for applying for Pension Credit, with particular reference to pensioners with savings. [159726]

**Malcolm Wicks:** The application process for Pension Credit has been designed to be straightforward for pensioners and their family and friends, who may apply on their behalf. The Pension Credit application line (freephone 0800 99 1234), which is the main method of applying, is working well and has taken over 2.3 million calls (to the end of January) since it became operational on 7 April 2003. The Pension Service is able to offer alternative ways of applying to suit individual circumstances. Recent independent research, a summary of which is available in the Library, found high levels of customer satisfaction with the application line and with the application process overall. We continue to review and improve the application process in the light of experience, including improvements to make it easier for people with savings to provide the required information and documentary evidence.

**Mr. Cousins:** To ask the Secretary of State for Work and Pensions what the percentage increase is in the number of pension credit households from the introduction of pension credit to the most recent available date in each parliamentary constituency. [160217]

**Malcolm Wicks:** A table showing the percentage increase in the number of pension credit households between 17 October 2003 and 31 January 2004, for each parliamentary constituency in Great Britain, has been placed in the Library.

### Winter Fuel Payments

**Mr. Webb:** To ask the Secretary of State for Work and Pensions how many people he estimates have to make a claim for the 2003–04 Winter Fuel Payment before 30 March cut-off date; and how many of them have yet to do so. [159701]

**Malcolm Wicks:** It is not possible to provide an accurate estimate of the number of individuals eligible for a Winter Fuel Payment who have yet to submit a claim. We estimate that approximately 600,000 eligible individuals in the United Kingdom reached age 60 in the qualifying period for the 2003–04 Winter Fuel Payment. About half of these have been paid automatically. Those not paid automatically have to claim.

So far 261,007 Winter Fuel Payment claim forms have been submitted in Great Britain.

**Mr. Crausby:** To ask the Secretary of State for Work and Pensions how many people have received winter fuel payments in Bolton, North East in each year since the introduction of the payment. [159849]

**Malcolm Wicks:** Details of the number of people in Bolton North East who received winter fuel payments from 1999–2000 are set out below. Figures for the previous years are not available.

| | *Number of people receiving winter fuel payments* |
|---|---|
| 1999–2000 | 15,520 |
| 2000–01 | 17,150 |
| 2001–02 | 17,260 |
| 2002–03 | 17,410 |

*Notes:*

Figures are rounded to the nearest 5.

Figures taken from the Matching Intelligence Data Analysis Service Winter Fuel Payments 1999–2000, 2000–01, 2001–02 and 2002–03 exercises.

*Source:*

IAD Information Centre, 100 per cent. sample.

We would expect the figures for 2003–04 to be similar to 2002–03.

**John Thurso:** To ask the Secretary of State for Work and Pensions how many claim forms for winter fuel payment have been submitted to date, broken down by region. [159853]

**Malcolm Wicks:** To date 261,007 winter fuel payment claim forms have been submitted. Numbers broken down by region are not available.

## HOME DEPARTMENT

### Correspondence

**Ian Lucas:** To ask the Secretary of State for the Home Department when he will reply to the letter of the hon. Member for Wrexham dated 1 December 2003 on the subject of Mr. Ertan Souyaz, Home Office Reference S900223; Port Reference WIT18155. [159867]

**Beverley Hughes:** I am informed that the Immigration and Nationality Directorate wrote to my hon. Friend on 2 March.

**Mr. Kaufman:** To ask the Secretary of State for the Home Department when he will reply to the letter to him from the right hon. Member for Manchester, Gorton dated 5 February with regard to certain allegations. [160488]

**Mr. Blunkett:** I wrote to my right hon. Friend on 11 March.

### Driving Offences

**Mr. Laxton:** To ask the Secretary of State for the Home Department what the *(a)* minimum and *(b)* maximum penalties are for the offences of (i) driving with no insurance, (ii) driving with no licence and (iii) driving without a valid MOT vehicle test certificate; and what plans he has to change the penalties for each of these offences. [156316]

**Paul Goggins:** The offences of driving while disqualified, driving without valid insurance and driving without a valid MOT are subject to statutory maximum sentences:

Driving while disqualified carries a maximum sentence of £5,000 and/or six months imprisonment and a maximum of six penalty points.

Driving without insurance carries a maximum sentence of £5,000 fine, unlimited disqualification or six to eight penalty points. However this offence may also be dealt with by means of a £200 fixed penalty notice and six penalty points.

Driving without a valid MOT (excise licence) carries a maximum sentence of £1,000 fine or five times the value of the licence (whichever is greater).

There are no minimum penalties for these offences except that the two endorsable offences carry a minimum of six penalty points other than in exceptional circumstances.

There are currently no plans to change the penalties for these offences, however the Sentencing Guidelines Council will consider them in due course.

### Internet Hackers

**Michael Fabricant:** To ask the Secretary of State for the Home Department what measures he plans to increase the number of arrests of hackers who send viruses via spam advertising. [159750]

**Caroline Flint:** The investigation and arrest of individuals who disseminate viruses is a matter for law enforcement. Where individuals are discovered to have disseminated viruses which cause the unauthorised modification of data they can be prosecuted under Section 3 of the Computer Misuse Act.

We have set up the National Hi Tech Crime Unit (NHTCU) as part of the National Crime Squad to combat national and transnational hi-tech crime within or which impacts upon the UK. This includes the investigation of hacking and virus writing. The Unit, together with the specialist units within local forces which also deal with such investigations, have established good international links with overseas industry and law enforcement, necessary to follow the evidence trail to discover and prosecute the perpetrators of such offences.

There have been a number of successful prosecutions against virus writers and disseminators.

In December 2003, the UK introduced new controls on unsolicited direct marketing e-mails, under the Privacy and Electronic Communications Regulations. Direct marketing e-mails may not now be sent to individual subscribers without their prior consent. The new opt-in rules do not apply to direct marketing e-mails sent to corporate subscribers (e.g. limited companies and other organisations). However, all direct marketing e-mails, regardless of who they are sent to, are required by the regulations to contain proper sender and contact details for opt out purposes.

### Mr. Steve Moxon (Inquiry)

**Mr. Cameron:** To ask the Secretary of State for the Home Department (1) when he expects to publish the results of the inquiry being held into the allegations made by Mr. Steve Moxon; [160943]

(2) whether the inquiry into the allegations made by Mr. Steve Moxon will cover *(a)* the operation of the Immigration and Nationality Directorate, *(b)* the operation of the Minister of State for Immigration's private office and *(c)* the operation of his Department's press office. [160944]

**Beverley Hughes:** I refer the hon. Member to the Written Ministerial Statement which I made today.

### Offender Management

**Mrs. Gillan:** To ask the Secretary of State for the Home Department whether the private sector will be allowed to bid for work with sex offenders under the National Offender Management Service structure. [159812]

**Paul Goggins:** The Government want the most effective custodial and community sentences possible for all offenders, including sex offenders, no matter who delivers them. It is keen to encourage partnerships between public and private sector providers and the voluntary and community sectors. The team tasked with implementing the National Offender Management Service will consider the specific details of the application of contestability with regard to sex offenders as part of its wider remit.

**Mrs. Gillan:** To ask the Secretary of State for the Home Department whether there has been an assessment of whether the probation areas will be able to deal with the reorganisation needed to establish the National Offender Management Service. [159815]

**Paul Goggins:** The National Offender Management Service implementation team intend to run regional pathfinders in order to test the proposed changes in preparation for a national roll-out.

## MINISTER FOR WOMEN

### International Women's Day

**Mr. Jim Cunningham:** To ask the Minister for Women what activities she has planned in recognition of International Women's Day. [159425]

**Ms Hewitt** *[holding answer 10 March 2004]:* To mark International Women's Day, I took part in the annual International Women's Day debate "Women, Equality

and Human Rights" in the House of Commons on 4 March 2004. I attended and made the keynote speech at the "LeicestHERday" Annual Conference "Women, Moving Forward" (3 to 5 March 2004) which included discussion groups, seminars and workshops for women in business and the community. I also spoke at the International Women's Day reception at the Trade Union Council on 8 March 2004 and lent my support to the "Funny Women" comedy event held at Café de Paris on 8 March 2004.

In addition, the House of Lords marked International Women's Day on 9 March 2004 debating the question from Baroness Gould of Potternewton "What progress has been made on the status of women in the UK?".

## DEPUTY PRIME MINISTER

### Housing

**Mrs. Curtis-Thomas:** To ask the Deputy Prime Minister if he will make a statement on how *(a)* the Starter Homes Initiative and *(b)* the Abandoned Homes Initiative have affected the residents of Crosby. [160568]

**Keith Hill:** Since September 2001, the Starter Home Initiative (SHI) has been helping key workers into home ownership in areas where the high cost of housing serves to undermine recruitment and retention of skilled staff in our key public services. The SHI has been available in London and the South East region and in some housing hotspots in the East, South West and West Midlands regions. It has not been available to key workers in the North West region.

The Office of the Deputy Prime Minister is not aware of an Abandoned Homes Initiative. However, our Market Renewal Pathfinders are a comprehensive programme to tackle low demand and abandonment in nine English areas, including Merseyside. The boundaries of the Merseyside scheme, which covers the southern part of the Sefton council district, but not Crosby, were drawn up following an analysis of local housing markets to identify those areas most acutely affected by low demand and abandonment. The integrated approach to spatial and economic issues being adopted by the pathfinders should bring substantial benefits to the wider sub-region.

### Ministerial Travel

**Bob Russell:** To ask the Deputy Prime Minister when he last used a train in connection with his ministerial duties. [154699]

**Yvette Cooper:** My right hon. Friend the Deputy Prime Minister travels by train regularly on official business. He last travelled by train on official business from Letchworth to London on Tuesday 9 March 2004.

All travel by my right hon. Friend the Deputy Prime Minister is undertaken in accordance with the rules set out in the "Ministerial Code and Travel by Ministers", copies of which are available in the Libraries of the House.

### Parliamentary Questions

**Mr. Andrew Turner:** To ask the Deputy Prime Minister pursuant to his answer of 8 March 2004, *Official Report*, column 1231W, on the South East England Development Authority, why the answer was delivered to the hon. Member without the table to which it refers; when the table was placed in the Library; and what arrangements he makes to ensure answers are delivered to the *Official Report* on the day they are given. [161191]

**Yvette Cooper:** The answer to which the hon. Member refers was answered on the 23 February 2004. It only appeared on the 8 March 2004 due to circumstances at the *Official Report* but did not include the table. The Answer and associated table will be printed in full in the bound copy of the *Official Report* for the 23 February 2004. The table referred to was not intended for the Library of the House as it was due to appear in the *Official Report*. All answers are issued to the *Official Report* when they are made available to hon. Members.

### Publicity Costs

**Mr. Damian Green:** To ask the Deputy Prime Minister how much the Government Office for the South East spent on producing and distributing the leaflet "What the Pre-Budget Report means for the South East". [161052]

**Mr. Raynsford:** The cost of producing the leaflet "What the Pre-Budget Report means for the South East" was £175.00 to the Government Office for the South East. Distribution costs were £111.00.

### Regional Government

**Ann Winterton:** To ask the Deputy Prime Minister how much the Government's Financial Guarantee would amount to in each year from 2007 to 2013 for the *(a)* North West, *(b)* North East and *(c)* Yorkshire and the Humber Region; and where the funding would come from. [160738]

**Mr. Raynsford:** If the UK proposals for an EU Framework for Devolved Regional Policy were agreed, the Government have committed that it would guarantee that by increasing UK Government spending on regional policy, UK nations and regions receive a level of resources which ensure they do not lose out from the UK's proposals on Structural Funds reform.

It is not possible to say now exactly what the domestic institutional arrangements will be in 2007, and therefore exactly how increased domestic funding would be distributed. However the principles of distribution are detailed in a written statement by my right hon. Friend the Member for Leicester, West (Ms Hewitt) on 11 December 2003, *Official Report*, columns 95–98WS. Equally it is not possible to put a figure on the Guarantee at this stage, without the GDP data that would be used in 2006.

**Ann Winterton:** To ask the Deputy Prime Minister whether the proposed regional assemblies grant in respect of fire and rescue responsibilities will match the total grant of the existing fire and rescue services in the individual regions. [160741]

**Mr. Raynsford:** No region's fire and rescue service will be financially disadvantaged because it reports to an elected regional assembly.

The Fire White Paper, Our Fire and Rescue Service announced that Regional Fire and Rescue Authorities,

> "where there are elected regional assemblies, fire and rescue authorities will be regional bodies constituted on similar lines to the London Fire and Emergency Planning Authority" (paragraph 4.15).

The Regions White Paper, Your Region, Your Choice Revitalising the English Regions, announced,

> "fairness and consistency of treatment between the English regions can be most simply demonstrated if the level of resources for the region(s) with an elected assembly is determined on broadly the same basis as for other English regions" (paragraph 5.4).

**Ann Winterton:** To ask the Deputy Prime Minister if he will list the national public bodies with regional or local offices in the *(a)* North West Region and *(b)* Yorkshire and the Humber Region. [160753]

**Mr. Raynsford:** The Cabinet Office publication, Public Bodies 2003, lists all the national public bodies in the United Kingdom. However, it does not break down the public bodies by region. Copies have been made available in the Library of the House.

**Ann Winterton:** To ask the Deputy Prime Minister what aspects of EU Regional Policy will be devolved to the English regions. [160754]

**Mr. Raynsford:** The Office of the Deputy Prime Minister has overall responsibility for the European Regional Development Fund (ERDF), one of the key Structural Funds—which deliver EU regional policy. Under the current round of programmes (until the end of 2006), the responsibility for the day-to-day management of the Structural Funds is delegated to the Government Offices in the regions.

The Government's 2002 White Paper Your Region, Your Choice: Revitalising the English Regions (Cm.5511) set out our proposal that where elected regional assemblies are established they would take over the role currently performed by Government Offices for any Structural Fund expenditure for future programming periods.

It is not possible at this stage to say which regions will have elected assemblies in 2007, nor what the outcome of Structural Fund reform will be. But as the White Paper made clear, the general approach for England—regional delivery within a clear national framework—will continue. This means that the management of replacement programmes, whether they involve European or domestic funds, will be devolved to regional or local level.

### Speeches

**Keith Vaz:** To ask the Deputy Prime Minister how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156143]

**Yvette Cooper:** My right hon. Friend the Deputy Prime Minister and other members of the Government make a number of speeches on a wide range of domestic and international issues. Copies of my right hon. Friend the Deputy Prime Minister's speeches are available on the Office of the Deputy Prime Minister's website at www.odpm.gov.uk.

### Telecommunications Masts

**Mr. Bill O'Brien:** To ask the Deputy Prime Minister who is responsible for considering disputes on the location and application of telecommunications masts; and if he will make a statement. [161114]

**Keith Hill:** Parliament has entrusted local planning authorities with the responsibility for day-to-day planning control in their areas.

**Mr. Bill O'Brien:** To ask the Deputy Prime Minister what circumstances must apply for mast sharing to fulfil the conditions of the code operations licences in the application of a telecommunications development; and if he will make a statement. [161116]

**Keith Hill:** The Electronic Communications Code requires code operators to explore the possibility of sharing an existing radio site. The evidence that they have done so should accompany any application made to the local planning authority whether for prior approval or for planning permission.

**Mr. Bill O'Brien:** To ask the Deputy Prime Minister at what distance from the ground under the permitted development an antenna is permitted to operate under telecommunication planning policy; and if he will make a statement. [161117]

**Keith Hill:** The permitted development right for licensed electronic communications code system operators are set out in the Town and Country Planning (General Permitted Development) Order 1995 (GPDO).

### Waste and Emissions Trading Act

**Mr. Sheerman:** To ask the Deputy Prime Minister what assessment he has made of the additional costs to local authorities of the Waste and Emissions Trading Act 2003. [158961]

**Mr. Morley:** I have been asked to reply.

A range of costs associated with meeting the targets in the Landfill Directive are set out in Waste Strategy 2000. The additional costs to local authorities arising from the Waste and Emissions Trading Act 2003 are covered in a partial Regulatory Impact Assessment that was circulated as part of the consultation package. These costs were shown to be marginal and to relate mainly to additional administrative costs linked to taking part in a trading scheme.

### Westminster Hall

**Bob Spink:** To ask the Deputy Prime Minister if he will make it his policy to have senior Ministers reply to debates in Westminster Hall. [159621]

**Yvette Cooper:** I refer the hon. Member to the answer given by the Leader of the House of Commons, the right hon. Member for Neath (Mr. Hain) on 8 March 2004, *Official Report*, column 1234W.

## CULTURE, MEDIA AND SPORT

### School Terms

**Jim Knight:** To ask the Secretary of State for Culture, Media and Sport what assessment has been made of the impact on the tourism industry of schools moving to a six term school year with shorter summer holidays. [160936]

**Mr. Caborn:** The decisions of Local Education Authorities on reform of the school year are primarily based on educational priorities. Research commissioned by the English Tourism Council in 2001 suggested that the total amount of UK trips in the family tourism market would be unlikely to change significantly as a result of a six-year term, but that the tourism season would be more constant over an extended period. Spreading the benefit of domestic tourism more evenly through the year in this way would encourage the development of more sustainable tourism.

### National Lottery

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport how many Lottery distributors there are; and how much money was distributed by each in each of the last three years. [160941]

**Estelle Morris:** There are currently fifteen organisations that distribute the proceeds from the National Lottery. The Millennium Commission has received no funds from the Lottery since August 2001, and it is planned that the New Opportunities Fund and the Community Fund will be merged to form a single new distributor. This merger will happen when primary legislation is in place.

The table shows how much money each distributor has drawn down from the funds raised. The column 2003–04 represents the financial year to the end of February.

£

| | *2001–02* | *2002–03* | *2003–04 (YTD)* |
|---|---|---|---|

| Sports Council for Wales | 10,318,000 | 20,632,199.93 | 19,661,073.85 |
| Scottish Screen | 4,021,223.10 | 4,210,613.59 | 2,641,867.47 |

**Mr. Hoyle:** To ask the Secretary of State for Culture, Media and Sport what the total of unclaimed National Lottery prizes was in each of the last five years. [161438]

**Estelle Morris:** The information for the last five full financial years is shown in the table.

| *Financial year* | *Unclaimed prizes (£000)* |
|---|---|
| 2002–03 | 84,923 |
| 2001–02 | 80,805 |
| 2000–01 | 75,651 |
| 1999–2000 | 70,792 |
| 1998–99 | 78,289 |

### Olympic Games

**Mr. Roy:** To ask the Secretary of State for Culture, Media and Sport what steps she is taking to ensure that venues outside London are involved in the 2012 Olympic bid. [160263]

**Tessa Jowell:** The bidding company, London 2012, announced the venues for the bid to host the Olympic and Paralympic Games on 16 January. The rowing, sailing and shooting events will be staged at venues outside central London and the Olympic football competition will be held in stadia in Belfast, Birmingham, Cardiff, Glasgow, Manchester and Newcastle. Should the bid succeed, sporting facilities across the UK will have the opportunity to be used by national teams for training camps.

### Rowing

**Mr. Hawkins:** To ask the Secretary of State for Culture, Media and Sport what meetings *(a)* she, *(b)* her Ministers and *(c)* officials have held with representatives of the Amateur Rowing Association since August 2003 to discuss the World Rowing Championships 2006; and if she will make a statement. [160887]

**Mr. Caborn:** I met Di Ellis, Chairman of the Executive Committee of the Amateur Rowing Association (ARA), Michael Baldwin Chairman of the Organising Committee of the World Cup Regatta 2005 and the World Rowing Championships 2006, and John Scott of UK Sport on 1 December 2003 to discuss the facilities at Dorney Lake which will host both Championships.

The Department for Culture, Media and Sport will shortly be convening a meeting of the ARA, the Championships Organising Committee, Sport England and UK Sport to further discuss the best way forward to ensure that the Dorney Lake course is brought to the required standard for World and Olympic rowing events.

**Mr. Hawkins:** To ask the Secretary of State for Culture, Media and Sport whether Dorney Lake will be the venue for *(a)* the World Cup Regatta 2005 and *(b)* the World Rowing Championships in May 2006. [160888]

**Mr. Caborn:** The Dorney Lake rowing course has been selected to be the venue for both the World Cup Regatta 2005 and the World Rowing Championships 2006.

**Mr. Hawkins:** To ask the Secretary of State for Culture, Media and Sport in what year the UK was last awarded the World Rowing Championships; and if she will make a statement. [160889]

**Mr. Caborn:** The World Rowing Championships were last held in the UK in 1986 when Nottingham was the host city.

The Government are pleased that the UK has been awarded the 2006 Championships and hopes that all interested parties will continue to work together in preparation for this event to ensure that it is an unqualified success.

**Mr. Hawkins:** To ask the Secretary of State for Culture, Media and Sport how many members of the International Olympic Committee *(a)* are also members of Fédération Internationale des Sociétés d'Aviron and *(b)* are expected to attend the 2005 World Cup Regatta. [160890]

**Mr. Caborn:** There are four members of the International Olympic Committee who are also members of the Fédération Internationale des Sociétés d'Aviron (FISA).

Invitations to the regatta are a matter for the Amateur Rowing Association and FISA.

**Mr. Hawkins:** To ask the Secretary of State for Culture, Media and Sport what further funding is required to complete the Dorney Lake rowing course to the standard required for World and Olympic events; and if she will make a statement. [160891]

**Mr. Caborn:** The Amateur Rowing Association (ARA) has made a detailed analysis of the costs needed to complete the Dorney Lake rowing course to the standard required for World and Olympic Events. In addition to the funding already in place, the ARA have estimated that a further £1,112,000 would be needed.

The Department will continue to work closely with the ARA and other interested parties to consider what further steps should be taken to help bring the Dorney Lake facilities to the required standard.

## HEALTH

### Asbestos

**Malcolm Bruce:** To ask the Secretary of State for Health if he will list the buildings occupied by his departmental and agency staff which require *(a)* remedial work on and *(b)* removal of asbestos; what this work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159653]

**Mr. Hutton:** The presence of asbestos is recorded in the following buildings occupied by the Department of Health, its agencies and non-departmental public bodies, where the Department has responsibility for the building or building fabric. Plans have been established for both removal and remedial works. The estimated costs of such works are shown in the table.

| *Building* | *Estimated cost (£)* |
|---|---|
| Wellington House, London SE1 8UG | 16,500 |
| Eileen House, London SE1 6EF | 9,500 |
| Market Towers, London SW8 5NQ | 650,000 |

Costs of removal are provided by the overall maintenance budgets for the Department of Health Estate for 2003–04 and 2004–05.

**Malcolm Bruce:** To ask the Secretary of State for Health if he will list the *(a)* hospitals and *(b)* other NHS properties which have been identified as containing asbestos; what proportion of (i) hospitals and (ii) other NHS properties have been surveyed for the purpose of identifying the presence of asbestos; which (A) hospitals and (B) other NHS properties require (1) remedial work on (2) removal of asbestos; what that work will cost; what budgets are available for this work for 2004 and 2005; and what budget is available for future asbestos surveys. [159655]

**Mr. Hutton:** Data are not currently collected on the number of hospitals and national health service properties that contain asbestos. Trusts should pay for all works out of their own maintenance budgets. A consultative document, published by the Health and Safety Executive (HSE) in November 2001, suggested that costs relating to the control of asbestos are not major. More recently, the HSE has advised that, where possible, asbestos should be made safe rather than removed from buildings.

Trusts have a duty of care to manage asbestos under The Control of Asbestos at Work Regulations 2003 and they must record the location and condition of asbestos.

**Malcolm Bruce:** To ask the Secretary of State for Health what proportion of buildings occupied by *(a)* departmental staff and *(b)* staff of the Department's executive agencies have been surveyed for the purpose of identifying the presence of asbestos prior to the implementation of the Control of Asbestos at Work Regulations 2002. [159661]

**Mr. Hutton:** The Department has had recent surveys undertaken in all its buildings, with the exception of one building where formal discussions with the landlord have proven that asbestos is not present.

### Chickenpox

**Miss Kirkbride:** To ask the Secretary of State for Health what assessment has been made of MMR-V as a childhood inoculation; and what plans he has to introduce it into the NHS. [160419]

**Miss Melanie Johnson** *[holding answer 11 March 2004]:* MMR-V vaccine does not have a licence from the European Agency for the Evaluation of Medicinal Products (EMEA) or the Medicines and Healthcare products Regulatory Authority (MHRA). Therefore

there has not been assessment of the vaccine and there are no plans to introduce it into the national health service.

**Miss Kirkbride:** To ask the Secretary of State for Health (1) if he will make a statement on chickenpox as a childhood disease; [160420]

(2) what plans he has to make chickenpox a notifiable disease. [160421]

**Miss Melanie Johnson** *[holding answer 11 March 2004]:* Chickenpox is a highly contagious disease caused by the varicella-zoster virus (VZV) that most people experience in childhood. Although the chickenpox rash can be uncomfortable, for most children the infection is usually mild.

However, chickenpox disease can be serious in immuno-compromised children where it can cause serious illness and even be fatal.

The risk of chickenpox infection is also serious for pregnant women. If a women contracts chickenpox in the first 20 weeks of pregnancy, the foetus may develop abnormalities. A woman developing chickenpox one-week before or after giving birth can pass the disease to her newborn child. Chickenpox is particularly serious in newborn children, and can lead to death.

There are currently no plans to make chickenpox (varicella zoster) a notifiable disease in England and Wales. There are other sources of information currently available on the incidence of chickenpox and deaths. Information on general practitioner consultations due to chicken pox is collected through the Royal College of General Practitioners weekly returns system.

### GM Crops

**Joan Ruddock:** To ask the Secretary of State for Health what research *(a)* he and *(b)* the Food Safety Agency has commissioned on possible effects on human health of (i) living close to GM crops and (ii) eating GM food. [161129]

**Miss Melanie Johnson:** Before a genetically modified (GM) crop is approved for growing or for food consumption in the European Union it is required to undergo a rigorous safety assessment. This takes into account both the potential impact on human health in growing the crop and an assessment of the safety of the crop for human consumption. The Food Standards Agency funds a large body of research to support the safety assessment of GM foods, and has not commissioned specific research in the areas mentioned.

### Gyms (Access)

**Mr. Reed:** To ask the Secretary of State for Health what action his Department is taking to ensure employees have access to gym equipment in or close to the workplace. [159950]

**Miss Melanie Johnson:** The cross-Government activity co-ordination team, which I chair jointly with my right hon. Friend the Minister for Sport and Tourism, is looking at a range of options for encouraging active lifestyles in various settings, including the workplace. We will put forward proposals shortly. This work will feed into the wider Government consultation on improving people's health, entitled "Choosing Health?" One of the areas where we are asking for views is the appropriate balance between individuals' responsibilities for their own health and the responsibility of others—including employers—to provide opportunities to sustain a healthy lifestyle, such as access to gyms.

### Health Care Workers (Communicable Diseases)

**Mr. Todd:** To ask the Secretary of State for Health when the response to his Department's consultation paper "Health Clearance for Serious Communicable Diseases: New Health Care Workers" will be published; and if he will make a statement. [151871]

**Miss Melanie Johnson:** The Department received a large number of responses to the consultation on "Health Clearance for Serious Communicable Diseases: New Health Care Workers". The comments are being considered for incorporation into the final guidance, which will be made available to the national health service later this year.

### Health Protection Agency

**Mr. Burstow:** To ask the Secretary of State for Health how many serious outbreaks of infection have been reported to the Health Protection Agency since this new collection of information was announced in December 2003. [158520]

**Miss Melanie Johnson:** This data is not available yet.

### Health Statistics

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his Answer of 4 February, *Official Report*, columns 964–65W, on health statistics, and the evidence to the Health Committee on 22 January, if he will break down the information by age. [158584]

**Dr. Ladyman:** Quarterly monitoring information for emergency re-admissions to hospital is collected only on an all ages basis. Hospital episode statistics data can be analysed to produce annual information on emergency re-admissions by age group, but this is not routinely done. I would be willing to request such an analysis for the hon. Member if he would find it helpful and would specify in which age groups he is interested.

Figures for delayed transfers of care for all ages, and over 75s, have been supplied for every quarter and have been placed in the Library, including the latest figures for 2003–04, Quarter 3 (December 2003).

**Mr. Burns:** To ask the Secretary of State for Health pursuant to his answer of 5 February 2004, *Official Report*, column 1068W, on health statistics, and with reference to the evidence of the Under-Secretary of State for Health (Dr. Ladyman), to the Health Committee on 22 January, on what basis it was concluded that publishing hospital emergency re-admission statistics for over 75-year-olds by his Department was ageist. [160893]

**Dr. Ladyman:** A target and performance monitoring process for emergency readmissions of those aged over 75 could lead to a perverse incentive—the target to

reduce emergency readmissions could lead to older people being denied hospital treatment when it is appropriate for them.

### Healthcare Associated Infections (Deaths)

**Mr. Burstow:** To ask the Secretary of State for Health (1) how the national audit of deaths caused by healthcare associated infections announced by the Chief Medical Officer will operate in practice; [158516]

(2) if he will list the NHS organisations which did not have either a director of infection control or a head of their infection control team in place before the announcement by the Chief Medical Officer in December 2003 that all NHS trusts will in future have a director of infection control; [158539]

(3) how his Department will monitor the standards of infection control outlined by the Chief Medical Officer in December 2003; [158541]

(4) with reference to the Chief Medical Officer's infection control report in December 2003, what timetable is in place to reach appropriate provision of isolation facilities; and what definition he uses of overtime. [158543]

**Miss Melanie Johnson:** It is too early to comment on the national audit of deaths as we have only recently commissioned the Health Protection Agency to develop a proposal for this audit.

No National Health Service organisation had a director of infection prevention and control (DIPC) in place last year as this new responsibility and its associated duties were only announced in December. Information on the heads of infection control teams is not collected centrally but the DIPC's remit extends beyond the infection control team.

Strategic health authorities will monitor performance against the objectives of Winning Ways. In addition, the Commission for Health Improvement has announced the new performance indicators for 2003–04 and one of them is Winning Ways—processes and procedures. This will monitor the actions identified in Winning Ways that trusts must undertake in order to reduce healthcare associated infection.

As the creation of new isolation facilities is generally linked to local plans for rebuilding and refurbishment it is not feasible to set a national timetable. Over-time is not specifically defined but provides flexibility for chief executives to implement realistic, timed work programmes for isolation facilities.

### Heart Disease

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to his Answer of 15 December 2003, *Official Report*, column 768W, on heart disease, what data his Department has collated in respect of meeting the milestones for *(a)* primary care management of heart failure and *(b)* hospitals admitting patients for the management of heart failure. [158789]

**Miss Melanie Johnson:** There has been good progress in reducing admissions for heart failure. This is set out in the table.

Data on the primary care milestones is not collected centrally. The responsibility for both the delivery and monitoring of these milestones has been devolved to local health services.

*Count of In year Finished Admissions for primary diagnosis Heart Failure in NHS hospitals in England 2000–01 to 2002–03*

| *Year* | *Total admissions* |
|---|---|
| 2000–01 | 72,389 |
| 2001–02 | 68,502 |
| 2002–03 | 67,765 |

*Notes:*

1. Grossing—figures have not (yet) been adjusted for shortfalls in data (i.e. the data are ungrossed).
2. A finished in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the data year. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Source:
Hospital Episode Statistics (HES), Department of Health.

### Hospital Staff (North-East)

**Mr. Cummings:** To ask the Secretary of State for Health how many *(a)* doctors, *(b)* nurses and *(c)* nursing staff who work in the (i) Sunderland Royal Hospital, (ii) Durham University Hospital and (iii) Hartlepool University Hospital come from (A) the Commonwealth, (B) European accession states and (C) South East Asia; and if he will make a statement. [159318]

**Miss Melanie Johnson:** This information is not collected centrally. The country of origin for staff is not gathered centrally. However, information is available for medical and dental staff based on country of qualification and is shown in the table.

*Trust Hospital, Public Health Medicine and Community Health Services (HCHS): medical and dental staff by Country of qualification within specified trusts*

### Hospital-acquired Infection/Control

**Dr. Murrison:** To ask the Secretary of State for Health what the incidence of MRSA infections was in *(a)* NHS hospitals, *(b)* non-NHS hospitals and *(c)* nursing and residential homes was in each year for which records are available. [159674]

**Miss Melanie Johnson:** Information on where methicillin resistant *Staphylococcus aureus* (MRSA) infections are acquired is not available.

The national mandatory surveillance system for MRSA blood stream infections (bacteraemias), started in April 2001. All acute hospital national health service trusts in England now collect this information and results for the first two years are shown in the table.

*Mandatory surveillance—reported MRSA bacteraemias*

| | *Number* |
|---|---|
| 2001–02 | 7,226 |
| 2002–03 | 7,330 |

**Mr. Burstow:** To ask the Secretary of State for Health how many NHS trusts have not signed the controls assurance standards on infection control to indicate that they have done their reasonable best to comply with the standards. [159776]

**Miss Melanie Johnson:** For reporting year 1 April 2002 to 31 March 2003, all national health service trusts assessed themselves against the controls assurance standard on infection control and reported their assurance scores based on this assessment to the Department.

**Mr. Burstow:** To ask the Secretary of State for Health what monitoring his Department undertakes of NHS trusts' compliance with the controls assurance standards on infection control; and if he will make a statement. [159777]

**Miss Melanie Johnson:** Under Shifting the Balance of Power, strategic health authorities assumed responsibility for monitoring national health service trusts' compliance with the controls assurance standard on infection control.

## Mercury Healthcare

**Mr. Wilshire:** To ask the Secretary of State for Health pursuant to the answer of 2 March 2004, *Official Report*, column 861W, on Mercury Healthcare, on what date negotiations were entered into regarding the provision of an independent sector treatment centre with Capio UK. [160355]

**Mr. Hutton:** Capio UK qualified as a short-listed bidder for the independent sector treatment centre spine chain in June 2003 and awarded reserve bidder status for the chain in September 2003. The announcement of their appointment as preferred bidder was made on Tuesday 17 February 2004.

## MRSA

**Mr. Burstow:** To ask the Secretary of State for Health how many MRSA reports have been *(a)* voluntarily and *(b)* mandatorily received in (i) England and (ii) each NHS region since 1996 (A) in total and (B) as a proportion of the population. [157595]

**Miss Melanie Johnson:** The tables show the number of reported bacteraemia (blood stream) infections and rates per 100,000 head of the population for each region. Although data for the voluntary reporting system are available from 1996 they are known to be incomplete. Mandatory reporting was introduced in April 2001 and data for the first two years are provided.

*Number of methicillin resistant Staphylococcus aureus bacteraemia laboratory reports and rate per 100,000 population—voluntary laboratory surveillance: 1996–2002*

| England | 7,226 | 14.69 | 7,330 | 14.80 |

[1] Analysis based on 24/25 trusts in this region, due to late submission of data from one trust

## NCAA

**Dr. Murrison:** To ask the Secretary of State for Health what the average cost per case handled has been of the National Clinical Assessment Authority. [158758]

**Mr. Hutton:** The National Clinical Assessment Authority (NCAA) was established to help the National Health Service manage performance concerns about doctors and dentists. For the majority of the NCAA's casework (about 75 per cent.), the average direct cost is estimated at around £330 per case. A smaller proportion of cases (about 15 per cent.) require more detailed expert support of local case management, at an estimated average cost of between £7,500 to £8,500 per case. The estimated average cost of full clinical performance assessment is between £22,400 and £24,300 per case, depending on whether it is an hospital and community care or primary care case; full clinical performance assessment occurs in about only 10 per cent. of referrals made to the NCAA.

## NHS Dentistry

**Mrs. Humble:** To ask the Secretary of State for Health what the average distance people living in the Blackpool, North and Fleetwood constituency need to travel to access an NHS dentist. [157912]

**Miss Melanie Johnson:** The average direct distance from postcodes in Blackpool, North and Fleetwood to the nearest dentist is 0.46 miles.

**Mr. Denis Murphy:** To ask the Secretary of State for Health how many dental practices provide NHS treatment in *(a)* Northumberland and *(b)* Wansbeck constituency; and where they are. [159583]

**Miss Melanie Johnson:** 51 dental practices were providing national health service treatment in Northumberland Care Trust, which includes the Wansbeck constituency, as reported at 31 August 2003 by the Dental Practice Board. This covers general dental service (GDS), emergency dental service and the salaried service of the GDS.

The number of dental practices by constituency is not available.

The addresses of dental practices can be found by accessing the www.nhs.uk website.

## Obesity

**Mr. Burstow:** To ask the Secretary of State for Health (1) what plans his Department has to increase the number of surgical procedures to treat obesity on the NHS; and if he will make a statement; [159770]

(2) how many surgical procedures to treat obesity were carried out on the NHS in each year since 1996. [159771]

**Miss Melanie Johnson:** The National Institute for Clinical Excellence (NICE) published guidance in July 2002 on surgery to aid weight reduction for people with morbid obesity.

The Department worked with the British Obesity Surgery Society (BOSS) on a planned implementation of the NICE guidance to ensure it was implemented safely. This additional advice was issued to strategic health authorities in September 2003.

The table shows the number of finished consultant episodes for operations undertaken with a primary diagnosis of obesity.

| | Number |
|---|---|
| 1995–96 | 299 |
| 1996–97 | 272 |
| 1997–98 | 280 |
| 1998–99 | 389 |
| 1999–2000 | 388 |
| 2000–01 | 492 |
| 2001–02 | 440 |
| 2002–03 | 538 |

*Note:*
1. A finished consultant episode (FCE) is defined as a period of admitted patient care under one consultant within one health care provider. The figures do not represent the number of patients. as a person may have more than one episode of are within the year.
2. The primary diagnosis is the first of up to 14 (7 prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.
3. Ungrossed data—figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
*Source:*
Hospital Episode Statistics (HES), Department of Health.

## Procurement Policy

**Mr. Sheerman:** To ask the Secretary of State for Health in what ways environmentally sustainable procurement strategies within the Department have driven innovation in the design and supply of products. [159104]

**Miss Melanie Johnson:** The Department and the NHS Purchasing and Supply Agency (NHS PASA) work with suppliers to encourage research and innovation, and to take account of environmental sustainability when setting procurement strategies for the National Health Service. Initiatives so far include: encouraging suppliers of copiers and printers to continually improve their environmental performance; implementing a prostheses and prosthetic component re-use scheme; encouraging the development of new clinical waste sacks; and promoting eco-labelling to the NHS. The Department also uses "green" electricity for its buildings.

The Department and the NHS PASA fully support and contribute to the interdepartmental sustainable procurement group's activity.

### Respiratory Disease

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 13 January 2004, *Official Report*, column 720W, on respiratory disease, how the estimated cost of treating respiratory disease as a percentage of expenditure was calculated; and what the latest corresponding cash equivalent figures are. [159480]

**Dr. Ladyman:** In 1996 the NHS Executive published "Burdens of Disease: A Discussion Document" which is the source of the 13 January answer on estimated cost. This document draws together data from various sources primarily between 1989–94.

The method of calculation is quite detailed and a copy of the Burdens publication will be placed in the Library to explain the derivation of the estimates.

The latest corresponding cash equivalent figures are not available as the estimates of the percentage breakdown are now 10-years-old and would not necessarily reflect the breakdown of current expenditure.

### Salt Reduction Plans

**Mr. Burstow:** To ask the Secretary of State for Health how many salt reduction plans his Department *(a)* expected to receive and *(b)* received by 27 February; how he intends to follow up those who failed to submit a plan; and what plans he has to publish an assessment of the plans he has received. [158283]

**Miss Melanie Johnson** *[holding answer 5 March 2004]:* Stakeholders were asked to collaborate and develop partnerships to expedite the production of salt reduction plans. Plans were received from 12 manufacturing and retailing trade associations on behalf of their members, as well as 15 from individual stakeholders, who include the voluntary sector and retailers, by the deadline of 27 February. Also there were a further two plans from retail trade associations and nine from individual stakeholders received after the deadline of 27 February. An assessment is being undertaken and a summary report will be published, together with information on all respondents.

### Sexual Health

**Simon Hughes:** To ask the Secretary of State for Health what estimate he has made of the number of people who have contracted *(a)* a sexually transmitted disease, *(b)* HIV/AIDS and *(c)* Hepatitis in each London borough since 1995. [159198]

**Mr. Hutton:** Information on the numbers of diagnoses of sexually transmitted diseases made in each London primary care trust (PCT) between 1995 and 2002 have been placed in the Library. These data are not collected by London borough. The number of diagnoses made within each PCT does not reflect people who are resident within that PCT.

Information on the number of individuals with diagnosed HIV infection resident in each London local authority between 2000 and 2002 has also been placed in the Library. Data earlier than 2000 are not available.

Information on the numbers of cases of hepatitis B and C reported from London between 1995 and 2003, together with an estimate of the number sexually acquired, has also been placed in the Library. This information is not routinely collected by London borough or PCT.

### Smoking

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the Answer of 7 January 2004, *Official Report*, column 398W, on smoking, what the data is for quarters *(a)* two and *(b)* three. [159123]

**Miss Melanie Johnson:** The table shows the provisional results for the number of people setting a quit date through the National Health Service Stop Smoking Services, and the number who successfully quit at four week follow up.

*People setting a quit date and outcome at four weeks (based on self-report) in England: quarters 1 and 2 (April to September 2003)*

| | *Number setting a quit date* | *Number successful (self-report)* |
|---|---|---|
| April-September 2003 | 129,752 | 68,644 |

*Source:*
Department of Health Smoking Cessation Monitoring Returns.

The next NHS Stop Smoking Services Quarterly Report with data on Quarter 3 is planned for publication in May 2004.

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 5 February 2004, *Official Report*, column 1071W on smoking, what work is being undertaken by other departments to implement smoke-free policies; and which minister co-ordinates these works. [159973]

**Miss Melanie Johnson:** The Department of Health has taken the lead from April 2003 in making our buildings smoke-free and we continue to encourage employers and managers of public places to introduce smoke-free policies. We have not undertaken a formal review of smoking policies in all Government buildings but continue to liase and work with other Government Departments at official level. Individual Departments have provided details of their own smoking policies in previous responses to hon. and right hon. Members.

### Sperm Donors

**Mr. Nigel Jones:** To ask the Secretary of State for Health how many people have been accepted as sperm donors in each of the last 10 years; what assessment his Department has made of the effect of the removal of the right to anonymity on the numbers of people coming forward as sperm donors; and what plans his Department has to assess the impact of a change in the number of sperm donors on childless couples. [152925]

**Miss Melanie Johnson:** The information requested on the number of sperm donors recruited in each of the last 10 years is shown in the table.

*Sperm donors recruited in the UK each year: 1 April 1994 to 31 March 2003*[1]

| | *Sperm donors recruited*[1] |
|---|---|
| 1 April 1994 to 31 March 1995 | 437 |
| 1 April 1995 to 31 March 1996 | 403 |
| 1 April 1996 to 31 March 1997 | 424 |
| 1 April 1997 to 31 March 1998 | 316 |
| 1 April 1998 to 31 March 1999 | 271 |
| 1 April 1999 to 31 March 2000 | 316 |
| 1 April 2000 to 31 March 2001 | 248 |
| 1 April 2001 to 31 March 2002[2] | 272 |
| 1 April 2002 to 31 March 2003[2] | 222 |

[1] Figures represent the number of new donors recorded on the HFEA's register in each of the years.

[2] Provisional figures only.

*Source:*

Human Fertilisation and Embryology Authority (HFEA)

The Government believe that the need of young people to know about their genetic origins is of the highest importance. For that reason we announced our intention to introduce regulations to remove anonymity for all people donating gametes from 1 April 2005.

We recognise that there is a demand for infertility treatment using donated gametes, although this demand has decreased over recent years through the development of intra cytoplasmic sperm injection (ICSI).

As I said in my speech to the Human Fertilisation and Embryology Authority's annual conference on 21 January 2004, the decision about donor anonymity will most probably lead to an initial drop in donor numbers. Indications from other countries that have removed donor anonymity are that the initial drop is followed by a climb in donor numbers. To help increase public awareness we will support a public campaign and fund a national helpline for people who are interested in donating. The helpline will give information about donation and provide callers with a list of clinics so that they can decide which clinic is most convenient for them. Although the support we will provide will not do the actual recruitment for clinics, our intention is that it will raise awareness, create interest and provide essential information among those who may be eligible to donate.

### Strategic Health Authorities

**Mr. Burstow:** To ask the Secretary of State for Health what the key indicators are against which strategic health authorities will be monitored; and if he will make a statement on the consequences for these organisations of failing to meet these key indicators. [159778]

**Mr. Hutton:** Strategic health authorities (SHAs) are the local headquarters of the national health service and they are responsible for local delivery of the national Planning and Priorities Framework 2003–06. The Planning and Priorities Framework sets out the objectives and targets for the NHS.

Each SHA has produced a local delivery plan, which sets out the local health communities' planned progress towards delivery of the national objectives and targets. The Department assesses SHAs' performance against the local delivery plan.

### Therapist Consultants

**Mr. Burstow:** To ask the Secretary of State for Health what targets have been set since 1997 for the recruitment of therapist consultants; when they were revised; and what progress has been made in meeting those targets. [158518]

**Mr. Hutton:** The NHS Plan, published in July 2000, said that by 2004 a first generation of therapist consultant will have started work. A reference to this commitment was made in 'Meeting the Challenge', published in November 2000, which also said that by 2004 the first therapist consultants would have started work. 'HR in the NHS Plan', published in July 2002, referred to an expectation that 250 new allied health professions consultants would be appointed by 2004. The latest non-medical workforce census will be published shortly.

### Treatment Centres

**Mr. Jenkins:** To ask the Secretary of State for Health what plans he has to extend the new treatment centres programme throughout England. [160077]

**Mr. Hutton:** The treatment centre programme will deliver around 80 treatment centres by the end of 2005, treating at least an additional 250,000 patients a year in total. The majority of these centres will be run by the national health service. Others will be operated by independent sector providers.

We are planning a national procurement starting later this year to provide diagnostic and surgical services through the independent sector. This will build on the current independent sector treatment centre procurement which was launched in December 2002. Two schemes—one at Daventry and the mobile cataract surgery service—are already open and treating patients.

### Variant CJD (Rachel Forber)

**Helen Jones:** To ask the Secretary of State for Health if he will make an ex-gratia payment to the family of the late Rachel Forber to cover the cost incurred by her family in taking her to receive experimental treatment for variant CJD in the United States; and if he will make a statement. [157406]

**Miss Melanie Johnson** *[holding answer 3 March 2004]:* To disclose information without the specific consent of the family concerned would breach patient confidentiality.

### Websites

**Matthew Taylor:** To ask the Secretary of State for Health what the cost in *(a)* financial and *(b)* other terms was in (i) each financial year since 1997 and (ii) 2003–04 until the latest date for which figures are available of (A) developing and (B) maintaining (1) his Department's website and (2) each website for which his Department is responsible; and how many (C) unique hosts and (D) hits there were in each month for each website in (iii) each financial year since 1997 and (iv) 2003–04 until the latest date for which numbers are available. [155853]

**Mr. Hutton:** Information on the Department of Health's web site and those for which the Department is responsible, has been provided where figures are readily available. More historic data can only be provided at disproportionate cost.

Unless specified, costs exclude staff overheads as it is not possible to provide these without incurring disproportionate cost.

Usage figures are quoted in the currency in which they are collected and include page impression, visits, hits and unique visitors. Where multiple currencies are collected, visits have been used.

*Department of Health's Website(s) doh.gov.uk and dh.gov.uk*

The Department of Health's website (www.doh.gov.uk) was established in June 1995.

The cost of the Department's website is shown in the table.

| *Financial Year* | *Total cost £000s* |
|---|---|
| 1998–99 | 219.8 |
| 1999–2000 | 313.7 |
| 2000–01 | 457.1 |
| 2001–02 | 658.9 |
| 2002–03 | 722.6 |
| 2003–04 | [1]663.0 |

[1] estimated costs to end of March 04—excludes development as this is covered in the DotP project costs

These figures include hosting and maintenance, development and dedicated staff costs (using agreed Civil Service Staff costs including salaries, common services etc.) Costs for earlier years are not available separately from the Department's total information technology costs.

The Department launched a new website on 16 February 2004. It is available at www.dh.gov.uk. The old website was migrated onto DotP the central government content management platform. DotP has been developed in partnership with, and hosted by, the Office of the e-Envoy. The full cost of this major project is given below, and include costs associated with the project which would not be incurred annually.

| *Financial Year* | *Total cost £000* |
|---|---|
| 2002–03 | 1,121.4 |
| 2003–04 | 2,136.8 |

The Office of Government Commerce provided hosting until the end of June 2002. While its website was hosted at OGC, the Department used page impressions rather than hits as a measure of usage. The figures are available in calendar years only.

| *Calendar Year* | *Page Impressions* |
|---|---|
| 1996 | [1]200,000 |
| 1997 | [1]520,000 |
| 1998 | 4,533,775 |
| 1999 | 16,485,398 |
| 2000 | 37,504,218 |
| 2001 | 48,337,144 |

[1] These figures include both static HTML content and web accessed database content. Website usage for 1996 and 1997 is estimated (based on average weekly figures).

Between June 2002 and February 2004, EDS Ltd was the hosting provider for the Department's website. EDS provided monthly service report that included a web performance return in which traffic to the Department's website was measured in visits.

| *Month* | *Visits 2002–03* | *Visits 2003–04* |
|---|---|---|
| April | | 1,151,556 |
| May | | 1,194,097 |
| June | | 1,016,406 |
| July | 782,398 | [1]861,325 |
| August | 700,015 | [1]791,160 |
| September | 709,406 | 1,191,141 |
| October | 872,988 | 1,401,520 |
| November | 968,069 | 1,441,587 |
| December | 682,138 | [1]902,998 |
| January | 1,061,220 | 1,069,467 |
| February | 1,018,692 | |
| March | 1,171,181 | |

[1] Some data is missing for these months due to a technical fault within the reporting tool.

It should be noted that these figures do not include hits or visits to any of the 60 plus web accessible databases/ which form part of the Departments' site. Hits for these databases are currently averaging 3.62 million per month.

Information on other websites for which the Department is responsible has been replaced in the Library.

### Wind Turbines (Noise Emissions)

**Mr. Walter:** To ask the Secretary of State for Health what research has been carried out into the health effects of low frequency noise emitted from wind turbines. [159878]

**Miss Melanie Johnson** *[holding answer 9 March 2004]:* The Department of Health has funded work on the effects of environmental noise on health but this has not included noise produced by wind farms.

# INDEX TO THE

# PARLIAMENTARY DEBATES

## OFFICIAL REPORT

**SIXTH SERIES** **VOLUME 418**

## SESSION 2003–2004

*23 February 2004—12 March 2004*

**Printed indexes to Hansard**

The volume index is one of three printed indexes to Commons Hansard produced from the House of Commons Library's Parliamentary On-Line Indexing Service (POLIS). It contains references to material in the bound volume of Hansard. The other indexes produced are:

- The index to the daily parts of Hansard. This covers the same date range as the volume index but references may be different as a result of changes to the text and column numbering.
- The sessional index to Hansard. This contains references to material in the bound volumes for a whole session.

**Indexes on the Parliamentary website**

Daily part and volume indexes covering material from the beginning of the 1999/2000 session will also appear on the Parliamentary website at http://www.parliament.uk with links to the full text of Hansard.

*SCOPE*

The indexes include entries covering:

- The content of all material recorded in Hansard, including debates, procedural motions and questions.
- The names of all Members contributing to the Parliamentary business recorded in Hansard.
- The names of some types of Parliamentary business whenever they occur in Hansard. These are 'Ministerial statements', 'Business statements', 'Opposition days' and 'Estimates days'.

*ARRANGEMENT*

- All headings are in one word-by-word alphabetical sequence, with Members' contribution entries distinguished from other entries by italics.
- Where a Member contributes to Parliamentary business and is the subject of Parliamentary business there are separate contribution and subject entries, the subject entry coming first.
- Entries beginning 'Mac' and 'Mc' are sorted in one sequence as 'Mac'.
- 'St', when abbreviated for Saint, is filed as 'Saint'.
- Numbers are filed as if spelt out, e.g. '10 Downing Street' as if 'Ten Downing Street'.

## *HEADINGS*

### *Choice of headings*

- *Specificity*—Entries summarise the overall content of a debate or question as specifically as the various POLIS thesauruses allow. For example, Education, Higher education, Universities or the name of a particular university is used depending on the breadth of the item.
- *Name headings*—Specific entries are included for the names of people, places, institutions, organisations, committees, programmes, initiatives, publications and legislation when these constitute the overall subject of an item.
- *Organisations and subjects*—Organisation entries are preferred for material about the general performance, administration and staffing of an organisation (for example, United Kingdom Passports Agency, Standards). Subject entries are preferred for what organisations do as part of their duties (for example, Passports, Fees and charges).

### *Geographical coverage*

- *Subject headings*—Subject headings are assumed to refer to the whole of England, Great Britain or the United Kingdom unless otherwise stated.
- *Scotland, Northern Ireland and Wales*—Material relating to the whole of Scotland, Northern Ireland and Wales is indexed under these headings.
- *Places within the UK*—Material about specific towns, areas and institutions is entered under the name of the specific town, area or institution.
- *Foreign countries*—Most material relating to foreign countries is collected under the name of that country. Some additional material may be found under the names of—groups of countries, areas within countries, geographical features, place names associated with particular issues, politicians and heads of state, international bodies, and institutions and companies operating in those countries.
- *EC/EU material*—General material about the European Communities and European institutions as bodies is entered under 'European Communities' and 'EC institutions'. Organisational material about specific communities and institutions is entered under the name of the body, for example 'European Coal and Steel Community' or 'European Parliament'. Material about what the Communities and institutions are doing or propose to do is entered under various subject headings beginning 'EC' such as 'EC environmental policy'.

### *Parliamentary material and business*

- *Material about Parliament*—This is indexed under 'Parliament', the names of the two Houses, the 'Palace of Westminster' and parts of the Parliamentary estate (such as 'Portcullis House').
- *Committees*—Material about committees is indexed under 'Committees', types of committee (such as 'Select committees') and the names of individual committees (such as 'Home Affairs Select Committee').
- *Parliamentary proceedings/procedures*—Material discussing these is indexed under the specific type of proceeding (such as 'Parliamentary questions' or 'Oral questions'), procedure (such as 'Calling of Members') or issue (such as 'Unparliamentary expressions').
- *Legislation*—Entries for Parliamentary proceedings on bills and statutory instruments are entered under their titles. Where the lead word of the bill or statutory instrument does not provide a full or clear indication of the subject there are additional subject entries when the bill or instrument is debated. For example, debates on the 'Child Support Pensions and Social Security Bill' have entries under 'Pensions' and 'Social security benefits' as well as under the title of the Bill.
- *Members' names*—These are given in the form by which the Member prefers to be known.
- *Speaker and Chair*—Contributions by the Speaker and deputies are brought together under the heading 'Speaker and deputies'. Contributions from the chair during Committees of the Whole House are brought together under 'Chairman of Committee of the Whole House'. Significant rulings and statements (as opposed to routine comments) are indicated by the sub-heading 'Rulings and statements' in both cases.

### *Guidance on headings*

- *Cross references*—'See' references indicate all the material has been entered under another heading. 'See also' references indicate that additional information may be found under another heading.
- *Concept thesaurus*—A copy of the subject thesaurus to POLIS, listing the concept entries used in the index, is available on the Parliamentary website. A hard copy is available from the Head of the POLIS Unit, House of Commons Library, 1 Derby Gate, London, SW1A 2DG (020 7219 6456).

***REFERENCES***

- References in the indexes are to columns rather than pages.
- References to debates, but not questions, are accompanied by the date of the item.
- There are separate sequences in Hansard for the material taken on the floor of the House, Westminster Hall sittings, written statements and written questions:
  - References consisting of a number by itself indicate material taken on the floor of the House.
  - References ending in 'wh' indicate Westminster Hall sittings.
  - References ending in 'ws' indicate written statements.
  - References ending in 'w' indicate written questions.
- References under all headings except the names of Members contributing to Parliamentary business and the titles of legislation are listed in one numerical sequence irrespective of whether the material is taken on the floor of the House, is discussed at a Westminster Hall sitting, is a written statement or is a written question.
- References under the names of Members contributing to Parliamentary business and the titles of legislation are listed in numerical sequence under the following headings:
  - *Chamber Debates* (which includes interventions and points of order as well as significant contributions to debates);
  - *Westminster Hall Debates* (covering all debates held as part of the Westminster Hall sittings);
  - *Written Statements* (consisting of ministerial statements issued in writing); and
  - *Questions* (which includes all written, oral and urgent questions).

***ABBREVIATIONS***

The following abbreviations are used in connection with the progress of bills:

- 1R = First reading
- 2R = Second reading
- Com = Committee stage
- Rep = Report stage
- 3R = Third reading
- res = resolution
- amendt(s) = amendment(s)
- * = matter taken formally without debate or division
- (HL) = Bill starting in House of Lords
- (SP) = Bill in Scottish Parliament.

**Parliamentary background**

- The Parliamentary website at http://www.parliament.uk contains a range of information about Parliament and the full text of some Parliamentary papers and proceedings including Hansard.
- Information on current Parliamentary business is provided in the House of Commons Information Office *Weekly Information Bulletin*, available on the website and from The Stationery Office (020 7873 8499).
- Further information on Parliamentary proceedings and procedures is available from the House of Commons Information Office (020 7219 4272).
